Unit 18: Review	99		

Welcome to grade 11 English!

This book is designed to be the English textbook for Grade 11 Cambodian students. There are a number of key principles:

- Learning should be fun!
- The best way to learn a language is to use it.
- It's important to learn to read, write, listen and speak.
- Today, 21st century skills (creativity, critical thinking, cooperation and communication) are important.
- Learning the rules (grammar) is only important if it helps you use the language (not just explain and memorise it).
- Each lesson is balanced, practical and has a clear learning outcome.
- Students learn from each other through pair and group work.
- Students learn by making mistakes. Mistakes are not bad and it is important that the learning environment is supportive.
- The language is presented in contexts to help students think about when and how to use it.
- Don't worry when your students make mistakes. We often learn by making mistakes and then getting it right the next time.
- Copying from the board: This has been very popular in Cambodian classrooms for a long time. The problem with English class is though, that it only goes for 50 minutes! A rule of no more than 3- 5 minutes copying a lesson is probably a good idea!

Key features in the Student's Book:

- There are 25 units divided into two lessons (A & B) and 10 review and consolidations units.
- Each lesson follows a similar pattern: introducing the language and then giving the students the opportunity to use the language they learn.
- At the end of every B lesson you will find a 'Now I can ...' section. This is a chance for students to reflect on what they have learnt. Self-reflection is an important factor when learning, At first this might be a new idea for everyone, but learning to learn is a good skill to develop.

Key features in the Teacher's Book:

- At the start of each lesson the aims are given so that you know what the students should be able to do by the end of the lesson.
- Each lesson has a clear plan including step-by-step instructions, answer keys and teaching tips.
- Sometimes you will see . This means you can set this activity for homework and check it in the next class. This could be important if you don't have so much time in class.
- In each lesson we have extension activities (for fast learners), focus on ... sections looking at key language points and Tips! For teachers.
- Tips! These are to help you improve your teaching. We include them in units, but you can use them whenever they are useful. Here's a list:

Are you teaching only two classes a week?

This book has enough content for four 50-minute classes per week. However, sometimes teachers only have two English classes per week. In that case, you should still complete one unit (e.g. 1A+1B) per week. It is important because if students don't finish the book in the school year, they won't be ready to go on to grade 12 next year.

If you have two classes a week, you should aim to complete half a unit (e.g. all of 1A, or all of 1B) in a single, 50-minute class. This means that the students will have to do some of the activities for homework.

You will see a homework icon that looks like this  next to some activities in the Teachers' Book. These are the activities that are recommended for home study. It is a very good idea to make sure that your students complete these activities. If you are teaching two hours, then you can ignore the "Session 1" and "Session 2" headings in the Teacher's Book

Are you teaching four classes a week?

If you are teaching four sessions a week, then you can ignore the homework icon and complete all of the activities in each unit in class. Each lesson (e.g. all of 1A or all of 1B) should be taught over two 50-minute periods.

You can see the headings "Session 1" and "Session 2" in the Teachers' Book to help you decide where to split the lesson into two classroom sessions.

"Now I can" statements

Every unit ends with some "Now I can..." statements. These are to help the students understand what they have learned and what they can now do in English, which helps them be confident. It also helps them to understand if there are some things that they need to study more.

Students can use the icons , , ,  to help them decide how well they know each item on the list.

 means "I can do this now – no problem".

 means "I can do this if I think about it".

 means "I understand this but need to practise more".

 means "I find this difficult, I need to study it more".

If there isn't time in class, students can do it at home, but you can still use the activity in class. For example, the teacher reads out the statements one by one, and the students clap their hands.

 = student claps loudly and long.

 = student claps normally.

 = student claps a little bit.

 = student doesn't clap.

This will also give you, the teacher, an idea of how well the students have learned.

Grade 11: Tips in Teacher's Book

Unit 1A

Tip! Using students' names

It is always a good idea to address your students with their names right from the beginning of the semester. Get to know your students and memorize their names. This will help you manage your classes better. For example, when asking students for answers, use their names to avoid students shouting out answers.

Remembering your students' names is also a good way to let them know that you are aware of them as individuals. You are paying attention to their individual needs and the specific ways they like to be taught. This helps build a good rapport between you and your students.

Unit 1B

Tip! Building rapport with your students

Good rapport with your students means that you have a good relationship with them. If you have a good relationship with your students, teaching and learning become much more fun. Do you have a good rapport with your students? One way to help you establish a good rapport with your students is to address them with their names. As in the previous tip, this will make your students feel you are aware of them as individuals. Try to be always positive and smile as often as you can in class too.

Unit 2A

Tip! Giving hints in sentence making

Sometimes students can struggle and do not know how to make sentences completely by themselves when no words are given to them. If you notice this problem, you can help by providing some clues or hints such as giving some more examples or giving some words that can help students start thinking. For example, for a picture story activity, you can give students a few words that are relevant to the pictures to help them start telling the story.

Unit 3A

Tip! Drawing the direction

You can prevent students from getting confused over directions by telling them to draw the directions as they listen so that they know what it looks like and have clearer answers. Remember, they just need to draw important information such as turn left, turn right... There is no need to draw the map in full detail.

Unit 3B

Tip! Memorizing the forms using examples
Since there are a lot of forms, students tend to forget or mix them up. To help them, you can suggest students make a sentence for each form, and tell students to think of these sentences when they forget the forms. Remember, the sentences should be something that students can easily recall.

Unit 4A

Tip! Giving examples with modal verbs.
Modal verbs (*must, can, may, shall, will*) have different meanings and uses. They don't always mean the same thing. In this unit, for example, we use *can* and *can't* to ask about *rules*, or whether something is allowed. For example, we can ask: *Can you wear jewellery at school?*

We can also use *can* and *can't* to mean that someone *knows how to do something*. For example, *Can you speak Thai? No, I can't speak Thai*. This is not asking about rules, or whether something is allowed.

So, when teaching modal verbs, teachers have to be careful when giving examples or making questions / activities for class. Not all sentences with *can* (or other modal verbs) have the same meaning.

Tip! Helping weaker students

If there are any students in the class who found the reading difficult, you can go and help them to understand the text and answer the questions while the others are working on the next activity.

Weaker students won't be able to do the next activity well if they haven't understood, and it's better to help them to do one activity well than have them do several activities without understanding.

Unit 4B

Tip! Working on writing

When students write in class, teachers often wait for the students to finish writing, then they collect the texts, mark them out of class and return them later. The problem is that the students are no longer thinking about their text, they don't read the feedback and don't learn anything.

It is a good idea to move around the classroom while the students are writing. Allow them a few minutes to get started, then go around and look at their writing. Point to any mistakes and ask the students if they can find what is wrong or correct it themselves. If not, try to give them clues to help them work it out.

Unit 5B

Tip! Using L1 in class

Encouraging your students to use English in class is always a good idea. Practise makes perfect – and the only time students get to practise their English is while they are in class. Encourage your students to use English in class as much as you can. However, sometimes it's difficult to use English only in class. For example, there might be some activities that are difficult to do using English alone. Sometimes, your students might feel stressed too. Some of your very good students might also try to explain some concepts in Khmer to help their friends who did not understand. In these circumstances, it might be better to let them think or use Khmer, but always remember – practise makes perfect!

Unit 6

Tip! Review

Review time is important. Students don't always learn everything the first time. As a teacher, we need to give them plenty of time to practise and show what they already know. If you don't have enough time to do all the activities in this review section, you can set them for homework. Encourage your students to focus on the activities that they find particularly difficult. Encourage them to ask questions and work with their friends in class.

Unit 7B

Tip! Brainstorming

To help students generate ideas, you can encourage them to *brainstorm*. "Brainstorming" is a way that allows students to write down whatever comes to their mind when they think of the given task/topic. The ideas do not have to be written down in complete sentences. Students can write a single word, phrases, or notes. After that, students can go through what they have written and start to cross out ideas that they think are not good enough or relevant and keep the ones they like.

Unit 8A

Tip! Making a bigger copy of the exercise

If you have a photocopying machine at your school, it could be useful to make a big (A3) size copy of the table to stick on the board. You can use this to point to the words while you demonstrate the example.

If students are finding it difficult, you can use the example answers above and point to the words on your large copy to help them. For example, for number 1, you can point to *butterflies, live, in the water*. Then, have the students make the question and the answer.

Making a large poster is a useful thing to do if you think that you will need to point to things. If you use the book, it may be difficult for students at the back to see.

Unit 8B

Tip! Gapfill exercises

When students are doing gapfill exercises (putting words in spaces), if they are not sure of the answers, it can help them to think first about what **kind** of word they should use: noun, verb, adjective, adverb...

In activity three, the first sentence reads: *There are ¹_____ stages in the ²_____ of a beetle*. If they are not sure what the correct answers are, they should be able to work out that the first one must be a number or a quantifier (like *many* or *several*) and the second must be a noun, because it is followed by a preposition and article: ...in the...

Unit 9B

Tip! Guessing meaning from context

During a listening or reading activity, your students do not have to know all the words to understand the listening or reading material. Good readers try to guess the meaning of words they don't understand. You can encourage your students to do this by looking at the pictures that come with the texts. If there are no pictures, tell your students to read the sentences before and after the words they find difficult. Sometimes, it might be difficult to figure out the exact meaning of some words without a dictionary – and this is OK. For example, in the sentence 'It is also encouraging to see some students planting trees on this day', it is enough to realise that 'encouraging' means something that is positive and people are happy with it.

Unit 10B

Tip! Skimming and scanning

Skimming is a very useful skill for *reading for gist*. *Gist* means a general understanding of what a text is about, not the specific details. To skim a text, start at the beginning and read it quickly. Don't stop to think too much and don't worry about words that you don't know.

Scanning is the opposite. This is *reading for detail* or *reading for specific information*. This is where you need to know a detail that is in the text, such as the answer to a question. Look around the text to find the information that you want and then just read around that part – enough to give you the information you need.

Unit 11A

Tip! Underlining keywords

In reading or listening, tell students to underline any important words that might help them find the answers when listening to the audio or scanning the reading passage. It also helps students focus and understand the questions better.

Unit 11B

Tip! Noting answers

When listening to the recording, tell your students to focus on getting the important answers first instead of rewriting the full sentences. It also helps to tell your students to note down the short answers on another piece of paper and copy the full answers later on.

Unit 12

Tip! Vocabulary game

Another way to do part A of this activity is to make it into a time game. Put students in pairs or small groups, and give them two minutes to write down the names of as many of the animals as they can. After two minutes, tell them to stop and then check the answers. The pair or group with the most correct answers wins.

You can also do this game for activity 2A below. You can do this to review any vocabulary that comes in sets, such as *animals, places, jobs, food....*

Unit 13B

Tip! Translating in L1

Remember the tip about using English in class as much as you can (Unit 5)? Although translating some words in Khmer can be useful, remember that not all words in English can be translated into Khmer and vice versa. Translating word by word isn't always helpful, particularly with phrasal verbs and compound nouns. Avoid this as much as you can. However, if you think this is necessary, encourage your students to use a 'proper dictionary'. Using Google translate can often be misleading and isn't always accurate.

Unit 15B

Tip! Reading for general understanding

It's important for learners to have an idea of what they are going to read about. This will prepare them better for the more intensive reading that often follows. This will also help activate their existing knowledge about the topic they're about to read, helping them make connections with what they already know with what they are about to find out.

To do this, you can ask students to read quickly, without having to worry about all the words they don't understand. You can also encourage them to look at the titles (if any) and or pictures surrounding the texts. These often give clues about the reading and will help make the reading process a lot easier.

Unit 16A

Tip! Telling lies

Telling lies can be a good thing in English class! For activities like *Find someone who...* (or other activities where students ask each other questions), we often find that we get the same answers from everyone. Sometimes we can't find a person who can answer yes to some of the questions or ideas in the activity.

A good way around this is to tell students that they don't have to tell the truth. They can lie if they want. This can give you different answers to all the questions and can make it more fun.

If there's extra time, you can also ask the students if they think they know who was lying, and about what!

Unit 16B

Tip! Speaking without writing

Most students tend to rely too heavily on their notebook. They usually write down the sentences they want to say and check the grammar structures before speaking. While this might be useful for early practice activities, during production activities, you should encourage students to use their memory of what they've learned and speak on the spot because it can increase their understanding of the grammar point and make their speech more natural.

Unit 17A

Tip! Guessing meaning from context

When students see a word that they don't know while reading, they often go straight to the dictionary or their phone to look for the meaning without really thinking about it. Often it isn't necessary for them to do that. They can often guess the meanings of words by reading the words that are around it. This is a very good skill for students to practise and develop.

For example, in this text, students may not know the word *compass*. If they read around it, they can see this: *you'll need a paper map and a compass so that you know which direction you are walking*.

The other words are not difficult, and students should be able to guess the meaning of the new word.

Unit 17B

Tip! Examples for the present perfect continuous

Be careful when giving examples with the present perfect continuous because there are some verbs that we don't use in the continuous forms.

We use the present perfect continuous with *action verbs*. This means verbs that can answer the question: *What are you doing?* For example, we can say *I'm watching TV* or *I'm hiking in the forest*. So, we can use the present perfect continuous and say *I've been watching TV for an hour*.

Some verbs don't answer the question: *what are you doing?* These are called state verbs and can't be used in the continuous forms. For example, we can't answer this question with *I'm knowing your brother*, or *I'm liking bananas*. This isn't doing something. So we can only use the present perfect simple and say *I've known your brother for five years*, or *I've liked bananas since I was a child*.

Unit 19

Tip! Catch them being good

Giving students praise for the good things they're doing can be an effective classroom management technique. If you see students working together well or always coming to class on time or asking questions to help them learn, let them know they are appreciated! You can do this by giving them a thumbs up or leaving them notes in their notebooks (e.g. 'You are fantastic today!' 'Thanks for helping Panha with her writing!')

Unit 21A

Tip! Writing a prompt for a role-play

You should tell your students to think about what they know about the topic and make notes. Next, you should discuss about their role(s) and tell students to imitate the character. For example, a tour guide should be friendly and talkative.

Unit 21B

Tip! Memorising irregular verbs

Although memorization is an old-fashioned method, it is quite useful in getting students to remember the irregular verbs. You should ask students to memorize the verbs in this unit or if possible, print the whole set from the Internet for each student. You can also set a small quiz to check students' improvement after a few days.

Unit 22A

Tip! Supporting weaker students

There are many ways you can help your weaker students. Sometimes, making them sit with a good student works. This means you can ask the stronger student to help him/her. It is also good to have them sit near you or in front of the class. This way, you can easily help them or check what they are doing. Giving them constant encouragement also helps a lot. Notice the progress they are making and praise them for it. Which of these techniques have you tried in your class today?

Unit 23A

Tip! Make a guessing game

If students don't know any of the buildings in question 4, help by making a guessing game. For example, write 'Italy, Egypt, India' on the board and have them guess which one is in each country, and / or have them guess which is the oldest and which is the newest. Even if they don't know the answers, guessing will get them thinking and speaking about the buildings.

Unit 23B

Tip! Writing from an example
In this activity, students are asked to look back at activity 3 and then write a similar text about a different building.

The best way for students to approach this is to look at the example text and see what *kind* of information is in each part. For example we can see that the text about the Burj Khalifa starts with the **location** and a **general fact** about the building. Then, there is information about the **construction dates** and the **cost**. After that, there is information about the architect, followed by details of how many **visitors** go to the building now, and **events** and **venues**.

This is important because it helps students to plan their writing before they start. Before they write, students should decide what kind of information to write and in what order. Using the example text can help them to do this.

Unit 24B

Tip! Giving prompts
When you ask your students to make questions or sentences with a given topic, they sometimes can struggle and are not sure where to start. In such situations, you can give students some prompts or clues that can help them brainstorm ideas. For example, you ask students to write questions as if they were tourists asking a local tour guide. You can give them some prompts to help them begin such as: *where to eat, transportation, or what to see* etc.

Unit 25B

Tip! Monitoring
To monitor is to walk around in class while your students are doing something, carefully checking to see if they are doing what you wanted them to do. You can also use this time to point out some mistakes that individual students are making. Monitoring is an effective classroom management technique. By walking around, you can ensure that your students are on task. This will also help keep your students engaged throughout the lesson.

Unit 26

Tip! Reviewing information before class.
When review activities require students to remember information from a unit that they studied some time ago, it's a good idea to have them review the original unit for homework before the lesson.

In this case, tell them that they will need to remember information about the Funan era for next class, and that they should review unit 21 at home.

Tip! Making a small writing activity from an activity

To practice writing with correct grammar, vocabulary and sentence structure, this kind of activity can be good. The students already have all of the information that they need. They don't have to think too much about what they are going to write, so they can focus on getting the English right.

Using small texts like this gives you the opportunity to go around the class and help students to correct their mistakes and to improve their writing.

Unit 27A

Tip! Demonstrating instructions
Sometimes it's difficult for some students to understand instructions clearly. It is a good idea to show the class how an activity works by choosing two students to give an example. If they do it incorrectly, you can show them how to do it correctly!

Unit 27B

Tip! Checking different answers
With an activity which has many possible answers, it's a good idea to allow a little more time than usual to check the answers in class. Students will have different answers and will often want to check that they are all ok.

Unit 28B

Tip! Scanning for keywords
Scanning is an important skill not only for students but also for teachers. There are times when you need to find an answer or a piece of information in a text quickly – even when you're not doing a scanning exercise with the students.

Whenever possible, it's good to skim the text first to get a general sense of the text. Then, when you need to scan, you have an idea of where the information you want is in the text.

The key to scanning is to look for things that are easy to find in a text such as headings, numbers, dates, words in **bold** or *italics*, and words that begin with capital letters like names and countries. If there aren't any things like that, look for long or unusual words and words with rare letters like *q*, *x* and *z*.

Once you find the keyword, just read one or two sentences around it and you should find the answer you are looking for. Scanning is a little difficult at first, but with a bit of practice, you will learn to recognise words more quickly and you'll get better and faster at it.

Unit 29B

Tip! Listening for general understanding
It's important for learners to understand what they are listening to. In other words, it is helpful for your students to get the general idea of the listening context. This will prepare them better for the more difficult and specific listening tasks that follow. Therefore, you should play the recording once at the beginning with one or two general (gist) questions and without asking them to answer any questions that focus on detailed information. This helps your students grasp the context of the listening.

Unit 30B

Tip! Teaching mixed-ability classes
In most ESL classrooms, students do not normally have the same level of abilities, even though they are in the same class. Some are good at reading, while others are not. Some are shy and tend not to speak much, others are the opposite. One way to help you deal with classes with students of varying levels of English proficiency is by incorporating a variety of tasks in your lessons. You might also want to think about giving extra tasks or homework for your slow learners.

Unit 31A

Tip! Writing answers on the board
By writing answers on the board, students can easily avoid writing the wrong answers and can refer back to the answers when the next activity requires them to. It can also help visual learners to remember and understand better.

Unit 31B

Tip! Listening for specific information
Some listening tasks require students to listen for specific answers and not for a general understanding. For such activities, you can tell students to listen for specific key words that come with the instruction. In other words, they need to pay attention to words that are related to what they have to find the answers for. For example, the instruction asks them to listen for names of school subjects in the recording. You should direct students to pay attention to listen for key words related to school subjects such as subject, topic, math, geography, English, science, etc.

Unit 33

Tip! Twenty questions
Activity 5 is based on a game called *Twenty Questions*. This is a game where someone thinks of something, in this case an animal, but it could be something else like a job or a famous person.

The other group members have to ask yes/ no questions to try to guess, up to a maximum of twenty questions. The questions can only be answered with *yes* or *no*. For example, if we are thinking about a job, questions can include things like: *Are you well-paid?*, *Do you wear a uniform?*, *Do you work outside...* Usually there is a maximum of twenty questions to guess the answer, but for something simple like an animal we can make it fewer, like five questions.

This is a game that can be played with many topics and can fit the topic of your lesson, or can be used as a fun game for the first or last lesson of the class.

Unit 34

Tip! Stirrers and settlers

It is always a good idea to have different activities in class. Always try to have a mix of activities such that students aren't always sitting and working alone on their own for a long period of time. For example, after an individual writing activity, you might want to get them to talk about their writing, or to stand up and read their sentences to their classmates.

Try to follow this pattern whenever you can: quiet activity – activity that requires interaction / movement – quiet activity.

UNIT 1

MEETING NEW FRIENDS

1A

- 1 Do you remember who they are? What can you remember about them? Talk to your partner.

- 2 A. Listen. Who is talking? Write their names in your notebook.

- B. Listen again and complete the profiles. Write the answers in your notebook.

Unit 1, Lesson A : Meeting new friends

Aims: To practise talking about daily routines and leisure activities and give and exchange personal information.

By the end of 1A, students should be able to:

- give and exchange information about themselves, friends and family members.
- talk about what they like and don't like doing.
- talk about what their friends and family members do every day.

Session 1

- 1 **Lead in:** Characters review

1. Ask students to look at the pictures.
2. Put students in pairs. Ask them to talk about what they can remember about each of the characters.
3. For feedback, ask some of your students to share their answers in the class.

- 2 **A. Listening:** Who is talking?

1. Ask students to look at the pictures.
2. Ask them to listen and write the names of the people talking in their notebooks.
3. Check answers as a class.

Answers

1. Tim; 2. Channy

[Audioscript]

Hi! I'm 16 years old. I'm not really good at playing chess. I'm in grade 11. I'm British but I live in Siem Reap. I've got curly blonde hair. I'm taller than my best friend, [beep], but he is much better at school than me. I love eating hamburgers and French fries, but I hate vegetables. My favourite subject is Geography. I like learning about the world. In the future, I want to be a teacher, just like my mum. Oh, and my favourite sport? Of course it's football. Who doesn't like football? I'm really good at it too. Can you guess who I am? That's right! I'm Tim.

Hello! I'm 18 years old and I'm Kosal's elder sister. I live in Siem Reap, too. I like going out for a walk with my friends, but I hate doing my homework. I get a lot of homework every day – 2 hours isn't enough to do all of it. I'm good at playing chess just like my brother, and I love

maths too. Maths is my favourite subject, but I'm not good at physics. I get up early every day at 6 o'clock. I like my school because I have many friends there. My best friend is Pisey and we like the same things. I've got long black hair and my mother has a shop at our local market. That's right. I'm Channy.

- B. 4. Ask students to listen again and complete the profiles.
5. Let students compare their answers before checking as a class.

Answers

Name: **Tim**

Age: **16**

Lives in: **Siem Reap**

Good at: **playing football**

Not good at: **playing chess**

Likes: **hamburgers and French fries**

Dislikes: **vegetables**

Name: **Channy**

Age: **18**

Lives in: **Siem Reap**

Good at: **playing chess**

Not good at: **physics**

Likes: **maths, school, going out for a walk**

Dislikes: **doing homework**

3 Now read about Kosal and Lynn. Answer the questions.

Hi! I'm Kosal. My favourite subject is Maths, but honestly, I enjoy studying all subjects. I like being in school. I also like playing football but my friend Tim is much better than me. I play chess with my sister whenever we are free. I like cooking too. I often help my mum cook our dinner. Sometimes, I prepare breakfast for the entire family.

Hello! My name's Lynn. I like going for a walk with my mum and dad. My favourite food is grilled squid. I love having it especially when we have a picnic or go swimming. I like history. I enjoy learning about great people and past events. I like football and basketball but I can't play either.

Example: What is Kosal's favourite subject? Maths

1. Who is better at playing football – Kosal or Tim?
2. Does Kosal like cooking?
3. What is Kosal's favourite subject?
4. What is Lynn's favourite food?
5. Who likes history?

4 Put the words in the right column.

read a book **BASKETBALL** take a shower **swimming**
geography go to school **BADMINTON** science **TENNIS**
MATHS do homework go for a walk play computer games

subjects	leisure activities	daily activities	sports
	Example: <i>read a book</i>		

5 Walk around the class. Find someone who:

- is good at playing football
- likes fried fish for breakfast
- doesn't like biscuits
- is not good at playing computer games
- has a grandma who has got curly hair
- doesn't like swimming

Are you good at playing football?

No, I'm not.

3 Reading: Kosal and Lynn

1. Ask students to read the short texts about Kosal and Lynn.
2. Tell them to answer the questions.
3. Encourage your students to work individually at this stage. However, if you have a weak class, you can get them to work in pairs.
4. Check answers as a class.

Answers

1. Tim
2. Yes / Yes, he does.
3. maths
4. grilled squid
5. Lynn

Tip! Using students' names

It is always a good idea to address your students with their names right from the beginning of the semester. Get to know your students and memorize their names. This will help you manage your classes better. For example, when asking students for answers, use their names to avoid students shouting out answers.

Remembering your students' names is also a good way to let them know that you are aware of them as individuals. You are paying attention to their individual needs and the specific ways they like to be taught. This helps build a good rapport between you and your students.

4 Vocabulary: Categorizing

1. Ask students to draw the table in their notebooks.
2. Tell them to put the words in the right column.
3. If you have a weak class, focus on the example as a class.
4. Ask students to compare their answers then check them as a class.

Answers

subjects	leisure activities	daily activities	sports
geography	Example: read a book	take a shower	basketball
science	swimming	go to school	badminton
maths	go for a walk	do homework	tennis
	play computer games		swimming

6 A. Complete the sentences about you.

Example: *My favourite food is rice and pork.*

2. I'm good at _____. (sports)
3. I'm not good at _____. (sports)
4. I like _____. (leisure activity)
5. I don't like _____. (leisure activity)
6. My mum _____ every day. (daily activities)

B. Rearrange the words to make questions.

Example: *food / what / is / favourite / your / ?* What is your favourite food?

1. sport / good / what / at / are / you / ? / _____
2. good / you / sport / not / what / are / at / ? / _____
3. doing / free time / you / like / what / do / your / in / ? / _____
4. don't / what / free time / in / your / doing / like / you / ? / _____
5. every day / mum / does / what / your / do / ? / _____

C. Work in pairs. Take turns to ask and answer questions in activity 6B.

7 Make a profile for your best friend. Draw his or her picture.

Session 2

Suggestion: Starting session 2

To start the class, write some known vocabulary on the board. Mix up the letters (e.g. science -> scceiin, basketball -> ktealbasbl, homework -> rkheomwo, maths -> shamt, swimming -> gimwmsni). The first student to make out the word wins! You can also make this more fun and exciting by putting students into small groups. For stronger classes, you can also set a time limit.

If you set activity 4 as homework, you can also go over the answers.

5 Speaking: Find someone who

1. Focus students on the speech bubbles. Ask 2 of your students to role play the conversation.
2. Ask students to go around the class and ask each other questions.
3. Ask them to note down the answers.
4. If you have a weak class, you can go over the questions first with the whole class. You might also want to write the questions on the board. The questions are: Do you like fried fish for breakfast? / Do you like biscuits? / Are you good at playing computer games? / Has your grandma got curly hair? / Do you like swimming?
5. For feedback, ask some of your students what they remember about each other.

6 Writing: All about me

A. Writing: All about me

1. Ask students to complete the sentences about themselves.
2. Monitor. Walk around the class and help students who might find this activity difficult. Some of your students might also need help in spelling words correctly.
3. For feedback, ask some of your students to share their answers. You might also want to write some good sentences on the board.
- B. 4. Ask students to rearrange the words to make questions.
5. Tell them that the questions are related to the sentences in activity 6A.
6. You can ask your students to work individually or in pairs.
7. Ask students to compare answers then check answers as class.

Answers

1. What sport are you good at?
2. What sport are you not good at?
3. What do you like doing in your free time?
4. What don't you like doing in your free time?
5. What does your mum do every day?

- C. 8. Tell your students to ask and answer the questions from activity 6B.
9. If possible, let them work with someone in the class they don't usually work with.

7 Writing: Profiles

1. Ask students to write profiles for their best friends.
2. Encourage them to draw pictures and be creative.
3. Monitor and check that students are on task.

Extension activity: Profiles guessing game

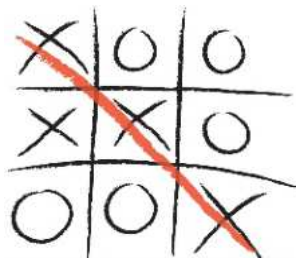

Collect the profiles students have completed. Shuffle them. Read one profile without giving the name. Ask your students to guess whose profile it is. You can also ask stronger students in your class to read the profiles instead of you.

Unit 1, Lesson B

- 1 Work in pairs. Play the game. Make sentences using the words in the table. If your sentence is correct, the square is yours!

Student A - X
Student B - O

good at / geography	mother / French	brother / do homework
boring / science	favourite colour / yellow	hate / jogging
grandpa / old	listen to music / cousin	walk to school / usually

Aims: To talk about daily routines and things that happen regularly.

By the end of 1B, students should be able to:

- talk about what their friends and family members do every day.
- talk about what they do during common celebrations and festivals.

Session 1

- 1 **Lead in:** Tic-tac-toe game

1. Start by drawing a 3x3 grid on the board. Write X and O.
2. Ask 2 students to take turns drawing X and O on the grid, until there is a winner. The winner is the student who has 3 Xs or Os horizontally, vertically or diagonally, as shown in the picture.
3. Put students in pairs. Ask them to play the game. To play the game, students have to make grammatically correct sentences using the words in the grid. If the sentence is correct, the student can write his/her symbol.
4. Go around to check if students are playing the game correctly. Help out some students who might not be familiar with the game.
5. For feedback, ask some of your stronger students to write some of their good sentences on the board.

- 2 **Reading:** Mother's Day in Cambodia?

- A.** 1. Focus students' attention on the pictures. Ask who they think the children are with (their mums).
2. Ask students to read the texts. You might want to set a time limit.
3. Encourage your students to guess the meaning of unknown words they might encounter in the texts.
4. Give feedback as a class. Ask what they text is about (Mother's Day). Ask if they have a celebration in their country.

- B. Reading:** 5. Ask students to read the text again and do activity 2B.
6. Give your students more time to read this time.
7. Check answers as a class.

Answers

1. R / A; 2. A; 3. L; 4. R; 5. L

- 2 **A. Read. Do you have the same day in Cambodia? How do you celebrate it?**

Hi! I'm Rajesh! I come from India. On Mother's Day, we usually give our mothers cards and flowers. Then we cook them a delicious meal. My mum chooses the dish. Then my dad and I go to the market to buy the ingredients. Sometimes my little brother helps us cook too. Then after dinner, we go to the cinema. There's always a good movie to watch and my mum likes going to the cinema too.

Hi! I'm Anna from the UK. Mother's Day is often celebrated on the second Sunday of May, but in the UK, we celebrate on the fourth Sunday of March. We also buy our mums flowers and cards. Sometimes, we buy them presents too. I always get my mum a present. My brother and I save money to buy her favourite books.

Hello! I'm Lina from Mexico. On Mother's Day in Mexico, we make special cards for our mums. Our school organizes performances and invites our mothers to see us perform. We often sing and dance with our mums. It's always a fun day!

B. Read and write R for Rajesh, A for Anna and L for Lina.

Example: Who cooks for their mum on Mother's Day?

R

1. Who buys their mum cards? _____
2. Who buys presents for their mums? _____
3. Who performs at school? _____
4. Who goes to the movies with their mums? _____
5. Who makes special cards? _____

3 Read and complete the rules.

She likes going to the cinema.

She / He / It / Singular subjects take the 's-form' / base form of the verb.

We sing and dance with our mums.

I come from India.

They / We / I / You / Plural subjects take the 's-form' / base form of the verb.

4 Circle the correct verbs in the sentence.

Example: My dad (work, works) from 8 o'clock to 5 o'clock every day.

1. She (enjoy, enjoys) listening to music.
2. His parents (like, likes) eating out in restaurants.
3. My aunt (exercise, exercises) every evening.
4. I (brush, brushes) my teeth three times a day.
5. Her grandpa still (drive, drives) a car. He's 80 years old!

5 A. Say the words and then put them in the correct column.

sleeps brushes watches plays works
remembers drives sings enjoys catches

/s/	/z/	/iz/
	sings	

B. Listen and check.

3 Grammar: Present simple tense

1. Ask some of your students to read the sentences. You might want to write these on the board.
2. Ask them to read the sentences and complete the rules.
3. Tell your students that we also use the present simple tense to talk about the things we do on a regular basis (not just every day). In this case, the children do something for their mothers on Mother's Day. This happens regularly, so we use the present simple tense.
4. Focus students on 'I come from India'. Underline this sentence. Ask if it is about 1 person (yes). Ask if we need an 's' or 'es' for the verb (no).
5. Tell your students that I and you, although referring to one person, do not take the s-form of the verb.

Answers

She / He / It / Singular subjects take the 's-form' form of the verb.

They / We / I / You / Plural subjects take the 'base form' form of the verb.

4 Grammar: 's' or no 's'

1. Ask students to choose the correct verb. Ask them to write their answers in their notebook.
2. If you have a weak class, do the example together as a class.
3. Check answers as a class.

Answers

1. enjoys;
2. like;
3. exercises;
4. brush;
5. drives

Session 2

Suggestions: Starting session 2

To start the class, mime some common action words (e.g. swimming, running). Encourage your students to guess what the words are. If you have a strong class, you can also ask them to write the words on the board.

If you set activity 4 as homework, you can also go over the answers quickly.

5 Pronunciation: /s/ - /z/ - /iz/

A. 1. Ask students to practise saying the words out loud with their partners.

2. In pairs, ask them to put the words in the correct column.

B. 3. Ask them to listen and check.

[Audioscript]

/s/ - sleeps, works

/z/ - plays, remembers, drives, sings, enjoys

/iz/ - brushes, watches, catches

Tip! Building rapport with your students

Good rapport with your students means that you have a good relationship with them. If you have a good relationship with your students, teaching and learning become much more fun. Do you have a good rapport with your students? One way to help you establish a good rapport with your students is to address them with their names. As in the previous tip, this will make your students feel you are aware of them as individuals. Try to be always positive and smile as often as you can in class too.

- 6 A. Choose a Cambodian holiday. Write 5 things that your family does. Write some that are true and some that are false.

Example: *My grandpa sleeps all day during Khmer New year.*

- B. Work in pairs. Read your sentences to your partner. Can they guess which are true?

- 7 Make a Mother's Day card for your mum. Draw pictures and write a message for your mum.

- 8 How well can you do these things? Write in your notebook.

unhappy

neutral

happy

very happy

NOW I CAN...

- talk about what my friends and family do every day and on special Cambodian holidays.
- ask for and give personal information.
- talk about what my friends and family like / don't like doing.

- 6 **Writing:** My family

1. Ask students to write what they do with their families during certain Cambodian holidays.
2. Walk around to help students who might find this activity difficult. Correct some of the mistakes your students are making as you go around.
3. Put students in pairs.
4. Ask them to read their sentences with their partners.
5. Ask them to guess which of their partners' sentences are true.
6. For feedback, ask who was able to guess correctly the most. You might also want some of your students to read their sentences out loud for the class.

- 7 **Writing:** Mother's Day card

1. Ask your students to make a card for their mums.
2. Ask them to draw pictures and write a short message for their mums.

- 8 **Reflecting:** 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
3. For more ideas on how to do this, please see page V.

Extension activity: /s/ or /z/ or /iz/?

Say the words in activity 5A. Assign an action for each sound they hear (e.g. /s/ - students touch their heads, /z/ - students touch their nose, /iz/ - students touch their knees). Students do the action as they listen to you say the words out loud.

UNIT 2

CATCHING UP

2A

- 1 Do you remember these verbs? Fill in the gaps with the words from the box. Write the answers in your notebook.

talk go play stay clean read visit swim see have eat

Example: They clean their bedrooms every Sunday morning.

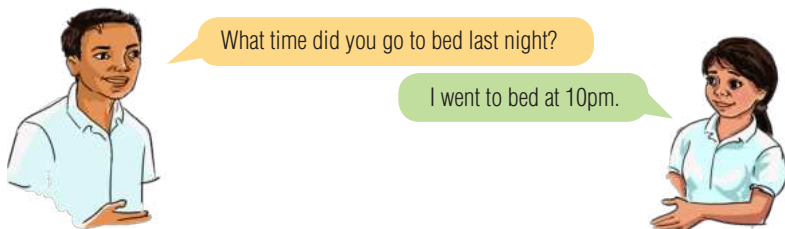

- I usually _____ to my mum when I _____ problems.
- Tim and Kosal _____ to their football club and _____ football only on the weekend.
- The children often _____ their grandmother on Saturday and _____ there for a night.
- On their mum's birthday, they always _____ at a nice restaurant and then _____ a show together.
- When they have free time, they either _____ books or _____ at the nearby swimming pool.

- 2 A. Look at the table. Answer the questions. Write the answers in your notebook.

Yesterday	Everyday
They had dinner at 6:30 pm and played games for 30 minutes.	They usually have dinner at 7:00 pm and play games for 20 minutes.

- Which verbs are present simple tense?
- Which verbs are past simple tense – something that already happened?

- B. Work in pairs. Take turns to ask and answer the questions. Write the answers in your notebook.

- What time do you usually go to bed?
- What time did you go to bed last night?
- Where do you usually visit on Sunday?
- Where did you visit last Sunday?

Unit 2, Lesson A : Catching up

Aims: To practise talking about things that happened in the past.

By the end of 2A, students should be able to:

- identify which verbs are regular and which are irregular.
- put the past simple regular verbs in the correct category based on the end sounds.
- use past simple tense in positive sentences.

Session 1

- 1 **Vocabulary:** Common verbs

- Tell students to look at the verbs in the box.
- Ask students if they already know what those verbs mean.
- Ask students to fill in the gaps with the verbs from the box.

Answers

1. talk, have; 2. go, play; 3. visit, stay; 4. eat, see; 5. read, swim

- 2 **Grammar:** Identifying past simple tense

- A. 1. Tell students to look at the two different columns and pay attention to the headings "Yesterday" and "Everyday".
2. Ask students to answer the questions.

Answers

1. have, play; 2. had, played

- B. 3. Put students in pairs.
4. Ask students to take turns to ask and answer the questions.
5. Encourage students to answer in full sentences.
6. There are no right or wrong answers for this activity.

- 3 **Reading:** Vicki's family holiday

- A. 1. Ask students to look at the picture and guess where Vicki and the family went for holiday.
2. Tell students to read the text and check if their guess is correct or wrong.
3. Ask students some follow-up questions about the activities the family did during their holiday. These are some suggested follow-up questions: Where did they go? Who did they visit? What did Tim and Lynn do with their grandparents? Did the children enjoy their time with their grandparents? Who did they stay with in London?

Answers

They visited their family in England.

- B. 4. Tell students to look at the table.
5. Ask students what verbs they can see in the table – present or past?
6. Tell students to fill in the gaps with the past simple tense of the verbs.
7. Emphasise that all the answers are from the reading text.

3 A. Read about Vicki's family holiday. Where did they visit?

Last August, we had a long family holiday. We visited our family in the U.K because my parents-in-law really wanted to see Tim and Lynn. Their house is in the countryside near the beach, so it is very beautiful. During our holiday, we stayed with them for about two weeks and we spent one week with Richard's brother who lives in London. When we were at our parents' house, Tim and Lynn did a lot of fun things with their grandparents. They swam at the nearby beach, played games, rode bicycles, and ate so much seafood! Then we went to London and stayed with Richard's brother. The children had a great time with their uncle. He took them to London Children's Museum and they even saw a show together there. They also played games. Richard and I met some of our old friends and had a wonderful time together.

B. Copy and complete the table in your notebook.

have	<u>had</u>	visit		ride	
want		spend		swim	
do		eat		play	
go		are (be)		stay	
meet		see		take	

4 Work in pairs. Look at the **Look box** and answer the questions. Write the answers in your notebook.

Look

Regular Vs. Irregular Verbs

Regular verbs: When you change them from present simple to past simple form, you add -d, -ed, or -ied.

Example: visit – visited.

Irregular verbs: The verbs that do not follow the regular verb rules.

Example: have – had.

1. Look at activity 3B, which verbs are regular verbs? Which verbs are irregular verbs?
2. Change the present simple verbs in activity 1 to past simple tense.
3. Can you think of any other regular and irregular verbs?

Answers

have	had	visit	visited	ride	rode
want	wanted	spend	spent	swim	swam
do	did	eat	ate	play	played
go	went	are (be)	were	stay	stayed
meet	met	see	saw	take	took

Session 2

Suggestion: Starting session 2

To start the class, you can do a quick review by reading out some present simple verbs and students have to tell the past simple forms. You can also make it fun by doing this as a Hot Potato game. To play Hot Potato, you need to make a paper ball and ask your students throw it around the class. When you say stop, whoever has the paper ball has to answer the question.

4

Grammar: Identifying regular and irregular verbs

1. Tell students to look at the Look box.
2. Ask students to answer the questions.
3. Focus on the differences between regular and irregular verbs.

Answers

1. Regular verbs: wanted, visited, played, stayed.
Irregular verbs: had, did, went, met, spent, ate, were, saw, rode, swam, took
2. talked, had, went, played, visited, stayed, ate, saw, read, swam
3. The students can come up with different answers.

5

Listening: Identifying ending sound /t/, /d/, /id/

- A.**
1. Ask students to look at the different ending sounds.
 2. Tell students to listen and repeat the words.
 3. Allow students to listen and repeat as many times as time allows.

[Audioscript]

1. talked, looked
2. played, stayed
3. visited, wanted

- B.**
4. Ask students to listen to the recording.
 5. Tell students to put the verbs they hear in the correct column.

Answers

Ending sound /t/	talked, watched, worked
Ending sound /d/	cleaned, enjoyed, tried
Ending sound /id/	started, hated, needed

[Audioscript]

cleaned, started, talked, hated, watched, enjoyed, needed, tried, worked

5 A. Listen and repeat.

1. Ending sound /t/: talked, looked
2. Ending sound /d/: played, stayed
3. Ending sound /id/: visited, wanted

B. Listen and put the words in the correct column.

Ending sound /t/	
Ending sound /d/	Example: <i>cleaned</i>
Ending sound /id/	

Look

In past simple tense, the past simple verbs are the same for all the subjects.
Example: *He/She/It/They/We/I stayed home.*

Past simple tense regular verbs:

- Adding -d: verbs that end with e

Example: *hate* → *hated*, *like* → *liked*

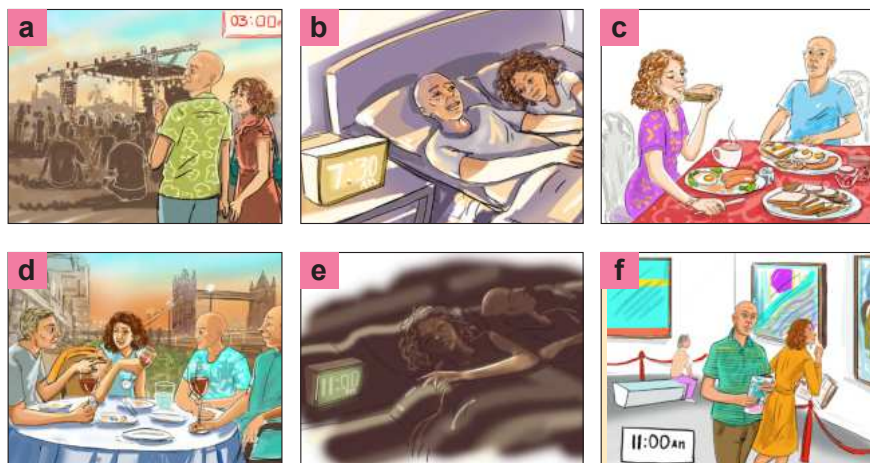

- Adding -ed: verbs that end with consonants

Example: *stay* → *stayed*, *ask* → *asked*

- Adding -ied: verbs that end with consonant + y

Example: *cry* → *cried*, *try* → *tried*

6 A. How did Richard and Vicki spend one day in London during their holiday? Work in pairs. Put the pictures in a correct order.

B. Look at the pictures in activity 6A again. Write sentences telling what Richard and Vicki did in each picture using past simple tense.

Example: *Picture b – Richard and Vicki got up at 7:30.*

6 Production: Picture story

1. Put students in pairs.
2. Ask students to put the pictures in the correct order to make a story about Richard and Vicki.
3. Give students some hints such as to look at the clocks/time on each picture.

Answers

b, c, f, a, d, e

4. Tell students to write sentences for each picture to tell what Richard and Vicki did.
5. Encourage students to use the verbs they have learnt in this unit.

Answers

Picture b: Richard and Vicki got up at 7:30 am.

Picture c: They had some coffee for breakfast.

Picture f: They went to the museum at 11:00 am.

Picture a: They saw a show together at 3:00 pm.

Picture d: They had dinner with two friends.

Picture e: They went to bed at 11:00 pm.

Extension activity: Present simple or past simple?

If there is more time, you can ask students to do some more practise identifying when to use the past simple tense. Ask students to choose the correct answers.

Example: Last night, she *eats* / *ate* some delicious ice cream.

1. Tim and Kosal *watch* / *watched* a new movie together last weekend.
2. Vicki *cooks* / *cooked* some spaghetti for her children for dinner yesterday.
3. Channy usually *stays* / *stayed* at home on Saturdays.
4. The teacher *asks* / *asked* the students what they did on holidays.
5. Leakhana *fries* / *fried* some chicken for breakfast every morning.
6. They *enjoy* / *enjoyed* listening to music when they were young.
7. I *go* / *went* to bed late every day.

Answers

1. watched; 2. cooked; 3. stays; 4. asked; 5. fries; 6. enjoyed; 7. go

Tip! Giving hints in sentence making

Sometimes students can struggle and do not know how to make sentences completely by themselves when no words are given to them. If you notice this problem, you can help by providing some clues or hints such as giving some more examples or giving some words that can help students start thinking. For example, for a picture story activity, you can give students a few words that are relevant to the pictures to help them start telling the story.

Unit 2, Lesson B

Aims: To practise asking questions about the past and talking about things that did not happen.

By the end of 2B, students should be able to:

- use past simple tense in negative and question forms.
- describe their past holidays using past simple tense.

Session 1

1 Vocabulary: Common activities

- A. 1. Tell students to look at the list of things.
2. Ask students to choose the things they did last weekend from that list.
3. Let students know that it is okay even if they could not find anything they did on the list.
B. 4. Put students in pairs.
5. Ask students to share their answers.

2 Listening: Channy's holiday description

- A. 1. Ask students to look at the picture and guess what the picture shows.
2. Tell students to read the sentences 1 – 9 before listening to the recording.
3. Ask students to listen and in front of the sentences, write C if Channy did that thing, K for Kosal, and B if they both did it.

Answers

1. B; 2. B; 3. C; 4. C; 5. K; 6. K; 7. C; 8. B; 9. C

[Audiocscript]

Kosal and I had a long holiday from school in September. We did not really have any family holiday because our father had to work. But it was still a fun holiday because we spent two weeks with our grandparents! My father drove and dropped us at our grandparent's house. We were so happy to see them. While we were there, I went to the market with my grandmother and she cooked a lot of food for us. I helped with the cooking as well, but Kosal didn't help at all! He only ate, lazy Kosal! He either rode his bicycle around the village or played with the neighbour's children. Sometimes, in the late afternoon, our grandfather took us to the lake. Kosal swam with my grandfather all the time, but I didn't. I just went there and relaxed.

- 1 A. Look at the list of things below. How many did you do last weekend? Write the answers in your notebook.

Example:

- ☒ 1. played football ☐ 2. cleaned my bedroom ☐ 3. stayed at home
☐ 4. did homework ☐ 5. met some friends ☐ 6. went to the market
☐ 7. ate delicious food ☐ 8. helped to cook at home
☐ 9. rode a bicycle with friends

- B. Work in pairs. Compare your answers. Did you do similar things?

- 2 A.  Listen to Channy describing her long school holiday. Write C for things that Channy did, K for things that Kosal did, and B for things both of them did.

Example: B did not have a family holiday with their parents.

- | | |
|--|---|
| 1. _____ went to grandparents' house. | 6. _____ rode bicycle around the village. |
| 2. _____ were happy to see the grandparents. | 7. _____ did not swim with the grandfather. |
| 3. _____ went to the market. | 8. _____ visited and met some relatives. |
| 4. _____ helped with the cooking. | 9. _____ learnt how to cook some dessert. |
| 5. _____ did not help with the cooking. | |

- B. Look at the sentences in activity 2A again. Which sentences are in positive past simple tense and which are in negative past simple tense? Write the answers in your notebook.

Positive: 1

Negative: ...

Look

Negative past simple tense: add *did not* (*didn't*) + verb in base form

Example: *He/She/They/You/We/I did not help with the cooking.*

It does not matter what the subject is, we do not change the verbs to singular verbs in past simple tense.

3 Fill in the gaps with the correct past simple verbs in the brackets. Write the answers in your notebook.

Last weekend, we didn't want (not want) to stay at home, so our parents 1. _____ (take) us to Kep. The weather 2. _____ (be) wonderful because it 3. _____ (not be) very hot. My father 4. _____ (drive) for three hours to get there. We 5. _____ (stay) at a nice quiet hotel near the beach. In the morning, my mother and I got up early to see the sunrise, but my father and brother 6. _____ (not go) with us. They 7. _____ (sleep) until breakfast time! After breakfast, we all 8. _____ (go) to the crab market and 9. _____ (buy) some seafood. Then we 10. _____ (spend) our day at the beach. We all 11. _____ (swim) except my mother. Even though it was just for two days, we all 12. _____ (enjoy) our time in Kep.

4 A. Draw the table in your notebook. Answer the questions about yourself ONLY.

Questions	Your answers	Your partner's answers
Example: What time did you go to bed last night?	I went to bed at 9:00 pm.	
What time did you get up this morning?		
What did you eat for breakfast today?		
Did you come to school by yourself today?		
What did you do last Sunday?		
When did you start learning English?		

Look

Past Simple Questions: using *did* + verbs in base form EXCEPT "verb to be"

Example: Did you go to school? Yes, I did. Or No, I didn't.
What did she buy? She bought some new clothes.

3 Grammar: Filling in the gaps

1. Tell students to fill in the gaps with the correct form of verbs in the bracket.
2. Emphasise that students need to write them in negative form when they see the word not in the brackets.

Answers

1. took; 2. was; 3. wasn't; 4. drove;
5. stayed; 6. didn't go; 7. slept; 8. went;
9. bought; 10. spent; 11. swam; 12. enjoyed

Focus on the use of *verb to be* in negative past simple tense

Show and remind students that the rule of using *didn't + verb* to make negative sentences in past simple does not apply to *verb to be*. For example, you cannot say "didn't am/is/are". Instead, it is "wasn't, weren't".

Session 2

Suggestion: Starting session 2

To start the class, you can ask students to share what they did not do yesterday as a review of the new grammar point they have learnt in previous class.

4 Speaking: Answering questions in past simple

1. Tell students to draw the table in their notebook.
 2. Ask students to answer the questions in the table about themselves.
 3. Remind students that they only need to answer for themselves.
4. Put students in pairs.
 5. Ask students to take turn asking the same questions in activity 4A.
 6. Tell students to write their partner's answers in "Your partner's answers" column.
 7. Encourage students to answer in complete sentences.

B. Look at the table in activity 4A again. Work in pairs. Take turns to ask and answer the questions. Write the answers in the same table.

Questions	Your answers	Your partner's answers
Example: <i>What time did you go to bed last night?</i>	I went to bed at 9:00 pm.	I went to bed at 10:00 pm.

5 Write four questions using past simple tense and ask your partner. Remember, you can ask about anything! Write the questions in your notebook.

Example: *Did you visit grandmother last month? Or What did you do last night after dinner?*

6 Write about the last holiday you had. Use the questions below to help you think.

When was this holiday?
Where did you go?
What did you do?
What didn't you do?
Who did you spend your holiday with?

Example: *My last holiday was in September. I went to Siem Reap with my family...*

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄 

NOW I CAN...

- change both regular and irregular verbs from present to past simple tense.
- pronounce the verbs in past simple tense with correct ending sound: /t/, /d/, or /id/.
- make sentences using past simple tense in positive, negative, and question forms.

5 Grammar: Making questions in past simple

1. Put students in pairs.
2. Ask students to make four questions using past simple tense.
3. Emphasis that students can ask any questions they can make.
4. Walk around to monitor if students are making the questions correctly.

6 Writing: Describing past holiday

1. Tell students to think of their past holiday.
2. Encourage students to look at the questions to help them think.
3. Ask students to write a short paragraph about that past holiday using past simple tense.

Extension activity: Imaginary holiday

Put students in pairs and tell them they have to imagine what a bad holiday looks like. Encourage students to use the questions in activity 6 to brainstorm ideas and write a short paragraph using past simple tense. You can give students some ideas of an imaginary bad holiday. For example, I went to the beach for my holiday and it rained all the time.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

UNIT 3

AROUND TOWN

3A

- 1 A. Look at the pictures and write the words. Write the answers in your notebook.

Example:

night market

b _ _ s _ _

h _ _ _ _

m _ _ _ _

p _ _ _ _

s _ _ _ p _ _

s _ _ _ _ _

p _ _ o _ _ _

r _ _ _ s _ _

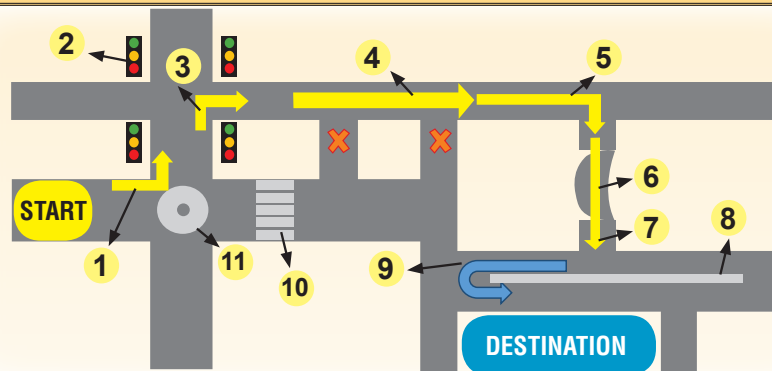

s _ _ _ m _ _

B. Work in pairs. What do you do at the places above?

- 2 A. Match the words in the box to the numbers on the map. Write the answers in your notebook.

turn left go straight on turn around take the (third) right crossing
go past traffic lights roundabout bridge turn right
central reservation

B. Listen, check and repeat.

Unit 3, Lesson A : Around town

Aims: To ask and give directions.

By the end of 3A, students should be able to:

- name some common places.
- ask and give simple directions.
- compare a few sets of directions and give reasons for their selection.

Session 1

- 1 **Vocabulary:** Look and write

- A. 1. Ask students how many pictures they can see.
2. Tell students to look at the example and the hints under each picture.
3. Have students think about what the words for the pictures might be and write them in their notebook.
4. Tell students to compare answers with their partner.
5. Check the answers as a class.

Answers

1. bus station; 2. hospital; 3. museum;
4. pagoda; 5. swimming pool; 6.
supermarket; 7. post office; 8. railway
station; 9. shopping mall

- B. 6. In pairs, tell students to think about the activities that they can do in the places above.
7. Ask some pairs to share the answers in class.

- 2 **Vocabulary:** Matching

- A. 1. Have students read the words in the box and look at the map.
2. Tell students to match those words to the numbers on the map.
3. Tell students to compare answers with their partner.

Answers

1. turn left; 2. traffic lights; 3. turn right;
4. go past; 5. take the (third) right; 6.
bridge; 7. go straight on; 8. central
reservation; 9. turn around; 10. crossing;
11. roundabout

- B. 4. Get students to listen to the recording and check the answers.
5. Pause after each word for students to repeat.
6. Write the answers on the board.

[Audioscript]

turn left, traffic lights, turn right, go past, take the (third) right, bridge, go straight on, central reservation, turn around, crossing, roundabout

3 A. Reorder the words to ask for directions. Write the answers in your notebook.

Example: *bus station / the / is / where / ?*
Where is the bus station?

1. get / do / how / to / I / pagoda / the / ?
2. railway / way / do / the / you / the / station, / mind / telling / to / me / please / ?
3. the / know / you / is / where / do / hospital / ?
4. tell / can / is / the / you / where / me / market / night / ?
5. museum / help / me / you / find / can / the / ?

B. Work in pairs. Take turns asking and answering the questions above. Think about your town and give the answers using the vocabulary in activity 2.

Example:

Where is the bus station?

Go straight on this road and turn left.
 You'll see the bus station on your right.

4 A. Listen and answer the questions below. Write the answers in your notebook.

1. Who are the people in the conversation?
2. Where does the tourist want to go to?
3. What should the tourist do first?
4. What should the tourist do when he reaches the swimming pool?
5. What is next to the shopping mall? What should the tourist do there?
6. What will the tourist see before the roundabout?
7. What should the tourist do at the roundabout?
8. Which side is the bank on?

3 Grammar: Arranging the words

- A.**
1. Have students read the example.
 2. Tell students to put the words in the right order to make questions to ask for directions.
 3. Check the answers as a class.

Answers

1. How do I get to the pagoda?
2. Do you mind telling me the way to the railway station, please?
3. Do you know where the hospital is?
4. Can you tell me where the night market is?
5. Can you help me find the museum?

- B.**
4. Put students in the same or new pairs.
 5. Tell students to read the example.
 6. Have students take turns asking the questions and answering using real directions in their neighborhood or make up the directions.
 7. Walk around the classroom, listen, help and correct if necessary.
 8. Tell students there is more than one correct answer.

Session 2

Suggestion: Starting session 2

To start the class, you can make gestures or give some hints about the vocabulary in activity 1 and 2, and have students say the words. To make it more fun, you can divide students into four rows and have them compete to answer first to get a point, and the group with the highest score wins.

4 Listening: Answering the questions

- A.**
1. Ask students about the people in the picture. (Kosal and a tourist.)
 2. Tell students to read the questions carefully and underline important keywords.
 3. Have students listen, and write the answers in their notebook.
 4. Check the answers as a class.

Answers

1. They are Kosal and a tourist.
2. The tourist wants to go to the bank.
3. The tourist should go around the central reservation.
4. The tourist should turn right when he sees the swimming pool.
5. There is a road next to the shopping mall. He should go past them.
6. The tourist will see a crossing.
7. The tourist should go straight on.
8. The bank is on his right.

Tip! Drawing the direction

You can prevent students from getting confused over directions by telling them to draw the directions as they listen so that they know what it looks like and have clearer answers. Remember, they just need to draw important information such as turn left, turn right...There is no need to draw the map in full detail.

- B.  Listen again and look at the map. Where is the starting point?

- 5 A. Look at the map above and find an easier way to get to the bank.

B. Work in pairs. Compare your answer.

I think mine is the easiest because...

- 6 A. Work in pairs. Draw a map of your neighbourhood or somewhere you know well. Use the map in activity 4 as an example.

B. Choose a starting point and a destination on your map and ask for directions from your partner. Then, swap.

[Audioscript]

Tourist: Excuse me! Can you help me find the bank?

Kosal: Sure! You must be a tourist.

Tourist: Yes, I am. It's my first time visiting Siem Reap.

Kosal: Then I have to make sure you find the bank! It's actually a bit far from here. First, do you see that central reservation? Go around it and turn right when you see the swimming pool. Next, turn left at the corner, and go straight along that road. You'll see the shopping mall on your left and another road next to it. Just go past them. Then, you'll see a crossing and a roundabout in front of it. Go straight on and the bank will be on your right.

Tourist: Wait a minute, do I have to turn around at the roundabout?

Kosal: What? No. Just go straight.

Tourist: Oh, I understand now. Thank you.

Kosal: You're welcome!

- B. 5. Have students look at the map and listen again to find the starting point.
6. Tell students to use the buildings or things on the roads as clues.
7. Check the answers as a class.

Answer

The starting point is the night market.

- 5 **Writing and Speaking:** Comparing directions

- A. 1. Tell students to look at the previous map again and find an easier way to get to the bank.
2. Have students note down their directions.
3. Monitor and help if necessary.

Extension activity: Say the word

In groups, tell students to take turns saying one item or place that can be seen on the road. You should stop them from naming the ones that have already been mentioned above. To make it more challenging, you can have the next student says a word that starts with the last alphabet of the previous student's word. Example: *bookshop* – *police station*

Suggested Answer

An easier way is to:

Turn right from here and turn left when you see the museum. Then, go straight on the bridge and turn left again at corner of the bus station. After that, go straight and you will see the traffic lights at the third left. Keep on walking and you will see the bank on your left.

- B. 4. Have students stand up, move around and find someone that has a different set of directions.
5. Tell students to take turns presenting their method and compare who has the easiest one.
6. Walk around the classroom, listen, help and correct if necessary.
7. Ask some pairs to share the answers in class and tell who has the easiest way.

- 6 **Speaking:** Asking and giving direction

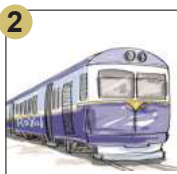

- A. 1. Put students in pairs.
2. Tell students to think about their neighborhood or a familiar town and draw the roads and the important places.
3. Have students look at the map again for ideas.
4. Monitor and help if necessary.
B. 5. Get students to each choose a place on the map.
6. Tell students to take turns asking for directions to their chosen place and giving the directions.
7. Walk around the classroom, listen, help and correct if necessary.
8. Ask some pairs to share the answers in class.

Unit 3, Lesson B

1 A. With a partner, guess the places that the pictures belong to.

museum

B. Listen, check and repeat.

2 Read and fill in the gaps.

Example: Channy: What's wrong, Kosal?

Kosal: I need to meet Tim at the new swimming pool, but I don't know the way.

Channy: You should call him and ask.

Kosal: Ok, I will do that.

1. Somnang: you don't look well. _____ I _____ (take) you to the hospital?

Richard: No, thank you, but I _____ (return) home and rest.

2. Customer: I want to buy some cheap clothes and some street food.

Where _____ I _____ (go)?

Leakhana: You _____ (shop) at the night market or the supermarket.

Customer: I don't feel like it. Is there anywhere else?

3. Tim: Lynn, are you hungry? [blob] we _____ (buy) some snacks?

Lynn: It's almost dinner. Dad said we _____ (not, eat) anything.

Tim: It's fine. We have an hour more. Let's go!

Lynn: I don't think that's a good idea.

4. Kosal: You look upset. What's wrong?

Tim: What _____ I (do)? It's almost Lynn's birthday, but I don't know what to get her.

Kosal: First, you _____ (check) what she likes nowadays.

Aims: To ask for and make suggestions.

By the end of 3B, students should be able to:

- name things/people/activities that belong to some common places.
- make sentences using should.
- make and ask for suggestions and give directions.
- respond to suggestions positively or negatively.

Session 1

Lead in: Reviewing

1. In pairs, tell students to think and say the words they have learned in unit 3A.
2. Get students to spell the words aloud if possible.
3. Monitor and help if necessary.

1 Vocabulary: Guess and write

- A.
1. Have students look at the pictures carefully.
 2. Ask students what places that those pictures belong to.
 3. Tell students to write the answers in their notebook.
 4. Get students to compare answers with their partner.

Answers

1. museum; 2. railway station; 3. pagoda; 4. night market; 5. supermarket; 6. bus station; 7. hospital; 8. swimming pool; 9. post office; 10. shopping mall

B. 5. Get students to listen to the recording and check the answers.

6. Pause after each word for students to repeat.

7. Check the answers as a class and write the answers on the board.

[Audioscript]

museum, railway station, pagoda, night market, supermarket, bus station, hospital, swimming pool, post office, shopping mall

2 Grammar: Fill in the gaps

1. Tell students to read the short conversations carefully.
2. Get students to look at the example and tell them to fill in the gaps in the same way.
3. Have students compare answers with their partner.
4. Select four pairs to read the conversations and write the answers on the board.

Answers

1. Should...take, should return; 2. should...go, should shop; 3. Should...buy, shouldn't eat; 4. should...do, should check

3 Listening: Write the sentences with should

- A.
1. Tell students to listen and write down all the sentences that have *should*.
 2. Get students to compare answers with their partner.
 3. Ask some students to share the answers.
 4. Play the recording again to check the answers.

Answers

1. What should I do?
2. First, you should check what she likes now.
3. Should I buy a teddy bear?
4. You shouldn't buy that.
5. You should check the bookshop in the shopping mall.
6. You should ask them to order it for you.

3 **A.** **Listen to the full conversation between Kosal and Tim. Write down the sentences that have *should*.**

Note: 1. *What should I do?*

B. Look at your answers above and complete the forms below.

Positive: S + should + _____

Negative: _____

Question: _____

C. Work in pairs. When do we use *should*?

4 **Correct the mistakes in the sentences below. Write the correct sentences in your notebook.**

1. Where we should go?
2. Cheata should drink not coffee. It's midnight!
3. Bora shouldn't rode his motorbike to his hometown because it's too far.
4. Should she goes swimming every day?
5. We visit should our grandparents next month.

5 **A. Work in pairs. Decide who's A and B. Make suggestions using the clues given.**

Student A – Go to page 191.

Student B – Go to page 194.

 1. *Should I help you with your homework?*

B. Take turns reading your suggestions and answering using the responses below.

1. Ok, I will do that.
2. No, thank you.
3. I don't think that's a good idea.
4. I know that. Don't worry.
5. I don't feel like it.
6. That's a great idea.

C. Read the responses again. What are the positive responses? Negative responses?

[Audioscript]

Kosal: You look upset. What's wrong?

Tim: What should I do? It's almost Lynn's birthday, but I don't know what to get her.

Kosal: First, you should check what she likes now.

Tim: umm...I think she likes animals? Should I buy a teddy bear?

Kosal: You shouldn't buy that. She's not a little girl anymore. How about a book? I think she reads a lot.

Tim: Yeah! I think you're right. She talked about this novel a few days ago, but where can I buy it?

Kosal: Hmm...you should check the bookshop in the shopping mall. If they don't have it, you should ask them to order it for you.

Tim: You're right! Thanks, Kosal!

Kosal: No problem! We're friends after all, but Tim, do you know how to get there?

Tim: Yes! Go out of the school and take the second left. Then, turn right and the shopping mall is on my right!

Kosal: That's right. Good luck!

B. 5. Tell students to look at their answers again and pay attention to the subject, verb... etc.

6. Get students to write the positive, negative and question forms of *should* in their notebook.

7. Check the answers as a class.

Answers

Positive: S + should + v1 + obj.

Negative: S + should + not + v1 + obj.

Question: Should + s + v1 + obj?

Tip! Memorizing the forms using examples

Since there are a lot of forms, students tend to forget or mix them up. To help them, you can suggest students make a sentence for each form, and tell students to think of these sentences when they forget the forms. Remember, the sentences should be something that students can easily recall.

C. 8. In the same pairs, have students read their answers again.

9. Tell students to discuss with their partner about the use of *should*.

10. Check the answer as a class.

Answer

We use *should* to make suggestions or give advice.

Session 2

Suggestion: Starting session 2

To start the class, you can select some students randomly to say a sentence that has *should*. You can also make it more challenging by adding some words as well.

Example: *books: You should read some books in your free time.*

4 **Grammar:** Correct the mistakes

1. Get students to read the five sentences and find the mistakes.
2. Tell students to write the correct sentences in their notebook and compare answers with their partner.
3. Check the answers as a class.

Answers

1. Where should we go?
2. Cheata shouldn't drink coffee. It's midnight!
3. Bora shouldn't ride his motorbike to his hometown because it's too far.
4. Should she go swimming every day?
5. We should visit our grandparents next month.

- 6 A. Look at the map in Unit 3A activity 4. Write two or three activities from those places that you want to do this week.

Note: *buy some medicine...*

- B. Work in pairs. Take turns telling your partner what you want to do, and asking for their suggestion and direction. Don't forget to give your positive or negative responses!

I want to buy some medicine, but the pharmacy is closed. Where should I go?

You should go to the hospital. First, go out of the school and turn right...

Ok, I'll do that. Thanks!

- 7 How well can you do these things? Write in your notebook.

unhappy

neutral

happy

very happy

NOW I CAN...

- name some common places in my village/neighborhood.
- name things/people/activities that belong to some common places.
- ask and give directions.
- make and ask for suggestions using *should*.
- respond to suggestions in positive or negative way.

- 5 Writing and Speaking: Make and respond to suggestions

- A. 1. Put students in pairs and get them to decide who will be student A and B.
2. Tell students to go to the assigned pages.
3. Have students make the suggestions using the words given and *should*.
4. Get students to compare answers with their partner.
5. Walk around the classroom, help and correct if necessary.

Answers

Student A

1. Should I help you with your homework?
2. We should buy our new clothes at the shopping mall.
3. Should we take some pictures in front of the night market?
4. We should swim at the swimming pool today.
5. Should I drive you to the museum?

Student B

1. We should look for your watch together.
2. Should I send this letter to your parents?
3. We should watch a movie tonight.
4. Should we go to the railway station now?
5. Should I carry your bag for you?

6. Walk around the classroom, listen, help and correct if necessary.
7. Ask the best pair to share their conversations in class.

- B. 6. Get students to take turns reading their suggestions and responding to them using the responses.
7. Tell students that they can use each response more than once.
8. Tell students there is more than one correct answer.
9. Monitor and help if necessary.
10. Ask a few pairs to share their answers in class.

- C. 11. Tell students to read the responses again and put them in the right category.
12. Check the answers as a class.

Answers

Positive responses

- Ok, I will do that.
- I know that. Don't worry.
- That's a great idea

Negative responses

- No, thank you.
- I don't think that's a good idea!
- I don't feel like it.

- 6 Writing and Speaking: Making suggestions and giving directions

- A. 1. Tell students to go back to the map in activity 4 in unit 3A.
2. Get students to choose at least three activities related to the places on the map.
3. Monitor and help if necessary.

- B. 4. Put students in pairs.
5. Have students take turns doing the following: Student A says the activities they have chosen, and student B gives suggestions on where they should do those activities and give directions on how to get there. Then student A says a positive or negative response to end the turn.

- 7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learnt, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Follow my command!

In groups, get students to choose a leader to say the words for giving directions and have the others follow the command. Example: Student A says "Turn left" then the group has to turn their whole body to the left. After that, the group can give the title of the leader to the next person.

UNIT 4

YOU MUSTN'T BREAK THE RULES!

4A

1 Match the words in the box with the pictures.

crash helmet mobile phone cap uniform
cheat put your hand up chew gum wear jewellery

2 A. Listen to Lynn talking to Kosal. Copy the table into your notebook and tick the correct box.

	can	must	mustn't / can't
1. crash helmet			
2. cheat			
3. chew gum			
4. mobile phone			
5. put your hand up			
6. uniform			
7. cap			
8. wear jewellery			

Unit 4, Lesson A : You mustn't break the rules!

Aims: To talk about school rules using modal verbs.

By the end of 4A, students should be able to:

- describe school rules.
- ask about school rules.
- compare different school rules.

Session 1

1 Vocabulary: Words related to school rules

1. Tell students to match the words and phrases with the pictures.
2. Check the answers as a class.

Answers

1. cap; 2. uniform; 3. helmet;
4. mobile phone; 5. put your hand up;
6. chew gum; 7. wear jewellery; 8. cheat

2 Listening: School rules

1. Tell students that they will hear Lynn asking Kosal about the rules in his school.
2. Have students copy the table into their notebooks.
3. Tell students to tick the correct box as they listen. For example, Kosal says that if you ride a scooter to school, you *can* / *must* / *mustn't* (*can't*) wear a crash helmet.
4. Play the recording.
5. Check the answers as a class.

Answers

1. must; 2. mustn't / can't; 3. mustn't / can't; 4. mustn't / can't; 5. must; 6. must; 7. mustn't / can't; 8. can

[Audioscript]

Lynn: Hi Kosal.

Kosal: Oh hello Lynn. I haven't seen you for a long time! How are you?

Lynn: I'm fine, thanks. Yes it's been a while! Kosal, can I ask you some questions about your school? It's for my homework. I have to find a Khmer friend and ask them about the

rules in their school. Then in class we're going to talk about how they're different to the rules in our school.

Kosal: Sure, Lynn, you can ask me.

Lynn: Well, can you just tell me about some of the rules in your school? Then, if I have any questions, I'll ask you.

Kosal: Well, let me see. We have a new rule at school this year. You must wear a crash helmet if you ride a scooter to school! If you don't, you can't ride your scooter to school again for a whole week. Oh and you mustn't cheat when there's a test. If the teacher sees you cheating, you score zero for the test. And you mustn't chew gum in class – a boy did that last week and got into big trouble.

Lynn: OK. Can you use your mobile phone in class, Kosal?

Kosal: No, you can't use your mobile phone in class. Occasionally it's OK if you have a good reason and you ask the teacher first, but it's not usually allowed. Oh, and you must put your hand up if you want to say something. If you don't put your hand up first, you can't speak.

Lynn: What about uniform, Kosal? Do you have to wear a uniform?

Kosal: Yes, we do. Some of the boys try to wear a cap in class because they like how it looks, but they can't wear a cap inside the classroom and the teacher sends them to the principal. But they can wear a cap after school when they are going home. Girls can wear some jewellery, but only if it's small and looks nice.

Lynn: OK Kosal, thanks a lot! I think I have enough to share with my class. Actually, I think my school has all the same rules.

Kosal: Well, school is school, Lynn. Bye for now then, see you soon.

Lynn: See you Kosal.

B. Work in pairs. Take turns to say the rules that you know for Kosal's school.

Example: *You must wear your crash helmet if you ride a scooter to school.*

3 A. Read the two questions from Lynn and Kosal's conversation, and answer questions 1 – 4.

Can you use your mobile phone in class, Kosal?

Do you have to wear a uniform?

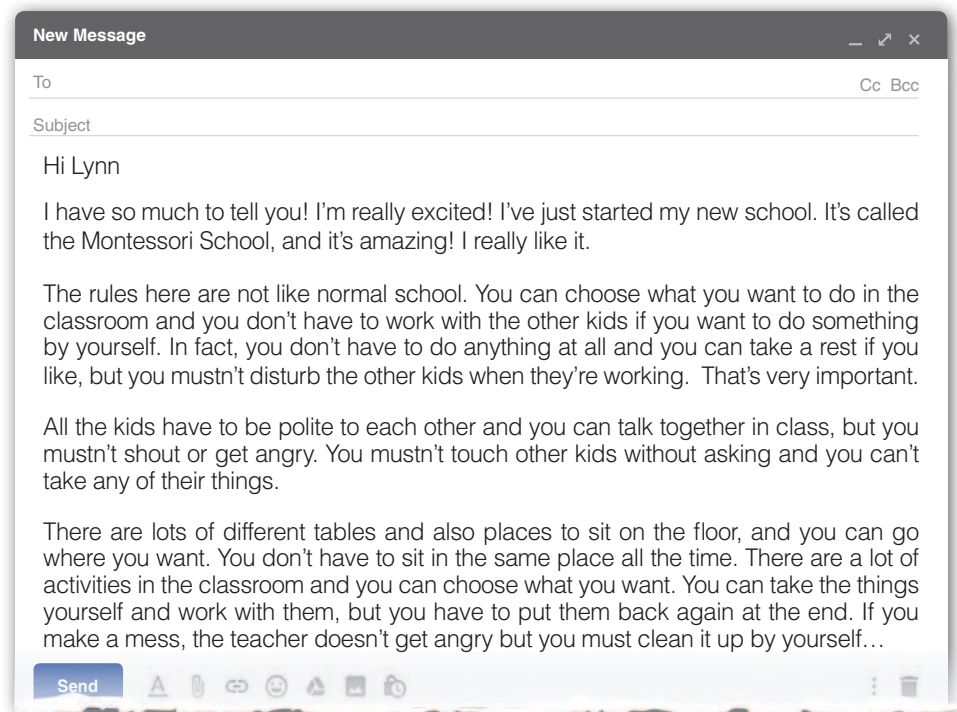

1. Which question asks if you are allowed, or if it's OK to do something?
2. What words do we use to ask if something is OK?
3. Which question asks if we must do something?
4. What words do we use to ask if you must do something?

B. Work in pairs. Look again at the pictures in activity 1. Ask about the rules in your school. Take turns to ask and answer.

Example: 1. *Can you wear a cap in class at school?*

No, you can't / mustn't wear a cap in class at school.

4 A. Read the email from Lynn's cousin Sarah in England.

- B. 6.** In pairs, have students use their answers to say the rules for Kosal's school. For example: *You must wear a crash helmet if you ride a scooter to school.*
7. Play the recording again for students to listen and check their answers.
 8. Check some examples together in class.

Answers

Answers might vary. This is OK if the meaning is correct.
*In most cases, it's OK to use **mustn't** or **can't**. However, we usually use **mustn't** for more serious things like number 2.*
1. must 2. mustn't 3. mustn't 4. can't 5. must 6. must 7. mustn't 8. can

Tip! Giving examples with modal verbs.

Modal verbs (*must, can, may, shall, will*) have different meanings and uses. They don't always mean the same thing. In this unit, for example, we use *can* and *can't* to ask about *rules*, or whether something is allowed. For example, we can ask: *Can you wear jewellery at school?*

We can also use *can* and *can't* to mean that someone *knows how to do something*. For example, *Can you speak Thai?* No, *I can't speak Thai*. This is not asking about rules, or whether something is allowed.

So, when teaching modal verbs, teachers have to be careful when giving examples or making questions / activities for class. Not all sentences with *can* (or other modal verbs) have the same meaning.

Answers

1. The first question: *Can you use your mobile phone in class, Channy?*
2. Can you...?
3. The second question: *Do you have to wear a uniform?*
4. Do you have to...?

- B. 4.** Have students look again at the vocabulary in activity 1.
5. Tell students to ask and answer each other about the rules at their school.
 6. Choose two students and have them read the example.
 7. Point out to students that they will need to ask questions with both *can you?* and *do you have to?*
 8. Walk around the classroom, listen, help and correct if necessary.
 9. Check the answers as a class.

Focus on *mustn't* and *don't have to*

Must and *have to* have similar meanings. We usually use *must* when the speaker thinks something is very important, and *have to* when you do something because it's a rule. But the meanings are similar and both mean that it is necessary to do something.

Mustn't and *don't have to* are very different. We use *mustn't* to say: *Don't do it!* It's important because it's bad or dangerous to do it.

We use *don't have to* to say that *it isn't compulsory, you have the choice*. Nobody will make you do it if you don't want to.

3 Grammar: Asking questions about rules

- A. 1.** Tell students to read the two questions in the speech bubbles.
2. Have students answer questions 1 – 4 in pairs.
 3. Check the answers as a class.

B. True or false? Write in your notebook.

Example: *You have to work with all the other kids all the time.*

False

1. You can choose what kind of work you want to do in the classroom. _____
2. You have to study all the time you are in the classroom. _____
3. You mustn't stop working and do nothing. _____
4. You must sit quietly in the classroom all the time. _____
5. You can't take things from the other kids without asking. _____
6. You always have to sit in the same seat. _____
7. You don't have to put your things away when you finish. _____
8. You have to clean up after yourself. _____

C. Correct the false sentences in activity 2B.

Example: *You have to work with all the other kids all the time.*

→ *You don't have to work with the other kids if you don't want to.*

Look

Verbs to give rules

- **must** it's very important that you do it.
- **mustn't** it's very important that you don't do it.
- **can** it's ok if you want to do it.
- **can't** the rules say that you don't do it.
- **have to** the rules say that you do it.
- **don't have to** it is not a rule. It's ok not to do it, if you don't want to.

5 Work in pairs. Compare the rules in Sarah's school with the rules in your school.

Example:

At Sarah's school, you can choose what you want to do.
At our school, you have to do what the teacher says.

At Sarah's school and at our school you
have to tidy up your mess.

work with other kids

choose what you want to do in class

take a rest in class

shout or get angry with each other

touch other students

sit in the same place every day

DISTURB THE OTHER STUDENTS

take things to do by yourself

be polite to each other

MAKE A MESS IN THE CLASSROOM

Session 2

Suggestion: Starting session 2

Ask the students to think about the conversation between Lynn and Kosal that they heard last time. Ask what rules they can remember from Kosal's school.

4 Reading: Different school rules

- A. 1. Tell students to read the email from Lynn's cousin in England.
- B. 2. Tell students to answer questions 1 – 8 in their notebooks.
3. Walk around the class and help if necessary.
4. Check the answers as a class.

Answers

1. True; 2. False; 3. False; 4. False;
5. True; 6. False; 7. False; 8. True

- C. 5. In pairs, tell students to correct the false sentences from activity 4B.
6. Choose two students to read the example.
7. Have students correct the other false rules together in pairs.
8. Walk around the classroom, listen, help and correct if necessary.
9. Check the answers as a class.

Answers

1. (True)
2. You don't have to study all the time you are in the classroom.
3. You don't have to do anything / you can take a rest (if you like).
4. You can talk to the other kids in class / you don't have to sit quietly.
5. (True)
6. You can sit wherever you want / you don't have to sit in the same seat all the time.
7. You have to put your things away (when you finish / at the end).
8. (True)

Tip! Helping weaker students

If there are any students in the class who found the reading difficult, you can go and help them to understand the text and answer the questions while the others are working on the next activity.

Weaker students won't be able to do the next activity well if they haven't understood, and it's better to help them to do one activity well than do several activities without understanding.

5 Speaking: Comparing school rules

1. Have students read the email from Lynn's cousin again – quickly this time. Two or three minutes should be enough.
2. Tell students to find the differences between the rules at Sarah's school and in their own school. They can use the ideas in the box to help them.
3. Choose two students to read the example aloud.
4. Put students in pairs and have them find more differences and take turns to say them.
5. Walk around the class, listen, help and correct if necessary.
6. Ask the class for a few examples. Let each student say only one example.

Suggested answers

1. At Sarah's school, you can take a rest. In our school, you have to study all the time in class.
2. At Sarah's school, you can talk to the other kids in class. At our school, we can't talk to each other in the classroom.
3. At Sarah's school, you can't touch the other kids without asking. At our school, you can touch the other kids.
3. At Sarah's school, you can sit where you want. At our school, you have to sit in your seat.
4. At Sarah's school, you can use things in the classroom by yourself. At our school, you have to ask the teacher.
5. At Sarah's school, you can make a mess, but you have to clean it up. At our school, you mustn't make a mess.

Extension activity: My classroom, my rules!

Tell students to imagine that they are going to be the teacher for a grade 7 English class. In pairs or small groups, have students create a set of rules for their classroom. If there is time and you have big paper and coloured pens, the students can make a "class rules" poster for their classroom wall.

Unit 4, Lesson B

1 A. Read the message for Channy's university trip to Phnom Penh.

History trip to Phnom Penh

Hello everyone, and welcome to the Facebook group for all students who are going on this year's history class trip to the National Museum in Phnom Penh. Here is some information for the trip.

The bus will leave from the bus station at 8:00 am on Sunday morning. It's very important that you are all there at least 20 minutes early. The bus won't wait if you're late – so be on time! Lunch on the way is provided so there is no need to bring a packed lunch. We have already booked the guesthouse so it isn't necessary for you to do that. We have also arranged the museum tickets in advance. Before we go, don't forget to give us your parents' contact details.

Please make sure that you bring a notebook and pens, and if you would like to bring a camera or smartphone, that is fine too. If you don't have one, don't worry. It's not a problem if you don't take photos.

When we are in Phnom Penh, you will have things to do in the daytime but you are free to go out in the evening if you would like to. However, please don't drink alcohol or stay out later than 11pm. Remember that you represent the university while you are there. Never be rude to anyone and don't cause any trouble!

I'm sure that everything will go well and I hope that you all have a good time.

Type a message, @name...

B. Match the words and phrases with the meanings:

- | | |
|-----------------------------|--|
| 1. bus station | a. when you do something before the time that you need to |
| 2. packed lunch | b. describes something that you have to do, or need to do |
| 3. provided | c. telephone number, street address, email address etc. |
| 4. necessary | d. lunch you prepare at home and put in a box to take out. |
| 5. in advance | e. speak or act for the whole university |
| 6. contact details | f. arranged for you or given to you |
| 7. alcohol | g. the place in town where the buses leave from |
| 8. represent the university | h. make problems by being rude, or making someone angry |
| 9. rude | i. not polite |
| 10. cause trouble | j. drinks such as beer and wine |

Aims: To practise understanding and talking about rules in different situations, and to understand and describe signs that give rules.

By the end of 4B, students should be able to:

- understand a message explaining the rules of a class trip.
- ask questions about the rules in a situation.
- understand and explain signs in public places that give rules.
- write a text explaining the rules at the museum.

Session 1

1 **Reading and vocabulary:** Channy's university trip to Phnom Penh

- A.** 1. Tell students that Channy's class are going on a school trip to the National Museum in Phnom Penh.
2. Have students read the message.
- B.** 3. Ask students to match the words on the left with the meanings on the right.
4. Check the answers as a class.

Answers

1. g; 2. d; 3. f; 4. b; 5. a; 6. c; 7. j;
8. e; 9. i; 10. h

2 **Grammar and speaking:** Expressing rules

1. Tell students that there are 16 rules in the message. There are four things that the students *must* do, four that they *can* do, four that they *mustn't*, or *can't* do and four that they *don't have to* do.
2. In pairs, have students find four of the rules using the words in the cloud to help them.
3. Walk around the class, listen help and correct if necessary.
4. Ask students to share their answers with the class.

Answers

- a. Must: arrive early for the bus, bring a notebook and pens, stay out of trouble, give parents' contact details.
- b. Can: bring a camera or smartphone, post on social media, go out in the evening, visit family or friends in PP

- c. Mustn't / can't: be late for the bus, drink alcohol, be rude to anyone, get home later than 11pm
- d. Don't have to: bring a packed lunch for the journey, book a guesthouse, buy museum tickets, take photos

3 **Grammar and speaking:** Asking and answering questions about rules

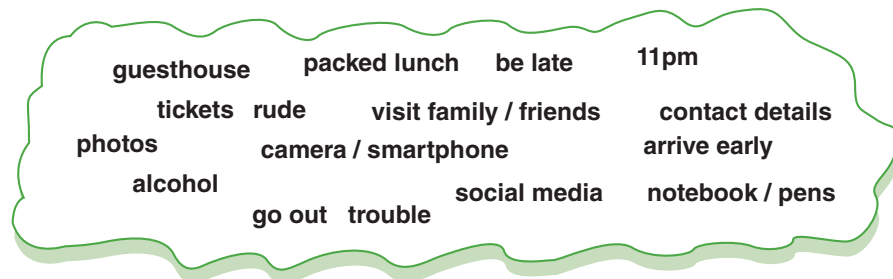

1. Tell students that they will make questions to ask about the rules on the trip.
2. Have students look at the example. Tell them to re-order the words in questions 1 – 8 and write them in their notebooks.
3. Check the answers as a class.
4. Put the students in pairs and have them ask and answer the questions according to the message.
5. Walk around the class, listen, help and correct if necessary.

Answers

1. Do we have to bring a notebook and pens? Yes, we must / have to bring...
2. Do we have to book a guesthouse? No, you don't have to book...
3. Can we arrive late for the bus? No, we mustn't / can't arrive late for the bus; No, we must / have to arrive early / on time.
4. Can we go out in the evening? Yes, we can go out...
5. Can we post photos on social media? Yes, we can post...
6. Do we have to bring a packed lunch? No, we don't have to bring...
7. Can we stay out late in the evening? No, we mustn't / can't stay out...; No, we must / have to be back by 11pm.
8. Do we have to buy tickets for the museum? No we don't have to...

2 Read the message again. Find four things that Channy and the group:

- a. must do b. can do c. mustn't / can't do d. don't have to do

Example: *must:* arrive early for the bus, ...
can: bring a camera or smartphone, ...

3 Work in pairs. Put the words in the right order to make questions. Then, take turns to ask and answer the questions.

Example: *in / Penh? / we / Can / family / friends / visit / Phnom / and*
Can we visit family or friends in Phnom Penh?
Yes, we can visit family and friends in Phnom Penh.

1. Do / notebook / to / pens? / and / bring / a / we / have
2. guesthouse? / have / a / book / Do / to / we
3. the / for / arrive / bus? / late / we / Can
4. evening? / Can / go / the / we / out / Yes, / can / in
5. media? / photos / social / post / Can / we / on
6. packed / lunch? / Do / to / a / have / bring / we
7. in / Can / the / stay / evening? / late / out / we
8. buy / to / we / have / tickets / museum / the / Do / for

4 A. Look at the signs from the museum and answer questions 1 – 3.

- a. Which signs show that you must do something?
- b. Which signs show that you can do something?
- c. Which signs show that you mustn't / can't do something?

Focus on questions with *must* and *have to*

It is possible to make a question with *must*. For example, we can ask: *Must you wear a uniform to school?* This is not wrong, but it is a little old-fashioned and sounds very formal. In modern, conversational English, people usually ask these questions with *have to*: For example: *Do you have to wear a uniform to school?*

Session 2

Suggestion: Starting session 2

Put students in small groups of 2 – 4. With books closed, have them remember as many of the rules for Channy's university trip as the can.

Ask students to share the answers in class.

4 Speaking: Understanding signs

- A.** 1. Have students look at the signs and answer questions 1 – 3.
 2. Check the answers as a class.

Answers

- a. The second five signs; b. The last five signs;
 c. The first five signs

- B.** 3. In pairs, have students take turns matching a sign with a phrase from the box and a rule from the cloud.
 4. Point to the first sign and choose a student to read the example.
 5. Tell students to continue making similar rules for the other signs.
 6. Walk around the class, listen, help and correct if necessary.
 7. Check the answers as a class.

Answers

- 1 - 5 mustn't / can't
 6 - 10 must
 11 - 15 can

5 Listening: Understanding rules

- A.** 1. Tell students that they will hear Channy asking some questions to a worker at the Royal Palace.
 2. Tell students to listen to both the question and the answer.

3. As they listen, students decide what the rules in the palace are using *must* / *can't*, *must*, *can*, *don't have to*.
4. Have students write the answers in their notebooks. They don't have to write the full sentences, just the words that go in the space.
5. Have students check their answers together in pairs or in small groups.
6. Play the recording a second time if necessary.
7. Check the answers as a class.

Answers

1. mustn't / can't 2. must 3. can't 4. can 5. don't have to
 6. don't have to 7. mustn't / can't 8. don't have to 9. mustn't / can't

[Audioscript]

1. **Channy:** Can you eat and drink in the palace?
Guard: No, you aren't allowed to bring food and drinks into the palace.
2. **Channy:** Do you have to put your phone on silent?
Guard: Yes, all phones have to be on silent when you visit the palace.
3. **Channy:** Can you take information leaflets?
Guard: No, there aren't any free leaflets in the palace.
4. **Channy:** Can you ask questions to the people who work there?
Guard: Yes, there are guides and they can answer any questions that you have.
5. **Channy:** Do you have to be quiet inside the palace?
Guard: No, you can talk normally while you're walking around. Just don't make too much noise.
6. **Channy:** Do you have to show your tickets when you go inside?
Guard: No, you buy your ticket at the door and you don't have to show it again.
7. **Channy:** Can you bring dogs into the palace?
Guard: No, dogs are not allowed inside the building.
8. **Channy:** Do you have to make a donation?
Guard: No, a donation isn't necessary, but if you would like to make a donation we will accept it.
9. **Channy:** Can you post pictures of the palace on social media?
Guard: No, posting pictures of the inside on social media isn't allowed.

B. Work in pairs. Take turns making 'rules' with the phrases.

You must you mustn't / you can't you can

post on social media move only in this direction. sit down
stay out of this room eat and drink make a donation
ask questions take an information leaflet be quiet take photos
show your ticket put your phone on silent touch things

Example: (picture 1) *You mustn't touch things in the museum.*

5 Listen to Channy asking questions to a worker at the Royal Palace. Complete the rules for the palace using mustn't/ can't, must or can.

1. You ____ eat or drink in the palace.
2. You ____ put your phone on silent.
3. You ____ take information leaflets.
4. You ____ ask questions to the people who work there.
5. You ____ be quiet inside the palace.
6. You ____ show your ticket when you go inside.
7. You ____ dogs into the palace.
8. You ____ make a donation.
9. You ____ post pictures on social media.

6 Complete the information about the museum rules. Use the signs to help you. Write in your notebook.

“

Museum Rules

When you visit our museum, we really want everyone to have a good time and also to protect the valuable objects that you can see. To help us do this, there are some rules that we ask everyone to follow.

You can't touch the objects that we have in the museum but you can take...”

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- understand different ways of saying rules.
- ask questions about rules when we go on a trip or visit a public place.
- say what signs we see in public places mean.
- write a text about rules based on these signs.

6 Writing: An information leaflet about rules at the museum

1. Tell students to look at the information leaflet from the museum in their books.
2. Have them read the start of the text about the rules in the museum.
3. Ask students to copy the text from: *You can't touch the objects...* into their notebooks.
4. Tell students to continue the text, using the rules in the signs to help them.
5. Remind students that it's a good idea to outline the text first. In this case, they should decide what rules they want to write, and in what order.
6. Have students write their texts.
7. Allow them to help each other and ask each other questions.
8. Walk around the class, read, help and correct if necessary.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learned, they will become better learners.
4. For more ideas on how to do this, please see page V.

Tip! Working on writing

When students write in class, teachers often wait for the students to finish writing, then they collect the texts, mark them out of class and return them later. The problem is that the students are no longer thinking about their text, they don't read the feedback and don't learn anything.

It is a good idea to move around the classroom while the students are writing. Allow them a few minutes to get started, then go around and look at their writing. Point to any mistakes and ask the students if they can find what is wrong or correct it themselves. If not, try to give them clues to help them work it out.

Extension activity:

Tell students to think of other public places that might have rules or signs (for example, airport, police station, library, government buildings).

In groups, have them think of some of the rules that they would expect to see in these places.

UNIT 5

CUSTOMS

5A

- 1 Work in pairs. What can you see? What do you think about this place?

- 2 A. Listen. How does Panha feel about going to Angkor Wat? How does Tim feel?

- B. Listen again. Write the missing word / words.

Example: The teacher wants them to make notes.

1. They can use their _____ to take pictures.
2. They can't _____ the temples on their own.
3. They can't write on the _____.
4. Panha can count from 1 to _____.
5. The bus has a _____.

- 3 Look at the sentences below. Match the sentences with their function.

ability permission request

1. Can I go to the toilet, please?
2. I can count from one to one hundred in English.
3. You can make notes with your phones.

Unit 5, Lesson A : Customs

Aims: To talk about abilities, make offers and requests and ask for permission.

By the end of 5A, students should be able to:

- use *can* to talk about their abilities and make offers and requests.
- use *can* to talk about what they are allowed and not allowed to do in tourist places.
- differentiate *can* for ability, permission and requests and offers.

Session 1

- 1 Lead in: Ta Phrom in Angkor Wat

1. Focus students on the picture. Ask them what temple it is (Ta Phrom) and where it is found (Angkor Wat, Siem Reap).
2. Ask them what they know about this temple (or Angkor Wat). Encourage them to remember their history lessons for this (e.g. When was it built? Who built it?).
3. Listening: School trip to Angkor Wat

- 2 Listening: A school trip

- A. 1. Tell students that Tim has a new classmate and friend. His name is Panha. Tell the students that Tim and Panha are going on a school trip to Angkor Wat.
2. Ask if they have ever been on a school trip before to Angkor Wat or somewhere else.
3. Ask students to listen and say how Tim and Panha feel about going to Angkor Wat (Panha – bored; Tim – excited).
4. Play the recording.
5. Check answers as a class.

[Audioscript]

Tim: Oh, this is exciting! I've seen Angkor Wat many times but I'm always excited.

Panha (Cambodian classmate): Really? But we've been there many times – a thousand times. I don't want to go. I think it will be boring.

Tim: Oh, but we're going with the whole class! All 60 of us – that's a lot! And we have a tour guide this time. I've never been there with a tour guide before.

Panha: Yeah. OK. Our tour guide is our history teacher. How cool is that?
[while on the bus – traffic noise slightly audible]

Teacher: Now, children, do you have your notebooks and pens with you? I'd

like you to make notes of all the things you will learn today. You can use your phones to make notes if you want. You can also take pictures but remember to be careful all the time. Next reminder – you can't go around the temples on your own. Stay with the group and lastly, you can't write anything on the stones. Now, Panha, can you count well?

Panha: Oh yes, Mrs. Sok. Certainly. I can count from one to one hundred in English!

Teacher: Good. Can you make sure the group stays together?

Panha: Yes, Mrs. Sok. I will make sure 60 students are together all the time.

Tim: Excuse me, Mrs. Sok. Can I go to the toilet please?

Teacher: Really? On the bus? [laughter]

Teacher: I guess you're lucky. This bus has a toilet at the back. You can go to the toilet before we reach the temples.

B. 6. Ask students to listen again and complete the sentences.

7. Ask them to write the missing words in their notebooks.

8. Check answers as a class. For this, you might want to ask some of your students to write the answers on the board.

Answers

1. phones
2. go around
3. stones
4. one hundred / 100
5. toilet

- 3 Grammar : *Can* for ability, permission and requests

1. Ask students to match the words with the sentences.
2. You might want to write these on the board too.

4 A. Match the sentences.

- | | |
|--|---|
| 1. Can you speak more slowly, please? | a. I can't remember it. |
| 2. Can you tell me your name again? | b. No, I can't. My mum gets mad. |
| 3. Can you talk loudly in class? | c. No, you can't. |
| 4. Can you watch TV until 11 PM? | d. I can't understand you. |
| 5. Can your father cook? | e. Yes, you can. It means 'go'. |
| 6. Can you drive when the green light is on? | f. No. You can only wear your school uniform. |
| 7. Can we wear a dress to school? | g. Yes, he can. |

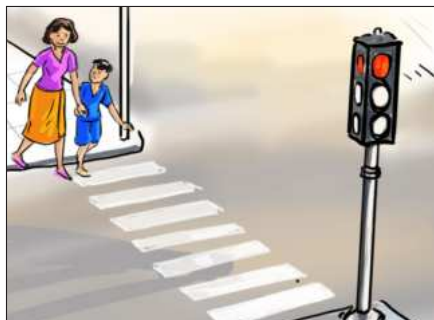

Example: 1 – d

B. Now decide which of the questions in activity 4A are about permission, ability and requests. Write in your notebook.

permission	requests	ability
	Can you speak more slowly, please?	

C. Work in pairs. Practise asking and answering the questions in activity 4A.

5 Look at the pictures. Write sentences using can.

Answers

- Can I go to the toilet, please? - request
- I can count from one to one million. - ability
- You can make notes with your phones. - permission

Focus on can for permission

This unit focuses on the use of *can* for permission. Using *can* for ability and making requests and offers were introduced in Grade 10 and in unit 4 of this book. If your students need extra support in differentiating the three uses of *can*, it might be a good idea to go back and use some of the material in Grade 10 for this.

4 Grammar: Matching sentences

- Ask students to read the sentences and match them.
- Ask students to compare their answers then check them as a class.

Answers

- d;
- a;
- c;
- b;
- g;
- e;
- f.

Session 2

Suggestion: Starting session 2

To start the class, brainstorm some ideas about how your class would be different if they had a different teacher (an alien teacher? a foreign teacher). Encourage students to decide what they can and can't do in this case. Write their ideas on the board and have a vote to determine which 'rule' is the most popular.

- Now ask students to draw a table in their notebook. Ask them to write the sentences in the correct column.
- Go around to check that students are on task.

Answers

permission	requests	ability
Can you talk loudly in class?	Can you speak more slowly, please?	Can your father cook?
Can you watch TV until 11 PM?	Can you tell me your name again?	
Can you drive when the green light is on?		
Can we wear a dress to school?		

- In pairs, ask students to practise asking and answering the questions in activity 4A.
- If you have a strong class, encourage them to give different answers.

- 6 A. Look at the picture. Make notes about what you *can* and *can't* do at the Royal Palace.

'can' and 'can't

Example: *can't - wear shorts*

- B. Work in pairs. Give your list to your partner. Your partner will write the sentences.

Example: *You can't wear shorts at the Royal Palace.*

- 5  **Writing:** *Can* for permission

1. Ask students to look at the pictures. Ask questions about each of them (e.g. What can they see? Where are the people in the picture?)
2. Tell students to write sentences using *can*.
3. You can ask students to work individually or with a partner. If you have a weak class, it's a good idea to let your students do this in pairs.

Answers

1. You can't cross the street.
2. You can see the doctor now.
3. Can I take this call?
4. We / You can't turn left here.

NOTE: Your students might come up with slightly different answers. Accept them as long as they are grammatically correct and make sense.

- 6 **Writing :** What you can and can't do at the Royal Palace

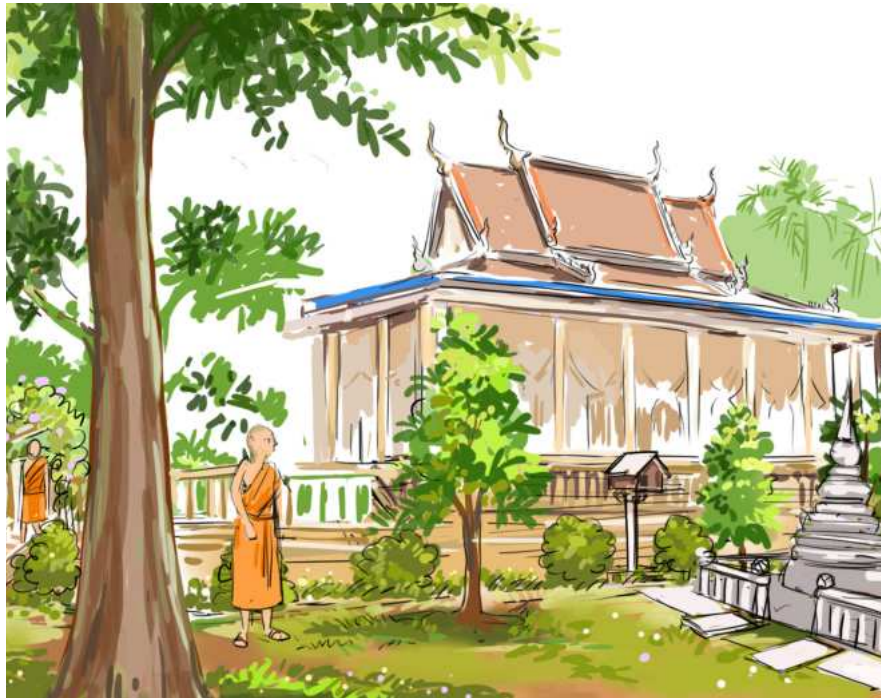

- A.** 1. Ask students to think about some of the things they can and can't do at the Royal Palace.
2. If your students have never been there or have no idea what to do and what not to do, encourage them to guess and make notes. It might also be a good idea to put them in groups if this is the case.
- B.** 3. Ask them to swap notes with other pairs / groups.
4. Tell your students to write full sentences using the notes that they have.
5. Go around and help some of your students who might find this activity difficult.

Extension activity: What can you do at a museum?

In groups, ask your students to write sentences about what they can and can't do in a museum. To make this more exciting, you can set a time limit. The group that has written the most number of sentences wins. You can also ask some of your students to write their sentences on the board. Check for spelling and grammatical accuracy as a class.

Unit 5, Lesson B

- 1 Have you ever been to a pagoda? What do you see there? Tell your partner.

- 2 Game! Work in pairs. What can you see in the picture above? Write words in your notebook. The pair that writes the most words wins!

Example: trees

Aims: To talk about social norms and customs.

By the end of 5B, students should be able to:

- talk about their customs using *should* and *shouldn't*.
- give advice on Cambodian culture using *should* and *shouldn't*.

Session 1

- 1 **Lead in:** Pagoda picture

1. Focus students' attention on the picture.
2. Put students in pairs. Ask them to talk about the questions.
4. For feedback, ask students about what they do in pagodas and how often they go.

- 2 **Game:** Pictures and words

1. Put students in groups.
2. Ask them to write down the things they can see in the picture in activity 1. Ask them to write as many as they can.
3. To make this game more exciting, you might want to set a time limit. The team that has written the most number of words wins.
4. For feedback, you might want to correct some of the words they spelt wrong. Write the correct spelling on the board.

- 3 **Reading:** Pagodas in Cambodia

- A.1.** Ask students to read the text quickly.
 2. Ask them to match the words with the pictures. Tell them not to worry about all the other words they don't understand. Encourage them to guess whenever they can.
 3. Check the answers as a class.

Answers

A. pray; B. jar; C. monk; D. carvings

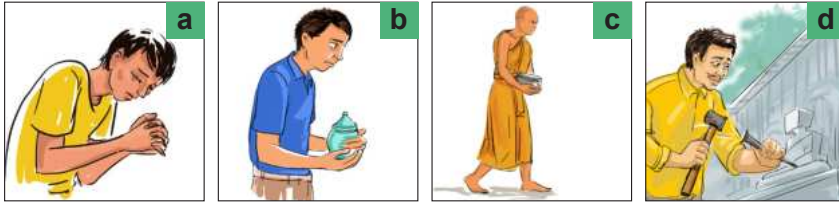

- B.4.** Ask students to read the text again. Give them more time to do this.
 5. Tell them to put a tick or a cross next to the sentences. Tell them to write in their notebooks.
 6. Check the answers as a class.

Answers

1. ✗; 2. ✗; 3. ✓; 4. ✓

3 A. Read the text. Match the words with the pictures.

carvings jar pray monk

Pagodas in Cambodia

Cambodia has a lot of temples, or pagodas. Cambodians visit them regularly, but more during important festivals such as Khmer New Year and Pchum Ben. There are about 5,000 pagodas around the country. These temples are really important. A lot of these temples were built by famous kings and queens in the past. Some also have carvings on the walls that tell us how people lived a long time ago.

So, you should go to a pagoda when you visit Cambodia. You will understand more about how people in this country live. When you visit a pagoda, you should take your shoes off and leave them by the door. It's also important to dress appropriately. For example, you shouldn't wear shorts. Also, it's a good idea to take your hat off when you are inside a pagoda. During important festivals such as Pchum Ben, you must bring food to the monks. You should put some rice in their jars. When you hand them to the monks, you should do so with both hands, not just one. Finally, if you go with your friends or family, remember to be quiet. You shouldn't be too noisy as people will be praying.

B. Read again. Put a ✓ or a ✗.

Example: You should take off your shoes when you visit a pagoda. ✓

1. It's OK to wear your hat inside a pagoda.
2. You shouldn't put rice in the jars.
3. You shouldn't talk loudly.
4. You should offer food to the monks with both hands.

4 Read the sentences below. Complete the rules.

1. You should / shouldn't wear a hat inside a pagoda.
2. You should / shouldn't visit some pagodas during Khmer New Year.
3. If you offer food to a monk, you should / shouldn't do so with both hands.

- We use _____ or _____ to give advice about our traditions and how we normally do things.
- We can use *should / shouldn't* with he / she / I / _____ / _____ / _____.

4 Grammar: Should and shouldn't

1. Ask students to read the sentences and write should and shouldn't and complete the rules in their notebooks.
2. Refer them to the text in activity 3A if necessary.
3. Ask students what they remember about this grammar point – this was covered in Unit 3. In this unit, they learnt about using should and shouldn't to make suggestions.
4. Tell them that should and shouldn't can also be used to give advice about traditions and how different groups of people normally do things.

Answers

1. shouldn't
2. should
3. should

We use should or shouldn't to give advice about our traditions and how we normally do things.

We can use should and shouldn't with he / she / I / you / we / they

Session 2

Suggestion: Starting session 2

To start the class, choose a common Cambodian festival (e.g. Khmer New Year, Water Festival) and ask them what they should and shouldn't do during this festival. You can do this in groups. You can ask some of your students to tell you what advice they have written down. Ask the class to vote for the most interesting / useful / funniest advice.

5 Writing: Should and shouldn't

1. Ask students to work in pairs. Ask them to look at the pictures and the text.
2. As a class, go through the pictures quickly with them. Ask what they can see. Ask some of your students to read the text under each picture.
3. Ask them to write sentence using should and shouldn't in their notebooks.
4. Monitor and help your students with any vocabulary they might need.
5. Check answers as a class.

Answers

1. You should knock on the door when you visit someone's home.
2. You shouldn't touch a monk.
3. You should put money in an envelope when you go to a wedding.
4. You shouldn't be rude to old people.
5. You should have dinner together with your family.
6. You shouldn't take a baby for a walk.

NOTE: These are just possible answers. Your students might come up with slightly different answers. Accept other answers that are grammatically correct and make sense.

Tip! Using L1 in class

Encouraging your students to use English in class is always a good idea. Practise makes perfect – and the only time students get to practise their English is while they are in class. Encourage your students to use English in class as much as you can. However, sometimes it's difficult to use English only in class. For example, there might be some activities that are difficult to do using English alone. Sometimes, your students might feel stressed too. Some of your very good students might also try to explain some concepts in Khmer to help their friends who did not understand. In these circumstances, it might be better to let them think or use Khmer, but always remember – practise makes perfect!

5 Work in pairs. Write sentences using *should* and *shouldn't*.

visit someone's home?

meet a monk?

go to a wedding?

meet an older person?

eat together?

When a new baby is born?

6 Complete the sentences with words in the box. Write in your notebook.

should leave shouldn't shake hands shouldn't write should take off
should call shouldn't make should pay

Example: *In Cambodia, you shouldn't shake hands with a monk.*

1. In Korea, you _____ someone's name with red ink.
2. In the UK, you _____ a noise when eating soup.
3. In Germany, you _____ your co-workers by their family name.
4. In the Philippines, you _____ the bill when you invite your friends for dinner.
5. In Cambodia, you _____ your chopsticks together on top of the bowl after meals.
6. In Japan, you _____ your shoes before you enter a house.

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- make requests and ask permission using can.
- talk about what one can and can't do when visiting places of interests.
- give advice on our traditions and how we normally do things.

6 Grammar : Social norms in other countries

1. Let students work in pairs for this activity to encourage discussion.
2. Ask students to read the sentences and match the words in the box with the sentences. Ask them to write in their notebooks.
3. Encourage them to guess if they are not familiar with the countries and their traditions or social norms.
4. Check answers as class. For feedback, you might also want to ask your students which of these they found funny / interesting / surprising / scary.

Answers

1. In Korea, you shouldn't write someone's name with red ink.
2. In the UK, you shouldn't make a noise when eating soup.
3. In Germany, you should call your co-workers by their family name.
4. In the Philippines, you should pay the bill when you invite your friends for dinner.
5. In Cambodia, you should leave your chopsticks together on top of the bowl after meals.
6. In Japan, you should take off your shoes before you enter a house.

Extension activity: Social norms in other countries

Put students in groups. Ask them to think of other countries they know and write about their traditions / social norms using *should* and *shouldn't*. You can also set this for homework. Students can use their mobile phones and the internet to do research.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
3. For more ideas on how to do this, please see page V.

UNIT 6

REVIEW

1 A. Look at the answers. Write the questions.

I like listening to music in my free time.
Panha enjoys jogging. *MY MUM'S FAVOURITE FOOD IS BEEF SOUP.*
I WAKE UP AT 6:00 AM EVERYDAY. **Jane loves singing.**
MY COUSIN'S REALLY GOOD AT MATHS.

Example: *What do you like doing in your free time?*

B. Work in pairs. Ask your partner the questions in activity 1A. Give your own answers.

What do you like doing in your free time?

I like listening to music.

2 Read Richard's email to his parents in England. Fill in gaps with the verbs in brackets in either present or past simple. Write the answers in your notebook.

New Message

To: _____ Cc: Bcc

Subject: _____

Dear mum and dad;

Sorry for not writing this email after we got (get) back last week! Vicki and I 1. _____ (be) both very busy. But we 2. _____ (miss) you guys so much! Tim and Lynn 3. _____ (keep) talking about you all the time. The kids 4. _____ (have) a wonderful holiday with you in England and 5. _____ (enjoy) their time in London with their uncle a lot. Yesterday 6. _____ (be) Vicki's birthday and we 7. _____ (go) out for a nice dinner. Vicki always 8. _____ (cook) delicious food at home for any of our birthdays, but I 9. _____ (not want) her to do it on her own birthday yesterday. We usually 10. _____ (go) to our same favourite restaurant, but last night we 11. _____ (not eat) there. We 12. _____ (go) to a new Italian restaurant in town and the food 13. _____ (be) delicious. Tim and Lynn will be back to school soon. They 14. _____ (be) very excited to start their new school year. That's for all. I'll write to you soon again.

Loves;
 Richard

Unit 6 : Review

Aims: To review vocabulary and grammatical structures introduced in Units 1-5.

By the end of 6, students should be able to:

- give basic descriptions of their friends and family and themselves.
- describe what they did in the holidays in the past.
- give directions.
- give suggestions using *should / shouldn't*.
- talk about rules and permissions using *can/can't* and *must/mustn't*.

1 Writing: Making questions

1. Read the sentences/answers together as a class.
2. Ask students to write questions to those answers.

Answers

I like listening to music in my free time.
 → What do you like doing in your free time?
 Panha enjoys jogging.
 → What does Panha enjoy doing?
 I wake up at 6:00 am everyday.
 → What time do you wake up everyday?
 Jane loves singing.
 → What does Jane love doing?
 My cousin's really good at maths.
 → What is your cousin good at?

2 Reading: Filling in the gaps

1. Tell students to look at the text.
2. Ask students some warm-up questions such as: What is the reading about? Who is writing to who?
3. Tell students to fill in the gaps with the correct form of the given verbs in the brackets.
4. Emphasise that all the verbs have to be in either present simple or past simple and when there is *not* in the brackets, it means negative.

Answers

1. are; 2. miss; 3. keep; 4. had; 5. enjoyed; 6. was; 7. went; 8. cooks; 9. didn't want; 10. go; 11. didn't eat; 12. went; 13. was; 14. are

B. 3. Put students in pairs.

4. Ask students to ask and answer the questions in activity 1A.
5. Tell students to take turns.

Tip! Review

Review time is important. Students don't always learn everything the first time. As a teacher, we need to give them plenty of time to practise and show what they already know.

If you don't have enough time to do all the activities in this review section, you can set them for homework. Encourage your students to focus on the activities that they find particularly difficult. Encourage them to ask questions and work with their friends in class.

- 3 A. What does each sign mean? Make sentences using *must* or *mustn't*. Write the answers in your notebook.

Example:

You must not make noise.

1. _____

2. _____

3. _____

4. _____

5. _____

- B. Think of three traffic signs you know. Draw the signs and write sentences using *must* or *mustn't* describing them.

Example:

You mustn't turn left.

- 4 Choose the correct answers. Write the answers in your notebook.

Example: You should wear / must wear a raincoat on the way home when it rains.

- In Cambodia, when we meet people who are older than us, we *shouldn't* / *should* greet them properly.
- Food is not allowed in class. Nita *can* / *can't* bring any cookies to class tomorrow.
- According to our Cambodian custom, women *must* / *mustn't* touch monks.
- Sophal always has toothache. He *should* / *shouldn't* eat too much ice cream.
- As a rule, to check in at any hotel here, foreigners *should* / *must* show their passports.
- You *shouldn't* / *can't* talk during exams.
- You *mustn't* / *shouldn't* cross the road when traffic light is red.

- 3 Writing: Understanding signs

- A.
- Tell students to look at the signs.
 - Ask students if they can remember what the signs mean.
 - Tell students to write sentences to tell what the signs mean using *must* or *mustn't*.
 - Give students some hints if they cannot seem to find the verbs to write. Here are some hints you can write on the board: eat or drink, use mobile phone, go one way, enter, bring your pet in.

Answers

- You mustn't bring your pet in.
- You mustn't eat or drink.
- You must go one way only.
- You mustn't enter.
- You mustn't use your phone. or You must turn off your phone.

- B.
- Tell students to think of three traffic signs they know.
 - Ask students to draw the signs in their notebook.
 - Tell students to write sentences to describe the traffic signs they draw using *must* or *mustn't*.

- 4 Grammar: Choosing correct answers

- Tell students to read the sentences.
- Ask students to choose the correct answer for each sentence.
- Tell students to compare their answers if there is time.

Answers

- should; 2. can't; 3. mustn't; 4. shouldn't eat; 5. must; 6. can't; 7. mustn't

- 5 A. You are at a pagoda. Describe how to get to different places below. Write the answers in your notebook.**

1. How do you get to the cinema?
2. How do you get to the museum?
3. How do you get to the post office?
4. How do you get to the bank?

- B. Work in pairs. Think of two common places in your city or village. Ask your partner to describe how to get there from your school.**

Example:

Student A: *How do you get to the market?*

Student B: *First, you turn left on the main road, go straight, and ...*

- 5 Speaking:** Giving directions

- A.**
1. Tell students to look at the map.
 2. Ask students if they can remember this map from previous unit.
 3. Tell students to write directions of how to get to different places and the starting point is the pagoda.
 4. Emphasise that there can be more than one correct answer.

Answers

1. Cinema: First, turn right and go straight. Then turn left on the first road and go straight until you see the shopping mall. Next, turn left at the shopping mall and go straight. The cinema is on your right.
2. Museum: First, turn right and go straight. Keep going straight and turn left on the second road. The museum is on left in front of the bridge.
3. Post office: First, turn right and go straight. Then turn left on the first road and go straight until you see a railway station. Next, turn right and go straight. The post office is on your left.
4. Bank: First, turn left and go straight. Then turn right on the first road. Next, go around the roundabout and go straight until you see the traffic lights. Turn left at the traffic light and the bank is on your left.

- B.** 5. Put students in pairs.

6. Ask students to think of two places that are common in their village or city.
7. Tell students to take turns asking each other how to get to those places.
8. Emphasise that students should pick the places that they are sure everyone in their class knows.

- 6 A. Imagine you are a tour guide for a group of foreigners. You are bringing them to Wat Phnom and this is a rainy season. Tell them some rules and suggestions!**

Example: *You should bring a raincoat or an umbrella with you.*

- B. Work in pairs. Compare your answers. Do you have similar ideas or do you have something different?**

- 7 Race against time! Who can find the answers first?**

1. Which country celebrates Mother's day on the fourth Sunday of March? (Unit 1)
2. Who did Lynn and Tim stay with during their holiday in London? (Unit 2)
3. Who doesn't look well in (Unit 3)?
4. Where are Channy and her university classmates going to in (Unit 4)?
5. When is Paul coming to visit you in (Unit 5)?

- 6 Writing:** Giving suggestions and rules

- A.**
1. Tell students they have to pretend to be a tour guide for a group of foreigners and they are going to Wat Phnom.
 2. Ask students to think of the rules and suggestions to tell the group tour.
 3. Tell students to use *should/shouldn't* for suggestions and *must/mustn't* for rules.
 4. Emphasise there are no right or wrong answers.
- B.**
5. Put students in pairs.
 6. Tell students to share and compare their answers for activity 6A.
 7. Ask students if they have similar suggestions or rules.

- 7 Race against time:** Looking back at Units 1-5

1. Tell students to look for the answers to the questions.
2. Encourage them to go back and refer to the previous units.
3. You can make this more fun by asking your students to work in pairs or groups. You can also set a time limit. The first pair / group to find all the answers wins!

Answers

1. In U.K.; 2. Their uncle; 3. Richard; 4. National Museum in Phnom Penh; 5. On Pchum Ben

Extension activity: Role play

If there is more time, you can ask students to do a small role play by putting them in small groups. Similar to activity 6, ask one student to be a tour guide and the rest of the team to pretend to be foreigners. You can do this by having the same place as activity 6 (Wat Phnom) or select a new location for them. The tour guide has to give suggestions and rules while the foreigner can ask questions such as "Can we wear hats inside ..?" or "Must we take off our shoes?" . etc.

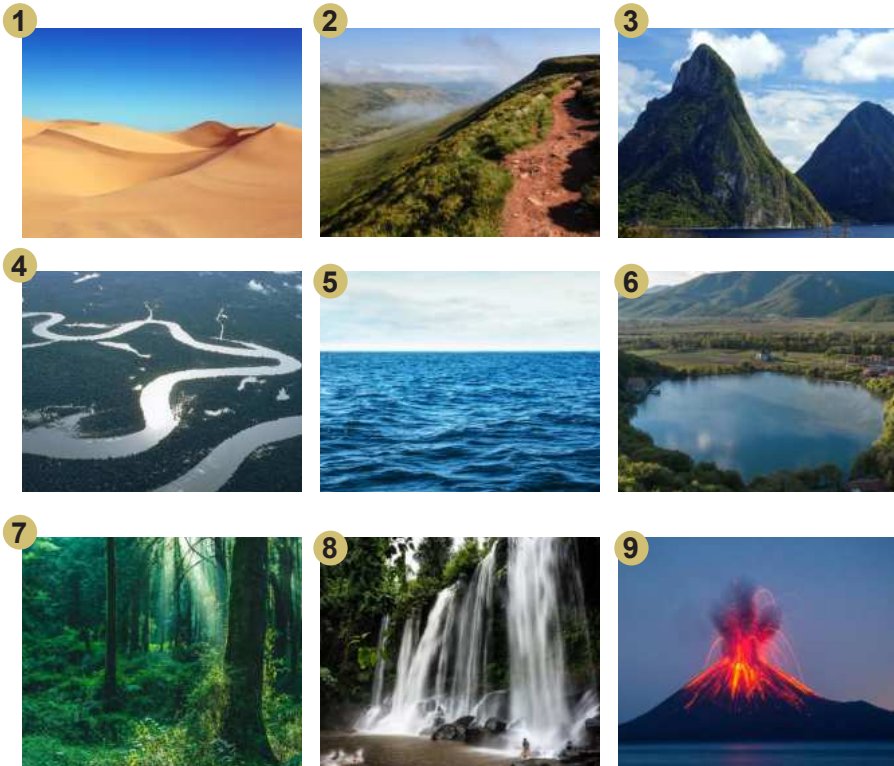

UNIT 7

THE WORLD AROUND US

7A

1 A. Match the words to the photos.

ocean lake river desert volcano
mountain waterfall forest hill

B. Listen, check and repeat.

Unit 7, Lesson A : The world around us

Aims: To compare and contrast different natural places.

By the end of 7A, students should be able to:

- name some common natural places on earth.
- make sentences using comparatives.
- make a poster and give a short presentation about the similarities and differences of two places.

Session 1

1 Vocabulary: Matching

- A.** 1. Tell students to look at the photos and the words in the box.
2. Get students to match them.
3. Have students compare answers with their partner.

Answers

1. desert; 2. hill; 3. mountain; 4. river;
5. ocean; 6. lake; 7. forest; 8. waterfall;
9. volcano

- B.** 4. Get students to listen to the recording and check the answers.
5. Pause after each word for students to repeat.
6. Write the answers on the board.

[Audioscript]

desert, hill, mountain, river, ocean, lake, forest, waterfall, volcano

2 Listening: Fill in the gaps

- A.** 1. Have students look at the picture and discuss about the people and their action.
2. Ask some students to share the answers in class.
3. Tell students to check the answers by themselves while listening to the recording.
B. 4. Get students to copy the five words into their notebook.
5. Tell students to listen and write down the sentences that are used to describe the five words. These sentences will appear before the words.
6. Play the recording again and check the answers as a class.

Answers

1. desert: It's drier than normal land.
2. hill: It's smaller than a mountain, but it's higher than the ground.
3. forest: it's a place that has taller and bigger trees than a park. It also has more trees than a park.
4. ocean: It's bigger and saltier than a lake.
5. volcano: It's higher than a hill and more explosive than a small bomb.

[Audioscript]

Tim: Let's play a game. I'm so bored!!!

Kosal: Yeah sure. Let's play guess what? I'll start first. It's a place that is drier than normal land.

Tim: emmm.....a desert?

Kosal: Correct!

Tim: My turn. It's smaller than a mountain, but it's higher than the ground.

Kosal: Is it a hill?

Tim: Yes!!

Kosal: Ok, so it's a place that has taller and bigger trees than a park.

Tim: hmmm...I don't know this one.

Kosal: I'll give you another hint. It also has more trees than a park.

Tim: hmmm...somewhere that has more trees?

Kosal: ...It's a forest!

Tim: Ohhhh! Ok, next one. It's bigger and saltier than a lake.

Kosal: Easy. It's the ocean. Then...oh! My mom's here.

Tim: NO! One more time!

Kosal: Ok, fine. It's higher than a hill and more explosive than a small bomb.

Tim: Is it a volcano?

Kosal: Yes, that's correct. Congratulations, Tim! See you tomorrow!! Bye!!

2 A. Look at the picture. Who are they and what are they doing?

It's drier than normal land.

B. Tim and Kosal are playing a game called *Guess what?* Listen and write the sentences they use to describe the places below.

1. desert: *It's drier than normal land.*
2. hill: It's _____, but it's _____.
3. forest: It's a place that has _____...It also has _____.
4. ocean: It's _____.
5. volcano: It's _____.

3 A. Circle the correct comparatives.

Example: dry – drier / more dry

1. deep: deeper / more deep
2. large: larger / more large
3. beautiful: beautifuler / more beautiful
4. salty: saltier / more salty
5. explosive: explosiver / more explosive
6. wild: wilder / more wild
7. refreshing: refreshinger / more refreshing

B. Work in pairs and discuss why we use comparatives.

4 Complete the gaps below using the comparatives from activity 3.

1. The garden in our school is _____ than my garden.
2. The animals in the forest are _____ than our pets.
3. That hill is _____ than my house.
4. Relaxing at the beach is _____ than staying at home.
5. Nothing is _____ than when the volcano explodes.
6. Don't swim too far from the shore because the sea water is _____ there.
7. The city of Luxor in Egypt is _____ than the city of Ica in Peru.
8. The Atlantic Ocean is _____ than the Pacific Ocean.

3 Grammar: Circle the correct comparatives

- A.
1. Tell students to read the words and circle the ones they think are correct.
 2. Tell students to check the answers from the last activity for help if needed.
 3. Check the answers as a class and write them on the board.

Answers

1. deeper; 2. larger; 3. more beautiful;
4. saltier; 5. more explosive; 6. wilder;
7. more refreshing

- B.
4. Put students in pairs.
 5. Tell students to read all the sentences with comparatives from this unit again.
 6. Have students discuss the use of comparatives.
 7. Ask some students to share the answers in class.
 8. Check the answers as a class.

Answers

We use comparatives to compare between two things. It can be about their size, weight, etc.

Focus on the various forms of comparatives

-If the adjective is one syllable, we add *-er*.

Example: *thick – thicker*

-If the adjective is two syllables that ends with *-y*, we delete *-y* and add *-ier*.

Example: *pretty – prettier*

-If the adjective is more than two syllables or a past participle (V3), we add *more* in front of it.

Example: *relaxing – more relaxing*,
interested – more interested

Session 2

Suggestion: Starting session 2

To start the class, you can select students randomly and give them an adjective each to turn into comparatives. If the class wants a bigger challenge, you can ask them to make a sentence using comparatives instead.

4 Grammar: Fill in the gaps

1. Tell students to check the answers from activity 3 again.
2. Get students to match those eight comparatives to the sentences in this activity.
3. Have students compare answers with their partner.
4. Check the answers as a class.

Answers

1. more beautiful; 2. wilder; 3. larger;
4. more refreshing; 5. more explosive; 6. deeper;
7. drier; 8. saltier

5 Grammar: Completing the gaps

- A.
1. Have students read the article.
 2. Ask students what the article is about.
 3. Tell students to fill in the gaps with the correct forms of the words provided in the brackets.
 4. Get students to compare answers with other students.

Answers

1. are drier than; 2. has a hotter; 3. the hottest;
4. are also more difficult; 5. more dangerous;
6. has more; 7. is hotter;
8. is smaller than; 9. are more important than;
10. larger; 11. more

Focus on the use of article *the*

-We put *The* before things that are one of a kind or name.

Example: *the* Sun, *the* Sahara

-We don't put *The* before continents.

Example: Antarctica, Asia

- B.
5. Get students to listen to the recording and check their answers.
 6. Check the answers as a class.

5 A. Read the article and write the correct form in the gaps.

ANTARCTICA VS THE SAHARA

The Antarctic desert and the Sahara desert are drier than (be / dry / than) other types of land with barely any precipitation (snow or rain, etc.) every year. While the cold desert, Antarctica, is covered by a huge sheet of ice with the temperatures between -10°C and -60°C , the Sahara _____ (have / a / hot) temperature around 40°C - 47°C making it one of _____ (hot) desert. These areas _____ (be / also / difficult) and _____ (dangerous) to live in for most humans and animals. Only 2% of Antarctica isn't fully covered by ice, and that is where seals, penguins, and other birds live. In contrast, the Sahara is full of sand, but it _____ (have / more) types of plants and animals such as snakes, lizards, cheetahs, camels, date palms, etc. Although the Sahara _____ (be / hot), it has a population of approximately 2.5 million people; whereas Antarctica's population _____ (be / small / than) 5000, and they are mostly researchers. Despite the terrible conditions, these two deserts _____ (be / important / than) we think. The Antarctica's ice sheet stores a _____ (large) amount of freshwater than other places on earth, and the deserts could provide _____ (more) solar energy (from the sun), which could be used for clean energy.

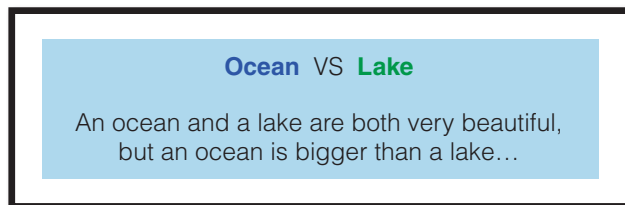

B. Listen and check.

C. Work in groups. Divide into team A and B. Read the article again and answer the questions.

Team A – Go to page 191.

Team B – Go to page 194.

6 A. Work in groups. Choose two places and make a poster to compare the places. Make at least five comparisons.

B. Walk around the class and tell other students about your comparison.

[Audioscript]

The Antarctic desert and the Sahara desert are drier than other types of land with barely any precipitation (snow or rain, etc.) every year. While the cold desert, Antarctica, is covered by a huge sheet of ice with the temperatures between -10°C and -60°C , the Sahara has a hotter temperature around 40°C - 47°C making it one of the hottest desert. These areas are also more difficult and more dangerous to live in for most humans and animals. Only 2% of Antarctica isn't fully covered by ice, and that is where seals, penguins, and other birds live. In contrast, the Sahara is full of sand, but it has more types of plants and animals such as snakes, lizards, cheetahs, camels, date palms, etc. Although the Sahara is hotter, it has a population of approximately 2.5 million people; whereas Antarctica's population is smaller than 5000, and they are mostly researchers. Despite the terrible conditions, these two deserts are more important than we think. The Antarctica's ice sheet stores a larger amount of freshwater than other places on earth, and the deserts could provide more solar energy (from the sun), which could be used for clean energy.

- C. 7. Put students in groups and tell them to choose which students will become team A and B.
8. Tell each team to go to the assigned page and answer the questions.
9. Get team A to ask using team B's questions and check the answers. Then swap roles.
10. Ask some students to share the answers in class.
11. Check the answers as a class.

Answers

Team A

- The article mentions two types of deserts, the cold and the hot desert.
- The average temperature of Antarctica is between -10°C and -60°C .
- The animals that live in the Sahara are snakes, lizards, cheetahs, camels, etc.

Extension activity: Questions and Answers (Q&A)

Tell students to go to the last group they presented their poster to and ask them some questions about their poster. You can tell students to make questions similar to activity 5c. If the group makes a lot of mistakes while answering, they have to read the poster again.

- The population is smaller than 5000 people.
- The deserts could provide more solar energy, which could be used for clean energy.

Team B

- The desert that has an average temperature of around 40 Celsius is the Sahara.
- Antarctica is covered by a huge sheet of ice.
- The animals that live in Antarctica are seals, penguins, and other birds, etc.
- It has a population of approximately 2.5 million people.
- Antarctica's ice sheet is important because it stores a larger amount of freshwater than other places on earth.

6 Writing and Speaking: Comparing two places

- A. 1. Put students in the same or new groups.
2. Get students to tear out a piece of paper from their notebook or take an A4 sheet of paper.
3. Tell students to discuss and choose two places that they can compare.
4. Have students look at the poster in the textbook and make similar one with at least five comparisons.
5. Walk around the classroom, listen, help and correct if necessary.
- B. 6. Get students in each group to take notes of the poster because they will each have to walk around.
7. Have students stand up, move around and tell other students about their group's poster.
8. Ask some students to present to the class.

1 A. Find the words in the chain for the animals in the photos.

ka h d o h a m s t e r p u e b a l l i g a t o r b v a u c h e e t a h a o n h i p p o t a m u s p c r a b b i t w s c o r p i o n

B. Work in pairs. Which animal is more dangerous? Why?

C. en, check and repeat.

2 A. Match the adjectives to the correct definitions.

1. adorable	A. is used to describe anything that has thick and soft fur.
2. dangerous	B. is used to describe anything that causes harm or injury.
3. fluffy	C. is used to describe anything that can be difficult to lift because of the weight.
4. heavy	D. is used to describe anything that is cute.
5. light	E. is used to describe anything that moves very fast.
6. quick	F. is used to describe anything that is easy to lift because of the weight.

B. Work in pairs. Copy the table into your notebook and fill in the gaps.

Adjective	Comparative	Superlative
1. adorable		
2. dangerous		
3. fluffy		
4. heavy		
5. light		
6. quick		

Unit 7, Lesson B

Aims: To describe and compare different animals.

By the end of 7B, students should be able to:

- name some common animals.
- make sentences using comparatives and superlatives.
- describe the similarities and differences of two animals.

Session 1

1 **Vocabulary:** Find the words

- A. 1. Have students look at the photos and ask them to name the animals.
2. Get students to find the names of the animals in the chain.
3. Check the answers as a class.

Answers

1. alligator; 2. scorpion; 3. hippopotamus;
4. cheetah; 5. hamster; 6. rabbit

- B. 4. Put students in pairs.
5. Tell students to discuss and decide which one is more dangerous among the six animals.
C. 6. Get students to listen to the recording and check the answers.
7. Pause after each word for students to repeat.
8. Write the answers on the board.

[Audioscript]

alligator, scorpion, hippopotamus, cheetah, hamster, rabbit

2 **Vocabulary:** Matching adjectives

- A. 1. Tell students to read the adjectives and the definitions.
2. Get students to match and compare answers with their partner.
3. Check the answers as a class.

Answers

1. D; 2. B; 3. A; 4. C; 5. F; 6. E

- B. 4. Put students in pairs.
5. Have students copy the table into their notebook and fill it with comparative and superlative adjectives.
6. Check the answers as a class and write on the board.

Answers

1. more adorable, most adorable; 2. more dangerous, most dangerous; 3. fluffier, fluffiest; 4. heavier, heaviest; 5. lighter, lightest; 6. quicker, quickest

- 3 A. Choose three animals from above and describe them using superlatives.

 A rabbit is the fluffiest animal.

- B. Work in pairs. Tell your partner about the descriptions and let them guess the animals. Then, swap.

It's the fluffiest animal.

Is it a hippopotamus?

- 4 A.  Listen to the radio programme about three types of bears and fill in the gaps with the adjectives.

biggest	fastest	more dangerous	fluffier	scariest
slowest	heavier	most adorable	most dangerous	lighter

Brown bears or grizzlies are from Europe, Asia or North America. They are _____ than pandas but _____ than polar bears. They are _____ than pandas when it comes to protecting their cubs.

Pandas are from China and they are the _____. However, don't let their cuteness deceive you because they are still dangerous, and you won't know when they will attack you. If we talk about speed, pandas are the _____, and grizzlies are the _____.

Polar bears live in places that are very cold such as Russia, Alaska, Canada, Greenland and Norway. They are the _____ and the _____ when they are hungry. They also have the _____ feet compared to the other bears. Since they need to protect themselves from the cold weather, so their fur is _____ than brown bears and pandas.

- 3 Grammar: Describe and guess

- A. 1. Have students choose three of the animals in activity 1 and write three sentences to describe them.
2. Tell students to use only superlatives.
3. Walk around the classroom, read, help and correct if necessary.
- B. 4. Put students in pairs.
5. Get students to say the sentences to their partner without mentioning the animals' names and have their partner guess the animals. Then, swap roles.
6. Walk around the classroom, listen, help and correct if necessary.
7. Ask some students to share the answers in class.

Session 2

Suggestion: Starting session 2

To start the class, you can write 10-15 adjectives on the board and select some students randomly to each write a comparative and a superlative. Suggested adjectives are big, large, small, adorable, dangerous, quick, slow, tall, fluffy, heavy, light, vicious, kind, mean and pretty.

- 4 Listennig: Matching and completing

- A. 1. Ask students to name some different types of bears that they know.
2. Tell students to take a quick look at the instructions and the pictures and ask what the recording is about.
3. Get students to read the adjectives in the box and the article before playing the recording.
4. Have students listen and match the adjectives to the gaps.
5. Tell students that the recording is not in the same order as the article.
6. Check the answers as a class.

Answers

1. heavier; 2. lighter; 3. more dangerous;
4. most adorable; 5. slowest; 6. fastest;
7. most dangerous; 8. scariest;
9. biggest; 10. fluffier

[Audioscript]

Good evening and welcome to DEF radio. I'm your host, Nick, and today we'll be talking about three of the most interesting bears, grizzlies, pandas, and polar bears. Let's start with pandas. They are from China and they are the most adorable animals ever. However, don't let their cuteness deceive you because they are still dangerous, and you won't know when they will attack you. If we talk about speed, pandas are the slowest while grizzlies are the fastest. Moving on to pandas' white and cold brothers, polar bears live in places that are very cold such as Russia, Alaska, Canada, Greenland and Norway. They are the most dangerous and the scariest when they are hungry. They also have the biggest feet compared to the other bears. Since they need to protect themselves from the cold weather, their fur is fluffier than brown bears and pandas. Finally, we have the brown bears or grizzlies. They are from Europe, Asia or North America. They are heavier than pandas but lighter than polar bears. They are more dangerous than pandas when it comes to protecting their cubs. There you have it, folks. Before we move on to our next programme, let's...

- B. 7. Tell students to read and copy the sentences into their notebook.
8. Get students to find the correct type of bears to fill in the gaps.
9. Have students compare answer with their partner.
10. Check the answers as a class.

Answers

1. Pandas are lighter than grizzlies, and polar bears are the heaviest.
2. Grizzlies are more dangerous than pandas when they want to protect their cubs.
3. Polar bears are the most dangerous when they're hungry, and they have the fluffiest fur.
4. Polar bears are faster than pandas, but grizzlies are the fastest.
5. The feet of polar bears are the biggest.

B. Complete the sentences with the information from 4A.

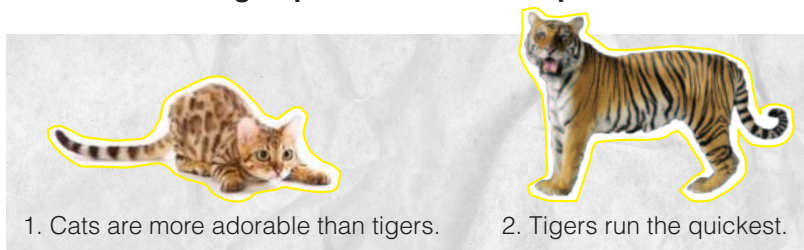

- _____ are lighter than _____, and _____ are the heaviest.
- _____ are more dangerous than _____ when they want to protect their cubs.
- _____ are the most dangerous when they're hungry, and they have the fluffiest fur.
- _____ are faster than _____, but _____ are the fastest.
- The feet of _____ are the biggest.

5 A. Replace the bears in the table above with the animals in activity 1 or other animals. Write the sentences in your notebook.

 *Hamsters are lighter than rabbits, but hippopotamuses are the heaviest.*

B. Work in pairs. Compare your sentences.

6 A. Choose two animals and talk about their similarities and differences using superlatives and comparatives.

B. In small groups, present and ask some questions about your note to your group. Then, swap.

7 How well can you do these things? Write in your notebook.

unhappy  neutral  happy  very happy 

NOW I CAN...

- describe and name some natural places and animals.
- use comparatives or superlatives to describe the similarities and differences of some animals and places.

5 Writing: Comparatives and superlatives

1. Have students look at the table again and rewrite the sentences without the bears.
2. Get students to focus on the comparatives and replace the bears with other animals from this unit or others to fit with the sentences.
3. Tell students to read the example if they still don't understand.
4. Walk around the classroom, read, help and correct if necessary.
5. Put students in pairs.
6. Tell students to compare their sentences with their partner.
7. Students tell partner if the sentences are right or wrong.
8. Ask some students to share the answers in class.

Suggested answers

1. Hamsters are lighter than rabbits, but hippopotamuses are the heaviest.
2. Swans are more dangerous than gorillas when they want to protect their children.
3. Lions are the most dangerous when they're hungry, and they have the fluffiest fur/mane.
4. Horses are faster than tigers, but cheetahs are the fastest.
5. The feet of elephants are the biggest.

Tip! Brainstorming

To help students generate ideas, you can encourage them to *brainstorm*. "Brainstorming" is a way that allows students to write down whatever comes to their mind when they think of the given task/topic. The ideas do not have to be written down in complete sentences. Students can write a single word, phrases, or notes. After that, students can go through what they have written and start to cross out ideas that they think are not good enough or relevant and keep the ones they like.

Extension activity: Say and make

In each group, you can select a student to say a comparative or a superlative and have the next one make a sentence using that adjective. Then you can tell that student to say a new comparative or superlative adjectives and get the next person to make a new sentence. This cycle continues until five minutes are up, or if you think they should stop.

6 Writing and Speaking: Comparing animals

1. Get students to choose two animals they want to compare about.
2. Have students bring out a piece of paper to brainstorm the similarities and differences of the two animals.
3. Tell students to choose the best points from their brainstorm and write three to six sentences.
4. Encourage students to use both comparatives and superlatives.
5. Monitor and help if necessary.
6. Put students in groups.
7. Have students take turns presenting their notes.
8. Encourage students to ask some questions to their group after they finish presenting so that students will pay more attention.
9. Walk around the classroom, listen, help and correct if necessary.
10. Ask some students to present in class.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learnt, they will become better learners.
4. For more ideas on how to do this, please see page V.

UNIT 8

THE NATURAL WORLD

8A

1 Work in pairs. Match the names of the animals with the photos.

turtle cockroach gecko frog mosquito
crocodile toad beetle snake butterfly

Box A

Box B

Box C

2 A. Listen to the radio programme and...

- Write down the names of any animals that you didn't know.
- Decide which box. A, B or C contains which group of animals.

reptiles insects amphibians

B. Listen again and answer the questions. Write the answers in your notebook.

Which animal...

- is a bit like a beetle but it can fly, and people don't like them?
- is pretty and colourful?
- is small and dangerous, and can make people very sick?
- is a green amphibian that can jump?
- is round, lives mostly in the water and people like them?
- is dangerous because it can eat people?
- is common in our houses and eats insects like mosquitoes?

Unit 8, Lesson A : The Natural World

Aims: To learn the names of some common animals and the categories *insect*, *amphibian* and *reptile*.

By the end of 8A, students should be able to:

- name ten common animals in Cambodia.
- say which animals are insects, which are amphibians and which are reptiles.
- make questions about these animals.
- reply to questions with short answers.

Session 1

1 Vocabulary: Common animals in Southeast Asia

- In pairs, have students match the names of the animals to the photos.
- Point to the animals in the book and ask them to say the names.
- Don't give them the correct answers yet.

See answers for activity 2A

2 Listening: A radio programme about animals in Southeast Asia

- A. 1. Tell students that they will listen to a radio programme about the animals in activity 1.
- As they listen, have students check their answers to activity 1 and answer questions 1 and 2.
 - Play the recording.
 - Check the answers as a class.

Answers

1. beetle; 2. cockroach; 3. butterfly;
4. mosquito; 5. frog; 6. toad; 7. crocodile;
8. turtle; 9. snake; 10. gecko

box A: insects; box B: amphibians;
box C: reptiles

- B. 5. Tell students that they will hear the recording again.
- Have students answer questions 1 – 7 as they listen.
 - Check the answers as a class.

Answers

1. a cockroach; 2. a butterfly; 3. a mosquito;
4. a frog; 5. a turtle; 6. a crocodile; 7. a gecko

[Audioscript]

Hello, and welcome to The Natural World.

In today's programme, we are going to talk about some animals that live in Southeast Asia. We are going to talk about three kinds of animal: insects, reptiles and amphibians, and give some examples of them.

So, to begin, let's talk about insects. Insects are small animals with six legs and many of them can fly. They often come into the house, and many people are scared of them.

One kind of insect is the beetle. Beetles can be quite big and fat for insects and are often black, but they don't usually bite or hurt people. Cockroaches are a little similar to beetles and are also big, and many of them have wings and can fly. They come into our houses and they are dirty, so people don't like them and usually kill them. Another kind of insect is the butterfly. Butterflies have big wings that are pretty and colourful and they are good for the flowers. Probably the most common kind of insect is the mosquito. Mosquitoes are very bad for people because they bite us all the time. They are also dangerous because they can make you very sick.

There are also amphibians in Southeast Asia, such as frogs and toads. These animals can live on the land and in the water. Frogs are the most common kind of amphibian. They are green and wet, they eat insects and they move by jumping. People eat frogs. Toads are similar to frogs but they are usually bigger, they are dry and they are grey.

Finally, there are reptiles. Reptiles include crocodiles, turtles, snakes, and geckos. They can be very big or very small. Crocodiles are big and long. They live in the water but they can go on the land. They have big teeth and they are dangerous because they can eat people! Turtles are big and round with four legs. They can swim very well and live mostly in the sea but they go on to the beach to lay eggs. People usually like turtles. Snakes are very common in Southeast Asia too. Snakes are long and thin. They don't have legs and can be very dangerous if they bite you. The last animal for today is the gecko. Geckos are very common and in everyone's house. They are small and green and run up the walls. They don't hurt people and are good in the house because they eat mosquitoes and other insects...

- 3 **Work in pairs and take turns. Choose an animal from activity 1 and match it with the information in boxes 2, and 3. Then, make sentences like the example:**

Example: (1) beetles – (2) insects – (3) black, fat
Beetles are insects. They are black and fat.

2

insects
 reptiles
 amphibians

3

long, dangerous	wet, green
black, fat	small, green
dry, grey	pretty, colourful
long, thin	small, dangerous
big, dirty	big, round

- 4 **A. Match the questions with the answers.**

- | | |
|--|----------------------------|
| 1. Do crocodiles have big teeth? | a. Yes, I am / No, I'm not |
| 2. Are you scared of snakes? | b. No, it isn't. |
| 3. Do butterflies bite people? | c. No, she can't. |
| 4. Is a turtle an insect? | d. Yes, they do. |
| 5. Can frogs jump? | e. Yes, they can. |
| 6. Can Channy swim better than a turtle? | f. No, they don't. |

B. True or false?

- The questions above are all yes / no questions.
- Yes / no questions begin with an auxiliary verb like do, is/am/are, have/has, will, can.
- Yes / no questions begin with a wh- word like what, where, when, why.
- In short answers, we repeat nouns like crocodiles, snakes, Channy.
- In short answers, we use pronouns like I, you, she, it, they.

- 3 **Speaking and vocabulary:** Animals and characteristics

- Tell students to look at the photos from activity 1 and boxes 2 and 3.
- Choose a student to read the example.
- In pairs, tell students to look at the other animals.
- Have students take turns to choose a category from box 2 and a pair of adjectives from box 3, then make sentences similar to the example.
- Walk around the class, listen, help and correct if necessary.
- Check the answers as a class.

Answers (order not important)

- Beetles are insects. They are black and fat.
- Cockroaches are insects. They are big and dirty.
- Butterflies are insects. They are pretty and colourful.
- Mosquitoes are insects. They are small and dangerous.
- Frogs are amphibians. They are wet and green.
- Toads are amphibians. They are dry and grey.
- Crocodiles are reptiles. They are long and dangerous.
- Turtles are reptiles. They are big and round.
- Snakes are reptiles. They are long and thin.
- Geckos are reptiles. They are small and green.

Session 2

Suggestion: Starting session 2

To start the class, the teacher can ask the class what animals they can remember from last lesson, and which category (insect, amphibian, reptile) they are. Students can also name any other animals that they know which fit into these categories.

- 4 **Grammar:** Making yes / no questions

- A. 1. Have students match the questions 1 – 6 with the answers a – f.
 2. Check the answers as a class.

Answers

1. d; 2. a; 3. f; 4. b; 5. e; 6. c

- B. 3. Have students answer the true or false questions 1 – 5.
 4. Write the questions: *Which is your favourite animal?* and *Do you like butterflies* on the board.
 5. Ask students which question we can answer with yes or no. (*Do you like butterflies?*)
 6. Show students that the first question begins with a wh- word and the second begins with a verb. Point out that yes / no questions begin with verbs.
 7. Show them that the first word is yes or no, the second word is a pronoun (*I, you, he, they...*) and the third is the first verb from the question. It can be positive or negative.

Answers

1. true; 2. true; 3. false; 4. false; 5. true

Focus on short answers

There are two common mistakes that students often make with short answers.

The first is that they may use names or nouns instead of pronouns. For example: *Is Kosal scared of snakes? Yes, Kosal is.* We only use pronouns in short answers. So, we say: *Yes, he is.* Pronouns only!

The second is that we only use auxiliary verbs. This is the verb that starts the question. Students particularly get this wrong in the present simple. For example: *Does Lynn like butterflies? Yes, she likes / No, she doesn't like.* We don't use normal verbs in short answers. We have to say: *Yes, she does / No, she doesn't.* Look at the verb that begins the question: **Does** *Lynn like butterflies?* and use the same verb in the short answer.

- 5 Work in pairs. Choose a word from each column to make a question. Take turns to ask and answer the questions. Sometimes you don't need a word from the fourth column.**

Examples: *Are cockroaches amphibians? No, they aren't.*
Do frogs eat insects? Yes, they do.

Do Are Can	beetles cockroaches butterflies mosquitoes frogs toads geckos snakes turtles crocodiles	bite have live eat	come fly run jump	people teeth wings mosquitoes into the house in the water on the land up the walls
		reptiles amphibians insects	green grey big long	
			round dirty dangerous wet	

- 6 Work in pairs. Take turns. Student A: think of an animal from this lesson but don't say it. Student B: ask yes / no questions and then try to guess which animal it is. Then, swap.**

Example:

	Is it an insect?		No, it isn't.
	Does it live in the water?		Yes, it does.
	Is it round?		No, it isn't.
	Can it swim?		Yes, it can.
	Is it dangerous?		Yes, it is.
	Is it a crocodile?		Yes, it is.

- 5 Speaking:** Making yes / no questions and short answers

- Tell students to look at the table with the words.
- Choose two students to read the question and the answer in the first example.
- Repeat with two different students and the second example.
- Show students that these questions are made from the words in the table.
- In pairs, ask students to take turns to ask and answer questions from the words in the table.
- Walk around the classroom, listen, help and correct if necessary.
- Ask some students to share their ideas with the class.

Answers

Answers will vary, but here are some examples:

- Do butterflies live in the water? No, they don't.
- Can turtles jump? No, they can't
- Do mosquitoes bite people? Yes, they do.
- Are crocodiles dangerous? Yes, they are.
- Can butterflies fly? Yes, they can.
- Do frogs live in the water? Yes, they do.
- Can beetles come into the house? Yes, they can.
- Are toads green? No they aren't.
- Do cockroaches eat people? No, they don't.
- Can snakes live in the water? Yes, they can.

Tip! Making a bigger copy of the exercise

If you have a photocopying machine at your school, it could be useful to make a big (A3) size copy of the table to stick on the board. You can use this to point to the words while you demonstrate the example.

If students are finding it difficult, you can use the example answers above and point to the words on your large copy to help them. For example, for number 1, you can point to *butterflies, live, in the water*. Then, have the students make the question and the answer.

Making a large poster is a useful thing to do if you think that you will need to point to things. If you use the book, it may be difficult for students at the back to see.

- 6 Speaking:** Guess the animal

- Have students close their books and, in pairs, remember the ten animals and the three animal groups that they have learned in this lesson.
- Tell students that you are thinking of one of the animals. Choose students to ask you the questions in the example – a different student for each question. Give them the answers that you see in the example.
- Put students in pairs and tell them to take turns to think of one of the animals from the lesson. Their partner asks yes / no questions until they guess the correct animal.
- Point out that the answer to the question can only be a short answer beginning with yes or no.
- If necessary, choose two stronger students to demonstrate.
- Walk around the class, listen, help and correct if necessary.

Extension activity: Yes / no questions with other animals

If time allows, the teacher can ask students to repeat activity 6 with any other animals that they know and with any yes / no questions that they can think of. Remind students not to say the name of the animal.

Example: *Is it an insect? No, it isn't.*

Is it big? Yes, it is.

Does it eat meat? No, it doesn't.

Can people eat it? Yes, they can.

Does it live on a farm? Yes, it does.

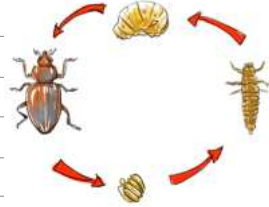

Is it a cow? Yes, it is.

1 Look at Kosal's biology homework.

Biology Homework

The diagram on the right shows the life cycle of a beetle.

Write a short text that describes the four stages of its life.

1. Match the words with the meanings:

1. diagram	a. all the different parts of an animal's life from birth to death
2. life cycle	b. a piece of writing
3. stage	c. a picture which shows how something works
4. text	d. one part of an animal's life cycle

2. Which do you think is the first stage? Draw the diagram in your notebook and add the names of the stages below.

1. eggs 2. larva 3. pupa 4. adult beetle

2 A. Listen to Kosal talking to Tim about his homework and answer the questions.

- Does Tim think that Kosal's homework is difficult?
- What does Tim tell Kosal to do first?
- Is a larva similar to a beetle?
- What things can't a pupa do?
- Why is the diagram a circle?

B. Listen again and match the stages with the descriptions.

- | | |
|-----------------|--|
| 1. Egg | a. The final stage. The insect is now grown up. |
| 2. Larva | b. The insect makes a ball and changes from a larva to a beetle |
| 3. Pupa | c. The first stage of a beetle's life, before the insect is born. |
| 4. Adult beetle | d. The baby insect that isn't really a beetle yet. It's long and thin. |

Aims: To describe the life cycles of two animals and to describe sequences in order.

By the end of 8B, students should be able to:

- understand and describe the life cycles of a beetle and frog
- use specific vocabulary to describe these processes
- put the stages of the process in the correct order
- write a short text about the life cycle of a frog

Session 1

1 Vocabulary: Understanding a task and the life cycle of a beetle.

- Tell students to read Kosal's homework task and look at the diagram.
- Question 1: Have students match the words with the meanings.
- Check the answers as a class.
- Question 2: Have students draw the diagram and match the names with the stages.
- Check the answers as a class.

Answers

1. c; 2. a; 3. d; 4. b
 2. a. egg = stage 1; b. larva = stage 2;
 c. pupa = stage 3; d. adult beetle = stage 4

2 Listening: Explaining the life cycle of a beetle.

- A.** 1. Tell the students that they are going to hear a conversation between Kosal and Tim about Kosal's homework.
 2. Have students answer questions 1 – 5 as they listen.
 3. Check the answers as a class.

Answers

1. no
 2. to look for the first stage in the cycle
 3. no
 4. a pupa can't eat or move
 5. because the life cycle starts again when the adult beetle produces eggs.

- B.** 4. Tell students that they will listen again. This time, they match the stages on the left with the descriptions on the right.
 5. Check the answers as a class.

Answers

1. c; 2. d; 3. b; 4. a

[Audioscript]

Kosal: Hi Tim, listen can you help me with my biology homework? I have to write a short text about the life cycle of a beetle. We have this diagram and I don't understand it.

Tim: OK, well what don't you understand? Let's have a look.

Kosal: Well, stages means the different parts of the beetle's life, and the life cycle means all the stages from birth to death, right?

Tim: Yes, that's right. This isn't too difficult Kosal; it's just that the words are new. Look at the diagram. Which is the first stage in the beetle's life?

Kosal: Well, the first stage must be the egg. It's the smallest; and it can't be an adult first and an egg later, so that must be the first one!

Tim: Good. When you have a diagram like a circle, you have to find the first stage to start describing it. So, what's next?

Kosal: Well, that's easy. There's an arrow on the diagram! After that it's the larva stage. I don't know what that means!

Tim: Well, it's just another stage when it changes from an egg into something different. When the baby insect is born from the egg, it isn't a beetle yet. That comes later. First it's a larva. It looks completely different from a beetle. It's small and long and it's hard to see the head or the legs.

Kosal: OK, so first it's an egg, and next it's a larva. After that it's a pupa. Does the pupa look like a big larva or a small beetle?

Tim: Well, neither. The pupa is a stage where the larva makes itself into a little round ball. At this time, it can't move and it doesn't even eat. Inside the pupa, the larva slowly changes into a beetle.

Kosal: So, first it's an egg and then it's a larva. After that it changes into a pupa and finally it's an adult beetle.

Tim: That's it. When the beetle has grown into an adult, it produces eggs and it all starts again. That's why it's called a cycle and the diagram looks like a circle.

Kosal: OK, thanks Tim. So, if I know which is the first stage, and I understand the new words like pupa and larva, it's easy! I feel much better now.

3 A. Read the lines from Kosal's conversation with Tim and answer questions 1 – 3 using the words from the box.

OK, so first it's an egg, and next it's a larva.

So, first it's an egg and then it's a larva. After that it changes into a pupa and finally it's an adult beetle.

then finally next first after that

1. Which word do we use to introduce the beginning stage of a process?
2. Which three words or phrases can we use to move to the next stage?
3. Which word do we use to introduce the last stage?

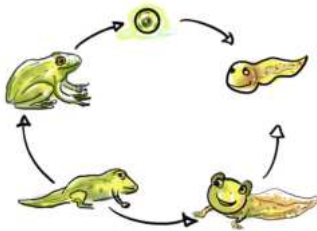

B. Complete the text about the life cycle of a beetle using the words in the box.

adult beetle life cycle after that thin move finally
larva pupa (x2) long eggs (x2) ball four

There are 1_____ stages in the 2_____ of a beetle. First, an adult beetle produces 3_____. Then, the insect is born but it isn't a beetle yet, it's called a 4_____. It looks nothing like a beetle. It's 5_____ and 6_____ and it's hard to see the head or the legs. 7_____, the larva curls into a 8_____ and doesn't 9_____ or eat. This is called a 10_____. Inside, the 11_____, the insect slowly changes. 12_____, when it finishes changing, the 13_____ comes out of the pupa. This adult produces more 14_____ and the cycle starts again.

4 A. Look at the diagram below and answer the questions that follow:

The Life Cycle of a Frog

1. How many stages are there in the frog's life cycle?
2. Look at the pictures. Which do you think is the first stage? Which is the final stage?
3. What is similar and what is different about the life cycles of the frog and the beetle?

B. Read the words and the meanings below. Match them with stages 1 – 5 in the diagram. Draw the diagram in your notebook.

Froglet

A young frog, after it has grown from the tadpole.

Frogspawn

A lot of frog's eggs, all stuck together.

Adult frog

a fully grown frog.

Tadpole with legs

Older than a tadpole but isn't a frog yet. It grows two back legs.

Tadpole

A baby frog. It isn't really a frog yet and it has only a head and a tail.

3 Vocabulary: Completing a summary

1. Have students read the two lines from Kosal's conversation with Tim.
2. Tell students to look at the words in the box and find them in the conversation.
3. Have students answer questions 1 – 3.
4. Check the answers as a class.

Answers

1. first; 2. next, after that, then; 3. finally

5. Tell students to read the summary of the life cycle of a beetle. (A summary is a short text that gives the most important information).
6. Have students copy the text into their notebooks and complete it using the words in the box.
7. Walk around the class, look, help and correct if necessary.
8. Check the answers as a class.
9. Tell students to read the text again with the correct answers.

Answers

1. four; 2. life; 3. eggs; 4. larva;
5. long; 6. thin; 7. After; 8. ball;
9. move; 10. pupa; 11. pupa;
12. Finally; 13. adult; 14. eggs

Tip! Gapfill exercises

When students are doing gapfill exercises (putting words in spaces), if they are not sure of the answers, it can help them to think first about what **kind** of word they should use: noun, verb, adjective, adverb...

In activity three, the first sentence reads: *There are 1_____ stages in the 2_____ of a beetle.* If they are not sure what the correct answers are, they should be able to work out that the first one must be a number or a quantifier (like *many* or *several*) and the second must be a noun, because it is followed a preposition and article: *...in the...*

Session 2

Suggestion: Starting session 2

Ask students what they can remember about the beetle's life cycle. Draw a circle with four arrows on the board and ask what the first stage is (egg). Then, the second, third and fourth stages. Write the words *first*, *next*, *then*, *after that*, *finally* on the board and give students two minutes to tell each other about the life cycle.

4 Vocabulary: The life cycle of a frog

1. Tell students to look at the diagram of the life cycle of a frog.
2. Have students answer questions 1 – 3 in pairs.
3. Check the answers as a class.

Answers

1. There are five stages.
2. The egg is the first stage and the adult frog is the final stage.
3. The frog's life cycle has five stages and the beetle's has four. Both of them begin with eggs and end with an adult.

4. Tell students to read the names of the stages and the meanings in the coloured shapes.
5. Have students match the stages with points 1 – 5 on the diagram.
6. Ask students to draw the diagram in their notebooks and to add the names of the stages. They don't have to draw the pictures.
7. Check the answers as a class.

Answers

- Stage 1: frogspawn
Stage 2: tadpole
Stage 3: tadpole with legs
Stage 4: froglet
Stage 5: adult frog

5 A. Read the information below. In pairs or small groups, decide which information belongs with which stage of the frog's life cycle. There are two for each stage.

1. The first stage after the frog comes from the egg.
2. The final stage of the frog's life cycle.
3. It is sticky and made from a lot of frog's eggs.
4. It is not a tadpole any more and it looks like a small frog.
5. The back legs start to grow
6. It doesn't have legs or a body yet.
7. It produces eggs and the life cycle starts again.
8. The adult leaves it in the water so that the baby frogs can grow.
9. It has four legs now and it can leave the water for the first time.
10. Its tail gets smaller and it starts to change into a baby frog.

B. Work in pairs. Take turns to tell each other about the life cycle of a frog. Use the diagram, the information in activity A and the words in the box below to help you.

first then next after that finally

Example: *First, the adult frog produces a lot of eggs that all stick together...*

Look

Verbs of change

TO show that something changes and makes a new thing, we can use *become*, *turn into* and *change into*.

- The beetle larva becomes a pupa.
- The pupa turns into an adult beetle.
- The tadpole with legs changes into a froglet.

6 Read the text in activity 3 about the life cycle of the beetle again. Use the diagram and the things that you know about frogs to write a similar short text about the life cycle of a frog.

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- name some common small animals in Southeast Asia.
- say whether these animals are insects, reptiles or amphibians.
- ask yes / no questions and answer them with short answers.
- use the words *first*, *then*, *next*, *after that* and *finally*.
- understand and talk about the life cycle of a beetle and a frog.

5 Reading: Information about the life cycle of a frog

- A.**
1. Tell students that they have ten pieces of information about the life cycle. There are two for each of the five stages.
 2. In pairs or small groups, have students work out which two pieces of information go with each stage in the life cycle.
 3. Remind students to use the pictures in the diagram and the information from activity 4B to help them.
 4. Walk around the classroom, listen, help and correct if necessary.
 5. Check the answers as a class.

Answers

Frogspawn: 3. 8; Tadpole: 1. 6;
Tadpole with legs: 5. 10; Froglet: 4. 9;
Adult frog: 2. 7.

- B.**
6. Put students in pairs and get them to tell each other about the life cycle of the frog.
 7. Have students read the Look box.
 8. Have students take turns to describe a stage. Student A talks about frogspawn, student B about tadpoles...
 9. Walk around the class, listen, help and correct if necessary.
 10. Choose five students to demonstrate one stage each to the class.

Answers

First, the adult frog produces a lot of eggs in the water. They all stick together. It is called frogspawn.
Then, a tadpole comes from the egg. It doesn't have a body or legs yet. It only has a head and a tail.
Next, the tadpole grows back legs. Its tail gets smaller and it starts to grow into a baby frog.
After that, it becomes a froglet. It is a young frog that has four legs and it can leave the water for the first time.
Finally, it turns into an adult frog. The adult frog can produce frogspawn and the cycle starts again.

Extension activity: Peer correction

In pairs or small groups, have students look at each other's summaries from activity 6 and try to correct any language mistakes that they see. Ideally, both or all students should work together on one text at a time. When they have finished one text, they can move on to the next.

The teacher can move around the classroom and be available for any questions and to check.

6 Writing: The life cycle of a frog

1. Tell students that they are going to write a summary of the life cycle of a frog.
2. Have students write down the five stages in their notebooks, and make some short notes about what they want to say.
3. Remind students to use sequencers like *first*, *then*, *after that* ...
5. Students can use the text about the beetle as an example, and all the information from activities 4 and 5 to help them.
6. Walk around the class, read, correct and help if necessary.

Suggested answer

Answers will vary. Here is an example answer.

There are five stages in the life cycle of a frog. First, an adult frog produces eggs called frogspawn in the water. Then, the baby is born. It is called a tadpole. It only has a head and a tail and it doesn't look like a frog yet. After that, the tadpole grows legs, its tail becomes smaller and it starts to look like a frog. Next, it becomes a froglet. A froglet is a small frog with four legs and it can leave the water. Finally, it turns into an adult frog. The adult frog produces frogspawn and the cycle starts again.

7 Reflection: 'Now I can...'

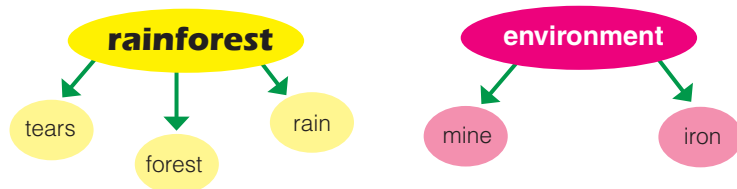

1. Ask students to look at the sentences and decide how well they can do these things. Encourage honest reflection by being positive about mistakes.
2. Tell students that by finding out what they have and haven't learned, they will become better learners.
3. For more ideas on how to do this, please see page V.

UNIT 9

ENVIRONMENTAL PROBLEMS

9A

1 Work in pairs. How many words can you make?

2 A. Work in pairs. Match the pictures with the words.

deforestation overfishing overpopulation air pollution water pollution

B. Listen, check and repeat.

3 A. Listen to people talking about environmental problems. Match them with the pictures in activity 2A.

B. Listen again. Write true or false.

Example: Each of our environmental problems are interconnected. true

- The largest rainforest in the world is the Amazon.
- Trees produce the air we breathe.
- Air pollution means the air we breathe is becoming safe.
- Overpopulation means we have too many parking lots.
- The rubbish we throw into our rivers and seas disappear there.
- Catching too many fish is a problem.

Unit 9, Lesson A : Environmental problems

Aims: To talk about environmental problems and explain how students feel about them.

By the end of 9A, students should be able to:

- identify some environmental problems and talk about them.
- use -ed adjectives to talk about they feel about different environmental problems.
- use -ing adjectives to talk about how people and certain things make them feel.

Session 1

1 Lead in: Words within words

- Ask students to look at the words. You can also write these on board.
- Put students in pairs or groups. Tell them to make words using the letters of the given word. Write down the examples on the board if necessary.
- You might also want to do a few more words as an example (e.g. rainforest – fair, fear, ears, feast, fine).
- For feedback, ask some of your students to write some of their words on the board. The pair or team that has written the most number of words wins.
- When students write their answers on the board, you can take this time to check some words they spelt wrong.

2 Listening: Matching pictures with words

- Put students in pairs.
- Ask them to match the pictures with the words.
- Encourage them to use the pictures and the words to find clues (e.g. fish – overfishing).
- Ask them to compare their answers.

Answers

a - water pollution; b - overfishing;
c - overpopulation; d - deforestation;
e - air pollution

- Play the recording for students to check their answers.
- Play again and ask students to listen and repeat the words.

[Audioscript]

water pollution, overfishing, overpopulation, deforestation, air pollution

3 Listening: Environmental problems

- Tell students that they are going to listen to people talking about environmental problems.
- Tell them to match the pictures with the environmental problems they will hear.
- Ask students to compare their answers.
- Check answers as a class.

[Audioscript]

Our environmental problems are all interconnected – each of us, all kinds of living things, affect one another.

1. Our rainforests, where we have the most number of trees, are being cleared to build more houses, factories. The Amazon rainforest in Brazil is the largest rainforest on Earth, but thousands of trees are being cut there every day. This is frightening because trees produce the air we breathe - oxygen. They also absorb carbon dioxide, the type of air we don't need and is very dangerous to us. So, without our trees, it will be difficult to live. This problem is called deforestation.

2. Another big environmental problem is about the air we breathe. This means the air we breathe is becoming unsafe, and sometimes, dangerous. This is because there are a lot of harmful gases around us. There are many causes of this problem but one of them is the bad, black smoke that comes out of our factories. If the air we breathe is bad, it will be difficult to live and we could get sick. I am really worried just thinking about air pollution.

3. Our third problem refers to the fact that the number of people in the world is increasing really fast. Because there are a lot of people on Earth, some people are cutting down our trees and destroying our rainforests so they can build houses, roads, shopping centres and even parking lots. If there are too many people on Earth, where will the animals live? Where can we plant trees? Overpopulation is really embarrassing – other living things die because of us.

4 A. Complete the sentences below with words from the box.

embarrassing worried frustrated frightening

1. This is _____ because trees produce the air we breathe - oxygen.
2. I am really _____ just thinking about air pollution.
3. Over population is _____ - other living things die because of us.
4. Sometimes, I feel _____ just telling people not to throw their rubbish in the river.

B. Answer the questions.

1. Which of the adjectives in activity 4A talk about how people feel?
Write in your notebook.
2. Which of the adjectives is about how something or someone makes them feel?
Write in your notebook.

1. How do I feel?

2. How does something / someone make me feel?

5 A. Match the definitions with the words. Write in your notebook.

- | | |
|-----------------|---|
| 1. tiring | a. making you want to sleep |
| 2. worried | b. feeling too tired |
| 3. interesting | c. making you feel ashamed or shy |
| 4. depressing | d. not boring |
| 5. frustrated | e. feeling bad because you didn't get what you wanted |
| 6. frightened | f. making you feel really sad |
| 7. embarrassing | g. feeling really scared |
| 8. exhausted | h. feeling uneasy because you are thinking of a problem |

Example: 1 - a

B. Use the adjectives in activity 5A to write about the environmental problems in activity 2A.

Cutting down a lot of trees is really depressing.

4. When we think of this problem, a lot of people imagine rivers and lakes filled with trash - this is true. Sometimes, I feel frustrated just telling people not to throw their rubbish in the river. However, it is more than just seas being filled with plastic bags, cans, bottles and other kinds of rubbish. The most dangerous thing about it is the 'rubbish' we don't see - the harmful chemicals and substances that we 'throw away' into our oceans, maybe thinking they will disappear there. That is a fact that many people don't realise about water pollution.

5. Many people think catching a lot of fish, including baby fish is not a problem at all. Well, it is a problem. We catch too many fish and we don't give enough time for them to reproduce. This is bad because in the future, we might not have any fish at all. Some fish eat other fish, so when we catch a lot of them, this means other fish and animals that live in the ocean will not have food. They too, die as a result. Overfishing is a really big problem and we need to do something about it.

Answers

1. D; 2. E; 3. C; 4. A; 5. B

B. 5. Tell students to listen again.

6. Ask them to write true or false in their notebooks.
7. Ask students to compare their answers before checking them as a class.

Answers

1. False; 2. True; 3. False; 4. False; 5. False; 6. True

Session 2

Suggestion: Starting session 2

To start the class, you might want to play the same game as in activity 1. This game is called words within words. You can use the environmental problems vocabulary for this (e.g. overpopulation, overfishing, deforestation). You can also ask the leader of each team to write the words they can think of on the board. To make this more exciting, you might want to set a time limit. The team that has written the most number of words wins.

4 Grammar: -ed and -ing adjectives

- A. 1. Ask students to complete the sentences with the words in the box.
2. Tell them that these sentences are taken from the recording.
3. If you have a strong class, it might not be necessary to play the recording for this. If your students need more support, play the recording.
4. Play the recording and check answers as a class.

Answers

1. This is frightening because trees produce the air we breathe - oxygen.
2. I am really worried just thinking about air pollution.
3. Overpopulation is embarrassing - other living things die because of us.
4. Sometimes, I feel frustrated just telling people not to throw their rubbish in the river.

B. 5. Write sentence number 1 on the board.

6. Underline the adjective 'frightening'. Ask students if they remember their lesson on -ed and -ing adjectives in Grade 10.
7. Ask students if 'frightening' answers the question 'How do I feel?' (no).
8. Ask students if 'frightening' describes the person or thing that makes them feel that way (yes).
9. Tell them that -ed adjectives are used to talk about how people feel. -ing adjectives are used to talk about the thing or person that makes them feel that way.
10. Do steps 6-9 if necessary with the other adjectives (i.e. worried, embarrassing, frustrated).

Answers

1. How do I feel? - worried, frustrated
2. How does someone / something make me feel? - frightening, embarrassing

6 Look at the pictures. Tell your partner how you feel. Use the adjectives in activity 5A.

This picture makes me feel ...

This picture is really ...

5 Vocabulary: Matching words with their definitions

- A.1. Ask students to match the words with their definitions. Tell them to write in their notebooks.
2. Go around and help students who might find this activity difficult.
3. Ask students to compare their answers then check as a class.

Answers

1. tiring - a
2. worried - h
3. interesting - d
4. depressing - f
5. frustrated - e
6. frightened - g
7. embarrassing - c
8. exhausted - b

- B. 4. Ask students to use the adjectives in activity 5A to write about how they feel about the environmental problems presented in this lesson.
5. If you have a weak class, it's a good idea to let your students work in pairs or groups.
6. For feedback, ask some of your students to share their answers. Your students' answers will vary, but acknowledge their sentences that are grammatically correct.
7. You might also want to ask your stronger students why they feel that way.

Suggested answers

Overpopulation is frightening.
I'm really frustrated by all the cars I see in the city. There are too many of them.
Talking about our environment is interesting.

Focus on -ed and -ing adjectives

Students often find -ed and -ing adjectives very confusing. If you need more examples for this, focus on this example and explain briefly:

Anna is boring. (This means Anna makes me feel bored. / Anna is the reason why I feel bored)
Anna is bored. (This means Anna is feeling / looking bored right now).

6 Speaking: How do you feel about it?

1. Ask students what they can see in the pictures. At this point, they do not have to know what the 'proper words' are for these.
2. Put them in pairs. Tell them to talk about how each picture make them feel.
3. Walk around and listen to what some of your students are saying. You might want to supply vocabulary or correct some of the mistakes they are making.

Extension activity: Environmental problem in Cambodia

Write down the environmental problems on the board. Ask them which of these is the most serious problem in Cambodia. Ask your students to 'rank' the problems according to how badly they affect the country.

- 1 A. Work in pairs. What do you think 'eco-friendly' means? Look at the pictures and guess.

Are you
eco-friendly?

B. Find out if you are eco-friendly. Put a tick in the right column and then total your points.

- I use reusable shopping bag when I'm shopping.
- I use a towel for several days before I wash it.
- I never leave the water running when I brush my teeth.
- I usually take a shower not a bath.
- I recycle glass bottles, newspapers and plastic bags.
- I usually walk or ride my bike to school.

yes	no

Count your total points. YES – 5 points; NO – 0. Now, check the green box. Are you eco-friendly?

If you score:
 * Below 10 – Opps! You need to think more about the environment.
 * Between 15-20 – You are getting there!
 * Between 25-30 – You are eco-friendly! Good job on taking care of the environment!

Aims: To describe ways to help our environment.

By the end of 9B, students should be able to:

- Use more *-ed* and *-ing* adjectives to talk about what people are doing to help the environment.
- Revise and use *-ed* and *-ing* adjectives more accurately.

Session 1

- 1 **Lead in:** Are you eco-friendly?

- A. 1. Put students in pairs.
 2. Ask them to guess what 'eco-friendly' means. Tell them to use the pictures to help them. You might want to write the question on the board too.
 3. For feedback, ask students to tell you what their guesses are. Listen to what your students have to say at this point. There is no right or wrong answer, simply encourage them to speak up and tell you what they think.
 4. Tell them that being eco-friendly means developing habits that are helpful to the environment. Point to the pictures on the book to give examples of what these habits might be (e.g. riding a bike, throwing rubbish in the bin / right bin).
 5. You might want to have a 'show of hands' Ask how many of your students think they are eco-friendly.

- B. 6. Tell your students that they are going to do a quiz to find out if they are eco-friendly.
 7. Tell them to answer the questions and put a tick under the right column (yes / no). Tell them to use their notebooks for this.
 8. Monitor to make sure students are on task and on the right page.
 9. Ask students to total their points. YES = 5 points and NO = 0. To make this activity more interesting, you can ask your students to swap notebooks and let their partners total their points.
 10. When they all have their total scores, focus on the green box. Their points will determine how eco-friendly they are.

11. Do another 'show of hands'. How many of your students are eco-friendly, according to the quiz?
 12. Ask some of your students if they agree with the results or not. If you have a strong class, you can also ask them why they agree or disagree with the results.

2 Reading: Earth Day and Earth Hour

- A. 1. Before you read the texts, you might want to ask your students quickly if they remember some of the environmental problems introduced in Lesson A.
 2. Tell them that Earth Day and Earth Hour are some of the things people came up with to help us think and care more about our environment. You might want to write these on the board.
 3. You could also ask them what they know about Earth Day and Earth Hour.
 4. Tell them to read the texts quickly and decide which of the two they would like to participate in.
 5. Give feedback as a class. You might want to start by telling them which you prefer (if any). Then ask some of your stronger students to tell you which of the two they are more interested in and why.
 B. 6. Ask students to read again and answer the questions. Tell them to write their answers in their notebooks.
 7. Tell your students not to worry about all the words they don't understand. Tell them to guess as much as they can.
 8. Check answers as a class.

2 A. Read about *Earth Day* and *Earth Hour*. Which would you like to participate in?

The first ever Earth Day was on 22 April 1970. On this day, people who care a lot for the environment, the 'environmentalists' or 'environmental activists' do a lot of activities to help us learn more about the world we live in. Some of these activities are really entertaining, like painting the walls of buildings. It is also encouraging to see some students planting trees on this day. Environmental experts go around and tell people about climate change and other problems we are facing. Most people are pleased to do their daily tasks differently. For example, instead of driving their cars to work, they might use bikes instead.

Earth Hour is also an environmental movement like Earth Day. It started in Australia in 2007. Earth Hour is on the last Saturday of March. The idea is for us to help our environment and make it a good place to live again. During Earth Hour, many people from different countries switch off their lights and close their businesses for one hour. Some people don't use electricity at all for 60 minutes. It's fascinating to see a lot of people participate. Some environmentalists give inspiring speeches. People are often amazed just how much energy is saved just by switching their lights off for one hour – a lot!

B. Read again. Answer the questions. Write answers in your notebook.

Example: *What do people celebrate on 22 April?*

Earth Day

1. When did people start celebrating Earth Day? _____
2. What do students sometimes do on Earth Day? _____
3. What do most people try to do? _____
4. Where did Earth hour start? _____
5. When is Earth Hour? _____
6. What do people do during Earth Hour? _____
7. How much energy is saved by turning off lights for 60 minutes? _____

3 A. Find these words in the text. Write the sentences in your notebook.

entertaining pleased inspiring amazed

B. Can you guess what these words mean? Tell your partner.

4 A. Put the right word next to each sentence.

encouraged entertained pleased inspired fascinated amazed

Example: *You feel this when you have fun and really enjoy something.*

Entertained

-ing

1. You feel this when you are happy with how things work out. _____
2. You feel this when you really want to do something and you think you can do it. _____
3. You feel this when you are surprised. _____
4. You feel this when you are really interested about something. _____
5. You feel this when you want to do something and your friends and family like the idea and support you. _____

Answers

1. 22 April 1970
2. They plant trees.
3. They try to do their tasks differently.
4. In Australia
5. Last Saturday of March
6. They switch off their lights / close their businesses for one hour.
7. A lot

3 Grammar: -ed and -ing adjectives

- A.**
1. Ask students to find the words in the text.
 2. Tell them to write the sentences that contain the words in their notebooks.
- B.**
3. Ask some of your students to read these sentences.
 4. Put students in pairs. Tell them to try and guess the meaning of these words. Tell them to look back at the texts for support. Tell them to read the sentences before and after each sentence – sometimes this helps.
 5. For feedback, ask some of your students to tell you what their guesses are. Accept all answers at this point.

Tip! Guessing meaning from context

During a listening or reading activity, your students do not have to know all the words to understand the listening or reading material. Good readers try to guess the meaning of words they don't understand. You can encourage your students to do this by looking at the pictures that come with the texts. If there are no pictures, tell your students to read the sentences before and after the words they find difficult. Sometimes, it might be difficult to figure out the exact meaning of some words without a dictionary – and this is OK. For example, in the sentence 'It is also encouraging to see some students planting trees on this day', it is enough to realise that 'encouraging' means something that is positive and people are happy with it.

Session 2

Suggestion: Starting session 2

To start the class, ask some of your students if they know any organisations in Cambodia that are helping to save the environment (e.g. Ministry of Environment, MLUP Baitong, Save Cambodia's Wildlife). Put students in groups. Ask them to talk about what these organisations focus on and what they do. If you set activity 3 as homework, you can also go over the answers quickly.

4 Vocabulary: Matching words with their definitions

- A.**
1. Ask students to match the words with their definitions. Tell them to write the words in their notebooks.
 2. Ask students to compare their answers before checking them as a class.

Answers

1. pleased
2. inspired
3. amazed
4. fascinated
5. encouraged

- B.**
3. Tell your students to write the -ing form of the adjectives in their notebooks.
 4. Ask students to compare their answers before checking them as a class.
 5. For feedback, you might want to ask some of your students to write the answers on the board so you can focus on the spelling.

Answers

1. pleasing
2. inspiring
3. amazing
4. fascinating
5. encouraging

B. Write the -ing forms of the adjectives above. Write in your notebook.

Example: *entertaining*

5 Put the adjectives in the correct column.

worried encouraging **ENTERTAINED** **DEPRESSING**
pleased inspiring frightened fascinated
amazing **FRUSTRATED** embarrassing exhausted

positive adjectives	negative adjectives

6 A. Complete the sentences with adjectives from activity 5 so that they are true for you. Use -ed or -ing forms.

Example: *Earth Hour is fascinating!*

- I'd like to learn more about Earth Day. I think it's_____.
- We have a lot of environmental problems. I'm really_____.
- It seems that we have more parking lots than parks now. It's_____.
- I am_____ - a lot of students signed up for our tree planting project!
- It seems only few people reuse their newspapers and bottles. I'm_____.

B. Talk to your partner. Give more information about your sentences in activity 6A.

Earth Hour is fascinating. It makes me think there is a lot of simple things we can do to save our environment.

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- identify and talk about some of the environmental problems we face today.
- talk about some of the things people do to save the environment.
- use -ed adjectives to talk about how people feel.
- use -ing adjectives to talk about how other people or things make people feel.

5 Vocabulary: Positive and negative adjectives

- Ask students to draw a chart in their notebooks, similar to what is in the book.
- Tell them to put the adjectives in the box in the right circle.
- Do the example together as a class. If your students' need more support, do another one.
- Check answers as a class.

Answers

positive adjectives	negative adjectives
encouraging	worried
entertained	depressing
pleased	frightened
inspiring	frustrated
fascinated	embarrassing
amazing	exhausted

6 Writing: Sentences with -ed and -ing adjectives

- Ask students to complete the sentences with adjectives from activity 5. Tell them to complete the sentences so that they are true for them.
- Tell them to use the correct form (-ed or -ing).
- Monitor. Check your students' proper use of capital letters and punctuation marks (e.g. Did your students start each sentences with a capital letter? Did they use a full stop to end their sentences?).
- For feedback as some of your students to share their answers.

Answers

NOTE: *There are many ways to complete the sentences. Focus on whether or not your students are writing about themselves and the kind of adjective (-ed or -ing) they are using.*

- I'd like to learn more about Earth Day. I think it's **(-ing adjective)**.
- We have a lot of environmental problems. I'm really **(-ed adjective)**.
- It seems that we have more parking lots than parks now. It's **(-ing adjective)**.
- I am **(-ed adjective)** - a lot of students signed up for our tree planting project.
- It seems only few people reuse their newspapers and bottles. I'm **(-ed adjective)**.

B. 5. Put students in pairs.

- Tell them to read their sentences in activity 6A and add more information.
- Focus students on the example.
- Monitor and supply some vocabulary your students might need.
- For feedback as some of your students to share their answers.

7 Reflection: 'Now I can...'

- Ask students to look at the sentences and decide how well they can do these things.
- Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
- For more ideas on how to do this, please see page V.

Extension activity: Environmental posters

With closed books, ask students to make environmental posters. Put them in groups. Each group focuses on one environmental problem (e.g. overfishing). Ask them to divide their posters into two. On the first part, they should draw pictures to show what the problem is. On the second part of the poster, they draw pictures to show possible solutions to help the environment in this regard. You can also set this as homework if you do not have enough time to do this in class.

UNIT 10

NATURAL DISASTERS

10A

1 Match the words to the pictures.

forest fire flood earthquake tsunami drought tornado

Example: flood

2 A. Listen to a conversation between Leakhana and Channy. What are they talking about?

B. Listen again. Decide if the sentences are true or false. Write the answers in your notebook.

Example: Leakhana is trying to call her brother. T

1. People at the market said there was a flood in Battambang.
2. They also said that some animals died because of the drought.
3. Channy heard on the radio that many trees died and some animals would die as well.
4. They also said that all of the areas were bad.
5. Leakhana said that her brother was raising some animals to sell them.

Unit 10, Lesson A : Natural disasters

Aims: To practise using vocabulary related to natural disasters and reported speech.

By the end of 10A, students should be able to:

- identify six natural disasters.
- change direct speech sentences using present simple and continuous to reported speech.

Session 1

1 Vocabulary: Natural disasters

1. Tell students to look at the pictures.
2. Ask students if they know what they are.
3. Ask students to match the words to the pictures.

Answers

2. drought; 3. forest fire; 4. earthquake; 5. tornado; 6. tsunami

2 Listening: A drought in Battambang

- A. 1. Tell students they are going to listen to a conversation between Channy and her mother.
2. Ask students to listen carefully and say what they are talking about in the conversation.

Answers

They're talking about the drought in Battambang and Channy's uncle who lives there.

[Audioscript]

Channy: Hello mum, I'm back. Who are you trying to call?

Leakhana: Hi dear. I am trying to call your uncle but he isn't picking up. Maybe he's busy.

Channy: You look worried mum! Did anything bad happen?

Leakhana: This morning people at the market said that there was a drought in Battambang. They said the drought was serious and some people got sick as well. Your uncle lives there and I haven't talked to him lately. That's why I'm worried.

Channy: Actually, I listened to the radio and heard the news about it this morning! They said that a lot of trees died and the rice fields were dry.

They also said that some of the animals like chickens and cows would die if there is no rain soon.

Leakhana: Did they mention if the drought is happening in the whole province or just some areas?

Channy: I am not exactly sure, but I think they said that some areas were okay. Don't worry so much mum. Maybe where uncle lives is not affected by this drought.

Leakhana: Last time, he told me that he just started to grow some new fruit trees so he could sell them. I hope his area is okay, so it does not affect his business.

B. 3. Tell students to listen to the conversation again.

4. Ask students to identify if the sentences are true or false.

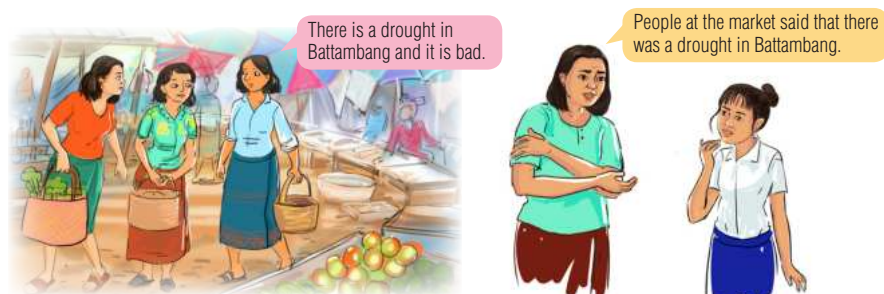

5. Tell students to write T for true and F for false.

6. Play the recording one more time if the students cannot seem to get the answers.

Answers

1. F; 2. F; 3. T; 4. F; 5. F

3 Look at the pictures. What's the difference between the sentences in the two pictures?

Look

Verbs of change

Reported speech = happens when you are reporting or telling other people what someone else says or does. When you want to use reported speech, you change one tense backward from the direct speech.

Example:

Direct Speech	Reported Speech
Channy: You <u>look</u> worried mum. (present simple)	Channy <u>said</u> (that) her mum <u>looked</u> worried. (past simple)
Leakhana: I <u>am</u> worried about your uncle. (present simple verb to be)	Leakhana <u>said</u> (that) she <u>was</u> worried about Channy's uncle. (past simple verb to be)
People at the market: There <u>is</u> a drought in Battambang. (present simple verb to be)	They <u>said</u> (that) there <u>was</u> a drought in Battambang. (past simple verb to be).
Woman on the radio: The animals <u>are</u> <u>dying</u> because of the drought. (present continuous)	The woman on the radio <u>said</u> (that) the animals <u>were</u> <u>dying</u> because of the drought. (past continuous)

4 Decide which is reported speech and which is direct speech? Write **D** for direct speech and **R** for reported speech. Write the answers in your notebook.

Example: There is a heavy rain in Mondulkiri this week.

D

- Bora said there was a heavy rain this week.
- Thida told me that a tornado hit her city.
- The tornado is damaging many houses.
- My friend said that her grandmother's town was having a bad flood.
- The whole province is suffering from floods.
- The trees are dying because of the drought.
- The teacher said that some forest fires were natural disasters.

3 Grammar: Differences between direct and reported speech

- Tell students to look at the two pictures carefully.
- Ask students if they can tell the difference between the sentences in the two pictures.
- Give students a hint by asking students who is speaking in each and what each person is talking about.

Answers

The difference between the sentences in the two pictures is that in the first picture, Leakhana is listening to what people are talking about in the market. In the second picture, Leakhana is reporting what she heard in the market (in the first picture) to Channy.

Focus on the change of verb tense and use of *that* in reported speech

When changing direct speech to reported speech, the verbs are usually changed one tense backward. For example, if you use verbs in *present simple* in direct speech, you have to change it to *past simple* in reported speech. Moreover, sometimes there is *that* used in reported speech sentences and sometimes there is not. Your students might feel confused whether they have to add *that* or not. Tell your students that the use of *that* is optional in reported speech and that is why it is written in brackets.

Session 2

Suggestion: Starting session 2

To start the class, you can read a few sentences about yourself and ask your students to report what you say. For example, you can say "I come to school by a motorbike" and ask your students "What did I say?" Your students can answer "You said you came to school by a motorbike".

4 Grammar: Identifying direct and reported speech

- Tell students to read the sentences.
- Ask students to identify whether each sentence uses direct speech or reported speech.
- Tell students to write D for direct speech and R for reported speech.

Answers

- R;
- R;
- D;
- R;
- D;
- D;
- R

- 5 **Change the sentences into reported speech. You can begin the sentence with *He said* or *She said*. Write the answers in your notebook.**

Example: A man: *The flood damages all the houses.*
→ *He said that the flood damaged all the houses.*

1. My city never has any natural disasters.
2. The forest fire is burning thousands of trees.
3. People have to travel by boats because of the flood.
4. There are many earthquakes in this country.
5. The drought happens every year.
6. People cannot farm because of the drought.
7. The strong wind is blowing towards the north.

- 6 **A. Work in groups. Imagine there is a natural disaster happening somewhere that you heard of. Pick a natural disaster and a city. Write a short report using reported speech.**

Example:

I heard from my parents that there is a forest fire in Prey Veng.

My father said that the forest fire was happening for many days. He said that many people had to leave their villages for safety.

- B. Share your group report with another group. Do you write about the same natural disaster or pick the same city?**

- 5 **Grammar:** Changing direct speech to reported speech

1. Ask students if the sentences are direct or reported speech.
2. Tell students to change the sentences from direct to reported speech.
3. Tell students they can begin the sentences with *He said* or *She said* since there are no pictures or names to show if speaker is a man or woman.

Answers

1. He/She said (that) his/her city never had any natural disasters.
2. He/She said (that) the forest fire was burning thousands of trees.
3. He/She said (that) the people had to travel by boats because of the flood.
4. He/She said (that) there were many earthquakes in this country.
5. He/She said (that) the drought happened every year.
6. He/She said (that) people couldn't farm because of the drought.
7. He/She said (that) the strong wind was blowing towards the north.

- 6 **Writing:** Reporting a natural disaster

- A.**
1. Put students in a group of 3 or 4.
 2. Tell students to imagine there is a natural disaster somewhere and they hear about it from someone else.
 3. Ask students to pick a natural disaster and a city/province where that natural disaster is happening.
 4. Emphasise that this task is asking them to imagine and not to report real natural disasters.
 5. Ask students to write a short report about the natural disaster they pick.
 6. Encourage students to write as many reported speech sentences as possible.
- B.**
7. Put two groups together.
 8. Ask two groups to share with each other their reports.

Extension activity: Sharing the report

If time allows, you can have students select their group representatives to come up to the front of the class to share their group reports. You can also ask some questions to the class after they listen to their classmates reporting. For example, you can ask "What natural disaster did Dara report about?" or "Did Dara say the forest fire was happening in Takeo?"

- 1 Look at the newspaper headlines. What natural disasters do you think they are about?

1 No Rain for 5 Months

2 Fire Destroys 100 Houses

3 Giant waves kill hundreds of people

4 First Tornado in 25 Years

5 Rain Continues for Many Days

6 Flood in Kompongchhnang Continues

- 2 A. Read the news articles. Choose the correct headlines from activity 1. Write the answers in your notebook.

1 Yesterday a tornado hit the northern part of our city. There have been no tornadoes in this area in the last 25 years, so many people were scared. They tried to hide in safe places as fast as they could. Unfortunately, police officer, Mr. Roth, said that some people were still missing and a few houses were in a really bad condition, but luckily nobody was hurt. Mr. Roth also said "Our police team is working really hard to help find the missing people". For now, the officers are helping the victims to fix their houses and find shelter for people whose homes were destroyed.

2 For over 5 days, the flooding in Kompongchhnang hasn't stopped. People from many areas in Kompongchhnang can no longer stay in their houses and have to move somewhere else for safety. Many people have helped the flood victims by delivering clean drinking water, food, and clean clothes by both car and boat. The news reporter, Ms. Linda, said that the biggest issue was that many of those affected did not have access to clean drinking water and left their homes and animals because of the flood. One of the people, Mrs. Nareoun said "I feel very sad because our rice fields are gone and there is water everywhere. We are now living in shelters and we don't know when we can go back home."

Unit 10, Lesson B

Aims: To practise identifying news headlines and reported speech used in news articles.

By the end of 10B, students should be able to:

- identify news headlines.
- point out the reported speech sentences used in news articles.

Session 1

- 1 **Vocabulary:** News headlines

1. Tell students to look at the six headlines.
2. Ask students if they know where the headlines are taken from.
3. Tell students to guess what each news headline is about.

Answers

1. It is about a drought.
2. It is about a forest fire.
3. It is about a tsunami.
4. It is about a tornado.
5. It is about a flood.
6. It is about a flood.

- 2 **Reading:** News articles

- A. 1. Tell students to read the two news articles.
2. Ask students what each article talks about.
3. Ask students to choose two headlines from activity 1 to match with the articles.

Answers

Article 1 – Headline 4: First Tornado in 25 Years.
Article 2 – Headline 6: Flood in Kompongchhnang Continues.

B. Read the articles again. Answer the questions. Write the answers in your notebook.

Example: Which part did the tornado hit? *The northern part*

1. What did people try to do when the tornado hit?
2. Are there any people missing?
3. How many houses in the area were destroyed?
4. Is the flood in Kompongchnang still happening?
5. How do people help the victims of the flood?
6. What is the name of the news reporter?
7. Why does Mrs. Nareoun feel sad?

C. Find the reported speech sentences and then change them to direct speech. Write the answers in your notebook.

- 3 A. You are a news reporter. These people are telling you about the natural disasters happening in their areas. Report what they said using reported speech. Write the answers in your notebook.**

Example:
He said (that) some of his cows were sick because of the flood.

B. Work in pairs. Compare your answers with your partner.

- B. 3.** Tell students to read the articles again.
4. Ask students to answer the questions.
5. Emphasis that students do not have to write in complete sentences.

Answers

1. They tried to hide in safe places.
2. Yes.
3. A few houses.
4. Yes.
5. By delivering clean drinking water, food, and clean clothes.
6. Her name is Linda.
7. Because her rice fields are gone and the water is everywhere.

Tip! Scanning

Tip! Skimming and scanning
Skimming is a very useful skill for reading for gist. Gist means a general understanding of what a text is about, not the specific details. To skim a text, start at the beginning and read it quickly. Don't stop to think too much and don't worry about words that you don't know.

Scanning is the opposite. This is reading for detail or reading for specific information. This is where you need to know a detail that is in the text, such as the answer to a question. Look around the text to find the information that you want and then just read around that part – enough to give you the information you need.

- C. 6.** Ask students to find reported speech in the articles.
7. Tell students to change the reported speech sentences they find to direct speech.

Answers

Reported speech: Unfortunately, police officer, Mr. Roth, said that some people were still missing and a few houses were in a really bad condition, but luckily nobody was hurt.

Change to direct speech: Mr Roth said "Some people are missing and a few houses are in a really bad condition, but luckily nobody is hurt."

Reported speech: The news reporter, Ms. Linda, said that the biggest issue was that many of those affected did not have access to clean drinking water and many were leaving their homes and animals because of the flood.

Change to direct speech: Ms. Linda said "The biggest issue is that many of those affected do not have access to clean drinking water and many are leaving their homes and animals because of the flood."

- 3 Grammar:** Reporting what people are saying

- A. 1.** Tell students to look at the pictures.
2. Ask students to report what each person is saying in the picture using reported speech.

Answers

Photo 2: She said (that) her fruit trees were dying because there was no rain.
Photo 3: He said (that) he and sister couldn't go to school because the flood cut off the road.
Photo 4: She said (that) many people were leaving because of the tsunami warning.
Photo 5: He said (that) the firefighters worked day and night to put out the forest fire.
Photo 6: He said (that) they taught their children what to do when there was an earthquake.

- B. 3.** Put students in pairs.
4. Tell students to compare their answers.

4 Whispering game. What did your teacher say? Report it!

5 Choose the correct answers. Write the answers in your notebook.

Example: *The news reporter said "The tornado hit / hits the city yesterday."*

1. The reporter said that the flood was so bad that many people *are* / *were* leaving.
2. I was there last week when the forest fire *starts* / *started*.
3. They said that their houses *collapse* / *collapsed* because of the earthquake.
4. My uncle called my mother and said "My trees *are* / *were* dying and the water isn't going down."
5. People at the market said that they *do* / *did* not know where to live when there was a flood.

6 A. Work in pairs. Take turns asking the questions. Write the answers in your notebook.

Student A: Ask student B the four questions below.

Student B: Answer the questions student A asks in complete sentences.

Example: *Student A: Do you know what a tornado is?*

Student B: Yes, I know what a tornado is.

1. What natural disaster are you most afraid of?
2. What do you think drought does to trees?
3. Do you know any country that has many earthquakes?
4. Why do you think forest fire happens?

B. Work with a new partner. Take turns telling your new partner what your partner in activity 6A. said using reported speech.

Example: *Student A to student C: B said that he knew what a tornado was.*

7 How well can you do these things? Write in your notebook.

NOW I CAN...

- identify what each natural disaster is.
- change direct speech to reported speech.
- identify simple news headlines and news articles.

Session 2

Suggestion: Starting session 2

To start the class, you can ask your students if they have read, watched, or listened to any news lately. If they have, you can ask them to report what they heard or read to share with the class. If not, you can switch the topic by saying a few sentences in direct speech about interesting natural disaster facts and ask students to report them. Below are some examples you can use:

1. China has the highest number of earthquakes.
2. The biggest tsunami waves in history are higher than 500 meters!
3. Tornadoes can go up to more than 400km/hour.
4. Drought can kill all types of animals even birds.

4 Game: Whispering reported speech

1. Put students in two or three groups.
2. Do the whispering game with one group at a time.
3. Ask students in the same group to stand up and stand in line.
4. Whisper one direct sentence to the first student standing in the line and tell that student to change it reported speech without saying anything loudly. For example, the teacher whispers "I am scared of tsunami.", the student has to change it to "The teacher said she was scared of tsunami".
5. Tell that first student to whisper that reported speech sentence to the student behind.
5. Tell students to keep whispering from one to another.
6. Ask the last student standing in the line to say that sentence out loud.

Extension activity: Whispering game competition

If there is enough time, you can play the whispering game in activity 4 again. But this time, you can do it with all the groups at the same time. You can make this a fun competition by asking all the groups to whisper the same sentence and the group that is the fastest and reports the correct sentence wins.

5 Grammar: Choosing the correct tense

1. Ask students to read the sentences.
2. Tell students to choose the correct answer for each sentence.
3. Remind students to carefully think if the sentence is a direct speech or reported speech before choosing the verbs.

Answers

1. were; 2. started; 3. collapsed; 4. are; 5. did

6 Speaking: Changing direct speech to reported speech

1. Put students in pairs.
 2. Ask students to take turns asking and answering the questions.
 3. Emphasis that students need to answer in complete sentences.
 4. Tell students to write their partner's answers in complete sentences too.
5. Put students in new pairs.
 6. Ask students to report to their new partner what their former partner answered in activity 6A using reported speech.
 7. Tell students to take turns reporting.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

UNIT 11

STAY CALM!

11A

- 1 Name a few dangerous situations or disasters that you know.

- 2 Match the words to the definitions. Write the answers in your notebook.

calm command crawl emergency exit firefighter
inhale permission fire drill smoke

- | | |
|--|--|
| 1. to move on your hands and knees. | 2. a person whose job is to put out fires. |
| 3. grey or black gas that you can see when something burns. | 4. to breathe in. |
| 5. the action to allow someone to do something. | 6. to give an order that people must do. |
| 7. a practice to teach people about what to do in case of fire. | |
| 8. knowing what to do and not showing many emotions such as nervousness. | |
| 9. a safe way for people to escape in a dangerous situation. | |

- 3 A. Copy the sentences about a fire drill into your notebook and put them in the right order.

- ___ 8. Wait for permission!
- ___ Stay low on the floor and crawl!
- ___ Leave the lights on!
- ___ Move away from the building!
- ___ Leave the building immediately!
- ___ Stay calm!
- ___ Watch out for hot handles!
- ___ Close the door!

Unit 11, Lesson A : Stay calm!

Aims: To instruct and warn others in dangerous situations.

By the end of 11A, students should be able to:

- name some common words used in dangerous circumstances.
- make positive imperative sentences.
- describe disasters and give appropriate instructions and warning using imperative sentences.

Session 1

- 1 **Lead in:** Review

1. Tell students to name the disasters that they've learned.
2. Have some students share the answers in class.
3. Encourage students to describe the disasters they've mentioned.

- 2 **Vocabulary:** Matching

1. Have students read the words in the box and ask if they know any of the words.
2. Tell students to read the definitions and match them to the words in the box.
3. Check the answers as a class and write them on the board.

Answers

1. crawl; 2. firefighter; 3. smoke;
4. inhale; 5. permission; 6. command;
7. fire drill; 8. calm; 9. emergency exit

- 3 **Listening:** Put the sentences in order

- A. 1. Get students to read and copy the imperative sentences.
2. Tell students to look at the example that has been done for them.
 3. Have students underline the keywords that can help them spot the sentences in the recording.
 4. Play the recording and ask students to write 1-7 in front of the sentences.
 5. Play the recording again and check the answers as a class.

Answers

8. Wait for permission!
3. Stay low on the floor and crawl!
4. Leave the lights on!
7. Move away from the building!
2. Leave the building immediately!
1. Stay calm!
5. Watch out for hot handles!
6. Close the door!

Tip! Underlining keywords

In reading or listening, tell students to underline any important words that might help them find the answers when listening to the audio or scanning the reading passage. It also helps students focus and understand the questions better.

[Audioscript]

Welcome to my instruction session for the fire drill. I want to make a few points before we begin the actual practice. Firstly, when you hear the alarm, stay calm and walk to the emergency exit. Do not run or push each other because it will delay your exit and might lead to people falling over. Next, it's very important to take the alarm seriously even during our practice, so leave the building immediately! If the building is filling up with smoke, stay low on the floor and crawl! Smoke goes up, so if you stay low, you'll have more oxygen and a clearer view. Also, don't inhale the smoke because it's very bad for your lungs. When you exit the room, leave the lights on! When the firefighters arrive, it helps them see the room better. Moreover, watch out for the hot handles! Before opening any door, check for smoke and touch the handle or door first. Never open a door that is hot or has smoke coming through because there must be fire behind it.

B. Use your memory. Match the imperative sentences in activity 3A to the right sentences. Write the answers in your notebook.

1. Stay low on the floor and crawl! You'll have more oxygen and a clearer view.
2. ____ You should not enter the building unless the firefighters say it's safe.
3. ____ When you hear the alarm, walk to the emergency exit.
4. ____ It helps slow the fire down by stopping oxygen from moving round the building easily.
5. ____ It's very important to take the alarm seriously.
6. ____ Before opening any door, check for smoke and touch the handle or door first.
7. ____ When the firefighters arrive, it helps them see the room better.
8. ____ People might block the firefighters from doing their job.

C. Listen again and check.

D. Work in pairs. Read the box and answer the questions.

Look

We use imperative sentences to give out commands, instructions or warnings. These sentences don't need a subject because we use them to say to someone or some people that are near us.

Examples: *Get out! Open the door!*

1. When do we use imperative sentences?
2. What is the structure of the examples above?
3. Why don't we add a subject in an imperative sentence?
4. Change the underlined words of the imperative sentences to something similar.

Example: *Stay calm: **Remain** calm*

1. Shut the door:
2. Move away:
3. Get out of the building:
4. Run to higher ground:
5. Contact the police officers:

After you leave the room, close the door! It helps slow the fire down by stopping oxygen from moving round the building easily. Once you're outside, move away from the building! People always want to watch, but by doing so, they might block the firefighters from doing their job. It's safer to be far away since no one knows when the building might fall or explode. Finally, wait for permission! You should not enter the building unless the firefighters say it's safe. All right. That's the end of this session. Does anyone have a question before we begin our fire drill?

- B.** 6. Have students read the sentences carefully.
7. Tell students to match the imperative sentences above to the right gaps.
 8. Get students to compare answers with their partner.

Answers

1. Stay low on the floor and crawl!
2. Wait for permission!
3. Stay calm!
4. Close the door!
5. Leave the building immediately!
6. Watch out for hot handles!
7. Leave the lights on!
8. Move away from the building!

- C.** 9. Get students to listen to the recording again and check their answers.
10. Check the answers as a class.

- D.** 11. Put students in pairs.
12. Tell students to read the box and answer the questions.
 13. Ask some pairs to share the answers in class.

Answers

1. We use imperative sentences to give out commands, instructions or warnings.
2. The structure of the examples above is Verb + object.
3. We don't add a subject in an imperative sentence because we use them to talk to someone or some people who are near us.
4. 1. Close 2. Go 3. Leave 4. Move quickly 5. Call

4 Look at the pictures and write imperative sentences in your notebook.

Example: *Leave to a safer area.*

5 A. Choose a dangerous situation and write five sentences to describe it.

○ ○ ○ ○ ○	Note:
	<i>Flood</i>
	<i>1. The water covers many roads around my house.</i>

B. Work in pairs. Take turns reading the sentences and giving imperative sentences.

The flood covers many roads near my house.

Leave or Stay on the second floor!

Session 2

Suggestion: Starting session 2

To start the class, put students in pairs and have them take turns gesturing the meanings of the words in activity 2 and saying the words. To make it more challenging, you can allow students to also use the words that appear in the recording.

4 Grammar: Make imperative sentences for the pictures

1. Tell students to discuss the details of the photos with their partner. What's going on in each picture?
2. Get students to read the example and ask which picture this sentence belongs to.
3. Have students make similar sentences for the pictures.
4. Encourage students to write two to three imperative sentences for each picture.
5. Get students to compare answers with their partner by reading the sentences aloud.
6. Tell students there is more than one correct answer.
7. Ask some students to share the answers in class.

Suggested answers

- 1st picture:
 -Move the food and valuable things to the second floor.
 -Stay where you are and wait for police officers to help!
- 2nd picture:
 -Call the police officers and the firefighters immediately!
 -Cover your mouth and nose to prevent inhaling the smoke!
- 3rd picture:
 -Avoid taking long baths.
 -Use as little water as possible.
- 4th picture:
 -Stay in your basement until it passes!
 -Avoid staying near glass objects.
- 5th picture:
 -Leave your belongings and move to higher ground as fast as possible.
 -Hold on to things that float if you're in water!

5 Writing and Speaking: Describe the situations and give imperative sentences

- A.**
1. Get students to look at the example.
 2. Tell students to choose a disaster that they know.
 3. Have students write some sentences that describe the situations.
 4. Walk around the classroom, read, help and correct if necessary.
- B.**
5. Put students in pairs.
 6. Tell students to decide who will read their descriptions first and who will make an imperative sentence for each description. Then swap.
 7. Walk around the classroom, listen, help and correct if necessary.
 8. Ask some pairs to share the answers in class.

Extension activity: Say it now

Put students in groups. Tell students to write down ten to twelve verbs on a piece of paper and get them to decide who will go first, second, etc. The first student has to say an imperative sentence that has a random words given by their group. Then move on to the next person. To make it more challenging, you can tell students to choose a situation for each verb as well.

Unit 11, Lesson B

1 A. Match the words to the pictures.

blizzard hurricane electrical fire landslide thunderstorm
volcanic eruption outdoors indoors

B. Listen, check and repeat.

2 A. One of Somnang's coworkers asked him to repeat the fire drill instructions. Listen and fill in the gaps.

1. Don't panic.
2. _____ in the building.
3. _____ across the room.
4. _____ the lights on.
5. _____ ever _____ the door without checking _____.
6. Always _____ the door after you exit to _____ the oxygen.
7. _____ ever _____ in front of the building.
8. _____ re-enter _____ permission from the firefighters.

Aims: To give negative imperatives in some dangerous events.

By the end of 11B, students should be able to:

- name and spell some natural disasters.
- stress the right words in imperative sentences.
- make negative imperative sentences.
- use *always*, *never*, *ever* in positive and negative imperatives

Session 1

1 Vocabulary: Matching

- A. 1. Tell students to read the words in the box and look at the pictures for details.
2. Get students to match the words to the right pictures.
3. Check the answers as a class.

Answers

1. outdoors; 2. landslide; 3. hurricane; 4. blizzard; 5. volcanic eruption; 6. indoors; 7. thunderstorm; 8. electrical fire

- B. 4. Get students to listen to the recording and check the answers.
5. Pause after each word for students to repeat.
6. Write the answers on the board.

[Audioscript]

outdoors, landslide, hurricane, blizzard, volcanic eruption, indoors, thunderstorm, electrical fire

2 Listening: Fill in the gaps

- A. 1. Tell students to read the example and the sentences.
2. Get students to listen to the recording and note down the answers.
3. Play the recording again and check the answers as a class.

Answers

1. Don't panic.
2. Don't stay in the building.
3. Don't walk across the room.
4. Always leave the lights on.
5. Don't ever open the door without checking.
6. Always close the door after you exit to cut off the oxygen.
7. Don't ever crowd in front of the building.
8. Never re-enter without permission from the firefighters.

Tip! Noting answers

When listening to the recording, tell your students to focus on getting the important answers first instead of rewriting the full sentences. It also helps to tell your students to note down the short answers on another piece of paper and copy the full answers later on.

[Audioscript]

Chanty: Hello. How was the fire drill yesterday?

Somnang: Hey, Chanty. It was very useful. The instructor gave us lots of instructions before beginning the drill.

Chanty: Can you summarize them for me? I was absent because of my terrible cold.

Somnang: Sure! When you hear the fire alarm, don't panic and quickly leave through the emergency exit. Don't stay in the building or think that the alarm is false because it's dangerous. Next, don't walk across the room when it's full of smoke.

Chanty: Isn't it faster to walk?

Somnang: Although it's faster to walk, the smoke is very dangerous. Never inhale too much smoke! It's bad for your lungs, and the lack of oxygen can make you faint easily. Also, you won't be able to see clearly, so crawling is the best way. When you exit the room, always leave the lights on, and don't ever open the door without checking. If the handle or the door is hot, there is a high chance that there is fire behind it. Once you confirm that the door is safe, always close the door after you exit to cut off the oxygen from entering the room.

B. Work in pairs. Compare these instructions to the listening recording in 11A activity 3A.

Note:

1. *Don't panic VS Stay calm. The first one is negative imperative sentence and the second one is positive. They have similar meaning.*
2. *Don't stay in the building VS...*

3

Copy the sentences into your notebook. Listen and circle the words that are stressed.

Example: *Don't go near the windows!*

1. Don't ever stay outdoors.
2. Never leave the building.
3. Don't ever open the door before checking.
4. Always wait for permission.
5. Call the police officers.
6. Never drive over rocks.

4

Rearrange the words to make imperative sentences.

1. walk / through / don't / ever / fire. / straight
2. waste / don't / when / is / drought. / water / there / a
3. remember / lightning. / there / always / your / is / when / turn / off / phone / to
4. fire. / an / use / water / electrical / put / don't / out / to / ever
5. protect / ash. / yourself / from / falling / always
6. near / never / areas / eruption. / the / go / of / an
7. dress / stay / and / warmly. / indoors
8. you. / always / because / firefighters / to / close / it / find / to / stay / easier / the / for / wall / is

5

In your notebook write imperative sentences about natural disasters using the verbs below.

Example: *follow: Follow the instructions.*

1. stay: _____
2. drop: _____
3. avoid: _____
4. find: _____
5. get: _____

Chanty: When can I go back to work?

Somnang: You really love working. Well, there are two more commands after you leave the building. Don't ever crowd in front of the building and never re-enter without permission from the firefighters.

Chanty: Ok, I got it. Thanks, Somnang!

Somnang: You're welcome.

- B.**
4. Get students to read the imperative sentences above again.
 5. Tell students to go back to lesson 11A activity 3A and compare the imperative sentences between there and here.
 6. Have students read the example and ask them to write their comparisons.
 7. Tell students there is more than one correct meaning.
 8. Get students to compare answers with their partner.
 9. Ask some students to share the answers in class.

Suggested answers

1. Don't panic VS Stay calm. The first one is a negative imperative sentence and the second one is positive. They are about controlling emotions.
2. Don't stay in the building VS Leave the building immediately. The first one is a negative imperative sentence and the second one is positive. They are about getting out of the building.
3. Don't walk across the room VS Stay low on the floor and crawl. The first one is a negative imperative sentence and the second one is positive. They are about leaving safely.
4. Always leave the lights on VS Leave the lights on. Both sentences are positive, but the first one has always. They are about keeping the room bright.
5. Don't ever open the door without checking VS Watch out for hot handles. The first one is a negative imperative sentence and the second one is positive. They are about checking the door before opening.
6. Always close the door after you exit to cut off the oxygen VS Close the door. Both sentences are positive, but the first one has always. They are about closing the door.

7. Don't ever crowd in front of the building VS Move away from the building. The first one is a negative imperative sentence and the second one is positive. They are about staying away from the building.
8. Never re-enter without permission from the firefighters VS Wait for permission. Both sentences are positive, but the first one has never and a negative meaning. They are both about waiting for the firefighters to say it's safe.

3

Listening: Listen and circle

1. Tell students to read the sentences and the examples.
2. Play and pause the recording at the examples.
3. Play the full recording and have students circle the words that are stressed.
4. Check the answers as a class.

Answers

1. **Don't** ever **stay** outdoors.
2. **Never** leave the building.
3. **Don't** ever **open** the door before checking.
4. **Always** wait for permission.
5. **Call** the police officers.
6. **Never** drive over rocks.

[Audioscript]

Don't go near the windows! **Don't** ever **stay** outdoors. **Never** leave the building. **Don't** ever **open** the door before checking. **Always** wait for permission. **Call** the police officers. **Never** drive over rocks.

Session 2

Suggestion: Starting session 2

To start the class, describe the vocabulary in activity 1 and tell your students to guess the words. You can also describe other disasters that are from other lessons.

4

Grammar: Rearrange the words

1. Tell students to look at the words and put them in order.
2. Get students to compare answers with their partner.
3. Check the answers as a class.

6 A. Work in groups. Write imperative sentences.

B. Swap your sentences with another group. Take turns to read the imperative sentences and guess the dangerous situations.

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- name some natural disasters and words that are related to them.
- use positive and negative imperative sentences with *always*, *never* and *ever*.
- give instructions or warnings to disasters using imperative sentences.

Answers

1. Don't ever walk straight through fire.
2. Don't waste water when there is a drought.
3. Always remember to turn off your phone when there is lightning.
4. Don't ever use water to put out an electrical fire.
5. Always protect yourself from falling ash.
6. Never go near the areas of an eruption.
7. Stay indoors and dress warmly.
8. Always stay close to the wall because it is easier for firefighters to find you.

5 Grammar: Make imperative sentences

1. Have students read the example.
2. Tell students to make negative or positive imperative sentences using the verbs.
3. Tell students there is more than one correct answer.
4. Get students to compare answers with their partner.
5. Walk around the classroom, listen, help and correct if necessary.
6. Ask some students to share the answers in class.

Suggested answers

1. Stay in the basement!
2. Drop to the ground and cover your head!
3. Avoid going outside!
4. Find the emergency exit and leave!
5. Get away from the window!

6 Writing and Speaking: Say the imperatives and guess the disasters

- A.**
1. Put students in groups.
 2. Have students bring out a few pieces of paper and tear them to make twelve smaller pieces.
 3. Ask students to write one imperative sentence on each piece of paper.
 4. Tell students to crumble the pieces of paper together to make a ball.
 5. Monitor and help if necessary.

- B.**
6. Tell students to swap their ball of paper with another group's.
 7. Ask students to toss the ball around while you turn your back for a while. Then when you turn back to them, whoever has the ball has to peel a layer to read the sentence and guess when we would use it. Then continue.
 8. Walk around the classroom, listen, help and correct if necessary.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learnt, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Put students in the same group. Tell students to look at the sentences from the ball again and rewrite those sentences with *always*, *ever* and *never*.

UNIT 12

REVIEW

1 A. Work in pairs. What animals can you see in the picture?

B. Work in pairs. Choose an animal and say five things to describe it. You can compare it to other animals. See if your partner can guess your animal.

Examples:

1.

It's not fluffy, it's smaller than a rabbit, it's got eight legs, it's dangerous and it's definitely not adorable!

Is it a scorpion?

Yes, it is!

2.

It's fluffy, it's more adorable than a frog, it's got long ears, it moves by jumping and it's not very quick.

Is it a rabbit?

Yes, it is!

Unit 12 : Review

Aims: To review vocabulary and grammatical structures introduced in Units 7-11.

By the end of 6, students should be able to:

- name and describe different animals.
- name and talk about different landscapes such as oceans, deserts, mountains, forests.
- describe the life cycle of an animal from a diagram.
- describe how things are and how they feel about them.
- understand newspaper headlines.
- report what people say.
- compare two different places.
- talk about environmental issues.

1 Vocabulary and speaking: Naming and describing animals

- A.**
1. In pairs, have students look at the picture and name all the animals that they can see.
 2. Check the answers in class. Say the names of the animals in any order and have the students point to it in their books.
 3. Point to the animal yourself so that the students can check their answers.

Answers

alligator/crocodile, scorpion, hippopotamus, cheetah, rabbit, bear, panda, polar bear, turtle, cockroach, gecko, frog, mosquito, beetle, snake, butterfly

Tip! Vocabulary game

Another way to do part A of this activity is to make it into a time game. Put students in pairs or small groups, and give them two minutes to write down the names of as many of the animals as they can. After two minutes, tell them to stop and then check the answers. The pair or group with the most correct answers wins.

You can also do this game for activity 2A below. You can do this to review any vocabulary that comes in sets, such as *animals, places, jobs, food...*

2 Reading and vocabulary: Naming and describing landscapes

- A.**
1. In pairs, have students name the four types of place in the pictures and check the answers.
 2. Ask students to read the four descriptions that they can see and to match them to the places in the pictures.
 3. Check the answers as a class.

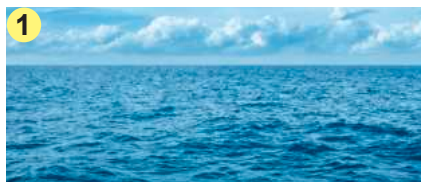

Answers

1. an ocean, b; 2. a desert, a; 3. a mountain, c; 4. a forest, d

- B.**
4. Have students look at the five other types of place in the box.
 5. Choose a student to read the description of a lake in the example.
 6. Have students take turns to describe one of the other types of place that they can see in the box.

Note: Answers will vary but should be similar to the example.

2 A. Name the places that you can see in the photos. Match them with the descriptions.

- It's the driest place in the world. There is a lot of sand and there are camels there. It very rarely rains. Often it's very hot in the day and much colder at night.
- It covers most of the world and consists of salty water. It's deeper than all the rivers and lakes. It's very beautiful and people like to swim in it but you have to stay close to the land.
- It's much higher than a hill and is made of rock. Some people like to climb it. The weather is much colder at the top than at the bottom and often you can see snow at the top.
- It's very green and has a lot of trees. There are also many plants, animals and insects there. It looks beautiful but it's easy to get lost and some of the animals are dangerous.

B. Choose a place from the box and describe it to your partner.

a lake a river a volcano a waterfall a hill

Example: *It's got a lot of water. It's wider than a river but it isn't as long .
It isn't as salty as the ocean.
It's a good place to swim.
It's a lake!*

3 A. Look back at Unit 8B. Work in pairs. Student A: look at the diagram of the life cycle of a beetle and describe it to your partner. Student B: look at the diagram of the life cycle of a frog and describe it to your partner. Use the words in the box to help you.

first	stage	pupa	become	larva	adult frog
eggs	froglet	adult beetle	turn into	after that	tadpole
next	then	tadpole with legs	change into		

3 Speaking and writing: Life cycles

- Tell students to look back at unit 8B in their books.
- In pairs, have one student look at the diagram of the life cycle of a beetle, and the other look at the diagram of the life cycle of a frog.
- Tell students to take turns describing their life cycles to their partner. They can use the text and the words in the book to help them, but encourage them to think about it and not to just read it.
- Walk around the classroom, listen, help and correct if necessary.
- If necessary, have two students give an example of each one for the class.

Answers

See unit 8B for example descriptions of the life cycles of a beetle and a frog.

- Have students look at the diagram of the life cycle of a butterfly.
- Show them that it is similar to the life cycle of a beetle. The larva stage of a butterfly has a special name. It's called a "caterpillar". A caterpillar is a butterfly larva.
- Have students write a short text in their notebooks describing the life cycle of a butterfly.
- Tell students that they can use the life cycle of a beetle in unit 8B to help them.
- Walk around the class, look, help and correct if necessary.

Answers

Answers will vary, but here is an example based on the life cycle of a beetle in unit 8B

There are four stages in the life cycle of a butterfly. First, an adult butterfly produces eggs. Then, the insect is born but it isn't a butterfly yet. It's called a caterpillar. A caterpillar is the larva stage of a butterfly. It looks nothing like a butterfly. It's long, thin and green. After that, the caterpillar curls into a ball. This is called a pupa. Inside the pupa, the insect slowly changes. Finally, the adult butterfly comes out of the pupa. The adult produces more eggs and the cycle starts again.

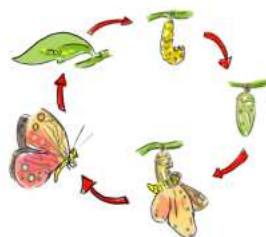

4 Vocabulary: -ing and -ed adjectives

- Have students look at the verbs in the box and add the letters *-ing* and *-ed* to make adjectives (e.g. tiring, tired, interesting, interested, depressing, depressed...)
- Remind students that verbs which end in *-e*, such as **tire**, **frustrate**, **please**, **inspire**, **amaze** lose the final *-e* before we add the *-ed* and *-ing* endings: **tire** → **tiring**, **tired**; **frustrate** → **frustrating**, **frustrated**; **please** → **pleasing**, **pleased**; **inspire** → **inspiring**, **inspired**; **amaze** → **amazing**, **amazed**. Write some examples on the board.
- Ask students which adjectives describe *how you feel* (-ed) and which adjectives describe *what something is like* (-ing).
- Choose a student to read the example. Point out that **tired** is how the person feels, and **exhausting** describes what the activity of climbing the mountain is like.
- Tell students to complete sentences 1 – 6. They can either work in pairs and say them, or write the answers in their notebooks.
- Check the answers as a class.

Answers

- worrying; 2. inspired; 3. interested;
- depressed, amazing/inspiring;
- frustrating; 6. embarrassed

B. Look at the diagram of the life cycle of a butterfly on the right. Write a short text in your notebook describing it.

Note:

The larva stage of a butterfly has a special name. It's called a *caterpillar*.

4 Make adjectives from the verbs in the box by adding the letters **-ing** and **-ed**. Use them to complete the sentences.

tire worry interest depress frustrate frighten
embarrass exhaust entertain please inspire amaze

Example: I'm so **tired** after climbing that mountain all day!
It was fun but it was **exhausting**!

- I think that all the plastic in the ocean is really _____. It will be a big problem in the future.
- I saw a TV programme about a man in India who made a forest all by himself. I felt so _____. He made me want to do this kind of work when I'm older.
- I'm very _____ in the environment. I like to read books and watch videos on YouTube about it.
- Many local people felt _____ after the tsunami, but they have been _____. They all worked together and built their village again and now they are happy.
- I keep telling my family to recycle their plastic and metal, but they never listen to me! It's very _____.
- Oh my goodness, I'm so _____! I feel really stupid. I kept saying how nice her house was and I forgot that it was damaged in the flood.

5 A. Read the newspaper headlines. Match the speech bubbles to the news stories.

Example: **SHOPS STOP GIVING PLASTIC BAGS TO CUSTOMERS.**

I'm really pleased because people only use them once, and the shops give away millions of them.

2

Farmer finds
hippopotamus in river
in Cambodia.

1

Earthquake and tsunami in
Japan! Hundreds of houses
collapse.

4

Number of bees and butterflies
in the world going down!

3

Tree-planting day
in Mundulkiri! Local school
children plant thousands of
trees in one day.

5 Reading and grammar: Headlines and reported speech

- A. 1. Choose two students to read the example. One reads the headline and the other reads the speech bubble.
2. Point out that the first line is a headline from the newspaper and the speech bubble is something that someone said about it in the newspaper story.
3. Have students read headlines 1 – 4 and speech bubbles a – d, and to match them.
4. Check the answers as a class.

Answers

1. c; 2. d; 3. a; 4. b

- B. 5. Choose two students. Have one read the speech bubble from the example in 5A, "I'm really pleased because...", and the other read the example from 5B: "She said (that) she was really pleased because..."
6. Tell students that this is the same story, but this time someone else is using reported speech to say what the person said.
7. In pairs, ask students to choose a speech bubble from a – d in 5A, and to use reported speech to tell their partner. They can use *he* or *she* for the subject.
8. Walk around the room, listen, help and correct if necessary.
9. Check the answers as a class by inviting students to say one of the answers.

Answers

- (S)he said (that) it **was** very depressing and frightening. The houses in the town **had** all collapsed and everything **was** under two metres of water.
- (S)he / the farmer said (that) (s)he **was** completely amazed because these animals **lived** in Africa and Nobody **knew** why it **was** in Cambodia.
- (S)he / the teacher said (that) (s)he **felt** very inspired by all the children's hard work. (S)he **thought** all this tree-planting **was** amazing and (s)he **hoped** to see more of it in other provinces.
- (S)he said (that) bees and butterflies **were** very important because they **helped** the flowers and plants to grow. We **needed** bees and butterflies to grow the food that we eat.

6 Speaking and grammar: Comparatives and superlatives, and describing places

- Tell students to look at the table of information about Australia and New Zealand.
- Have them look at the row about "yearly rainfall". This means how much rain there is in one year in that place.
- Ask students which country is drier? (Aus). In which country does it rain more? (NZ).
- Choose a student to read the first example. Show them that it comes from the information in the table.
- Choose a student to read the second example. Ask them which information in the table it comes from (desert).
- In pairs, tell students to look at the rest of the information in the table and to make similar comparisons, taking turns.
- Walk around the classroom, listen, help and correct if necessary.
- Check some answers in class by inviting students to give you some examples.
- If students are doing this for homework, they can write five comparisons in their notebooks.

Answers

Answers will vary, but here are some examples.

- Australia is much bigger than New Zealand.
- Australia is warmer than New Zealand.
- Australia has much more desert than New Zealand.
- Australia has droughts more often than New Zealand.
- New Zealand has a smaller population / has fewer people than Australia.
- New Zealand has a higher mountain than Australia
- New Zealand has many active volcanoes. Australia doesn't have any.
- New Zealand has earthquakes much more often than Australia.

a. I'm a primary school teacher. I feel very inspired by all the children's hard work. I think all this tree-planting is amazing and I hope to see more of it in other provinces.

b. Bees and butterflies are very important because they help the flowers and plants to grow. We need bees and butterflies to grow the food that we eat.

c. It's very depressing and frightening! The houses in our town have all collapsed and everything is under two metres of water.

d. I am completely amazed because these animals live in Africa and nobody knows why it is in Cambodia!

B. In pairs, take turns to choose a story from 5A, and tell your partner what the people said.

Example: *She said (that) she **was** really pleased because people only **used** them once, and the shops **gave** away millions of them.*

6 Look at the information about Australia and New Zealand. In pairs, choose one country each and talk to your partner. Compare your country with the other one.

Examples: - *Australia is much drier than New Zealand. It rains much more in New Zealand than in Australia.*
- *New Zealand has much less desert than Australia. New Zealand has only 100 square kilometres of desert, but Australia has over a million square kilometres!*

	Australia	New Zealand
size	7.692 million km ²	268,021 km ²
population	25 million	4.8 million
average temperature	warm	cool
yearly rainfall	400mm, very low	1600mm, quite high
highest mountain	2,228	3,724
desert	a lot of desert (1.4 million km ²)	1 small desert (100 km ²)
drought	often	rarely
forest fire	very often, big and serious	small, occasionally
active volcanoes	no	12
earthquakes	very rarely	very often

7 Race against time! Who can find the answers first?

1. Which five very cold places do polar bears live in? (Unit 7)
2. Which four animals are reptiles? (Unit 8)
3. When was the first ever Earth Day? (Unit 9)
4. The tornado that hit the city is the first tornado in how many years? (Unit 10)
5. In a fire, what should you do with the doors and the lights inside the building? (Unit 11)

6 Fun Activity: Looking back at Units 1-5

1. Tell students to look for the answers to the questions.
2. Encourage them to go back and refer to the previous units.
3. You can make this more fun by asking your students to work in pairs or groups. You can also set a time limit. The first pair / group to find all the answers wins!

Answers

1. Russia, Alaska, Canada, Greenland and Norway
2. crocodile, turtle, snake, gecko
3. 22 April 1970 (read the 22nd of April 1970)
4. 25 years
5. Close the doors, leave the lights on (don't turn the lights off)

Extension activity: Fire Drill!

Tell students that they have to make a poster for the school explaining what students must and must not do if there is a fire.

In pairs, have them prepare a list of *Dos and don'ts* (things that you must do and things you must not do in a fire).

Examples: Don't panic
Close the doors and windows
Leave the lights on...

Have students write the information in their notebooks.

UNIT 13

THE WORLD TODAY

13A

- 1 A. Write 5 numbers about yourself in your notebook. Then let your partners guess what they are about.

You have 20 pencils!

No, that's not right.

3

12

SIX

seven

20

You live 3 kilometres away.

Yes, that's right.

- B. Work with a different partner. Tell him or her about your first partner.

Dara has 12 pencils.

Monika lives 3 kilometres away.

- 2 A. Look at the numbers about Cambodia. Can you guess what they're about? Say the numbers out loud with your partner.

25

10,000

300

5948

2800

1

- B.  Now listen and check your guesses. Tick the numbers you hear from activity 2A.
- C.  Now listen again. Answer the questions. Write in your notebook.

Example: How big is the Tonle Sap lake in the wet season? 10,000 km²

- How high is the highest mountain in Cambodia?
- How many provinces are there?
- What is the area of Kep?
- How big is the Tonle Sap lake in the dry season?
- How many countries are there in Asia?

Unit 13, Lesson A : The world today

Aims: To introduce large numbers and learn some facts about Cambodia and the world.

By the end of 13A, students should be able to:

- identify large numbers.
- spell large numbers accurately.
- give basic facts about their town.

Session 1

- 1 **Lead in:** Numbers and me

- A.1. Ask students to write five numbers in their notebooks. Tell them these numbers must have something to do with them.
2. You might want to give an example on the board. Write 2 or 3 numbers about you on the board. (e.g. 3 – you have 3 children).
3. Put students in pairs. Ask them to guess what the numbers are about. Ask your students to look at the example conversation for support.
- B. 4. Tell them to work with a different partner.
5. Ask them to tell their new partners what they know about their first partners.
6. Go around and monitor. Check that students are using the correct tense. In this case, students should mostly be using the present simple tense. Check that they add 's' or 'es' at the end of the verbs with singular subjects.

- 2 **Listening:** Facts about Cambodia

- A. 1. Focus students' attention on the numbers.
2. Allow some time for students to practise saying the numbers out loud.
3. Tell them that all the numbers have something to do with Cambodia. Encourage students to guess. Accept all answers at this point.
- B. 4. Tell students to listen and check their guesses.
5. Ask them to tick all the numbers they hear from activity 2A.

[Audioscript]

Kosal: Hey, Tim! What's wrong with you? We just lost the football match because of you! You didn't play well today.

Tim: Sorry, Kosal. I'm not well. I have some homework which I can't do. I might fail this subject and I'm not happy.

Kosal: OK, relax. It's just homework.

Tim: I can't do it, That's the problem. I still don't know much about your country.

Kosal: My country? Cambodia? Oh my – just ask Tim. You know I can help you.

Tim: Alright. I don't think you know the answer to this but how high is the highest mountain in Cambodia?

Kosal: Ah! Easy. It's 5,948 feet, which is about 1,812 metres and it's in Kampong Speu province.

Tim: Wow! This is easier than I thought. Ok, how many provinces are there in Cambodia?

Kosal: Well, Cambodia is divided into 25 provinces. The largest province is Monduliri and the smallest is Kep. Kep is only 336 square kilometres.

Tim: Oh, thanks, Kosal. Oh, I know some really interesting facts about the Tonle Sap lake too. Would you like to hear them?

Kosal: Well, I know the lake grows up to 10,000 square kilometres or more during the wet season, but in the dry season it only measures about 2800 square kilometres.

Tim: And it's also....

Kosal: It's also home to about 300 kinds of fish.

Tim: Fine, you think you know a lot, huh? Well, how many countries are there in Asia?

Kosal: 48. But only one country in the world has a flag that has got a building – Angkor Wat on it. Do you know which country that is, Tim?

Tim: Yeah, Cambodia. Maybe we should just go play football again. I've just done my homework.

3 Match the numbers with the words.

Example: 3,612

1. 560

2. 10,000

3. 120,000,000

4. 439

5. 73

a. five hundred and sixty

b. four hundred and thirty nine

c. *three thousand six hundred and twelve*

d. seventy three

e. one hundred and twenty million

f. ten thousand

4 Read the text about Cambodia. Make notes in your notebook.

Cambodia is a country that is surrounded by three other countries – Thailand, Laos, Vietnam. The government of Cambodia is set up under a constitutional monarchy. This means the King is the head of state, and the Prime Minister is the head of the government. Its National Assembly consists of 120 representatives.

There are two seasons in Cambodia – the wet and dry season. The temperature can go as high as 40 degrees celsius in the summer. The biggest province in Cambodia is Mondulkiri with a total area of 14, 288 kilometres.

95% of Cambodians are Buddhist. Cambodians use US dollars too. One US dollar is about 4000 Khmer riels.

- o things I already know about Cambodia
- o things that I just found out about Cambodia

5 A. Write the numbers in words.

Example: 35, 256 – *thirty five thousand two hundred and fifty-six*

1. 273, 939

2. 2,500

3. 632, 127

4. 591

5. 1,200, 701

Listen and repeat.

B. Arrange the numbers in activity 5A from the smallest to the biggest number.

591

C. 6. Ask students to listen again and answer the questions. Tell them to write their answers in their notebooks.

7. Check answers as a class.

Answers

1. 5,948 feet

2. 25

3. 336 km2

4. 2,800 km2

5. 48

3 **Vocabulary:** Matching numbers with their written forms

1. Ask students to match the numbers with their written forms.
2. Monitor and help students who might find this activity difficult.
3. If you have a weak group, you can also do another example on the board.
4. Check answers as a class. Call on some students to give answers.

Answers

1. 560 – a

2. 10,000 – f

3. 120,000,000 – e

4. 439 – b

5. 73 – d

Focus on using commas with numbers

When writing big numbers, it is common to use commas to group the numerals into 3, as is shown in this book. However, other countries such as Cambodia use full stops instead. Still others don't use anything at all. They simply use space to make the numbers easier to read. Note that for years (2019), commas aren't used.

It is important to be flexible about these when your students ask.

Session 2

Suggestion: Starting session 2

To start the class, call on two students and give them markers. Tell them to write the number you say on the board. Repeat this with several students. Alternatively, you can also put students in groups. Dictate numbers and ask each group to write the numbers on a piece of paper. Acknowledge the group that writes the numbers accurately first.

4 **Reading:** More on Cambodia

1. Ask students to read the text.
2. Tell them to decide which information in the text they already knew even before reading. Ask them which information is 'new', the pieces of information they just found out after reading the text.
3. Tell them to draw 2 circles in their notebooks and label them accordingly. Tell them to make notes on them.
4. Go around to check that your students are on task.
5. For feedback, ask some of your students which information was 'new' to them and which they already knew even before reading the text.

5 **Reading:** Numbers and words

- A. 1. Put students in pairs.
2. Ask students to write the numbers in words.
 3. Play the recording. Ask your students to listen and repeat.

[Audioscript]

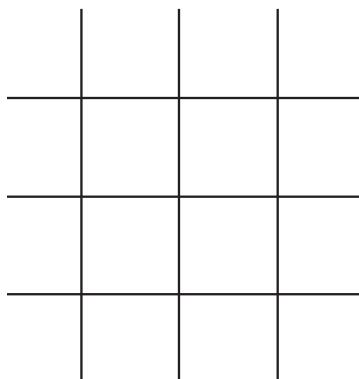

1. Two hundred and seventy-three thousand nine hundred and thirty nine
2. Two thousand and five hundred
3. Six hundred thirty two thousand one hundred and twenty seven
4. Five hundred and ninety one
5. One million two hundred thousand seven hundred and one

- 6 Fun facts about my town!** In groups write some facts about your town. Then tell the class about it.

There are 12 pagodas in my town.

- 7 Bingo!** Follow the steps below to play the game.

1. Draw a 3x3 grid in your notebook.
2. Write numbers between 300-500. Write numbers that are multiples of 10 only (e.g. 350, 460)
3. Listen to your teacher. Cross out the numbers he/she says. You win if you have 3 crosses horizontally, vertically or diagonally.

Answers

1. 273, 939 – two hundred seventy-three thousand nine hundred and thirty nine
2. 2,500 – two thousand and five hundred
3. 632, 127 – six hundred thirty two thousand one hundred and twenty seven
4. 591 – five hundred and ninety one
5. 1,200, 701 – one million two hundred seven hundred and one

- B.** 4. Ask students to arrange the numbers from the smallest to the biggest.
5. Check answers as a class. You might want to ask some of your students to write the numbers in order on the board.

Answers

- 1st – 591
- 2nd – 2,500
- 3rd – 273, 939
- 4th – 632, 127
- 5th – 1,200, 701

- 6 Writing:** Fun facts about my town

1. Put students in groups.
2. Ask them to write about some interesting facts about their town. Encourage them to use numbers.
3. Ask each group leader to report to the whole class their facts.
4. Encourage your students to check if the facts being presented are accurate.
5. To make this activity more interesting, ask your students to vote on the funniest, scariest or most interesting facts.

- 7 Fun activity:** Bingo game

1. Ask your students to draw a 3x3 grid in their notebooks.
2. Ask them to write numbers between 300 – 500 that are multiples of 10.
3. Go around to check students are writing the right numbers.
4. When your students are ready, play the game. Call out some numbers.

Extension activity: Fun facts for each province in Cambodia

Put your students in groups. Assign each group a province (or ask them to choose themselves). In groups, ask your students to search for some interesting facts about each province. You can also set this for homework if your students need more time. Go through this very quickly in your next class.

Unit 13, Lesson B

1 A. Match the words with the photos.

glaciers ocean mountain earthquakes volcanoes

B. Listen, check and repeat.

2 A. Complete the text with the words from activity 1A. Write the answers in your notebook.

The world we live in

The world we live in is fascinating! Here are some interesting facts about the Earth. Comment and add what you know about the world we live in.

Water everywhere?

Do you know that our planet consists mainly of water? That's right! The Earth is 70% water, but we can't drink most of it. Only 2.5 % of it is fresh water and a lot of it is trapped in 1._____ and snowfields.

A star like no other

Do you know that the sun is a star? Yes, it doesn't twinkle at night just like other stars, but that is because it is the closest star to us – it's only about 150 million kilometres away. The other stars that you see at night are much further away!

The highest mountain

The highest 2._____ in the world is Mount Everest – it's 8,848 metres. It's so high it's difficult to breath when you are on top. It's part of a group: the Himalayas. Mount Everest is between Tibet and Nepal.

The ring of fire

The world's largest 3._____, the Pacific, covers 1/3 of the Earth's surface and has a deep and dark secret. The ring of fire is also found along it, approximately 40,000 kilometres. The ring of fire has more than 450 4._____ and 90% of 5._____ occur along its path. Japan, the Philippines and Indonesia are just some countries along the ring of fire.

Aims: To talk about facts and things that are always true using large numbers.

By the end of 13B, students should be able to:

- recognise and write large numbers more accurately.
- use the present simple tense to talk about facts and things that are always true.

Session 1

1 Vocabulary: Matching pictures with words

- A. 1. Ask students to look at the photos. Ask what they can see in the photos.
2. Tell them to match the pictures with the words.
- B. 3. Play the recording. Tell students to check their answers.
4. Play the recording again. Ask students to listen and repeat.

[Audioscript]

1. volcanoes, 2. ocean, 3. glaciers, 4. earthquakes, 5. mountain

Answers

1. volcanoes; 2. ocean; 3. glaciers; 4. earthquakes; 5. mountain

2 Reading: The world we live in

- A. 1. Ask students to read the text quickly.
2. Tell them to complete the text with words from activity 1A.
3. You might want to set a time limit to encourage students to read for general understanding.
4. Ask students to compare their answers before checking answers as a class.

Answers

1. glaciers; 2. mountain; 3. ocean;
4. volcanoes; 5. earthquakes

- B. 5. Ask students to read the text again, this time giving them more time to read it.
6. Tell them to match the numbers to what they refer to.
7. Check answers as a class.

Answers

1. 70% - f
2. 8,848 metres - a
3. 1/3 - c
4. about 150 million kilometres - e
5. more than 450 - d

Tip! Translating in L1

Remember the tip about using English in class as much as you can (Unit 5)? Although translating some words in Khmer can be useful, remember that not all words in English can be translated into Khmer and vice versa. Translating word by word isn't always helpful, particularly with phrasal verbs and compound nouns. Avoid this as much as you can. However, if you think this is necessary, encourage your students to use a 'proper dictionary'. Using Google translate can often be misleading and isn't always accurate.

B. Read the text. Match the numbers to what they are referring to.

- Example:** 90% → a. how high Mount Everest is
1. 70% → b. the percentage of earthquakes happening along the ring of fire
2. 8,848 metres c. how much of the Earth the Pacific Ocean covers
3. 1/3 d. the number of volcanoes along the ring of fire
4. about 150 million kilometres e. the distance between the Earth and the sun
5. more than 450 f. the percentage of water on Earth

3 Look at the sentences. Choose the correct verbs.

- The world's largest ocean *has / have* a deep and dark secret.
- The other stars *is / are* much further away.

Look

- We use the present simple tense to talk about facts or things that are always true.

4 A. Correct the mistakes in the sentences.

Example: *The Earth **go** around the sun once every 356. 25 days.*

*The Earth **goes** around the sun once every 356. 25 days.*

- Scientists **believes** the Earth is 4.5 billion years old.
- The most widely spoken language in the world is Mandarin Chinese. More than 1 billion people **spoke** it.
- The oldest tree in the world is the Pando. It **are** about 80,000 years old.
- Queen bees **cans** lay up to 2,500 eggs per day.
- The longest river, the Nile, **run** through 11 countries in Africa.

B. Work in pairs. Which of the facts in activity 4A do you already know? Which do you think is the most interesting?

3 Grammar: Using the present simple tense when talking about facts

- Write the two sentences on the board.
- Ask some of your students to read them.
- Ask them to choose the correct verbs.
- Underline the subject in each sentence (e.g. the world's largest ocean, the other stars).
- Ask them which verb form to use for singular subjects (s-form). Elicit other pronouns to use with the s-form of verbs (he/she/it).
- Ask them which verb form to use for plural subjects (base form). Elicit other pronouns to use with the base form of the verbs (you / they / we)

Session 2

Suggestion: Starting session 2

To start the class, write some numbers about the world from activity 2. Ask your students if they remember what these numbers refer to. If you set activity 3 as homework, you can also go over the answers quickly.

4 Grammar: Correcting mistakes

- A.**
- Tell students that there is a mistake in each of the sentences.
 - Tell them to correct the mistakes. If you have a weak group, let your students work in pairs.
 - Ask students to compare their answers before checking answers as a class.

Answers

- Scientists **believe** the Earth is 4.5 billion years old.
- The most popular language in the world is Mandarin Chinese. More than 1 billion people **speak** it.
- The oldest tree in the world is the Pando. It **is** about 80,000 years old.
- Queen bees **can** lay up to 2,500 eggs per day.
- The longest river, the Nile, **runs** through 11 countries in Africa.

- B.**
- Put students in pairs or groups.
 - Ask them about the facts in activity 4A. Which do they already know?
 - Ask them to talk about which they find interesting.
 - For feedback, ask some of your students to share their opinions.

5 Use the codes below to find the hidden message.

A	B	C	D	E	F	G	H	I	G
101	150	186	240	280	299	306	315	370	400

H	I	J	K	L	M	N	O	P	Q
400	455	566	590	521	676	631	639	790	701

R	S	T	U	V	W	X	Y	Z
765	800	830	888	923	905	966	937	1000

790 521 101 631 830 800 676 101 590 280

639 966 937 400 280 631

6 Work in pairs. Use the codes to hide the message.

Student A: Go to page 191.

Student B: Go to page 194.

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- write and say large numbers.
- use the present simple tense to talk about facts and things that are always true.

5 Fun activity: Hidden messages

1. Focus students attention on the letters and their corresponding numbers.
2. Ask questions (e.g. what number is F?) to help your students understand this activity.
3. Tell them there is a hidden message they need to find out.
4. Do the first 3 numbers as a class (i.e. 790 – P; 521 – L; 101 – A). If your students need more support, do a few more as a class.
5. Give some time for students to uncover the hidden sentence.

Answers

Plants make oxygen.

6 Communicative activity: Writing in codes

1. Put students in pairs and assign Student A and B.
2. Tell Student A to go to page 191. Tell Student B to go to page 194.
3. Tell them to write the messages in codes. They use the code in activity 5.
4. Ask students to swap codes. Then tell them to find out the hidden message.
5. The first team to uncover the hidden sentences wins.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
3. For more ideas on how to do this, please see page V.

Extension activity: Bingo OR Writing in codes

Have another BINGO game with your class. Choose a different set of numbers. If your students prefer writing in codes, it might be a good idea to do this too. Ask them to write some words from Unit 13 in codes. Then tell them to swap and uncover the hidden codes. To make this more exciting, set a time limit and ask your students to crack the codes within the given time. Praise your students who are able to do this fast.

UNIT 14

LET'S GO CAMPING!

14A

1 Match the words with the pictures. Write them in your notebook.

torch tent sleeping bag mosquito repellent walking boots
map gas stove cooking pots pocket knife batteries

2 A. Listen to the conversation. Why is Richard talking to Somnang?

B. Listen again and answer the questions.

1. Where did Richard invite Somnang and his family to go camping?
2. How often did Richard and his family go camping in England?
3. Why does Somnang think that Leakhana would like to go?
4. What do they have to do before they go camping?
5. Which camping things does Richard already have?
6. Which things doesn't he have yet?
7. Why is Somnang going to talk to his friend?

C. Look at these lines from the conversation:

Oh don't buy batteries! We've **already** got a lot of them

I haven't got a map of Mondulkiri **yet**

1. Which word in **bold** do we use to say that we have something from before, so we don't need to get it now?
2. Which words in **bold** do we use to say that we don't have it now so we need to get it?

Unit 14, Lesson A : Let's go camping!

Aims: To talk about a camping trip. To make and reply to offers of help and to talk about things that have been done already or haven't been done yet.

By the end of 14A, students should be able to:

- name items that people take on a camping trip.
- ask and answer questions about what has already been done and what hasn't been done yet.
- offer help, and reply positively and negatively to offers of help.

Session 1

1 Vocabulary: Camping things

1. In pairs, have students match the words in the box with the pictures of the camping items.
2. Check the answers as a class.

Answers

1. tent; 2. sleeping bag; 3. gas stove;
4. cooking pots; 5. torch; 6. batteries;
7. mosquito repellent; 8. map; 9. walking boots; 10. pocket knife

2 Listening: Preparing for a camping trip

- A.** 1. Tell students that they are going to hear Richard talking to Somnang on the phone.
2. Ask students to listen to the conversation and to answer the question: *Why is Richard talking to Somnang?*
3. Play the recording.
4. Have students talk about the question in pairs.
5. Check the answer as a class.

Answers

Richard is talking to Somnang to invite him and his family to go camping.

B. 6. Tell students that they will hear the recording again.

7. As they listen, have them answer questions 1 – 7.
8. Ask students to compare their answers in pairs.
9. Check the answers as a class.

Answers

1. to go camping in Mondulkiri;
2. every year;
3. because she likes being outside;
4. go shopping / get some things;
5. a tent, sleeping bags, a pocket knife, a gas stove;
6. (any) batteries, a map, mosquito repellent;
7. because his friend has some camping things that he can borrow.

C. 10. Tell students to read the two lines from the conversation in the speech bubbles.

11. Have them say which words they can see in bold (*already* and *not yet*).
12. Ask students to answer questions 1 and 2.
13. Check the answers as a class.

Answers

1. already; 2. not yet

Look

- We don't always have to use *already* to say that we have something from before. We use *already* when we want to say that we did it before, so we don't have to do it now.
- We don't always have to use *not... yet* to say that we haven't got something. We use *not... yet...* to say that we didn't do it before, so we have to do it now.

3 Work in pairs. What things does Somnang already have? What things doesn't he have yet?

Example: *Somnang's already got a ...*
He hasn't got a ... yet.

4 Read the text message between Channy and her mum. Answer the questions.

Hi Mum. I'm really looking forward to our camping trip! Have we got everything we need yet?

Hey Channy. Your dad's already got a tent. And we already have a cooking pot, a gas stove and a pocket knife, so we don't need those. Oh, and we've already got batteries.

Have we got walking boots yet?

No, we haven't got those yet.

OK, my friend's family have a shoe shop. Why don't I ask them if they have walking boots?

Oh that would be great, thanks Channy.

And have we got a torch and mosquito repellent yet?

No, not yet.

Do you want me to get those on the way home from university?

Yes please, if you don't mind Channy.

I can get a map too, from the shop near my university.

Oh yes, please do Channy! Then we will have almost everything.

Shall I look for some sleeping bags too?

No, that's OK thanks Channy. Your dad's already got those.

OK, so I'll talk to my friend about the walking boots, and I'll buy the other things today.

That's very helpful, thanks Channy.

Focus on *already* and *not yet*.

Khmer speakers tend to use the words *already* and *not yet* too much. We don't have to say *already* to show that a person did something before. We use *already* to show that we **don't have to do it now** because we did it before. For example, "I *don't have to go shopping today* because I've *already* bought the things I need."

Similarly, we don't use *not yet* just to show that we didn't do something. We use *not yet* to show that we didn't do it before, so we **have to do it now or later**. For example, "I *haven't got a torch yet*, so I have to go shopping later."

[Audioscript]

Richard: Hey Somnang.

Somnang: Hi Richard, how are you?

Richard: I'm good thanks Somnang. Listen, I had an idea. I'm going on a camping trip to Mondulkiri with my family. We talked yesterday and we'd like to invite you and your family to come with us. It could be really good fun!

Somnang: Camping? You mean sleeping outside in a tent?

Richard: Yes exactly! It's really nice when the weather is good. We went camping every year in England. We've already got most of the things we need, and we want to try it here in Cambodia. Have you ever been camping?

Somnang: No, we usually stay at a guesthouse but it would be interesting and different. I'm sure the kids would like to go and Leakhana likes being outside. I think it's a great idea.

Richard: Ok good! Before we go, we will have to go shopping. Vicki and I already have a tent for four people and some sleeping bags, but you will need to get those things too.

Somnang: OK...

Richard: ... and we've already got a torch but we haven't got any batteries yet.

Somnang: Oh don't buy batteries! We've already got a lot of them. What else do we need?

Richard: Well I haven't got a map of Mondulkiri yet. We will need a map to know where to go if we want to go walking or driving. And I haven't got any mosquito repellent yet. That's important so that the mosquitoes don't bite us!

Somnang: Is there anything else that I need to get, Richard?

Richard: Well, for walking in the forest you'll need walking boots. Normal shoes aren't strong enough. And a pocket knife is useful because sometimes you need to cut the plants in the forest.

Somnang: I already have a pocket knife, but not walking boots. Let's go shopping at the weekend. I have a friend who's already got some camping things that I can use. I'll ask him what he's got and then I will know what I have to buy too.

Richard: OK Somnang, ask him before the weekend and then we'll go shopping together and buy the things that we haven't got yet.

3 Speaking and grammar: *Already* and *not yet*

1. Tell students to look at the picture. It shows the things that Somnang borrowed from his friend.
2. Have students compare the picture with the items in activity 1.
3. In pairs, have students take turns to say the things that Somnang has already got / the things that he hasn't got yet.
4. Walk around the class, listen, help and correct if necessary.
5. Check the answers as a class.

Answers

Somnang's already got / Somnang already has: a tent, a cooking pot, batteries, a gas stove, a pocket knife.

Somnang doesn't have / hasn't got: a tent, sleeping bags, a torch, walking boots or mosquito repellent yet.

1. What things do they not have yet?
2. What is Channy going to get?
3. Does Channy say already or yet when she asks a question?
4. What four different phrases does Channy use when she offers to do something to help?
5. What three phrases does Leakhana use to accept Channy's help?
6. What phrase does Leakhana use when she doesn't need Channy to help?

B. Read the conversation in pairs.

Look

	Have	Have got
?	Do we have a tent yet?	Have we got a tent yet?
✓	Yes, we already have a tent.	Yes, we've already got a tent.
x	No, we don't have a tent yet.	No, we haven't got a tent yet.

5 A. Use the pictures to make conversations.

Example: *Have we got a tent yet?*
Yes, we've already got a tent.

Example: *Have we got a sleeping bag yet?*
No, we haven't got a sleeping bag yet.

6 Write a message to your friend and invite him / her to go on a camping trip with you.

Include in your message:

- when and where you plan to go camping
- what things you will need to take
- what things you have already
- what things you don't have yet
- offer to get some of the things that you don't have yet

Session 2

Suggestion: Starting session 2

To start the class, with books closed, put the students in pairs and give them two minutes to write down all the camping things from last lesson that they can remember. Stop them after two minutes. Then, have them swap their notebooks with another pair. Check the answers and find out which students remembered the most items.

4 Reading: A text message offering help

- A.**
1. Tell students to read the text message between Channy and Leakhana.
 2. In pairs, have students read questions 1 – 6.
 3. Give students an example answer for questions 4 and 5, if necessary.
 4. Walk around the classroom, listen, help and correct if necessary.
 5. Check the answers as a class.

Answers

1. walking boots, a torch, mosquito repellent or a map; 2. all of them; 3. yet; 4. *Why don't I...? Do you want me to? I can... Shall I...;* 5. *(Oh,) that would be great, yes please, please do;* 6. *No, that's OK thanks.*

- B.**
6. Have students to read the conversation in pairs, as Channy and Leakhana.
 7. Monitor.
 8. If there is time, have students swap and read the conversation again.

Focus on *already*, *yet* and *not yet* in positive and negative sentences, and questions

Please see examples of how to use the words *already*, *yet* and *not yet* in the Look box in the student's book. We use *yet* in the question, *already* in a positive answer and *not yet* in a negative answer.

5 Speaking: Camping items, *already* and *not yet*, offering to help and replying to offers.

1. Tell students to look at the pictures with the ticks and crosses.
2. Choose two students to read the examples from pictures 1 and 2.
3. Point out that a tick means we've got the item and a cross means we haven't got it.
4. Tell students that if they haven't got the item, they should offer to get it and their partner should reply.
5. Read the answer for question 2 as an example.
6. In pairs, have students make similar conversations for pictures 3 – 10.
7. Walk around the class, listen, help and correct if necessary.
8. Invite some students to share some conversations with the class.

Suggested answers

NOTE: Your students might come up with slightly different answers. Accept them as long as they are similar to these examples:

- | | |
|---------------------------------|--|
| 1. Have we got a torch yet? | 2. Have we got a sleeping bag yet? |
| Yes, we've already got a torch. | No, we haven't got a sleeping bag yet. |
| | Shall I get a sleeping bag today? |
| | Please do! |

6 Writing: A message to a friend about a camping trip.

1. Have students read the instructions.
2. Tell students to plan their answer by making notes, just a few words to answer each question.
3. Students can answer the questions and plan their writing in pairs, but should write their own message.
4. Ask students to write their messages in their notebooks.
5. Walk around the class, look, help and correct if necessary.

Extension activity: Have you got it yet?

Tell students to choose five camping things from activity 1 that they have already got, and five that they haven't got yet.

In pairs, students take turns to ask each other if they have got it yet. If they say no, the partner offers to get it. The first partner can accept or refuse the offer.

Unit 14, Lesson B

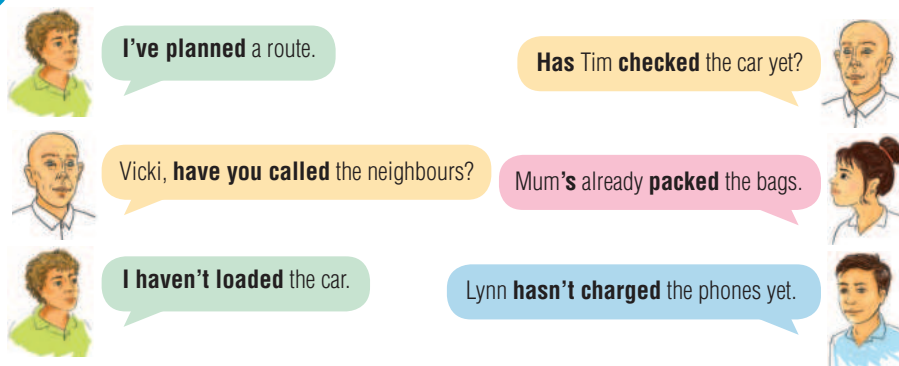

- 1 Match the words with the pictures. Write the answers in your notebook.

pack the bags	call the neighbours	book a campsite
fill the car up	check the car	plan the route
charge the phone	close the windows	decide what time to set off
listen to the weather forecast	prepare lunch	load the car

- 2 A. Listen to Richard talking to his family. Decide who has to do each job. Write V for Vicki, T for Tim and L for Lynn next to the answers to activity 1 in your notebook.
- B. Listen again. This time, put a ✓ next to the jobs if they are done, and a ✗ next to the jobs if they are not done yet.

- 3 A. Read these examples from the conversation and the Look box.

Aims: To talk about preparing for a camping trip and to talk about what they have or haven't done.

By the end of 14B, students should be able to:

- understand and use verb phrases about preparing for a camping trip.
- ask and answer questions about who has done what.
- give short answers to questions about what has been done.

Session 1

- 1 **Vocabulary:** Verb phrases about preparing for a trip

1. Ask students to match the verb phrases with the pictures.
2. Tell students to write the answers in their notebooks in the correct order.
3. Check the answers as a class.

Answers

1. book a campsite; 2. fill the car up;
3. check the car; 4. load the car; 5. pack the bags;
6. Listen to the weather forecast;
7. prepare lunch; 8. charge the phone;
9. plan the route; 10. call the neighbours;
11. close the windows; 12. decide what time to set off

- B. 7. Tell students that they will hear the recording again. This time, they listen for whether the people have done the job or not.
8. Tell students to put a ✓ next to the jobs that are done and a ✗ next to the jobs that haven't been done.
9. Play the first two lines of the recording and check the answer.
10. Play the recording.
11. Check the answers as a class.

Answers

1. ✓; 2. ✓; 3. ✓; 4. ✗; 5. ✓; 6. ✗; 7. ✓
8. ✗; 9. ✓; 10. ✗; 11. ✓; 12. ✓;

[Audioscript]

Richard: OK listen everyone; we're going on our camping trip with the Cheas today. There were a lot of things to do before we go. Vicki, have you booked the campsite? We don't want to arrive and find that they don't have space for us.

Vicki: Of course I've booked it. I wouldn't forget that!

Richard: OK, I'm just making sure. And can you fill the car up with petrol, please?

Vicki: I've already filled it up. I did it on the way home when I rented it. Tim, have you checked the car?

Tim: Yes, I've checked the water, the oil and the lights. Everything looks fine. I haven't loaded the car though. I will do that next. You will need to pack the bags before I can do that Mum.

Vicki: I've already packed the bags Tim, so you can load the car when you're ready. Do we know what the weather's going to be like? Lynn, have you listened to the weather forecast?

Answers

1. V; 2. V; 3. T; 4. T; 5. V; 6. L;
7. L; 8. L; 9. T; 10. V; 11. L; 12. T

Look The present perfect

The verbs in the conversation are all in the *present perfect*. We make the present perfect form with the verb *have* and the *verb 3 (V₃)* form.

All the verbs in this lesson are *regular verbs*. For regular verbs, the form is the same as the past simple form:
call → called, plan → planned...

Examples:

	I, you, we, they	he, she, it
positive	I've planned...	She's packed...
negative	She hasn't packed...	She hasn't charged...
question	Have you called...?	Has he checked?

B. Work in pairs. Make questions and answers using the words below.

✓ = positive sentence ✗ = negative sentence ? = question

Examples: *Tim – load – car* ✗

Has Tim loaded the car yet? No, he hasn't loaded the car.

Vicki – pack – bags ✓

Has Vicki packed the bags? Yes, Vicki has packed the bags.

- Vicki – book – campsite ✓
- You – fill the car up ✓
- Lynn – listen – weather forecast – yet? ✗
- You – prepare – lunch ✗
- Lynn – close – windows – yet ✓
- Tim – decide – what time to set off – yet ✗

C. Answer the questions in pairs.

In present perfect sentences or questions...

- ...is the action in the past or now?
- ...are we thinking about the situation now or the situation in the past?
- ...do we always have to use *already* and *not yet*?
- ...can we use *already* and *not yet* without changing the meaning very much?

4 A. Read the Look box.

Look

- In both the past simple and the present perfect, we talk about an action that happened in the past.
- In the past simple, we think about the **time in the past when we did the action**.
- In the present perfect, we think about **the time now, and the result of the action now**.
- I rented a car last week.* I'm thinking about last week and at that time I rented a car. I am not thinking about now. We usually use the past simple if we say when things happened.
- I have rented a car.* I rented the car before, but the important thing is that I have a car now.

Lynn: No, I haven't listened to it yet, but I've prepared lunch. It's in the kitchen and it's all ready. I made sandwiches and there's some salad and some fruit. I haven't charged the phones yet though. I forgot about that. I'll do it now.

Richard: OK, thanks Lynn. Tim, have you looked at the map? Have you planned the route from here to Mondulkiri?

Tim: I've planned a route. It was easy. There's really only one route we can take so we can't get lost. I'll show you on the map in a minute.

Richard: Great, thanks Tim. Now, what else did we have to do? Oh, I know. Vicki, have you called the neighbours? They are going to look after the house while we are away.

Vicki: Oh no; I haven't called them yet! Thanks Richard, I forgot. I'll call them right now...

Richard: And Lynn, don't forget to close all the windows before we leave.

Lynn: I've already closed them all.

Richard: Well, it looks like we're almost ready. Tim, have you decided what time to set off? I'd like to go soon..

Tim: How about in half an hour? That gives us time to finish everything before we go.

Vicki: OK, I'll call the neighbours first and then I'll call Leakhana and tell her we will pick them up in 45 minutes...

- B. 4.** Have students read the examples, then choose students to read out the questions and answers.
- In pairs, tell students to answer questions 1 – 6.
 - Walk around the class, listen, help and correct if necessary.
 - Check the answers as a class.

Answers

- Has Vicki booked the campsite?
Yes, she has booked the campsite.
- Have you filled the car up?
Yes, I've filled the car up.
- Has Lynn listened to the weather forecast yet?
No, she hasn't listened to the weather forecast yet.
- Have you prepared lunch?
No, I haven't prepared lunch.
- Has Lynn closed the windows yet?
Yes, she's closed the windows.
- Has Tim decided what time to set off yet?
No, he hasn't decided what time to set off yet.

- C. 8.** In pairs, have students look at the speech bubbles in activity 3A, then read and answer questions 1 – 4.
- Ask students to share their answers with the class.
 - Remind students that we don't have to say *already* and *not yet* when we use the present perfect. (See Focus on, Unit 14A).
 - Read the Focus on box below to teach students about the past simple and present perfect.

Answers

- The action is in the past.
- We are thinking about the situation now.
- No
- Yes. *Already* and *not yet* don't change the meaning very much. The meaning is already given by using the present perfect.

3 Grammar: The present perfect

- A.**
- Have students read the speech bubbles, and the Look box.
 - Use the Focus on box to teach the students about the present perfect verb form with some more examples on the board.
 - Point out that this lesson is about regular verbs, where the *V₃* form ends in *-ed*.

Focus on the present perfect

The present perfect is formed by using *have* or *has* together with the *V₃* form.

For regular verbs, the *V₃* form is made by adding *-ed* to the verb (the same as the past simple). So *I planned* = past simple and *I've planned* = present perfect.

Note that in speaking we usually use the short forms: *I've*, *he's*, *Kosal's* rather than the long forms: *I have*, *he has*, *Kosal has*...

B. Make conversations like the example.

Example:

✓ - this morning

Have you checked the car?
Yes, **I've checked** it.
When **did** you **check** the car?
I **checked** it this morning.

✓ - last Sunday

✓ - half an hour ago

✓ - ten minutes ago

✓ - after breakfast

✓ - this morning

✓ - last night

✓ - two weeks ago

✓ - at 10:30 this morning

- 5 Work in pairs. You are going to leave on a camping trip with your partner tomorrow. Talk to your partner, ask questions and find out what you've done and what you haven't done to get ready. Then, swap.**

Example: - Have you packed your bags?
- Yes, I've packed my bags. / No, I haven't packed my bags yet. I'll do it later.

- 6 How well can you do these things? Write in your notebook.**

unhappy

neutral

happy

very happy

NOW I CAN...

- talk about things we have to do before we go camping.
- make positive and negative sentences and questions in the present perfect.
- use the past simple when I think about the time of the action, and the present perfect when I think about now.
- make positive and negative answers in the present perfect

Focus on the present perfect and the past simple

In both the past simple and present perfect the action happened in the past. The difference is the time that we are thinking about.

In the past simple, we think about **the time in the past when the action happened.**

I packed my bags yesterday means I know the time and that is important.

In the present perfect we are more interested in **the action and the result now** rather than when it happened. I've packed my bags. means they are packed now and when the action happened isn't important.

Session 2

Suggestion: Starting session 2

Draw a ?, a ✓, and a ✗ on the board.

Choose a student and ask them to think of an activity from last lesson to prepare for a trip. For example, *prepare lunch*.

Choose another student and encourage them to ask a question: *Have you prepared lunch (yet)?* Point to the question mark on the board and start for them: Have you...

Choose another student and point to the ✓ or the ✗ on the board and encourage them to give a positive or a negative answer: Yes, I've / No, I haven't... Repeat three or four times.

- 4 Grammar and speaking:** Comparing the past simple and the present perfect

1. Have students read the Look box.
2. Ask the students to give some example sentences in the past simple and present perfect.
3. Have students look at the example. Show them that there is an action, a tick and a time. The tick is for a yes answer.
4. Choose two students to read the 4-line conversation on the right of the example.

Extension activity

Put students in pairs. Tell them that they are going to take the bus to the beach for a holiday together. Using the verbs from this lesson, give them five minutes to prepare some questions to ask their partner about what they have and haven't done. Then, they ask and answer each other. They can give both positive and negative answers.

Verbs from this lesson include:

pack	call	book	fill	check	plan	charge
close	decide	listen	prepare	load	clean	offer
remember		talk	move	suggest	enjoy	

Examples: Have you booked a hotel / a guesthouse (yet)?
Have you packed your swimming shorts?

6. In pairs, have students make similar conversations for questions 2 – 7.
7. Walk around the class, listen, help and correct if necessary.
8. Ask a few students to read out their conversations to the class.
5. Choose two strong students and have them make a similar conversation for number 1. Help them if necessary.

Answers

Answers should be similar to these:

- | | |
|---|--|
| 1. Have you planned the route?
Yes, I've planned it.
When did you plan it?
I planned it last Sunday. | 2. Have you prepared lunch?
Yes, I've prepared it.
When did you prepare it?
I prepared it half an hour ago. |
|---|--|

- 5 Speaking:** Conversation – preparing for a trip

1. Tell the students to read the instruction. Then, give them a few minutes to think about their questions and answers. They can make notes in their notebooks if they want.
2. Tell students to talk to each other and find out what their partner has done. The partners should give a mix of positive and negative answers.
3. Walk around the classroom, listen, help and correct if necessary.
4. If there is time at the end, ask a few students to tell the class what their partner has done, or hasn't done.

- 6 Reflection:** 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learned, they will become better learners.
4. For more ideas on how to do this, please see page V.

UNIT 15

I'LL HELP YOU!

15A

- 1 A. How many verbs can you see in the word chain? Write the answers in your notebook.

pass get promise lend borrow help bring give show buy

- B. Choose the verbs from activity 1A to fill in the gaps. Write the answers in your notebook.

Example: Can you pass me some salt please?

1. Can you ____ me some money please? I'll pay you back next week.
2. My mother always ____ me out when I have problems.
3. The teacher usually ____ students a short quiz at the end of each month.
4. Come here! Let me ____ you my new bicycle. You're the first person to see it.
5. You must be hungry. Can I ____ you anything to eat?

- 2 A.  Listen to three conversations. What are they talking about? Choose the correct answers.

Example: Conversation 1: Leakhana is talking to her brother / father.

Conversation 1:

1. Leakhana can *give* / *lend* Dara some money.
2. Dara wants to borrow Leakhana's *bicycle* / *motorbike*.

Conversation 2:

3. *Lisa* / *Richard* gave Vicki a call.
4. Vicki wants to bring Lisa some *cookies* / *keys*.

Conversation 3:

5. Tim promised Lynn a *cartoon* / *cook* book.
6. Lynn asked Tim if he could *get* / *buy* her the book from the library.

Unit 15, Lesson A : I'll help you!

Aims: To practise talking about helping people.

By the end of 15A, students should be able to:

- identify verbs used with two objects.
- differentiate between direct and indirect objects.

Session 1

- 1 **Vocabulary:** Common verbs with two objects

- A. 1. Tell students to look at the word chain.
2. Ask students if they can see verbs or nouns or adjectives.
3. Tell students to find verbs within the word chain.

Answers

pass; get; promise; lend; borrow; help; bring; give; show; buy

- B. 4. Ask students to read the sentences.
5. Tell students to fill in the gaps with the verbs in activity 1A.
6. Remind students that they need to fill in with the correct form of the verbs (singular or plural).

Answers

1. lend; 2. helps; 3. gives; 4. show; 5. get/bring

- 2 **Listening:** Choosing correct answers

- A. 1. Tell students they are going to listen to three conversations.
2. Ask students what people are talking about and choose the correct answers.
3. Play the recording more than once if needed.

Answers

1. lend; 2. motorbike; 3. Lisa; 4. cookies; 5. s cartoon; 6. get

[Audioscript]

Conversation 1:

Leakhana: Hello Dara. How's everything in Battambang? How are the kids?

Dara: Hi sister. The kids are doing well and there is some rain now. So the drought isn't so bad anymore, but a lot of my fruit trees died.

Leakhana: You have to let me know if you need any help. I heard from your wife that you had some problems with money for your farm business because of the drought.

Dara: ((SAD VOICE)) Yes because a lot of our fruit trees died and even some of our animals.

Leakhana: You know I can always lend you some money in this difficult time! I can help you out.

Dara: Thank you so much, but right now I think we're okay. I will be in Siem Reap next month for two days to meet some customers. I'm wondering if I can borrow your motorbike when I am there.

Leakhana: Of course! I'm happy to hear you're coming to Siem Reap. Somnang will be happy to see you too. Come and stay at our house!

Conversation 2:

Richard: Vicki, where are you going?

Vicki: Oh I'm meeting Lisa for coffee. She's in town and she gave me a call this morning!

Richard: That's lovely. I haven't seen Lisa since she moved to Phnom Penh. What's she doing in Siem Reap?

Vicki: She's here for work. I think she's showing her boss some new hotels to include in their tour package. You know she works in tourism industry. By the way, do you think I should take her some cookies I made last night?

Richard: You have to! Lisa always loves your cookies. Alright, have fun and say hi to Lisa for me.

B. Find the other verbs with two objects from sentences in activity 2A.

Look

Verbs with two objects: verbs with *indirect object* + *direct object*

- Indirect object: usually refers to a person and comes before direct object
- Direct object: usually refers to an object or a thing.

Example: Leakhana **lends** Dara **some money**.

verb indirect object direct object

My grandmother **buys** me **a bicycle**.

verb indirect object direct object

What are the other verbs with two objects in activity 2A?

3 Put the words in correct order. Write the answers in your notebook.

Example: gave/ phone / my / I / number / her. I gave her my phone number.

1. I / mum/ birthday / a / gift / get / every / year
2. Can / lend / please / \$100 / you / me /?
3. He / phone / promised / a / me / new
4. Tim / her / will / cartoon / book / bring / a
5. The / gives / teacher/ students / test / a

4 Read the sentences. Answer the questions. Write the answers in your notebook.

- a. Leakhana lends Dara some money.
b. Leakhana lends some money to Dara.

Question 1 & 2

- c. Tim gets Lynn a book.
d. Tim gets a book for Lynn.

Question 3 & 4

1. Spot the difference between sentence a and sentence b.
2. Do you think sentence a and sentence b have the same meaning?
3. Spot the difference between sentence c and sentence d.
4. Do you think sentence c and sentence d have the same meaning?

Look

We can use *to* and *for* with some verbs with two objects when direct object comes before indirect object.

Conversation 3:

Lynn: Where are you going Tim? Are you going out?

Tim: Yes, Lynn. I'm going to Kosal's house to play some video games together.

Lynn: I see. Before you go, where's my new cartoon book?

Tim: What book?

Lynn: You promised me a cartoon book. You said you were going to get it for me from the library. Don't tell me you forget!

Tim: Oh no I'm sorry Lynn! I wanted to go to the library yesterday, but then I decided to go later instead.

Lynn: ((ANNOYED)) Can you get me that book from the library tomorrow then?

Tim: Sure! Sorry again!

B. 4. Ask students to read the explanation in the Look box.

5. Tell students to find other verbs with two objects in the sentences in activity 2A.

Answers

give; lend; gave; bring; promised; get; buy

3 Grammar: Putting words in correct order

1. Ask students to put the words in the correct order.
2. Check answers as a whole class if possible.

Answers

1. I get mum a birthday gift every year.
2. Can you lend me \$100 please?
3. He promised me a new phone.
4. Tim will bring her a cartoon book.
5. The teacher gives students a test.

Session 2

Suggestion: Starting session 2

To start the class, you can review what verbs with two objects mean. For example, you can write two sentences: "He gives her some flowers." and "He studies English." on the board. Then you can ask your students to point out which sentence has a verb with two objects. You can also ask them to identify which is direct and which is indirect object.

4 Grammar: Using *for/to* with verbs with two objects

1. Ask students to read the four sentences carefully.
2. Tell students to answer the questions.
3. Explain the key points using the grammar Look box when checking the answers.

Answers

1. The difference between the two sentences is that there is *to* in sentence b. The position of direct and indirect objects in the two sentences is also different.
2. Yes, they have same meaning and just different form of writing.
3. The difference between the two sentences is that there is *for* in sentence d. The position of direct and indirect objects in the two sentences is also different.
4. Yes, they have same meaning and just different form of writing.

Focus on the position of direct and indirect objects

Sentences that use verbs with two objects can be written in more than one way. The direct objects usually come after indirect objects. For example, *I give Dara some cookies*. However, with some verbs, direct objects can also come before indirect objects when we use *to* or *for*. For example, *I give some cookies to Dara*.

5 Rewrite what they say using *to* or *for*. Write the sentences in your notebook.

Example: *I've sent a message to him.*

1. _____

2. _____

3. _____

4. _____

5. _____

6 Close your eyes and drop a small piece of paper or eraser on this table. Make one sentence using the verb with two objects in it. Take turns with your partner.

borrow	get	buy
lend	bring	pass
give	show	help

5 Grammar: Rewriting sentences

1. Ask students to look at the pictures and sentences.
2. Tell students to rewrite the sentences using *to* or *for*.

Answers

1. Kosal, I'll lend my English book to you.
2. Richard, don't forget to get some bread for the kids.
3. Bring some toys for me please.
4. I've given some flowers to my wife.
5. Let me show my new football shoes to you.

6 Speaking: Making sentences

1. Put the students in pairs or a small group of 3.
2. Ask students that each pair or team needs a small round piece of paper or a small eraser or anything else that is small and as long as they can use it to drop.
3. Tell students to close their eyes and drop the small piece of paper or eraser on their page (table) and they need to make a sentence using the verb they drop on.
4. Ask students to take turns.

Borrow	Lend	Give
Get	Bring	Show
Buy	Pass	Help

Extension activity: Sharing the answers

You can ask students to share the sentences they make in activity 6 as a whole class. You can also ask students to reword the sentences their friends share using *to/for*. For example, if one student says "I bring my friend some cookies.", you can ask another student to change the sentence using *to/for*. So the other student can say "I bring some cookies *to* my friend."

1 People are having some problems. Match them to possible responses. Write the answers in your notebook.

Example: *My bike is broken.*

1. I'm so hungry.
2. I don't understand this homework.
3. I can't reach that book. It's too far.
4. I don't know how to set up tent.

- a. Help him with his homework.
- b. Show him the instruction.
- c. *Lend her your bike.*
- d. Bring him some food.
- e. Pass him the book.

2 A. Read the conversations. Which conversations take place while they are on their way to Mondulkiri and which take place at the camping site?

Conversation 1

Tim: I'm so excited. This is the first time we're camping together with our families!

Kosal: Me too! I think we're going to have a great time. Wow look at the view! It's beautiful outside. I'll take some pictures with my phone. Oh no, my phone's dead!

Tim: I'll lend you my power bank. Here you go – you can charge your phone.

Kosal: Thanks Tim. Do you want a bottle of water? I'll ask my mum to pass us two bottles.

Tim: Yes, please. Thank you.

Conversation 2

Lynn: Can I help you put up the tents too dad? Tim, Channy, and Kosal are all doing it. I want to learn how to do it too.

Richard: Sure, why not. You can help me with this one that I'm setting up right now.

Lynn: But you know I've never done it before and I'm not good at reading instructions. So, can you teach me how to do it?

Richard: Definitely. Come here Lynn. I will show you the instructions step by step. Let's do this together.

Conversation 3

Vicki: Leakhana, are you unpacking the food boxes? Let me help you.

Leakhana: Yes, I am. But no worries, I'm almost done. I think I need to go to the market to get us some fruit. We didn't pack any!

Vicki: I'll go with you too. Is the market close to here or do we need to go by car?

Leakhana: I think it is pretty far. Somnang or Richard can drive us there.

Vicki: I'll ask Richard to drive us there. Somnang's driven for the whole day already. He must be tired.

Conversation 4

Richard: Somnang, you've driven for a long time already. If you're tired, I can take turns with you.

Somnang: Oh that's okay. I've driven for long hours before, but yes, I'll let you know when I need a break. Leakhana, can you get me my sunglasses please? I'm not sure where I've put them, but I think they're in the small red bag close to you.

Leakhana: Sure. Oh, I can't see them in this red bag. I think they're in the other bag in the trunk at the back. Park for a minute and I'll get you your sunglasses.

B. Read the conversation again. Answer the questions. Write the answers in your notebook.

Example: *What will Kosal take pictures of? Kosal will take pictures of the view.*

1. What will Tim lend to Kosal?
2. What will Leakhana pass to Kosal?
3. What will Richard show Lynn?
4. Where will Vicki go with Leakhana?
5. Who will Vicki ask to drive?
6. What will Leakhana get from the bag in the trunk?

Unit 15, Lesson B

Aims: To practise expressing spontaneous decisions made at the moment of speaking.

By the end of 15B, students should be able to:

- make sentences using will for spontaneous decision and promises in positive and negative forms.
- include verbs with two objects in sentences that use will for spontaneous decision and promises.

Session 1

1 Vocabulary: Reviewing common verbs with two objects

1. Tell students to look at the problems on the left.
2. Ask students to match the problems to the possible solutions on the right.

Answers

1. – d; 2. – a; 3. – e; 4. – b

2 Reading: Answering questions

- A.**
1. Tell students to look at the four conversations.
 2. Ask students what they think these conversations are about.
 3. Tell students to read the four conversations and decide which ones take place during their journey to Mondulkiri and which take place at the camping site.

Answers

Conversations taking place during their journey to Mondulkiri: 1 and 4
Conversations taking place at the camping site: 2 and 3

Tip! Reading for general understanding

It's important for learners to have an idea of what they are going to read about. This will prepare them better for the more intensive reading that often follows. This will also help activate their existing knowledge about the topic they're about to read, helping them make connections with what they already know with what they are about to find out.

To do this, you can ask students to read quickly, without having to worry about all the words they don't understand. You can also encourage them to look at the titles (if any) and or pictures surrounding the texts. These often give clues about the reading and will help make the reading process a lot easier.

- B.**
4. Ask students to read the conversations again and answer the questions.
 5. Remind students that they have to write the answers in complete sentences.

Answers

1. Tim will lend his power bank to Kosal.
2. Leakhana will pass two bottles of water to Kosal.
3. Richard will show Lynn the instructions step by step.
4. Vicki will go to the market with Leakhana.
5. Vicki will ask Richard to drive.
6. Leakhana will get Somnang's sunglasses from the bag in the trunk.

C. Look at activity 2B. Are the questions and answers in past, present, or future?

- 3 Look at the box. Choose the correct answers. Write the answers in your notebook.

Look

We can use **will** to express what we want to do in the future at the time of our speaking. In other words, there is no planning.

He / She / You / It / We / They / I + will + verb

Example: Look at the sentences from activity 2A conversations.

Leakhana: I think I need to go the market to get some fruits.

Vicki: I'll (I will) go with you too. → Vicki doesn't plan to go to the market with Leakhana. She makes her decision to go the moment she hears Leakhana is going.

1. I forgot to tell you that I'm going to the beach for Water Festival. Do you want to go too?
a. Really? I'll go with you too. b. Really? I'm going with you too.
2. Your sister doesn't know how to use her new computer.
a. I know, so I showed her. b. I know, so I will show her.
3. Geez, this bag is really heavy.
a. Give me the bag. I'll help you. b. Give me the bag. I'm going to help you.

- 4 Read the sentences on the left in activity 1. Write what you would say in each situation using **will**. DO NOT use the sentences on the right.

Example: I will fix it for you.

- C. 6. Tell students to read the questions and answers in activity 2B.
7. Ask students if the questions and answers are in past, present, or future.
8. Emphasise that there is **will** in every question and sentence

Answers

The questions and answers in activity 2B are in future tense.

- 3 **Grammar:** Choosing correct answers

1. Ask students to look at the grammar Look box.
2. Put emphasis on the use of **will** for spontaneous decisions and promises.
3. Tell students to choose the correct answers.

Answers

1. a; 2. b; 3. a

Session 2

Suggestion: Starting session 2

To start the class, you can make up two or three problems and say them to your students. For example, you can say "I have a headache." or "I forgot my markers today." Then ask your students to respond using **will**. Encourage your students to try to respond as fast as possible so that the responses could be very immediate and spontaneous.

- 4 **Grammar:** Making sentences

1. Tell students to look at the problems in activity 1.
2. Ask students to write responses using **will**.
3. Remind students that they cannot have the answers that are already used in activity 1.
4. Check the answers as a whole class if possible.

Answers

Note: Answers are based on students' personal responses.

5 Fill in the gaps with *will* or *won't* with the verbs in the box. Write the answers in your notebook.

Look

will not = won't

wake up disturb get bring lend help go

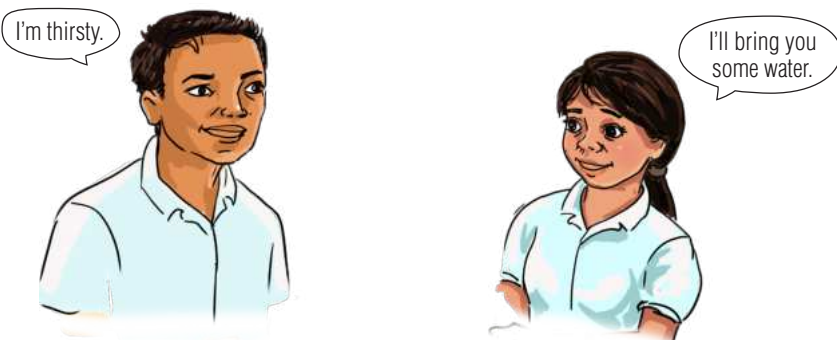

Example: A: I don't have school tomorrow. B: Okay. I *won't wake you up* early.

- | | |
|---|---|
| 1. A: I have a bad headache. | B: I _____ you some medicine. |
| 2. A: She needs to study for her exams. | B: Okay. I _____ her. |
| 3. A: I'm visiting grandma this weekend. | B: You are? I want to see her too.
I _____ with you. |
| 4. A: Your mother's cooking in the kitchen. | B: I _____ her. |
| 5. A: I'm so hungry! | B: I _____ you some snacks. |
| 6. A: Can I borrow you some money? | B: No. I _____ you any money anymore. |

6 A. Write five sentences. You can write about your future plan, problems, or any requests. Do not use *will* in your sentences.

Example: I don't know how to ride a bicycle. Or I'm thirsty.

B. Work in pairs. Share your sentences. Take turns giving responses using *will* / *won't* and if possible, verbs with two objects.

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- identify common verbs with two objects.
- make sentences using *will* for immediate future decisions in both positive and negative forms.

5 **Grammar:** Filling in the gaps

1. Ask students to fill in the gaps with *will* / *won't* and the verbs in the box.
2. Emphasise that *won't* is the negative form of *will*.

Answers

1. will get; 2. won't disturb; 3. will go; 4. will help; 5. will bring; 6. won't lend

Focus on contraction of *will*

You can introduce the contracted form of *will*. You should tell your students that they can also use the contraction *I'll* instead of *I will* all the time. It is very common to use *I'll*, *you'll*, *she'll* etc when speaking.

7 **Reflection:** 'Now I can...'

6 **Speaking:** Giving responses

1. Ask students to think of any problems, future plans, or any requests they have.
2. Tell students to write them in sentences.
3. Remind students that they must use *will* / *won't* in their sentences.
4. Put students in pairs.
5. Ask students to take turns reading their sentences.
6. Tell students to give responses to their partners using *will* / *won't* and try to include the verbs with two objects in their responses.

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Hot potato

To play *Hot Potato*, you need to make a paper ball and ask your students to throw it around the class. When you say stop, whoever has the paper ball has to give a response using *will* / *won't*. You can ask for a volunteer or select a student to read one of the sentences they have written in activity 1A in order for one with the hot potato to respond. If the class is too big, you can divide the class into two big groups to do this activity at the same time.

UNIT 16

ADVENTURE

16A

- 1 Combine the words from the boxes and match to the pictures. There is a verb that you can use two times.

Example: *become a scuba diver*

become ride go fight
get see eat meet

camel scuba diver skiing ghost bear
sky diving lost live octopus king

- 2 A. Find the past participles (v3) of the irregular verbs above.

Example: *become: become*

met built fought become ridden made
seen got
swum caught eaten gone slept won chosen
run told

Unit 16, Lesson A : Adventure

Aims: To discuss experiences.

By the end of 16A, students should be able to:

- make present perfect sentences with never and ever.
- describe and ask about experience using present perfect.

Session 1

- 1 **Vocabulary:** Combine and match

1. Tell students to read the words in the two boxes and look carefully at the pictures.
2. Have students read the example and ask them which picture the example belongs to.
3. Get students to make similar phrases and match them to the pictures.
4. Tell students that there is a verb that they use two times.
5. Check the answers as a class.

Answers

meet a king

fight a bear

get lost

ride a camel

see a ghost

become a scuba diver

go skiing

go skydiving

eat a live octopus

Answers

1. meet: met; 2. fight: fought; 3. get: got;
4. ride: ridden; 5. see: seen; 6. become: become;
7. go: gone; 8. eat: eaten

- B. 5. Tell students to look at the remaining past participles.
6. Have students write down the base forms (v1) of these verbs.
7. Check the answers as a class and write the answers on the board.

Answers

1. built: build; 2. swum: swim; 3. slept: sleep;
4. caught: catch; 5. chosen: choose;
6. told: tell; 7. made: make;
8. run: run; 9. won: win

- 3 **Listening:** Write True or False

- A. 1. Tell students to read the sentences carefully and underline some keywords.
2. Have students copy the sentences into their notebook.
3. Tell students to write TRUE (T) or FALSE (F) as they listen to the recording. Tell them to write the correct answers when it's FALSE.
4. Play the recording one to three times.
5. Check the answers as a class.

Answers

1. F He has never seen a ghost.; 2. T;
3. T; 4. F She has built a den.; 5. T;
6. F He has never won.; 7. F He has played water volleyball.

- 2 **Grammar:** Find and write

- A. 1. Get students to read and count the words in the cloud.
2. Tell students to look at the example and have them find the word in the cloud.
3. Ask students to find the past participles (v3) of the verbs in activity 1 and write in their notebook.
4. Have some students share the answers in class and write the answers on the board.

Focus on *been* or *gone*

When talking about leaving to somewhere in the past...

-If you have gone somewhere and have returned, we use *been*.

Example: *I've been scuba diving.* (I'm no longer there, and my visit is done.)

-If you have gone somewhere and haven't returned, we use *gone*.

Example: *I've gone scuba diving.* (I'm still there.)

B. What about the other past participles? Can you write their base forms (v1)?

Example: *built: build*

3 A. Listen and write TRUE or FALSE. If it's false, write the correct sentence.

Example: *Tim has eaten some crocodile meat. FALSE (He has never eaten it.)*

1. Tim has seen a ghost.
2. Channy has never eaten crocodile meat.
3. Channy has been scuba diving.
4. Lynn hasn't built a den.
5. Lynn has never gone star gazing.
6. Kosal has won a boat racing competition.
7. Kosal hasn't played water volleyball.

B. Fill in the gaps with the correct form of the verbs in brackets.

1. Tim *has never fought* (never, fight) a bear.
2. This is the second time Channy _____ (go) camping
3. Channy _____ (never, swim) across a lake.
4. _____ Kosal and Channy _____ (ever, build) a wooden house?
5. Lynn _____ (ride) a horse.
6. _____ Kosal _____ (learn) how to make a fire?

C. Work in pairs. Read the sentences and choose the correct answers. Write the answers in your notebook.

1. Why do we use never?
 - a. to show that something has happened or you've done something
 - b. to show something hasn't happened or you haven't done it
2. Why do we use ever?
 - a. to show that something can happen at any time in the past
 - b. to show an exact time in the past

4 Spot the mistakes in the sentences. There can be more than one in a sentence.

1. She's never sleep in a tent.
2. They've never saw a ghost before.
3. Have you ever catch a wild animal?
4. Jolie haven't learned how to make a fire.
5. I haven't ate a scorpion yet.
6. Has your dad ever went hiking?
7. Have Nary tell you about her secret?

[Audioscript]

Tim: Does anyone want to play two truths and a lie?

Kosal: What's that?

Channy: Let me explain. One person says 3 things they've done and we'll guess which one is a lie.

Kosal: I see. Tim, let's start with you.

Tim: Ok! I've seen a ghost. I've never fought a bear. I've never eaten crocodile meat.

Channy: Hmm, I think you have eaten that.

Kosal: No, he has never seen a ghost!

Lynn: I agree with Kosal.

Tim: Kosal and Lynn are correct! Why did you say I have eaten crocodile meat? Have you ever eaten it, Channy?

Channy: No, I haven't tried it haha. Ok, my turn. I've been scuba diving. I've been camping with my friends. I've swum across a lake.

Lynn: You have never gone camping!

Channy: This is the second time I've gone camping.

Kosal: Yeah. You went with your friends last year. **Tim:** Then, you haven't swum across a lake.

Channy: Correct. I'm not a good enough swimmer, and I went scuba diving last December.

Lynn: My turn! I've ridden a horse. I've been star gazing in the forest. I've built a den.

Kosal: I guess you haven't gone star gazing because I've never heard Tim talking about it.

Channy: I don't think you have built a den.

Tim: I don't remember going star gazing either. **Lynn:** Kosal and Tim are right. By the way, have you ever built a den? It's really fun.

Kosal: No, we haven't built one, but my sister and I have built a wooden house.

Tim: That sounds cool. Kosal, let's try that!

Kosal: Let's see. I guess it's my turn now. I've won a boat racing competition. I've played water volleyball. I've learned how to make a fire.

Tim: I think you've never played water volleyball.

Channy: Well, I say the third sentence is a lie.

Lynn: I didn't see you make a fire just now, so the last one is a lie!

Kosal: It's the first time you've hurt me, Lynn! I made that fire! Anyway, all of you are wrong. I've never competed in any boat racing competition.

Somnang: Kids. It's late. Time to go to bed!

All: Ok!!!

Kosal: Let's discuss who the winner is tomorrow!

B. 6. Get students to read the sentences and example.

7. Tell students to fill in the gaps with the correct form of present perfect.
8. Tell students that if the brackets have *ever* or *never*, students have to place them correctly in the sentences.
9. Check the answers as a class.

Answers

1. Tim has never fought a bear.
2. This is the second time Channy has gone camping.
3. Channy has never swum across a lake.
4. Have Kosal and Channy ever built a wooden house?
5. Lynn has ridden a horse.
6. Has Kosal learnt how to make a fire?

C. 10. Put students in pairs.

11. Tell students to read the answers above and think about when we use never and ever.
12. Get students to discuss and choose the correct answers for the two questions.
13. Check the answers as a class.

Answers

1. b; 2. a

Focus on the use of never

Never is *not + ever*. A sentence with never is a negative sentence.

Example: *I've never fought a bear.*

We don't use *not + never* because the sentence will have double negative meaning.

Example: ~~*I haven't never fought a bear.*~~

- 5 Work in pairs. Make a conversation about experiences using some of the phrases. Then act out the conversation.**

make a fire	go fishing
swim in a lake/river	play hide and seek in the forest
hunt animals	sleep outdoors
climb a tree	run away from big animals
cook outdoors	

A: Let's talk about our experiences!

B: Ok, have you learned how to make a fire?

A: No, I haven't learned yet. My friends always did it for me.

Have you ever...

- 6 Work in groups. Write ten to fifteen questions about experiences. Take turns asking and answering the questions.**

Session 2

Suggestion: Starting session 2

To start the class, put your students in groups. Get your students to bring out a piece of paper for each group. You can write a verb on the board and tell them to write its past participle on the piece of paper or write a present perfect sentence.

- 4 Grammar:** Spot the mistakes

1. Ask students what the positive form of present perfect is. (S + have/has + v3 + obj.)
2. Tell students to read the sentences and find the mistakes.
3. Tell students that the sentences can have more than one mistake.
4. Have students compare answers with their partner.
5. Check the answers as a class.

Answers

1. slept; 2. seen; 3. caught; 4. hasn't;
5. eaten; 6. gone; 7. Has...told

- 5 Writing and Speaking:** Make a conversation

1. Put students in pairs.
2. Have students read the phrases in the box.
3. Tell students to read the example and make a similar conversation about experiences using some of those phrases.
4. Encourage students to use at least five of the phrases.
5. Tell students to read the conversation aloud with their partner when it's done.
6. The pairs can act out in front of another pair if there's enough time.
7. Walk around the classroom, listen, help and correct if necessary.

Extension activity: Two truths and a lie

Put students in groups. Tell your students to think of two truths and a lie using present perfect. They can write or memorise. Get them to take turns saying their 3 sentences and choosing the lie. You can make it more fun by telling students to give a point to those that guess right, and by the end of the game, the student with the highest score wins!

- 6 Writing and Speaking:** Ask and answer about experiences

1. Put students in groups.
2. Tell students to bring a piece of paper and tear them into around fifteen to twenty small pieces.
3. Get students to write a present perfect question on each piece of paper.
4. Have students gather the pieces of papers and mix them together.
5. Tell students to take turns picking a piece of paper and answering the questions. It's fine if students lie as long as the answers are not yes or no.
6. Walk around the classroom, listen, help and correct if necessary.

Tip! Telling lies

Telling lies can be a good thing in English class! For activities like Find someone who... (or other activities where students ask each other questions), we often find that we get the same answers from everyone. Sometimes we can't find a person who can answer yes to some of the questions or ideas in the activity.

A good way around this is to tell students that they don't have to tell the truth. They can lie if they want. This can give you different answers to all the questions and can make it more fun.

If there's extra time, you can also ask the students if they think they know who was lying, and about what!

Unit 16, Lesson B

- 1 Work in pairs. Take turns to randomly point at a picture and guess the phrase.

- 2 A. Listen to the conversations and put the sentences in the correct order.

- _____ Haven't you eaten lunch yet?
 _____ You have already seen our national bird!
 _____ Why haven't you two changed your clothes yet?
 _____ I've done it so many times.
 _____ Have you spotted any birds yet?
 _____ I haven't learned how to fish yet.
 1 I've already caught three fish!

Aims: To interview and respond to things that each student has or hasn't done.

By the end of 16B, students should be able to:

- make present perfects sentences and questions with *yet* and *already*.
- interview and answer about experiences using present perfect.

Session 1

- 1 **Vocabulary:** Guess the phrases

- Put students in pairs.
- Tell students to look at the pictures and think about the phrases that they've learned from 16A.
- Get students to take turns pointing at the pictures and saying the phrases.
- Ask some students to share the answers in class and write them on the board.

Answers

- run away from animals;
- go skydiving / become a sky diver;
- make a fire;
- go fishing;
- hunt an animal / a deer;
- go scuba diving / become a scuba diver;
- build a den;
- ride a cow

- 2 **Listening:** Put the sentences in order

- A.
- Tell students to copy the sentences and underline the keywords.
 - Have students discuss the meaning of the sentences with their partner.
 - Get students to listen and write 1 to 7 in front of the sentences.
 - Play the recording one to two times.
 - Check the answers as a class.

Answers

- Haven't you eaten lunch yet?
- You have already seen our national bird!
- Why haven't you two changed your clothes yet?
- I've done it so many times.
- Have you spotted any birds yet?
- I haven't learned how to fish yet.
- I've already caught three fish!

[Audioscript]

Kosal: Have you caught some fish yet?

Tim: Yes, I've already caught three fish! I've done it so many times, so it's easy.

Kosal: Lucky you. I haven't learned how to fish yet.

Lynn: Mum, I'm hungry.

Vicki: Haven't you eaten lunch yet?

Lynn: I know, but camping food has never made me feel full.

Leakhana: Why haven't you two changed your clothes yet? They're wet!

Somnang: We'll swim again in a bit. Richard said he hasn't swum across a river yet, so we were trying to do it.

Richard: Then we got hungry haha.

Channy: You've sat here for almost an hour. Have you spotted any birds yet?

Lynn: I saw a giant ibis! Here's the picture!

Channy: Wow! You have already seen our national bird!

B. 6. Get students to read the questions and guess the answers.

7. Play the recording once and have students write down the answers.

8. Ask some students to share the answers in full sentences.

Answers

- Tim has already caught three fish.
- Camping food has never made Lynn feel full.
- Richard hasn't swum across a river yet.
- Lynn has sat for nearly an hour.

B. Listen again and answer the questions.

- Who has already caught three fish?
- What hasn't made Lynn feel full?
- Who hasn't swum across a river?
- Who has sat for nearly an hour?

C. Work in pairs. Complete the gaps with the words in the box.

negative already yet questions positive have/has

Look

In present perfect, we use _____ to talk about a situation that happened before now, but when it happened isn't important. We use it in _____ sentences. We put *already* between _____ and the main verb. For example, I've *already* caught three fish!
We use _____ to describe something that hasn't happened before or to ask if it has happened. We use it in _____ sentences and _____. We put it at the end of the sentence or question. For example, I haven't learned how to fish yet.

3 A. Work in pairs. Discuss why the underlined words are wrong.

- I have yet been skiing.
- She hasn't caught already a rabbit.
- They have had breakfast yet.
- He has yet hunted some wild animals.
- Have they yet eaten dinner?
- I yet haven't made a fire.

B. Rewrite the sentences correctly in your notebook.

4 Use the verbs in the box to fill in the gaps. Add *already*, *yet*, *never*, or *ever* in each sentence.

not have see sleep not make go win

Example: I have never won a boat racing competition.

- We _____ in a cave.
- _____ you _____ such a beautiful sunset?
- Why _____ you _____ a fire _____? It's almost dark!
- You're too late. John _____ water skiing.
- Lin _____ a picnic in the forest _____.

C. 9. Put students in pairs.

- Tell students to read the LOOK box and fill in the gaps with the words in the box.
- Check the answers as a class.
- Ask some comprehension checking questions (CCQs) about the LOOK box to make sure students understand. For example, *when do we use already and yet? Where do we put already and yet?*

Answers

1. already; 2. positive; 3. have/has; 4. yet; 5. negative; 6. questions

3 Grammar: Discuss the underlined words

- Put students in pairs.
- Tell students to read the sentences and discuss why the underlined words are wrong.
- Tell students to read the LOOK box again if they need help.
- Monitor and ask some students to share the answers in class.

Answers

- 1, 3, and 4: *yet* is used in negative sentences not positive. It is used to show that something hasn't happened, but the actions in these three sentences have happened.
- already* is used in a positive sentence. It is used after have/has, and it shows that something has happened without an exact time.
- 5 and 6: *yet* stays at the end of the sentence or question.

- Tell students to rewrite the sentences and question in their notebook.
- Check the answers as a class.

Answers

- I have already been skiing.
- She hasn't caught a rabbit yet.
- They have already had breakfast.
- He has already hunted some wild animals.
- Have they eaten dinner yet?
- I haven't made a fire yet.

Session 2

Suggestion: Starting session 2

To start the class, tell your students to each make two present perfect sentences, positive, negative and a question using the vocabulary in activity 1 and *yet* or *already*. You can walk around and check the answers, or you can tell them to swap with their partner and check for mistakes.

4 Grammar: Fill in the gaps

- Have students read the sentences and the verbs in the box,
- Tell students that they have to match the verbs to the gaps and add *already*, *yet*, *never*, or *ever* to the right places.
- Get students to read the example if they still don't understand.
- Check the answers as a class.

Answers

- We have never slept in a cave.
- Have you ever seen such a beautiful sunset?
- Why haven't you made a fire yet? It's almost dark!
- You're too late. John has already gone water skiing.
- Lin hasn't had a picnic in the forest yet.

5 Speaking: Ask and answer the questions

- Put students in groups of three.
- Tell students to choose a number. They can't choose the same number as their friends in the group.
- The students that choose number 1 have to answer the questions in that number which are asked by the group. Then move on to the students that choose number 2 and 3.
- Encourage students to say the questions and answers without writing in their notebook.
- Tell students that there is more than one correct answer.
- Walk around the classroom, listen, help and correct if necessary.

- 5 **Work in groups. Take turns picking a number and answering the questions. Add *yet*, *never*, *already* or *ever* in the sentences or questions.**

Number 1: Go to page 192.
Number 2: Go to page 195.
Number 3: Go to page 195.

I choose number 1.

Have you ever eaten a cricket?

Yes, I have.

Have you ever ridden an elephant?

No, I have never ridden it.

- 6 **A. Copy the table into your notebook. Using the verbs in activity 1, make your own questions about experiences.**

Interview time		Name:
Have you ever...	Answer (yes/no)	If no, why?
1. run away from a spider?		
2.		
3.		
4.		
5.		
6.		
7.		
8.		

- B. Choose a friend and ask your questions.**

Have you ever run away from a spider?

No, I haven't.

Why not?

Because it's smaller than me.

- 7 **How well can you do these things? Write in your notebook.**

unhappy

neutral

happy

very happy

NOW I CAN...

- describe and ask about experience using present perfect
- use *never*, *ever*, *already* and *yet* in present perfect sentences

Answers

Number 1

- Have you ever eaten a cricket?
- Have you ever ridden an elephant?
- Have you ever gone mountain biking?
- Have you ever gone star gazing?
- Have you ever run a marathon in a forest?

Number 2

- Have you ever gone bird watching?
- Have you ever built a den?
- Have you ever stolen a beehive in a forest?
- Have you ever walked without shoes in a forest?
- Have you ever caught fish with your hands?

Number 3

- Have you ever taken pictures in a forest?
- Have you ever fallen down a small hill?
- Have you ever watched the sunset on a mountain?
- Have you ever played mushroom hunt?
- Have you ever swum across a lake?

Tip! Speaking without writing

Most students tend to rely too heavily on their notebook. They usually write down the sentences they want to say and check the grammar structures before speaking. While this might be useful for early practice activities, during production activities, you should encourage students to use their memory of what they've learned and speak on the spot because it can increase their understanding of the grammar point and make their speech more natural.

- 6 **Writing and Speaking:** Fill in the table and interview

- A.** 1. Tell students to copy the table into their notebook.
2. Get students to read the example and tell them to use the verbs in activity 1 to make similar questions.
3. Have students write eight to ten questions.
4. Walk around the classroom, read, help and correct if necessary.
- B.** 5. Tell students to stand up, move around and talk to other students.
6. Get students to take turns interviewing and answering the questions.
7. Encourage students to use long answers instead of a simple *yes* or *no*.
8. If there is enough time, tell students to find one more student to interview.
9. Walk around the classroom, listen, help and correct if necessary.

- 7 **Reflection:** 'Now I can...'

- Ask students to look at the sentences and decide how well they can do these things.
- Encourage honest reflection by being positive about mistakes.
- Tell students that by finding out what they have and haven't learnt, they will become better learners.
- For more ideas on how to do this, please see page V.

Extension activity: Rewrite the sentences

Put students in groups. Tell your students to take out a piece of paper and write about their experiences. Have your students write at least five present perfect sentences. You can tell them to include *yet*, *already*, *ever*, or *never* if possible. Get students to present their notes to their group.

UNIT 17

HIKING IN THE FOREST

17A

1 Answer the questions in pairs.

1. What is hiking?
2. Have you ever been hiking?
3. Where in Cambodia are good places to go hiking?
4. What things should you bring if you go hiking for the day?

2 A. Read the information from the website about hiking in Mondulkiri.

What to bring

What to bring

Here at Mondulkiri-hike.org, we want you to enjoy hiking in our beautiful province, and of course we also want you to have a safe and comfortable day. Here are some important things to bring with you if you go hiking in the forests around Mondulkiri. .

You must wear real walking boots. Other shoes are not strong enough. Also, make sure you bring a small backpack. Other bags are difficult to carry and you need to have your arms free. Perhaps the most important thing to have in your backpack is a water bottle. It can be hot and sunny and it's important to drink plenty of water. You should never go hiking in Mondulkiri without a sunhat. Wear it all the time, even if you don't feel hot because the sun on your head can be very dangerous. You should also put sunscreen on your face and on any part of your body that isn't covered by clothes.

It's easy to get lost in the forest. Always bring a GPS device, such as phone with Google Maps. That's important but it may not be enough. In some places there is no phone service, so you'll need a paper map and a compass so that you know which direction you are walking. Before you go, make sure that you can read a map and that you know how to use a compass.

Finally, make sure that you have a simple first-aid kit, with basic medicine and things to help you if you hurt yourself. In addition, bring some snack bars. If you spend a long time in the forest, you may get hungry and need to eat. Last but not least, don't forget to bring a jacket. Many people forget that it can get cold in the forest in the evening, even when it's a very hot day.

Unit 17, Lesson A : Hiking in the forest

Aims: To practise talking about preparing for a hiking trip.

By the end of 17A , students should be able to:

- name different items that people take on a hiking trip.
- talk about preparing for a hiking trip.
- use negative questions to show surprise or annoyance.

Session 1

1 Lead in: Answering questions

1. In pairs, have students ask and answer questions 1 – 4. (Hiking means walking in nature, such as in the forest or mountains).
2. Walk around the classroom, listen, help and correct if necessary.

The other words are not difficult, and students should be able to guess the meaning of the new word.

2 Reading: A website about preparing for hiking in Mondulkiri

1. Tell students to read the webpage about hiking in Mondulkiri.
2. Encourage students to guess the meaning of new words by reading the sentences around the words.
3. Walk around the classroom and help if necessary.
4. Have students look at the pictures and to find the words for the items in the text.
5. Check the answers as a class.

Answers

1. a water bottle ; 2. a jacket ; 3. a small backpack; 4. a compass; 5. a GPS device; 6. a map; 7. a sunhat; 8. a first-aid kit; 9. a snack bar; 10. sunscreen

Tip! Guessing meaning from context

When students see a word that they don't know while reading, they often go straight to the dictionary or their phone to look for the meaning without really thinking about it. Often it isn't necessary for them to do that. They can often guess the meanings of words by reading the words that are around it. This is a very good skill for students to practise and develop.

For example, in this text, students may not know the word *compass*. If they read around it, they can see this: *you'll need a paper map and a **compass** so that you know which direction you are walking.*

3 Grammar: Using negative present perfect questions when you're surprised

1. Choose two students to read the short conversation in the example.
2. Show students that the verb in the question is negative (*haven't you got any sunscreen?*)
3. Tell students that we use negative questions when we are surprised that someone hasn't done something e.g. we expect them to have sunscreen.
4. Tell the class to look at question 1. Choose two strong students to make a similar conversation to the example.
5. In pairs, have students make similar conversations for the rest of the questions.
6. Walk around the classroom, listen, help and correct if necessary.
7. Check some of the answers as a class.

Answers

Students should have similar conversation to the examples below:

- | | |
|---|--|
| 1. The sun is too strong on my head. | 2. I've fallen down and hurt my leg. |
| Haven't you got a sunhat? | Haven't you got a first-aid kit? |
| No, I haven't I have. You can use mine. | No, I haven't. I have, you can use mine. |

B. Look at the pictures. Find the names of the things in the text. Write them in your notebook.

3 In pairs, make short conversations like the example using sentences 1 – 6.

Example:

The sun is burning my skin.

*The sun is burning my skin.
Haven't you got any sunscreen?
No I haven't.
I have. You can use mine.*

1. The sun is too strong on my head.

2. I've fallen down and hurt my leg.

3. I don't know which way north is.

4. I need to see where I am on my phone.

5. It's getting a bit cold! (jacket)

6. I don't have anything to carry my things in.

Focus on positive and negative questions.

We can make a positive question, such as: *have you bought a sunhat?* This sounds like a normal question. We are just asking because we don't know the answer.

We can make a negative question, such as: *haven't you bought a sunhat?* This sounds like we are surprised or annoyed because we think the person hasn't done it.

Session 2

Suggestion: Starting session 2

To start the class, with books closed, ask the students what things they need to take on a hiking trip into the forest. Allow only one answer per student. Write them on the board and see how many of the ten items the students can remember from last class.

4 Listening and speaking: A conversation about preparing to go hiking

- A. 1. Have students look at Richard's checklist (a list of things to do).
2. Tell students that they will hear Richard, Somnang, Kosal and Tim talking about preparing to go hiking in Mondulkiri.
3. As they listen, ask students to write who has done each of the things on Richard's checklist from the options in the box (they can also choose *everybody* and *nobody*).
4. Play the recording – twice if necessary.
5. Check the answers as a class.

Answers

1. Tim; 2. Tim; 3. Kosal; 4. Somnang;
5. nobody; 6. Richard; 7. Kosal;
8. everybody; 9. everybody; 10. nobody

- B. 6. Choose two students to read the example question and answer.
7. Point out that the question and answer are based on the answers to activity 4A.
8. In pairs, tell students to use the answers to activity 4A to make other, similar two-line conversations.
9. Encourage students to use short forms such as *Tim's* rather than *Tim has...*, with a clear final s sound.
10. Walk around the class, listen, help and correct if necessary. Listen for students pronouncing the s sound clearly.
11. Invite some students to share their conversations with the class.

Answers

All questions start: Who's = Who has.

Answers: 1. Tim 2. Tim 3. Kosal 4. Somnang 5. Nobody 6. Nobody 7. Kosal 8. Everybody 9. Everybody 10. Nobody

[Audioscript]

Richard: So, it's decided then! The boys are all going hiking for the day and the girls are going to relax at the campsite and swim in the river.

Kosal: I think the girls should come hiking too!

Somnang: Well nobody is stopping them!

They just don't want to.

Tim: So, are we ready to set off soon?

Richard: Let's check. We mustn't forget to take water. Has anyone filled the water bottles?

Tim: Yes, I've already done that. And I went to the market this morning and I've bought snack bars, too.

Richard: Great, good job Tim. Now, has anyone looked at the map yet so that we know where to go?

Kosal: Yes, I've looked at it and I've already planned a route for our hike, but I couldn't find the compass.

Somnang: Oh it's OK, I've found the compass; it was in our tent. But I haven't turned on the GPS on my phone. Has anybody done that?

Richard, Kosal and Tim: No.

Somnang: So nobody's turned on the GPS. We have to do that before we go. Richard, what else is there on the checklist?

Richard: Well, I've checked the first-aid kit and that's OK. Kosal, you didn't have a sunhat. Have you got one?

Kosal: Yes, I went to the market with Tim this morning. I've bought a sunhat now.

Somnang: OK good. I've listened to the weather forecast and it's going to be very sunny today. Has everybody put on sunscreen?

Richard, Kosal and Tim: Yes.

Somnang: ...and remember it could get cold if we go high up. Kosal and I have brought jackets. Richard and Tim, have you brought jackets?

Richard: Yes, I have. Tim?

Tim: Yes, I've brought a jacket, too.

Richard: So we've already done almost everything. We haven't turned on the GPS or packed the backpacks yet. Let's do those things now and then we will be ready to set off.

- 4 A.  Look at Richard's checklist of things to do before they set off. Listen to the conversation and write down who has done each of the things on the list. Choose your answers from the box.

Richard Somnang Tim Kosal everybody nobody

Checklist

- | | |
|---------------------------------|----------------------------|
| 1. fill the water bottles | 6. check the first-aid kit |
| 2. buy snack bars | 7. get a sunhat |
| 3. look at the map | 8. put on sunscreen |
| 4. find the compass | 9. bring a jacket |
| 5. turn on the GPS on the phone | 10. pack the backpacks |

B. Work in pairs. Take turns to ask and answer questions.

Example: *Who's filled the water bottles?*
Tim's filled the water bottles.

- 5 Choose a verb from the first cloud and a noun from the second cloud. In pairs, make short conversations like the example.

Example: *turn on – the GPS*

check – the first-aid kit

Haven't you turned on the GPS yet?

Haven't you checked the first-aid kit?

Yes, I've already done that.

No, I haven't done that yet.

Ok, good.

We'll check it now!

find turn on fill
 get pack put on
 bring buy get
 look at check charge

the map jacket the first-aid kit
 the GPS sunscreen backpacks
 the phone the compass snack bars
 the water bottles a sunhat

- 6 Work in pairs. Student A: you are going to leave on a hiking trip soon. Student B is your friend. Talk to your friend and tell him / her about the things that you are taking with you Student B, you can ask questions.

- 5  **Grammar and speaking:** Negative present perfect questions and short answers.

- Write the two examples on the board.
- Choose students to read the short conversations in the speech bubbles.
- Have students find *buy* from the left-hand cloud, and snack bars from the right-hand cloud.
- Ask a student the negative question; *Haven't you bought any snack bars yet?*
- Invite student to give a yes or a no answer like in the example. Then respond.
- In pairs, tell students to use the word clouds to make similar conversations.
- Walk around the classroom, listen, help and correct if necessary.
- Invite some students to share some answers with the class.

Answers

NOTE: *There are a lot of possible answers, but here are some examples.*

- | | |
|---|---|
| 1. Haven't you found the first-aid kit yet? Yes, I've already done that. Ok good. | 2. Haven't you turned on the GPS yet? No, I haven't done that yet. Well, do it now! |
|---|---|

- 6 **Speaking:** Preparing for a hiking trip.

- Put students in pairs. Tell them that they are going to have a conversation about preparing for a hiking trip.
- Have students decide who is A and who is B.
- Student A should talk to B and talk about going on a hiking trip. They tell student B about the things that they have done to prepare.
- Student B should ask student A some questions about what they've done.
- Remind students that they can ask negative questions if they are surprised that something hasn't been done yet.
- Walk around the classroom, listen, help and correct if necessary.
- If there is time at the end of the lesson, ask for volunteers to perform their conversation for the class.

Extension activity: Repeating game

Put students in small groups of 4 or 5. The first player says something that they've done to prepare. The next player has to repeat the first student's choice and add a new one. The next player has to repeat both choices in the same order and then add a new one. They keep playing until someone makes a mistake. If someone makes a mistake, the game starts again.

Example:

A: *I've bought some snack bars.*

B: *I've bought some snack bars and filled the water bottles.*

C: *I've bought some snack bars, filled the water bottles and bought a sunhat*

A: *I've bought some snack bars, filled the water bottles, bought a sunhat and turned on the GPS*

B: *I've bought some snack bars, filled the water bottles, bought a sunhat and ... (can't remember)*

The game starts again.

Unit 17, Lesson B

1 Answer the questions in pairs.

1. Have you ever got lost in the forest or in the countryside?
2. What can you do if you get lost and you need help?
3. What things can you use to help you if you get lost?
4. How can your phone help you if you get lost?
5. What could go wrong with your phone so you can't use it to help?

2 Listen to the conversation and answer questions 1 – 7 using the phrases in the box.

for ages for almost ten hours since dinner time for thirty years
for over an hour since he was a little boy since they got lost

1. How long have the boys been walking in the forest?
2. How long has Leakhana been trying to call Somnang?
3. How long has Richard been walking in the forest?
4. How long has Richard been using maps and compasses?
5. How long have the women been expecting the men to come back?
6. How long has Kosal been trying to get a signal on his phone?
7. How long have the boys been searching for the road?

3 A. Match the phrases in the box with the pictures.

use the GPS send your location run out of battery
lose signal locate the road on the map can't get through

B. Complete the sentences with the phrases from the box.

1. Leakhana's been trying to call Somnang for ages but she ____.
2. My phone doesn't always work when I'm far away from the town because it ____.
3. If you don't charge your phone before you go out you might ____.
4. If you want to find out where you are on Google maps, you have to ____.
5. Please ____ so that I know where you are and I can come and collect you.
6. If we can ____, we should be able to walk to it easily.

Aims: To practise talking about how long you have been doing something and to understand and make phone calls to ask for help.

By the end of 17B, students should be able to:

- Ask and answer *how long* questions...
- Talk about problems that could happen if you go hiking in the forest.
- Use vocabulary connected to using the phone to get help.
- Make a phone call to explain what has happened and ask for help.

Session 1

1 Lead-in: Talking about getting lost in the forest

1. In pairs or small groups, have students answer questions 1 – 5.
2. Walk around the classroom, listen, help and correct if necessary.
3. Ask students to share some of their answers with the class.

2 Listening: Getting lost in the forest. Saying how long with *for* and *since*

1. Tell students that they will hear a phone conversation.
2. Have students read questions 1 – 7.
3. Ask students what they think has happened to the boys in the forest. (They have got lost.)
4. Tell students to answer the questions as they listen.
5. Play the recording. Play it twice, if necessary.
6. Check the answers as a class.

Answers

1. for almost ten hours. 2. for over an hour
3. since he was a little boy. 4. for thirty years. 5. since dinner time. 6. since they got lost. 7. for ages.

[Audioscript]

Leakhana: Vicki, I'm getting a bit worried about the boys. They set off early this morning and they've been hiking in the forest for almost ten hours!

Vicki: Well why don't you call Somnang if you're worried?

Leakhana: I've been calling him for over an hour, but I can't get through. I've been trying Richard's phone too.

Vicki: Well, I agree it's a little strange but I don't think we should worry too much. Richard has been hiking in the forest since he was a little boy.

Leakhana: Well, that's good. I don't think Somnang knows how to use a map and compass. I hope that they aren't stuck!

Vicki: Oh I don't think so. Richard's been reading maps and using compasses for thirty years! He used to go hiking a lot in England. [...phone ringing...]

Vicki: Hello, Kosal?

Richard: No, it's me, Richard. I'm using Kosal's phone. My phone's lost signal and Somnang's has run out of battery. Kosal's phone has just started working.

Vicki: Well where are you? We've been expecting you to come back since dinner time.

Richard: I know, I'm sorry, we got lost about two hours ago. We lost the compass! And Kosal's been trying to get a signal on his phone since we got lost so that we can use the GPS and find out where we are.

Vicki: So, what happens next?

Richard: Well, we've been searching for the road for ages, but now that we have the phone we can locate it on Google Maps.

Vicki: OK, so can you send me your location?

Richard: Yes, we will do that and walk to the nearest road. We need you to drive there and rescue us. I'm sending the location now. [...phone beeps...]

Vicki: Oh Richard! Really?! Rescue you?!

How long have you been worrying about being stuck there? You are ten minutes' walk away from the road! I'm sure you will survive! We'll drive there now and come to get you...

[conversation fades]

C. Match the words with the meanings.

- | | |
|--------------------|--|
| 1. be stuck | a. save somebody who is in danger |
| 2. survive | b. when you can't move, or you don't know what to do |
| 3. rescue | c. find exactly where somebody or something is |
| 4. locate somebody | d. live through a dangerous situation, don't die |

4 A. Read the lines from the conversation and answer questions 1 – 4.

...they've been hiking in the forest for almost ten hours...

Kosal's been trying to get a signal on his phone since we got lost.

- True or false? These sentences talk about *how long* (how much time) something has been happening.
- The sentences contain the verb form...
 - have + V₃
 - have + *-ing* form.
 - have + been + *-ing* form
- We use the word *for* when we say:
 - the amount of time that something has been happening.
 - the time when something began.
- We use the word *since* when we say:
 - the amount of time that something has been happening.
 - the time when something began.

B. Complete these lines from the conversation. Write the answers in your notebook.

Example:

They (hike) in the forest *for / since* almost ten hours.
They've been hiking in the forest *for* almost ten hours.

I (try) to call him *for / since* over an hour.

Richard (hike) in the forest *for / since* he was a little boy.

He (read) maps and (use) compasses *for / since* thirty years!

We (expect) you to come back *for / since* dinner time.

...we (search) the road *for / since* some time...

How long (you worry) about being stuck there?

Vocabulary: Phrases – getting lost in the forest and using the phone for help

- A.** 1. Tell students that the phrases in the box are all about using your phone if you have a problem.
2. Ask students to match the phrases in the box with the pictures.
3. Check the answers as a class.

Answers

1. run out of battery; 2. locate the road on a map; 3. use the GPS; 4. lose signal; 5. can't get through; 6. send your location.

- B.** 4. Tell students that sentences 1 – 6 all come from the conversation in the recording.
5. Have students complete sentences 1 – 6 with the phrases from the box in activity A.
6. Play the recording again for students to check their answers.
7. Check the answers as a class.

Answers

1. can't get through; 2. loses signal; 3. run out of battery; 4. use the GPS; 5. send your location; 6. locate the road on the map

- C.** 8. Have students match the words with the meanings on the right.
9. Check the answers as a class.

Answers

1. b; 2. d; 3. a; 4. c

Session 2

Suggestion: Starting session 2

To start session 2, ask the students what happened to the boys last lesson while they were walking in the forest. Try to encourage different students to say something that they can remember to build up the story.

For example, *they got lost in the forest, their phones ran out of battery, they lost signal, they searched for the road...*

For this activity, it's better to use the past simple because we are looking back at what happened, and not talking about how long the boys have been doing something now.

Grammar: Using the present perfect continuous with *for* and *since* to say how long

- A.** 1. Tell the students to read the two lines from the conversation that they heard last lesson.
2. Have students answer questions 1 – 4. They can talk about the questions in pairs if they would like to check together.
3. Check the answers as a class.

Answers

1. True; 2. c; 3. a; 4. b

Focus on the present perfect continuous with *for* and *since*

The present perfect continuous is:
have / has + been + -ing form.
For example: *I have been walking, he has been waiting.*

We use the present perfect continuous to say **how long** we have been doing something, up to now.
For example: *I've been walking for two hours. She's been waiting since 9 a.m.*

Note that we use *for* to say how long and *since* to say when we started.
For *five minutes, two hours, twenty years.*
Since *2020, last week, I came to Siem Reap.*

- B.** 4. Have students look at the prompt in the speech bubble in the example. (*They (hike)...*)
5. Choose a student to read the complete sentence below the prompt (*They've been hiking...*)
6. Tell students to complete 1 – 6 in pairs, taking turns.
7. Walk around the classroom, listen, help and correct if necessary.
8. Check the answers as a class.

Answers

1. I've been trying / for 2. has been hiking / since 3. has been reading and using / for 4. We've been expecting / since 5. We've been searching / for 6. have you been worrying

- 5 **Work in pairs. Re-order the words to make *how long* questions. Then, take turns to ask and answer each other. Answer with *for* or *since* with a suitable phrase from the cloud.**

Example: *long / been / have / looking / you / How / the / at / map?*

How long have you been looking at the map?

*I've been looking at the map **for** about half an hour. OR
I've been looking at the map **since** before lunch.*

almost two hours	about five years	I was little	before lunch
about half an hour	around six hours	last year	a few minutes
early this morning	dinner time	it got dark	a couple of hours

1. been / me? / have / to / you / How / trying / long / call
2. going / been / long / you / have / camping? / How
3. have / long / been / How / maps? / you / reading
4. long / a / phone? / to / trying / How / you / your / signal / get / on / have / been
5. How / you / have / been / for / road? / long / a / searching
6. the / How / been / today? / long / you / have / forest / in / walking

- 6 **Work in pairs. Student A: you are with Richard and Somnang and you've got lost in the forest. Student B: you are with Vicki and Leakhana.**

Student A: call student B and explain what has happened. Ask your partner to rescue you. **Student B:** respond to student A and at the end of the call agree to go and get them in the car.

- 7 **How well can you do these things? Write in your notebook.**

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- Make *how long* questions using the present perfect continuous.
- Answer *how long* questions, or talk about how long they have been doing something using the present perfect continuous and *for* or *since*.
- Talk about problems that could happen if I go hiking in the forest.
- Use vocabulary relating to using the phone to get help.
- Make a phone call to explain what has happened and ask for help.

- 5 **Grammar and speaking:** Answering *how long* questions with the present perfect continuous and with *for* and *since*.

1. Choose three students to read the question and two answers in the example.
2. In pairs, have students re-order the words in 1 – 6 to make questions.
3. Tell students to take turns to answer the questions using *for* and *since* and a time phrase from the box.
4. Walk around the classroom, listen, help and correct if necessary.
5. Check the answers as a class.

Answers

NOTE: Your students might come up with different answers to the questions. Accept them as long as the time that they say is OK for the question.

1. How long have you been trying to call me?
2. How long have you been going camping?
3. How long have you been reading maps?
4. How long have you been trying to get a signal on your phone?
5. How long have you been searching for a road?
6. How long have you been walking in the forest today?

Tip! Examples for the present perfect continuous

Be careful when giving examples with the present perfect continuous because there are some verbs that we don't use in the continuous forms.

We use the present perfect continuous with action verbs. This means verbs that can answer the question: *What are you doing?* For example, we can say *I'm watching TV* or *I'm hiking in the forest*. So, we can use the present perfect continuous and say *I've been watching TV for an hour*.

Some verbs don't answer the question: *what are you doing?* These are called state verbs and can't be used in the continuous forms. For example, we can't answer this question with *I'm knowing your brother*, or *I'm liking bananas*. This isn't doing something. So we can only use the present perfect simple and say *I've known your brother for five years*, or *I've liked bananas since I was a child*.

- 7 **Reflection:** 'Now I can...'

- 6 **Speaking:** Calling to ask for help if you are lost in the forest
1. Tell students that they will role-play a phone call between the boys in the forest and the girls at the campsite.
 2. In pairs, have students decide who is A (in the forest) and who is B (at the campsite).
 3. Have student A call student B and explain what has happened and ask for help.
 4. Have student B respond and ask questions.
 5. By the end of the call, student B should agree to go and rescue student A.
 6. Walk around the room, listen, help and correct if necessary.

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Asking *how long* questions.

Have students ask and answer *how long* questions using the present perfect continuous with *for* and *since* about things in their real lives. Help them by getting them to suggest examples, or by writing some phrases on the board, such as:

study at this school, learn English, watch your favourite TV show, listen to your favourite singer, play your favourite game...

UNIT 18

REVIEW

1 A. Fill in the gaps with the words in the box. Write the answers in your notebook.

volcanoes glaciers earthquake ocean mountain star

- The ring of fire has over 450 volcanoes.
- The _____ in Haiti hurt as many as 300,000 people.
- The temperature of a _____ called Alpha Centauri A is around 5,517°C.
- The deepest part of the _____ is called the Challenger Deep, which is 36,200 feet deep.
- During the last ice age, _____ covered most of the land, and the sea level was about 122 meters lower than today.
- Phnom Oral is the highest _____ in Cambodia, and it stands at 1,813 meters.

B. Write the numbers above in words.

Example: 450: Four hundred and fifty.

2 A. Work in pairs. Choose one phrase to explain and have your partner guess it. Then swap.

fill the car up	run away from animals	make a fire	hunt animals
plan the route	build a den	use the GPS	go skydiving
send your location	lose the signal	pack the bags	book the campsite
rescue someone			

It's when you put fuel in your car.

It's fill the car up! My turn! It's when...

B. Choose eight phrases from the box and make present simple sentences.

Example: My dad always fills the car up before we begin our trip.

3 Using the phrases in activity 2, make promises or decisions.

Example: Tim is lost in the forest, but he has his phone.
→ He will send his location to his dad.

- Dara is leaving for his trip tomorrow, but his stuff is everywhere.
- Vicki is angry at Richard because he didn't plan the trip, and now they are lost.
- A group of campers forgot to bring their gas stove.
- Leakhana is scolding Kosal because he got lost at the zoo.
- Tim's friend fell into the river.

Unit 18 : Review

Aims: Aims: to review vocabulary and grammatical structures introduced in Units 13-17.

By the end of 18, students should be able to:

- name some geographical features.
- describe large numbers in words.
- make sentences and questions using present perfect.
- make present simple sentences.
- use will to make decisions and promises.
- ask and answer using *have got*.
- use *already, yet, never, ever, for* and *since* correctly.

1 Vocabulary: Geographical features

- A.** 1. Tell students to complete the sentences with the words in the box.
2. Check the answers as a class.

Answers

1. volcanoes; 2. earthquake; 3. star; 4. ocean; 5. glaciers; 6. mountain

- B.** 3. Have students copy the numbers from the six sentences into their notebook.
4. Tell students to write those numbers in words.
5. Select a few students to write the answers on the board and check as a class.

Answers

1. 450: Four hundred and fifty.
2. 300,000: Three hundred thousand.
3. 5,517: Five thousand five hundred and seventeen.
4. 36,200: Thirty-six thousand two hundred.
5. 122: One hundred and twenty-two.
6. 1,813: One thousand eight hundred and thirteen.

2 Vocabulary and Grammar: Guessing and making present simple sentences

- A.** 1. Put students in pairs.
2. Tell students to scan through the phrases.
3. Ask students to take turns explaining the meaning of one phrase and having their partner guess which phrase it is.
4. Encourage each student to explain at least five phrases.
5. Get student to read the example if they still don't understand how to do the activity.
6. Walk around the classroom, listen, help and correct if necessary.
7. Select a few students to share their answers in class.

B. 8. Put students in the same pairs.

9. Tell students to choose eight phrases and write eight negative or positive present simple sentences in their notebook.
10. Ask twelve students to each write an answer on the board.
11. Tell students there is more than one correct answer.

Suggested answers

1. My dad always fills the car up before we begin our trip.
2. We don't run away from animals because we love them.
3. I always make a fire for cooking.
4. My friends don't like hunting animals.
5. My mum rarely plans the route when we travel.
6. Tim usually builds a den with Lynn.
7. When I get lost, I use the GPS.
8. Sida wants to go skydiving.
9. You need to send me your location.
10. My phone always loses the signal when I'm away from the city.
11. She always packs her bags early.
12. My dad doesn't like to book the campsite.
13. We always rescue people in danger.

3 Grammar: Future Will

1. Tell students to read the prompts and the phrases in activity 2 again.
2. Ask students what tense is used to make promises or spontaneous decisions. (Future will)
3. Get students to read each prompt and select a phrase to use as its promise or decision. Then have them make a future *will* sentence using that phrase.

4 A. Make present perfect questions using the clues.

Example: *book / the campsite: Have you booked the campsite?*

1. check / the car
2. ever / see / volcanoes
3. ever / climb / a mountain
4. follow / a compass
5. ever / borrow / a cooking pot / from / other campers

B. Work in pairs. Take turns asking and answering the questions.

Have you booked the campsite?

Yes, I have booked it already / No, I haven't booked it yet. Have you ____?

5 Work in pairs. What have they done already? What haven't they done yet?

Example: *Channy has made a fire.*

4. Ask some students to write the answers on the board and check as a class.
5. Tell students there is more than one correct answer.

Suggested answers

1. He will pack his bags soon.
2. Richard will plan the route carefully next time.
3. They will make a fire using sticks.
4. Kosal will use the GPS / will send his location when he get lost next time.
5. Tim will rescue his friend.

4 Grammar: Present perfect

- A. 1. Get students to read the example and the clues.
2. Tell students to make present perfect questions using the clues.
3. Check the answers as a class.

Answers

1. Have you checked the car?
2. Have you ever seen volcanoes?
3. Have you ever climbed a mountain?
4. Have you followed a compass?
5. Have you ever borrowed a cooking pot from other campers?

- B. 4. Put students in pairs.
5. Have students take turns asking the questions and answering using their ideas.
6. Walk around the classroom, listen, help and correct if necessary.

5 Grammar: Describing the pictures

1. Put students in pairs.
2. Ask students how many pictures and who the people are.
3. Get students to write down what the people in the pictures have and haven't done.
4. Get students to compare answers with other pair.
5. Select a few pairs to share the answers in class.

Answers

Channy:

1. She has made a fire.
2. She hasn't gone fishing yet.
3. She hasn't sprayed mosquito repellent yet.
4. She has put up the tent.
5. She has prepared lunch.

Lynn:

1. She has bought a pair of walking boots.
2. She hasn't built a den yet.
3. She has put a pocket knife and some batteries in the bag.
4. She has closed the windows.
5. She hasn't charged the phones.

6 A. Work in groups. Pick a page and make sentences with *have got*.

Example: *I've got a compass.*

Student A: Go to page 192.

Student B: Go to page 195.

Student C: Go to page 195.

B. Look at the list and compare to what you've got. Ask for the missing things from your group.

Things you need for camping:

- | | | |
|-------------------------------------|--|---------------------------------------|
| ☐ compass | ☐ walking boots | ☐ map |
| ☐ sunscreen | ☐ battery | ☐ sleeping bag |
| ☐ tent | ☐ water bottle | ☐ cooking pot |
| ☐ power bank | ☐ first-aid kit | ☐ pocket knife |
| ☐ gas stove | ☐ GPS device | ☐ torch |

Have you got a compass?

Yes, I've got a compass / No, I haven't got a compass. Have you got ____?

6 Grammar and Speaking: *Have got*

- A. 1. Put students in groups of three.
2. Tell students to each choose a page and scan through the picture on that page.
3. Tell students to think that the things in the pictures are theirs.
4. Have students make sentences to describe their things using *have got*.
5. Walk around the classroom, help and correct if necessary.

Answers

Student A:

1. I've got a compass.
2. I've got a tent.
3. I've got a power bank.
4. I've got two pairs of walking boots.
5. I've got a first-aid kit

Student B:

1. I've got two torches.
2. I've got three water bottles.
3. I've got a pocket knife.
4. I've got a map.
5. I've got a gas stove.

Student C:

1. I've got a GPS device.
2. I've got three sleeping bags.
3. I've got five batteries.
4. I've got two cooking pots.
5. I've got a bottle of sunscreen.

- B. 6. Tell students to read the list and check how many things that they've got already.
7. Get students to take turns asking their group about the other things on the list that they haven't got.
8. Encourage students to ask one question first and let others ask before they can ask another question.
9. Have students read the speech bubbles if they still don't understand.
10. Walk around the classroom, listen, help and correct if necessary.
11. Ask 2-3 groups to share the conversations in class.

Focus on *No* with positive answers

In some questions, students might have what is asked of them, but the amount might be different. In this case, you can tell your students to say *No* and add a positive sentence with the right amount at the end. Example: *Have you got a pair of walking boots? No, I have got two pairs of walking boots.*

7 A. Read the conversations and choose the correct options.

Conversation 1

Pisey: Hey, Channy! Have you told Theary about our trip 1. *yet* / *already*?
 Channy: Don't worry. I 2. *have* / *has* let her know already.
 Pisey: Good! We don't want her to miss the bus! By the way, do we have everything?
 Channy: Everything 3. *is* / *are* here. Oh, wait! We need some jackets. I 4. *will bring* / *bring* them tomorrow.
 Pisey: Wonderful! Anyway, I'm so glad we're going camping again. How long 5. *has* / *have* it been?
 Channy: We haven't been camping 6. *since* / *for* grade 11.
 Pisey: Yeah. I can't wait to experience it again!

Conversation 2

Vicki: Richard, 7. *have* / *has* you seen Tim?
 Richard: No, I haven't seen him 8. *since* / *for* this morning. What's wrong?
 Leakhana: We can't find him or Kosal anywhere!
 Richard: Okay, don't panic. Maybe they 9. *have* / *has* gone to the waterfall with Somnang.
 Somnang: Huh? What is it?
 Leakhana: Where were you? I haven't seen the boys 10. *for* / *since* almost an hour!
 Somnang: Ah! They told me they wanted to find some mushrooms over there. I 11. *will go* / *have gone* and look for them.
 Vicki: Seriously, I have 12. *ever* / *never* seen anyone like them!
 Leakhana: I agree.

Conversation 3

Kosal: Mum, have you 13. *ever* / *never* built a den?
 Leakhana: A den? No, I have 14. *ever* / *never* built one. Do you know how?
 Kosal: Well, kind of. Tim told me some instructions. Can we make one after you finish grilling the fish?
 Leakhana: Sure. I don't see why not. Oh, right. Have you applied any sunscreen 15. *yet* / *already*?
 Kosal: No, but it's okay. I have been outside 16. *for* / *since* a while, and nothing has happened!
 Leakhana: Oh, dear. Go and put some sunscreen on now! You 17. *will get* / *get* sunburn!

B. Work in pairs. Make a similar conversation and act it out.

8 Race against time! Who can find the answers first?

1. What is the height of Mount Everest? (Unit 13)
2. Who has planned a route for the camping trip? (Unit 14)
3. Who will pass Kosal two bottles of water? (Unit 15)
4. Who has built a den? (Unit 16)
5. Why do we have to wear real walking boots when we go hiking in Mondulkiri? (Unit 17)

7 Grammar: Choosing the correct options

1. Tell students to read the three conversations and write down the correct options in their notebook.
2. Review by asking some questions about when to use *yet*, *already*, *since*, *for*, *ever* and *never*.
3. Get students to compare answers with their partner.
4. Check the answers as a class.

Answers

1. yet; 2. have; 3. is; 4. will bring; 5. has; 6. since; 7. have; 8. since; 9. have; 10. for; 11. will go; 12. never; 13. ever; 14. never; 15. yet; 16. for; 17. will get

5. Put students in pairs.
6. Tell students to make a similar conversation using the words and grammar points from unit 13 to 17.
7. Walk around the classroom, read, help and correct if necessary.
8. Have students read their conversation to another pair.
9. Select a few pairs to act out their conversation in class.

Extension activity: Dictation

Tell your students to take out their notebook and write 1 to 20 for the dictation. Choose twenty words or phrases from unit 13 to 17 and have students write them down. You can write the answers on the board for students to swap their books and check the answers for each other, or you can correct for them.

8 Race against time: Looking back at Units 13-17

1. Tell students to look for the answers to the questions.
2. Encourage them to go back and refer to the previous units.
3. You can make this more fun by asking your students to work in pairs or groups. You can also set a time limit. The first pair / group to find all the answers wins!

Answers

1. The height of Mount Everest is 8,848 metres.
2. Tim has planned a route for the camping trip.
3. Leakhana will pass Kosal two bottles of water.
4. Lynn has built a den.
5. We have to wear real walking boots when we go hiking in Mondulkiri because other shoes are not strong enough.

UNIT 19

CONSOLIDATION

1 The sentences below are called tongue twisters. Read them as fast as you can!

A tricky, frisky snake with sixty super scally stripes.

Kitty caught the kitten in the kitchen.

The big bug bit the little beetle, but the little beetle bit the big bug back.

2 A. Put the words in the right column.

bus station SUPERMARKET river desert lake
forest POST OFFICE drought volcano hospital
flood earthquake MOUNTAIN museum forest fires

disasters	places in a town	natural places
Example: earthquake		

B. Work in pairs. Ask and answer questions.

Is there a river near where you live?
Have you ever been to a museum? What did you see?
How often do you go to the supermarket?
In your opinion, how can we prevent forest fires?
Which do you prefer – swimming in a lake or swimming in a pool? Why?
What do you think are the advantages of living in a city?

Unit 19 : Consolidation

Aims: To review vocabulary and grammatical structures introduced in Units 1-17.

By the end of 19, students should be able to:

- practise vocabulary from units 1 – 17.
- use modal verbs to talk in different contexts.
- compare places, events and things around them.
- write large numbers, in words as well as in figures.
- identify the number of syllables in words.

Session 1

1 Pronunciation: Tongue twisters

1. Put students in pairs or small groups.
2. Ask them to take turns reading the sentences. Tell them to read the sentences as fast as they can, but give them time to be able to do this. It's OK to start slow at the beginning.
3. To make this activity more exciting, you can ask them to read the sentences while conveying different emotions (e.g. Read the sentences with an angry, happy, sad tone).

2 Vocabulary: Categorising

- A.**
1. Ask students to put the words in the right column.
 2. If you have a weak class, it's a good idea to do this activity in pairs or small groups.
 3. If your students need extra support, you can ask them to look back at the previous units they have studied.
 4. Ask students to compare their answers before checking them as a class.

Answers

disasters	places in a town	natural places
Example: earthquake	supermarket	lake
drought	bus station	forest
flood	post office	river
forest fires	hospital	mountain
	museum	volcano
		desert

- B.**
5. Put students in pairs or small groups.
 6. Tell them to ask and answer the questions.
 7. Alternatively, you can also ask your students to walk around the class and ask a few students these questions.
 8. For feedback, ask some of your students to share their answers to the class.

3 A. Read the sentences. Are they true or false? Write your answers in your notebook.

Example: *There are five stages in the life cycle of a beetle.* **false**

1. The life cycles of a beetle, frog and butterfly start with 'eggs'.
2. The larva of a butterfly is called 'caterpillar'.
3. The third stage in the life cycle of a beetle is called larva, but the head and legs are still hard to see at this stage.
4. There are four stages in the life cycle of a frog.
5. A froglet is a young frog, but only has a head and tail.

B. Go back to Units 8 and 12. Correct the wrong information in the sentences in activity 3A.

Example: *There are five stages in the life cycle of a beetle.* – **false**.

There are four stages.

C. Choose a life cycle you learnt in previous lessons. Tell your partner about it. Use *first, next, after that, finally*.

I will talk about the life cycle of a butterfly. First,...

4 Work in pairs. Take turns dropping your counter on the square. Talk about the square you land on.

two things you should do before going to bed	something you must do for a friend this week	something you don't have to do when you're at a park
something you can do while looking after your younger brother or sister	two things you have to do at a museum	two things you must do when there's a flood
three things you must do at school	something you can't do during meals	three things you shouldn't do at a birthday party

3 Reading: True or false

- A. 1. Ask students if they remember the animals they were introduced to in Unit 8.
2. Ask them if they remember the life cycles that were discussed in the previous lessons.
3. Tell them to read the sentences and write true or false. Tell them to write in their notebooks.
4. Have students compare their answers.
5. Check answers as a class.

Answers

1. true; 2. true; 3. false; 4. false; 5. false

- B. 6. Ask students to go back to Units 8 and 12 and correct the wrong information in the sentences in activity 3A.
7. Monitor to check that students are on task.
8. Check answers as a class.

Answers

1. true
2. true
3. false – The **2nd stage** in the life cycle of a beetle is called larva, but the head and legs are still hard to see at this stage.
4. false – There are **5 stages** in the life cycle of a frog.
5. false – A **tadpole** is a young frog, but only has a head and a tail.

C. 9. Put students in pairs.

10. Ask them to talk about the 3 life cycles introduced in the previous units. If your students need support, you can give them time to go back to Units 8 and 12 and review quickly.
11. Monitor. Encourage your students to use sequencers and ordinal numbers (e.g. first, then, next).

4 Speaking: Using modal verbs

1. Put students in small groups.
2. Ask each student to prepare a counter. Tell them to take turns dropping their counters on the squares. If they land on a square, they should make sentences using the given prompts.
3. Monitor and help students who might find this activity difficult.
4. This task can also be adapted as a writing activity. If you think your students need more practise on writing, ask them to write sentences instead.
5. For feedback, ask a speaker in each group to share their answers to the class.

Tip! Catch them being good

Giving students praise for the good things they're doing can be an effective classroom management technique. If you see students working together well or always coming to class on time or asking questions to help them learn, let them know they are appreciated! You can do this by giving them a thumbs up or leaving them notes in their notebooks (e.g. 'You are fantastic today!' 'Thanks for helping Panha with her writing!')

5 A. Complete the sentences with the correct form of adjectives.

Example: I'm **worried** about the warming of the Earth. I think global warming is one of our **biggest** problems today. (worry, big)

- The _____ land animal is the cheetah. It's _____ than a lion or even a giraffe! It's record speed is about 120 kilometres per hour. (fast)
- The blue whale is the _____ animal in water. It can weigh as much as 150 tons or 136,078 kilograms. I am really _____ by how big they can be. (large, amaze)
- According to experts, the _____ volcano is Mount Vesuvius in Italy, although it hasn't erupted since 1944. This volcano is even _____ than Mount Pinatubo in the Philippines or Mount Agung in Indonesia. Over the last 17,000 years, Mount Vesuvius has erupted 8 times. These volcanoes are sometimes _____. (dangerous, frighten)
- I think Yeak Loam lake is _____ and _____ than Tonle Sap lake. It was formed from a volcano centuries ago! It is _____ however, as it is only about 800 metres in diameter. (interest, clean, small)
- Climbing the _____ mountain in the world - 8488 metres tall - is _____.! (high, exhausting)

B. Write the numbers in activity 5A in words. Practise saying them out loud.

- | | |
|-----------------------|--------------------------|
| 1. 120 km / h | – one hundred and twenty |
| 2. 150 tons | – |
| 3. 136, 078 kilograms | – |
| 4. 17,000 years | – |
| 5. 800 metres | – |
| 6. 8,488 metres | – |

6 Compare the pictures below. Use the comparative forms of the given adjectives.

worrying

frightening

5 Grammar: Completing sentences

- A.**
- Ask students to complete the sentences with the correct forms of the given adjectives.
 - Tell them to write their answers in their notebooks.
 - Do the example as a class. It's a good idea to write the example sentence (with the answers) on the board too.
 - Have students compare their answers before checking them as a class.

Answers

- fastest, faster
- largest, amazed
- most dangerous, more dangerous, frightening
- more interesting, cleaner, smaller
- highest, exhausting

- B.**
- Tell students to write the words in words.
 - If time allows, put students in pairs or small groups and have them practise saying the sentences out loud.

Answers

- 120 km / h – one hundred and twenty
- 150 tons – one hundred and fifty
- 136, 078 kilograms – one hundred thirty six and seventy eight
- 17,000 years – seventeen thousand
- 800 metres – eight hundred
- 8,488 metres – eight thousand four hundred and eighty eight

6 Writing: Comparative forms

- Ask students to compare the pictures and write sentences about them.
- Do the example together as a class.
- Monitor and help students who might find this activity difficult.
- For feedback, you might want to ask some of your students to write their sentences on the board.

Suggested answers

- I think bus stations in Cambodia are busier than railway stations, but railway stations are cleaner.
- Floods and tsunamis are both dangerous, but I think tsunamis are more dangerous and depressing.
- Some museums are bigger than pagodas, but I think pagodas are more fascinating.

NOTE: These are just suggested answers. Some of your students might write slightly different sentences. Accept them as long as they are grammatically correct and make sense.

Example: *I think deforestation is really worrying, but water pollution is even more frightening if you live near the sea.*

busy

clean

fascinating

big

7 Odd one out. Which word doesn't have the same number of syllables as the others? Write in your notebook.

Example: shoes phone bridge museum

- | | | | |
|---------------|-----------|----------|-----------|
| 1. visited | played | touched | went |
| 2. earthquake | pollution | litter | desert |
| 3. hospital | pagoda | river | tsunami |
| 4. crocodile | butterfly | mosquito | cockroach |
| 5. pleased | worried | inspired | amazed |

8 Draw and write. Choose one word from each set of words in activity 7. Draw and write yes or no questions.

Example :

Have you been to the new museum in town?

7 Pronunciation: Odd one out

1. Practise saying the words with your students. Do this as a class.
2. Put students in pairs and ask them to practise saying the words with their partners.
3. Tell them that one word doesn't have the same number of syllables as the other words in the set. Ask them to circle the words that have different number of syllables.
4. Go through the example as a class.
5. Check the answers as a class.

Answers

1. visited
2. pollution
3. river
4. cockroach
5. pleased

8 Drawing and Writing: Yes or no questions

1. Ask students to choose one word from each set of words in activity 7.
2. Tell them to draw pictures and write questions about them. They should write yes or no questions.
3. Monitor and check that students are using basic writing conventions (e.g. starting their questions with capital letters, using a question mark at the end).
4. If time allows, have students ask and answer their questions with their partners.

Extension activity: Sentence writing

Write down all the five odd words on the board. Ask students to write sentences using these words. Monitor and keep a mental note of some of the good sentences students make – you can ask them to write these on the board. Alternatively, you can write 1 or 2 'bad' sentences. Write these on the board and correct them as a class.

UNIT 20

CONSOLIDATION

1 Can you remember what they did during their trips? Try to think of two things they did on their holidays.

Example:

Holiday with grandparents:
*swam at the nearby beach,
ate seafood*

Holiday in London:

Holiday in Kep:

Camping trip to Mondulkiri:

2 Look at the word cloud. Which verbs are used with past simple, which with *have/has* in present perfect and which with both?

With past simple	With have/has in present perfect	With both
Example: saw	chosen	built

built wanted seen
chosen stayed swum
got swam did eaten
visited took saw told
ridden slept spent
met fought

Unit 20 : Consolidation

Aims: To review vocabulary and grammatical structures introduced in Units 1-17.

By the end of 20, students should be able to:

- recall and write some of the holidays activities the characters did from previous units in past simple.
- identify and differentiate between verb 2 (past simple) and verb 3 (past participle) to use with present perfect.
- differentiate between past simple and present perfect.
- make sentences to respond to prompts.
- describe their experiences.
- identify the definition and the stress of the given words.

1 Writing: Revising memory

1. Ask students to think of what Vicki, Kosal, Channy, and Richard did on their holidays in the previous units.
2. Encourage students to try and think first and not go to the previous units for the answers.
3. Tell students to write two things for each picture and make sure they are written in past simple tense.
4. Allow students to quickly look at the previous units if they really cannot remember the information.

Answers

1. Vicki: Holiday in London: met old friends; met Richard's brother
2. Kosal and Channy: Holiday in Kep went to crab market; bought seafood; went to the beach; swam
3. Richard: Camping trip to Mondulkiri set up the tents; went hiking

Note: Students only need to have two answers out of the four given answers for picture 2.

2 Grammar: Identifying verbs

1. Tell students to look at the words in the word cloud.
2. Ask students what kind of words they see to remind them about the verbs used in past simple (verb 2) and present perfect (verb 3).
3. Have students put the verbs in the correct categories.
4. Remind students that some verbs can be used with both past simple and present perfect when their verb 2 and verb 3 are the same.

Answers

With past simple	With have/has in present perfect	With both
swam; did; took; slept;	eaten; swum; seen; ridden;	fought; got; visited; stayed; told; wanted; spent; met

3 A. Read a text about Tim. He is sharing his holiday and adventure experience with his classmates. Fill the gaps with correct tense of the verbs. Past simple or present perfect?

Good morning everyone. Today I'm sharing all my holiday experiences with you and some of the things that I think are adventurous! Last August, I went (go) to see my grandparents and uncle in the U.K. We 1. ____ (stay) there for two weeks. The weather 2. ____ (be) lovely because it was summer. My sister and I 3. ____ (do) a lot of fun things with our grandparents such as swimming, riding bicycles, and eating a lot of seafood! Then we 4. ____ (visit) our uncle in London and he 5. ____ (take) us to the Children's Museum to see a show. It is the best show I 6. ____ (see) in my life! Even though we had a great time, I don't think that holiday was adventurous. In the last few weeks, our family and our friend's family 7. ____ (go) camping in Mondulkiri together. We 8. ____ (have) so much fun camping and exploring Mondulkiri. Since we moved to Cambodia, our family 9. ____ (hear) only great things about Mondulkiri. I 10. ____ (go) on camping trips before, but not in Cambodia, so I was excited. In Mondulkiri, we 11. ____ (go) hiking and 12. ____ (get) lost for hours. The worst thing was there was hardly any phone signal. My friend, Kosal, and I were pretty scared, but our fathers 13. ____ (tell) us to calm down. I 14. ____ (never be) lost in a forest before, so I didn't really know what to do. Luckily, after searching and searching, Kosal finally 15. ____ (get) a signal on his phone to use Google Maps and we found our way out to the nearest road!

B. Read the text again and answer the questions in sentences. Write the answers in your notebook.

Example: *Where did Tim go last August?* *Tim went to the U.K.*

- How long did they stay in the U.K?
- What did they do with their grandparents?
- Where did they see the show in London?
- Has Tim gone on camping trips before?
- How long did they get lost in the forest?
- Was it the first time Tim has been lost in the forest?

4 Read an interview between a news reporter and a villager about the drought that is happening in his village. Rewrite the underlined sentences into reported speech in your notebook.

Interviewer: *Hello, sir. I am a news reporter from Cambodia News Radio Network. Can you tell us the current situation of the drought in your village?*

Villager: *1. The drought happens every year in our village.* However, this year the drought is worse than usual.

3 Reading: Filling in the gaps and answering questions

- A.**
- Tell students to quickly go through the reading about Tim's holiday experiences.
 - Ask students to fill in the gaps with the correct form of the verbs.
 - Emphasise that they have to fill the gaps with either past simple or present perfect.

Answers

1. stayed; 2. was; 3. did; 4. visited; 5. took;
6. have seen; 7. went; 8. had; 9. has heard;
10. have gone; 11. went; 12. got; 13. told;
14. have never been; 15. got

- B.**
- Have students read again.
 - Tell students to answer the questions.
 - Remind students that they have to answer in complete sentences.

Answers

- They stayed in the U.K for two weeks.
- They swam, rode bicycles, and ate a lot of seafood with his grandparents.
- They saw the show at the Children's Museum.
- Yes, he has.
- They got lost in the forest for hours.
- Yes, it was.

4 Grammar: Reporting the news

- Have students read the conversation.
- Ask students to rewrite the underlined sentences in the conversation into reported speech.

Answers

- He said (that) the drought happened every year in their village.
- He said (that) it lasted for about 2 months.
- He said (that) their animals and trees were dying.
- He said (that) there were about 350 families there.
- He said (that) all the villagers were praying for the rain to come soon.

Interviewer: How long does the drought usually last?

Villager: 2. *It lasts for about 2 months.* But now even after three months, the drought is still going on and we are very worried. 3. *Our animals and trees are dying.*

Interviewer: Have you received any support yet? And how many families are there in this village?

Villager: 4. *There are about 350 families here.* We have received some help, but the food and water are not enough. 5. *All the villagers are praying for the rain to come soon.*

Example: *I am a news reporter from Cambodia News Radio.*

→ *The interviewer said he was a news reporter from Cambodia News Radio Network.*

5 Complete the sentences with words from the box. Write the answers in your notebook.

for since already yet ever never

Example: *I have lived in Phnom Penh for 5 years.*

1. I have _____ packed some food for our trip, so you don't have to do it.
2. Kosal has _____ been to any English-speaking countries. He hopes to visit some one day.
3. Have you finished your homework _____?
4. Pisey has studied English _____ 2012.
5. Have you _____ been to Japan before? No, I haven't.
6. Have you booked the hotel? No, not _____.
7. Have you _____ given directions to any foreigners in English?
8. We have _____ seen our city this polluted. This is the worst it's ever been!
9. The population in this city has remained almost the same _____ 2010.
10. She tried to put the tent up _____ almost hour before she gave up!

6 A. Make sentences of how you offer to help using *will* and the given verbs.

Example:

Can you tell me how to get to the bank?

→ *tell: I'll tell you the direction.*

1. I don't know how to set up this program. → show: _____
2. My phone runs out of battery and I need to call my mum. → lend: _____

5 Grammar: Filling in the gaps

1. Have students fill in the gaps with the words in the box.
2. Remind students that each word in the box is used to fill in the gaps twice including the example.

Answers

1. already; 2. never; 3. yet; 4. since;
5. ever; 6. yet; 7. ever; 8. never; 9. since;
10. for;

6 Writing: Writing responses

- A.** 1. Have students look at the problem sentences.
2. Ask students to write the offer to help in each situation using *will* with the given verbs.

Suggested answers

1. I'll show you.
2. I'll lend you my phone.
3. I'll give you one.
4. I'll get you some food and drink.
5. I'll help you.
Note: The students might have different answers and they should be okay as long as they use will with the given verbs.

- B.** 3. Put students in pairs.
4. Tell students to compare their answers.

3. I need a dictionary but I cannot afford to buy one now. → give: _____
 4. I'm both hungry and thirsty. → get: _____
 5. I'm not sure how to fix my bicycle. → help: _____

B. Work in pairs. Did you write similar sentences?

7 Think of the most interesting/fun/exciting thing you have done in your life (experience). Write at least five sentences describing it. Write the answers in your notebook.

You can use these questions to help you start:

1. What is the most exciting/interesting thing you have done?
2. Why is it the most exciting/interesting thing to you?
3. How often/how many times have you done it?
4. When was the last time you did it?
5. Describe the activities you did at that time.

Example: *The most exciting thing I've ever done in my life is swimming across the big lake in our village. It is the best experience for me because it is scary but exciting at the same time...*

8 A. Look at the words. Cross out the word that does not belong in the same word group. Write the answers in your notebook.

Example: *was – gone – eaten – visited* (Because **visited** is a regular verb and the other three words are irregular verbs)

1. swimming – geography – playing games – watching T.V
2. desert – river – lake – ocean
3. alligator – turtle – scorpion – cheetah
4. mosquito – frog – beetle – butterfly
5. interested – embarrassed – frightened – worried
6. tent – skiing – sleeping bag – camping
7. earthquake – tsunami – rain – tornado
8. deforestation – water pollution – overfishing – recycling

B. Look at the answers (10 words) from activity 8A in your notebook. Underline the stress of each answer.

Example: visited

7 Writing: Describing experience

1. Ask students to think of a life experience that is interesting, fun, or exciting.
2. Let students know that the experience can be about anything.
3. Tell students to write at least five sentences describing that experience.
4. Encourage students to use the questions to help them brainstorm their ideas.
6. Emphasise that they is no right or wrong answer.

8 Vocabulary: Odd one out

- A.** 1. Ask students to look at the words.
 2. Tell students to cross out one word for each number.
 3. Emphasis on crossing out the word that does not belong in the same category as the other words.

Answers

1. geography; 2. desert; 3. turtle; 4. frog;
 5. interested; 6. skiing; 7. rain; 8. recycling

- B.** 4. Tell students to read the 8 answers from activity 8A.
 5. Ask students to underline the stress of those 8 words.
 6. If possible, ask students to read and repeat the answers as a whole class.

Answers

1. geography; 2. desert; 3. turtle; 4. frog;
 5. interested; 6. skiing; 7. rain; 8. recycling

Extension activity: Experience sharing

If there is some time left, put students in a group of three or four depending on the number of students. Have students share what they have written for activity 7 about fun or interesting life experience. You can encourage students to ask and find out if they have done anything similar to what their friends have done.

UNIT 21

CAMBODIAN HISTORY

21A

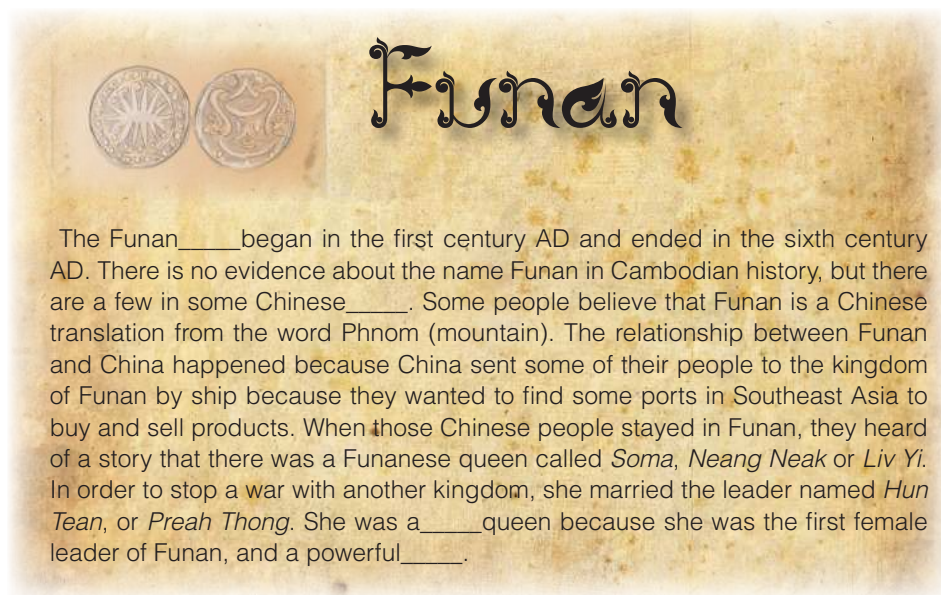

1 A. Match the words to the definitions. Write the answers in your notebook.

Example: 1 → A

A	B
1. civilisation (n)	A. a human society that has its own culture, way of life and good living conditions at the time.
2. impact (n)	B. a text or report to describe a past event.
3. significant (adj)	C. the act of buying and selling things.
4. trade (n)	D. the result of something that has changed a person or society.
5. account (n)	E. one point in time that is famous for its development or important events.
6. military chief (n)	F. important.
7. era (n)	G. a person that leads many soldiers.

B. Listen and repeat.

2 A. Read the text and match the words above to the right gaps.

Funan

The Funan_____ began in the first century AD and ended in the sixth century AD. There is no evidence about the name Funan in Cambodian history, but there are a few in some Chinese_____. Some people believe that Funan is a Chinese translation from the word Phnom (mountain). The relationship between Funan and China happened because China sent some of their people to the kingdom of Funan by ship because they wanted to find some ports in Southeast Asia to buy and sell products. When those Chinese people stayed in Funan, they heard of a story that there was a Funanese queen called *Soma*, *Neang Neak* or *Liv Yi*. In order to stop a war with another kingdom, she married the leader named *Hun Tean*, or *Preah Thong*. She was a_____ queen because she was the first female leader of Funan, and a powerful_____.

Unit 21, Lesson A : Cambodian History

Aims: To discuss and describe events from history.

By the end of 21A, students should be able to:

- use some words used in describing history.
- use past simple to talk and write about the past.

Session 1

1 Vocabulary: Words used in history

- A. 1. Tell students to read the words and definitions.
2. Get students to do the matching and write the answers in their notebook.
3. Have students compare answers with their partner.
4. Check the answers as a class and write on the board.

Answers

1. A; 2. D; 3. F; 4. C; 5. B; 6. G; 7. E

- B. 5. Get students to listen to the recording.
6. Tell students to repeat during the pause of each word.

[Audioscript]

civilisation, impact, significant, trade, account, military chief, era

2 Reading: The Funan era

- A. 1. Get students to scan through the text quickly and ask them what the text is about.
2. Tell students to read the text again and match the words from activity 1A to the gaps.
3. Select a few students to share the answers.
4. Check the answers as a class.

Answers

1. era; 2. accounts; 3. significant; 4. military chief; 5. impact; 6. trade; 7. civilisation

- B. 5. Have students read the questions and find the answers in the text.
6. Get students to compare answers with their partner.
7. Select a few students to share the answers.

Answers

- The Funan era began in the first century AD and ended in the sixth century AD.
- The Chinese people came to Funan because they wanted to find some ports in Southeast Asia to buy and sell products.
- Queen Soma was significant because she was the first female leader of Funan, and a powerful military chief.
- Some documents say that some Funanese monks studied both Sanskrit and Buddhism.
- Losing its huge income from trading played a role in bringing the end of Funan.

- C. 8. Have students read the box and the two sentences.
9. Tell students to write T for true and F for false in their notebook.
10. Check the answers as a class.

Answers

- F Past simple describes the past.
- T

It's also important to know that Funan met China at almost the same time they met India. Researchers have found a king's name written in Sanskrit dating back to around two hundred years after Funan made contact with India, in the fifth century AD, and it has suggested that India's cultures had a strong _____ on Funan. Some documents also say that some Funanese monks studied both Sanskrit and Buddhism.

During the period that China made contact with Funan, the economy improved a lot because of the _____; however, after a new road was made from Indonesia to China, the Chinese paid less attention to Funan. As a result, *Funan* lost its huge income and fell into a very bad situation. This later played a role in bringing the end to the _____ around the sixth century AD.

B. Answer the questions.

- When did the Funan era begin and end?
- Why did the Chinese people come to Funan?
- Why was queen Soma significant?
- What do some documents say about some Funanese monks?
- What played a role in bringing the end of Funan?

C. Read the box. Write *T* (true) and *F* (false) in your notebook.

Look

We use past simple to talk about an event in the past that is completed or to tell a story from the past. We add *did* in the question form and *didn't* in the negative form. **Example:** *The Funan era began in the first century AD.*

- Past simple describes the future.
- The structure of a positive past simple is Subject + V2 + object.

3 A. Find the past simple form of these verbs in the reading text.

Example: *is = was*

meet	begin	want	send	hear	end	make
stay	marry	lose	pay	improve	fall	

B. Work in pairs. Choose five verbs and make five questions or negative sentences in the past simple about Funan era.

Example: *Was Soma a queen?*

Session 2

Suggestion: Starting session 2

To start the class, describe the vocabulary in activity 1 and tell your students to guess the words. You can also ask them to make past simple sentences with the words.

3 Grammar: Past simple

- A.**
- Have students read the example and the verbs in the box.
 - Tell students to find the past simple of these verbs in the reading text.
 - Check the answers as a class.

Answers

- met;
- began;
- wanted;
- sent;
- heard;
- ended;
- made;
- stayed;
- married;
- lost;
- paid;
- improved;
- fell

Focus on the names of verbs

V1 is called base form.
Examples: *meet, begin.*
V2 is called past form.
Examples: *met, began.*

- B.**
- Put students in pairs.
 - Get students to choose five verbs from the answers above and make five questions or negative sentences.
 - Tell students there is more than one correct answer.
 - Have students compare answers with their partner and select a few students to share the answers.

Suggested answers

- Was Soma a queen?
- The Chinese people didn't meet the Funanese people because they wanted to be friends.
- The Funan era didn't begin in the fifth Century AD.
- Who wanted to find ports in Southeast Asia?
- How did the Chinese people hear of queen Soma?

4 Grammar and Listening: Past simple in a voice mail

- A.**
- Tell students to write the past simple form (V2) of the verbs.
 - Ask students what we add in a negative form (didn't) and what type of verb we use after didn't (V1).
 - Have students compare answers with their partner.

Answers

- learnt;
- knew;
- were;
- found;
- sold;
- was;
- continued;
- didn't give;
- didn't agree;
- made;
- happened;
- didn't focus

- B.**
- Ask students to scan through the script for a few minutes.
 - Tell students to listen and match the past simple verbs earlier to the gaps.
 - Play the recording two to three times for listening and checking the answers.
 - Check the answers as a class.

Answers

- learnt;
- was;
- did...know;
- were;
- happened;
- didn't focus;
- found;
- sold;
- didn't give;
- didn't agree;
- continued;
- made

4 A. Write the past simple of these verbs in your notebook.

learn	know	are	find	sell	is
continue	not give	not agree	make	happen	not focus

B. Listen and complete the voice mail with the previous answers.

Hey, Kosal! This is Roth.
 I _____ about the kingdom of Funan this morning,
 and I am super interested in it now! There _____ not
 much information in the textbook, so I'm going to find other
 history books to read more. Anyway, _____ you _____ that Neang
 Neak was actually queen Soma? I've heard of them, but I didn't know
 they _____ the same person! This is what _____ when I _____
 during history class! By the way, when I was reading in the library this
 afternoon, I _____ some interesting facts about Funan. Firstly, Funanese
 people were mostly fishermen and farmers. I really don't know what
 they _____ to the Chinese people. Secondly, queen Soma _____ the
 kingdom to Hun Tean at all. I mean, only kings ruled the country in
 the past right? Well, queen Soma _____! She _____ to
 take care of Funan and _____ herself the first female ruler!
 Anyway, I'm going to end this here. You should also read
 about it so that we can discuss later.
 Reply to me soon!

5 A. Work in pairs. You and your partner are tour guides.
 Write a prompt about what you want to say about Funan for
 the trip tomorrow.

Good morning and welcome to our tour! We're your guides, and
 we'll tell you everything you need to know about Funan! Ok, let's
 begin. First, did you know that the Funan era began in the...

B. Work in groups. Present and ask some questions at the end.
 Suggested questions:

1. When did it begin?
2. Who was the king or queen?
3. What religion did they believe in?
4. Were there any interesting events?
5. What happened before the kingdom fell?

Does anyone remember
when it began?

[Audioscript]

Hey, Kosal. This is Roth. I learnt about the kingdom of Funan this morning, and I am super interested in it now! There wasn't much information in the textbook, so I'm going to find other history books to read more. Anyway, did you know that Neang Neak was actually queen Soma? I've heard of them, but I didn't know they were the same person! This is what happened when I didn't focus during history class! By the way, when I was reading in the library this afternoon, I found some interesting facts about Funan. Firstly, Funanese people were fishermen and farmers. I really don't know what they sold to the Chinese people. Secondly, queen Soma didn't give the kingdom to Hun Tean at all. I mean, only kings ruled the country right? Well, queen Soma didn't agree! She continued to take care of Funan and made herself the first female ruler! Anyway, I'm going to end this here. You should also read about it so that we can discuss later. Reply to me soon!

Tip! Writing a prompt in role-play

You should tell your students to think about what they know about the topic and note down. Next, you should discuss about their role(s) and tell students to imitate the character. For example, a tour guide should be friendly and talkative.

- B. 6. Put students in groups.
7. Tell students to take turns presenting with their partner. They can each say half of the paragraph.
 8. After the presentation, tell the pair to ask a few questions to the listeners. If they don't know, the pair should tell them the answer.
 9. Walk around the classroom, listen, help and correct if necessary.
 10. Select a few good pairs to present to the class.

5 Writing and Speaking: Make a prompt

- A. 1. Put students in pairs.
2. Ask students who they are now (tour guides) and why they need a prompt (for the trip tomorrow).
 3. Get students to read the example and tell them to write a similar one about what they know about Funan.
 4. Have students compare their prompt with another pair.
 5. Walk around the classroom, read, help and correct if necessary.

Extension activity: Hangman

Put your students in pairs. Tell them to take out one sheet of paper per pair and decide who will go first. The starters have to choose one word from this lesson secretly and draw the spaces to match the word. For example, king has _ _ _ _ . After drawing, tell the partner to guess one letter at a time until they get the full word. If the partner makes a mistake, tell the starters to draw a head before telling them to continue guessing. The partner will lose when the hangman has a head, two hands, two legs, and three hairs, and the starter will lose when their partner guesses the whole word correctly. Then swap roles.

- 1 Work in pairs. Listen to your teacher and find the words before your partner does.

- 2 A. Find the words for these definitions in the listening script on page 115. Write the answers in your notebook.

Example: *It is a country that has a king or queen as its leader.* - kingdom

1. It means to make someone a king or queen.
2. It means a situation that happened in the past, and it's important.
3. It's about the past or history.
4. It means something that we remember from the past.
5. It means something that is important.

- B.  Listen, check and repeat.

- 3 A. Read and write the correct form of the verbs in brackets.

Unit 21, Lesson B

Aims: To talk about events in the past and make a summary.

By the end of 21B, students should be able to:

- differentiate some common words about history.
- use past simple in positive, negative, and question forms to talk about the past.
- make a poster to present about one of two eras in the past.

Session 1

- 1  **Vocabulary:** Find the words

1. Put students in pairs.
2. Have students look back at lesson 21A and pay attention to the vocabulary activity and the reading text.
3. Tell students to listen to the meanings and find the words before their partner does. When they see it, tell them to raise their hand.
4. The teacher can give one point to the student that gets it right first.

Meaning and answers

1. It's a place that has many people and a king or queen. It can also be called a country. (kingdom)
2. It means important. (significant)
3. It's a religion that Funan believed in. We also believe in it now. (Buddhism)
4. It's a time that has some important events happened. (era)
5. It's a writing that describes a history about something. (account)
6. It's the money we get after selling products. (income)
7. It's a place that has cultures, rules and style of living. (civilisation)
8. It's the leader that controls many soldiers. (military chief)

- 2  **Vocabulary:** Words about history

- A. 1. Tell students to read the meanings.
2. Get students to read the conversation and try to find the words for the five meanings.
3. Have students compare answers with their partner.
- B. 4. Get students to listen to the recording and check the answers.
5. Tell students to repeat during the pause of each word.
6. Write the answers on the board.

Answers

1. crown; 2. event; 3. historical; 4. memory; 5. importance

[Audioscript]

Example. kingdom, 1. crown, 2. event, 3. historical, 4. memory, 5. Importance

- 3 **Reading:** The Chenla era

- A. 1. Ask students how many people are in the conversation and what the topic is.
2. Ask students what tense is used to talk about some events in the past (past simple).
3. Tell students to read the conversation and fill in the gaps with the past simple form of the verbs in the brackets.
4. Have students compare answers with their partner.
- B. 5. Get students to listen to the recording and check the answers.
6. Check the answers as a class and write on the board.

Hey, Lynn. What are you doing here?

Hi, Kosal. Can you help me with my history homework?

I need some answers about the kingdom of Chenla.

We studied (study) about it this morning, but I still have a few questions.

Ok, ask!

Who _____ (fight) and _____ (take) over Funan?

From my memory, king Bhavavarman I _____ (win) the war around the sixth

century AD, and the kingdom _____ (crown) him. Some accounts

even _____ (show) that he might have been the grandson of the last king of Funan!

Oh, I hope not. That would be too sad! Then what _____ (be) the next event?

Who took the throne after him?

Let me think. The next event... Ah! It was his cousin named Mahendravarman.

I'm not sure, but I think they _____ (not fight) for the throne.

Oh good. I think they _____ (have) enough fighting! Anyway,

Funan _____ (believe) in Buddhism, right? _____ Chenla also _____ (agree)?

Nope. The importance of Buddhism _____ (mean) nothing to king Bhavavarman I.

Instead, he was all about Shaivism, which is a part of Hinduism.

The god of this religion is Siva.

I've never heard of that religion before. I'll look it up later.

Did your teacher talk about Water and Land Chenla?

A little bit. She said Chenla was divided into two in the eighth century.

Which year _____ (be) that again?

Around the year 707 AD. Do you know one of the reasons why it _____ (fall)?

Oh, I remember this! It was because they _____ (keep) fighting each other right?

Exactly! The wars from the inside really _____ (destroy) the kingdom.

Hmm, historical events always make me feel sad.

You're welcome!

Well, that's all I _____ (want) to ask. Thanks, Kosal!

Answers

- fought; 2. took; 3. won; 4. crowned; 5. showed; 6. was; 7. didn't fight; 8. had; 9. believed; 10. Did...agree; 11. meant; 12. was; 13. fell; 14. kept; 15. destroyed; 16. wanted

[Audioscript]

Kosal: Hey, Lynn. What are you doing here?

Lynn: Hi, Kosal. Can you help me with my history homework? I need some answers about the kingdom of Chenla. We studied about it this morning, but I still have a few questions.

Kosal: Ok, ask!

Lynn: Who fought and took over Funan?

Kosal: From my memory, king Bhavavarman I won the war around the sixth or seventh century AD, and the kingdom crowned him. Some accounts even showed that he might have been the grandson of the last king of Funan!

Lynn: Oh, I hope not. That would be too sad! Then what was the next event? Who took the throne after him?

Kosal: Let me think. The next event... Ah! It was his cousin named Mahendravarman. I'm not sure, but I think they didn't fight for the throne.

Lynn: Oh good. I think they had enough fighting! Anyway, Funan believed in Buddhism, right? Did Chenla also agree?

Kosal: Nope. The importance of Buddhism meant nothing to king Bhavavarman I. Instead, he was all about Shaivism, which is a part of Hinduism. The god of this religion is Siva.

Lynn: I've never heard of that religion before. I'll look it up later.

Kosal: Did your teacher talk about Water and Land Chenla?

Lynn: A little bit. She said Chenla was divided into two in the eighth century. Which year was that again?

Kosal: Around the year 707 AD. Do you know one of the reasons why it fell?

Lynn: Oh, I remember this! It was because they kept fighting each other right?

Kosal: Exactly! The wars from the inside really destroyed the kingdom.

Lynn: Hmm, historical events always make me feel sad. Well, that's all I wanted to ask. Thanks, Kosal!

Kosal: You're welcome!

C. 7. Put students in pairs.

8. Tell students to read the sentences and find them in the conversation.

9. Get students to write T for sentences that are true and F for the false ones.

10. Select a few students to share the answers.

Answers

- F King Bhavavarman I fought with Funan and won.
- F King Bhavavarman I was probably the grandson of the last king of Funan.
- T
- F It was Water and Land Chenla.
- F Chenla fell because they kept fighting each other.

Session 2

Suggestion: Starting session 2

To start the class, you can ask students about Funan and Chenla. You can select students randomly or wait for volunteers. You should remind them to use past simple. Suggested questions: *When did Funan begin? Who fought and took over Funan? Who was king Mahendravarman? Who was Hun Tean? Why did Chenla fall? What played the main role in ending Funan?*

Grammar: Regular or irregular verbs

- Have students scan the conversation again.
- Ask students why some verbs only add -ed and other verbs change completely.
- Tell students to take out the past simple verbs (V2) and put them in one of the boxes.
- Walk around the classroom, read, help and correct if necessary.
- Draw the boxes on the board.
- Check the answers as a class and write on the board.

Answers

Regular: showed, studied, crowned, believed, destroyed, wanted.

Irregular: fought, took, won, was, had, meant, said, fell, kept.

B. Listen and check.

C. Work in pairs. Read the conversation again and write T (true) or F (false). If it's false, write the correct sentence in your notebook.

Example: *Lynn studied history earlier.* T

1. King Mahendravarman fought with Funan and won.
2. King Bhavavarman I was the son of the last king of Funan.
3. King Bhavavarman I didn't believe in Buddhism.
4. Lynn's teacher said Chenla was divided into Water and Forest Chenla.
5. Chenla fell because it didn't have enough money.

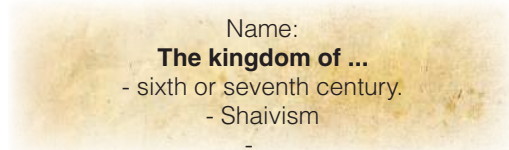

4 Find the verbs in the conversation and put them in the right box.

Regular	Irregular
-showed	

5 Read the conversation. Write a paragraph about Chenla in your own words.

Chenla began in the sixth or seventh century. The king that took over Funan and made it Chenla was...

6 A. Work in pairs. Choose Funan or Chenla and make a poster about what you know. Don't write the name of the era on the poster.

B. Go to other groups and take turns presenting your poster. Let them guess which era your group has chosen.

7 How well can you do these things? Write in your notebook.

unhappy  neutral  happy  very happy  

NOW I CAN...

- use some common words used in history.
- make past simple sentences in positive, negative and question form.
- describe past events in a speech and poster presentation.

Focus on regular and irregular verbs

In past simple, there are two types of verbs: regular and irregular.

-Regular verbs are verbs that we add *d*, *-ed* or *-ied*.

Examples: *wanted, studied, lied*

-Irregular verbs are verbs that are different from their base form (V1).

Examples: *sent, said, lost*

Tip! Memorising irregular verbs

Although memorization is an old-fashioned method, it is quite useful in getting students to remember the irregular verbs. You should ask students to memorize the verbs in this unit or if possible, print the whole set from the internet for each student. You can also set a small quiz to check students' improvement after a few days.

5 Writing: Chenla

1. Get students to read the example and the conversation again.
2. Tell students to think about what they know about Chenla and brainstorm the ideas.
3. Remind students that they only need the information about Chenla not the whole conversation.
4. Have students write a paragraph using the ideas they've brainstormed.
5. Tell students to read their text and compare with their partner.
6. Walk around the classroom, help and correct if necessary.

Extension activity: Race and write

Tell your students to take out their notebook. You can use a timer on your phone or count to 60 or 120. Get students to write as many past simple verbs as they can within the time limit. You can allow them to write both regular and irregular or just irregular verbs.

6 Speaking: Make a poster

1. Put students in pairs.
2. Tell students to discuss and choose an era that they want to make a poster about with their partner.
3. Get students to take out a sheet of paper and make their own poster in any style they want, but they should write in short sentences.
4. Tell students that they can also do some simple drawings on the poster.
5. Tell students that they cannot write the name of the era in any part of the poster.
6. Monitor and help if necessary.
7. Have students walk around to other groups in the class.
8. Tell students to take turns presenting with their partner.
9. At the end of the presentation, ask the listeners to guess the era.
10. Walk around the classroom, listen, help and correct if necessary.
11. Select some best pairs to come and present to the class.

7 Reflection: 'Now I can...'

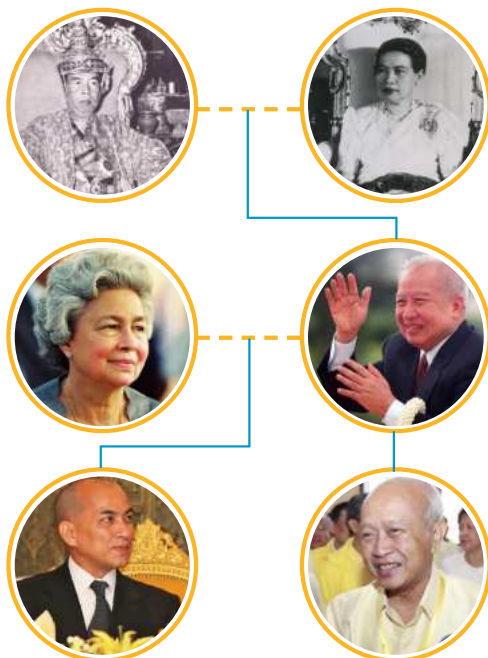

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learnt, they will become better learners.
4. For more ideas on how to do this, please see page V.

UNIT 22

THE MONARCHY

22A

1 Work in pairs. What do you know about them?

2 A. Match the words with their definitions.

- | | |
|-----------------|---|
| 1. monarchy | a. being a ruler |
| 2. heir | b. the king, queen and other members of their family |
| 3. throne | c. a system of having a king or queen |
| 4. royal family | d. someone who continues to do the work of someone important who has died |

Example: *monarchy* – c

B. Listen, check and repeat.

C. Work in pairs. Which member of the royal family do you like most?

I like the queen the most. She's very kind.

Unit 22, Lesson A : The monarchy

Aims: To introduce the concept of monarchy and talk about past events.

By the end of 22A, students should be able to:

- talk about the system of monarchy in their country.
- use the simple past tense to talk about events in the past.
- identify key pieces of information on past events.

Session 1

1 Lead in: Family tree of the royal family

1. Put students in pairs.
2. Ask questions about the family tree (e.g. Who is King Sihanouk's father? Who is Norodom Sihamoni?)
3. Ask them to look at the family tree and talk about what they know about them. You can link this to their lessons on Khmer history.
4. For feedback, ask your stronger students to tell you what they know about the members of the royal family in Cambodia.

2 Vocabulary: Matching words with their definitions

- A.**
1. Ask students to match the words with their definitions.
 2. If your students need additional support, ask them to work in pairs or in small groups.
- B.**
3. Play the recording and ask students to check their answers. You might need to play the recording twice.

Answers

1. c; 2. d; 3. a; 4. b

[Audioscript]

Monarchy is a system of government that involves kings and queens. Some countries have kings and queens, like the UK, Cambodia, Thailand and Spain. Usually, the parents would pass on the throne to their children, then the children do the same thing over. This goes on generation after generation.

The king, queen and their children make up a royal family. Traditionally, the heir to the throne are the male members of the family. When a king dies, he passes on the responsibility to his son. This means his son becomes a king and continues the work he started.

Some people like royal families so much. They worship them! They bow their heads when they

see them. They don't make much noise and are very respectful around them. Sometimes, they collect pictures of them too.

C. 4. Ask students to work in pairs.

5. Tell them to talk about which member of the royal family they like the most. Encourage them to justify their answers as in the example.
6. Ask some of your students to share their answers to the class.

3 Grammar: Past simple forms of verbs

- A.**
1. Ask students to write the past simple forms of the verbs in the box. Ask them to write in their notebooks.
 2. Monitor and check that students are on task.
 3. Check answers as a class. To do this, you might want to call on some of your students to write their answers on the board.

Answers

go – went	build – built
care – cared	produce – produced
become – became	learn – learned / learnt
admire – admired	hold – held
have – had	write – wrote

- B.**
4. Ask students to identify the regular and irregular verbs. If they need more support on this, you can ask them to look back on Unit 2 and Unit 21 of their book.
 5. You might also want to review what these verbs are (i.e. regular verbs form their past forms by adding -d or -ed; irregular verbs form their past forms by completely changing the spelling of the words)
 6. Check answers as a class.

- 3 A. Look at the verbs in the box. Write the past simple forms in your notebook.

go	admire	care	have	build
hold	write	produce	learn	become

- B. Which are regular verbs? Which are irregular verbs? Write *R* for regular verbs and *IR* for irregular verbs next to the words.

go – went – IR

- 4 A.  Listen and write the missing words. Use the words in activity 3. Write in your notebook.

Example: He cared deeply about his people.

1. King Sihanouk ____ to French schools in Vietnam.
2. His eldest son ____ a co-prime minister in 1993.
3. He ____ to play the saxophone while he was in school.
4. He ____ many films throughout his lifetime.
5. The government of Cambodia ____ a statue of King Sihanouk in 2013.

- B.  Listen again. Answer the questions.

Example: *What kind of school did King Sihanouk go to in Vietnam?*
A French school.

1. How old was he when he became a ruler?
2. When did he get married?
3. Who was the other co-prime minister, alongside his son Norodom Ranariddh?
4. What would he do sometimes in important meetings?
5. What was built in 2013 to remember him?

Answers

go – went - IR
 care – cared - R
 become – became - IR
 admire – admired - R
 have – had - IR
 build – built - IR
 produce – produced - R
 learn – learned / learnt – R / IR
 hold – held - IR
 write – wrote - IR

Tip! Supporting weaker students

There are many ways you can do to help your weaker students. Sometimes, making them sit with a good student works. This means you can ask the stronger student to help him/her. It is also good to have them sit near you or in front of the class. This way, you can easily help them or check what they are doing. Giving them constant encouragement also helps a lot. Notice the progress they are making and praise them for it. Which of these techniques have you tried in your class today?

Session 2

Suggestion: Starting session 2

To start the class, ask your students to stand in a circle. Play some music – if you have computers in your classroom, use it. If you don't, you can also use your phone or your CD player. Give a ball (or anything students can pass around while music is playing) to your students and ask them to pass the ball around while the music is playing. When the music stops, the student holding the ball gives a verb and say it's past form (e.g. invite – invited). Pay attention to the ending sounds of the verbs. Check for errors in pronunciation as necessary. If you set activity 3B as homework, you can also go over the answers quickly.

- 4 **Listening:** Completing sentences with verbs

- A. 1. Ask students to listen and complete the sentences with the verbs in activity 3.
 2. Play the recording.
 3. Check answers as a class.

Answers

1. King Sihanouk **went** to French schools in Vietnam.
2. His eldest son **became** a co-prime minister in 1993.
3. He **learnt** to play the saxophone while he was in school.
4. He **directed / produced / wrote** many films throughout his lifetime.
5. The government of Cambodia **built** a statue of King Sihanouk in 2013.

[Audioscript]

King Sihanouk was a man admired by many Cambodians. He was loved not only because he cared deeply about his people, but also because he had a good sense of humour and was very talented.

King Sihanouk went to a few French schools in Vietnam. He inherited the throne from his father when he was only 18 years old. He served as a monarch, prime minister, figurehead of the communist revolution and leader in exile.

He got married in 1952 to queen Norodom Monineath and they had two children – Norodom Sihamoni, the current king of Cambodia and Norodom Narindrapong. His eldest son and half-brother to the king, Norodom Ranariddh, became the co-prime minister, along side prime minister Hun Sen in 1993 when Cambodia held their very first democratic election.

King Sihanouk was also a great musician and learnt to play the saxophone while he was in school. He was also a film maker. Throughout his lifetime, he produced, directed and even wrote films on his own. It was said that sometimes in important meetings, he would try to entertain his guests by showing them his films.

He died in 2012 and in 2013, on the first anniversary of his death, a huge statue of him was built near the independence monument.

- 5 A. Look at the timeline about the Queen Mother's early life. Match the years and events. Then write the missing verbs from the box using their past forms.

• 1936 • 1951 • 1952 • 1979 • 1991

go born marry win return

_____ - _____ in Saigon
 _____ - _____ a beauty contest
 _____ - _____ King Sihanouk for the first time in a private ceremony
 _____ - _____ to China with King Sihanouk and her entire family
 _____ - _____ to Cambodia

- B. Now write about the Queen Mother Monineath. Use the information from activity 5A.

Queen Mother Monineath was _____. She _____.

- B. 4. Play the recording again.
 5. Ask students to answer the questions.
 6. Check answers as a class.

Answers

- 18 years old
- 1952
- Prime minister Hunsen
- He would entertain his guests by showing them his films.
- a statue

- 5 Writing: Queen Mother's early life

- A. 1. Ask students to work in pairs and brainstorm ideas about what they know about Queen Monineath.
 2. Ask them to go through the timeline of the Queen Mother's early life. Tell them these dates represent important events in her early life.
 3. Tell them to match the years with the events. Then write the missing verbs from the box using the simple past form.
 4. Go around and check that your students are on task.
 5. Check answers as a class.

Extension activity: Interview with the king

Put your students in groups. Tell them to imagine they can interview King Sihamoni about his life when he was a student / child. Ask them to write 5 questions they would ask the king. Then ask each group to swap questions and write answers to their friends' questions. If you have time, you can ask each group to roleplay the interview.

Answers

1936 - **born** in Saigon
 1951 - **won** a beauty contest
 1952 - **married** King Sihanouk for the first time in a private ceremony
 1979 - **went** to China with King Sihanouk and her entire family
 1991 - **returned** to Cambodia

- B. 6. Ask your students to write a short biography of Queen Monineath using the information in activity 5A.
 7. Encourage them to include any other information they know about her.
 8. Monitor and help students who might find this activity difficult. Check that your students are using capital letters for proper nouns.

- 1 A. Look at the picture. Do you know who she is? What do you know about her?

- B. Read. Do you know anyone as old as the Queen? What do you find most surprising about the Queen?

Queen Elizabeth II is the longest serving monarch ever in Britain. She was born in 1926 and has been the queen since 1952! She has been served by 14 UK prime ministers so far up until 2020. She is also the only person in the UK allowed to drive without a licence. Her first home was a present from the people of Wales and was given to her when she was only 6 years old. She loves football too – she's an Arsenal fan!

- 2 A. Read some stories about the Queen. Decide if they're true or false.

1 She was having a nice walk in Scotland one day when she was met by a group of American tourists. The tourists didn't recognise her and asked if she lived nearby. They even asked her if she had ever met the queen. The queen smiled and replied (while pointing to her policeman) 'No, but he has.'

2 When her father, King George VII, died, she was travelling in Kenya. She immediately rushed back home, but before she stepped out of the plane, she had to wear an all black outfit. She didn't have any at the time, so a black dress was delivered to her as soon as she landed at the airport.

3 She was having dinner with some priests at the palace when one of the workers brought biscuits on a silver plate. The priest sitting next to her had been really nervous, so he quickly grabbed one of the biscuits as soon as they were on the table. Later, the queen told him that what he had just eaten were dog biscuits.

Unit 22, Lesson B

Aims: To talk about one action interrupting another in the past.

By the end of 22B, students should be able to:

- use past simple and past continuous when talking about past events.
- write a story using both tenses.

Session 1

- 1 **Lead in:** Queen Elizabeth II

- A. 1. As a class, point to the picture and ask students who she is. Accept all answers at this point.
2. If your students don't know anything about her, this is also fine. If you want, you can skip this section altogether and move to activity 1B.
B. 3. Ask students to read the text. You might also want to set a time limit for this.
4. Discuss the questions as a class or in small groups. Ask them if they know anyone as old as Queen Elizabeth II. You can do this by asking about their grandmothers / grandfathers.
5. Ask them what they find most surprising about the queen. You might also want to compare her with Queen Monineath in Lesson 22A. Ask your students about what they think are the similarities and differences between the two queens.

NOTE: At the time of writing, Queen Elizabeth II is still alive. In the event that she dies before this lesson is taught, please remember to remind your students that past tenses should be used to describe her. If this is the case, the text should look like this:

Queen Elizabeth II was the longest serving monarch ever in Britain. She was born in 1926 and had been the queen since 1952! She was served by (14) UK prime ministers. She was also the only person in the UK allowed to drive without a licence. Her first home was a present from the people of Wales and was given to her when she was only 6 years old. She loved football too – she was an Arsenal fan!

- 2 **Reading:** Short stories about the queen

- A. 1. Ask students to read the short stories about the queen.
2. Encourage them to read quickly and not to worry about all the words they don't understand.
3. For feedback, ask your students which of the stories they think are true / false. (NOTE: All the stories are TRUE.)
4. You might also want to ask your students which story they like the most. You could do a show of hands for this.

- B. 5. Ask students to read the text again and answer the questions. Give them more time to do this.
6. Check answers as a class.

Answers

1. She was having a nice walk.
2. Kenya
3. an all black outfit / a black dress
4. nervous
5. her dogs

B. Read again. Answer the questions.

Example: *Who did she meet in Scotland?* A group of American tourists

1. What was she doing in Scotland when she met the tourists?
2. Where was she when her father died?
3. What did she have to wear when she heard about her father's death?
4. How did the priest sitting next to her feel during the meal?
5. What were the biscuits for?

3 Complete the sentences.

1. She _____ some tourists while she _____ a walk.
2. Her father _____ while she _____ in Kenya.
3. She _____ dinner with some priests at the palace when one of the workers _____ biscuits.

Look

We use the past continuous and simple past together to talk about one action interrupting another in the past.

Form the past continuous with **was / were + verb-ing**

She was cooking dinner when the guests arrived.

They weren't cooking dinner when the guests arrived.

Was she cooking dinner when the guests arrived?

To give short answers, we use:

Yes, she / he / it was.

No, she / he / it wasn't.

Yes, they / we / you were.

No, they / we / you weren't.

4 A. Complete the questions with was / were and the verbs in the correct form.

3 Grammar: Completing sentences

1. Ask students to complete the sentences. Tell them the sentences are from the text.
2. If your students need support, you can ask them to refer back to the text in activity 2A.
3. Write these sentences on the board.
4. Underline the past simple forms of the verbs (i.e. met, died, brought).
5. Ask your students what form these verbs are (past simple).
6. Circle or underline the past continuous forms in the sentences (was having, was travelling)
7. Tell students that this form is called past continuous. Tell them that we often use the simple past and past continuous forms together to talk about two actions that happened in the past, one interrupting the other.
8. Ask your students to read the sentences in the look box to raise awareness of the positive, negative and question forms.
9. Ask concept checking questions to help your students understand the use of both tenses (e.g. Which form do we use for the longer action (past continuous)? / Which form do we use for the action that interrupted the other (past simple)?)

Focus on using past simple and past continuous

When you describe two actions using these two tenses, you can order the sentence in two ways. You can put the past continuous actin first, followed by the simple past:

'I was doing my homework when my computer broke.'

You can also put the past simple first followed by past continuous. Use a comma when you do this:

'When my computer broke, I was doing my homework.'

4 Grammar: Past continuous questions

- A.**
1. Focus students' attention on the picture. Ask them what they can see.
 2. Ask them to complete the questions with was or were and the correct form of the verbs in the box.
 3. Monitor to check that students are on task.
 4. Check answers as a class.

Answers

1. Was the man in a red t-shirt eating a pizza?
2. Were the two women drinking water?
3. Was the woman in the red dress sitting down?
4. Was the chef running after a man?
5. Was the man with sunglasses reading a book?

Session 2

Suggestion: Starting session 2

To start the class, put students in groups of 3. Tell them that one of them should start by saying a sentence using past simple and past continuous (e.g. We were having dinner when my friend called). The second student remembers and repeats what the first student has said, and adds his/her own sentence (e.g. They were having dinner when their friend called. I was doing my homework when my phone rang). The third student does the same. He / She remembers and repeats what the other two have said, and adds his / her own sentence.

If you set activity 2B as homework, you can also go over the answers quickly.

- B.**
5. Now ask students to answer the questions in activity 4A.
 6. Ask them to look at the picture carefully to do this.

Answers

1. Yes, he was.
2. No, they weren't. They were drinking coffee.
3. No, she wasn't. She was sleeping on a sofa.
4. Yes, he was.
5. No, he wasn't. He was reading a newspaper.

play drink read run sit clean eat

Example: *Was the man in the blue t-shirt cleaning the window?*

1. _____ the man in a red t-shirt _____ a pizza?
2. _____ the two women _____ water?
3. _____ the woman in the red dress _____ down?
4. _____ the chef _____ after a man?
5. _____ the man with sunglasses _____ a book?

B. Now, answer the questions in activity 4A.

Example: *Yes, he was.*

5 Complete the story with the simple past or past continuous forms of the verbs.

I _____ [1.walk] through the park on my way home from town when I _____ [2.see] a large bear standing in front of me. I _____ [3.get] so scared but then I noticed it _____ [4.play] the violin. I _____ [5.think] of running when the bear suddenly _____ [6.say] 'I'm not a real bear, you know. This is just a special costume.' Then he _____ [7.take] his mask off. I couldn't believe it! It was Prince William – son of Queen Elizabeth II. He said he _____ [8.play] at a children's party later and _____ [9.want] to practise before the show! I _____ [10.listen] for a while. He wasn't bad, for a bear!

6 How well can you do these things? Write in your notebook.

unhappy

neutral

happy

very happy

NOW I CAN...

- talk about the monarchy.
- use the simple past tense to talk about things that happened in the past.
- use the simple past and past continuous tenses to talk about one action interrupting another in the past.

5 Writing: Using the correct forms of verbs to complete a story

1. Ask students to read the story and use the correct forms of the verbs to complete it.
2. Ask them to write their answers in their notebooks.
3. Your students can do this individually or in pairs.
4. Check answers as a class.

Answers

1. was walking; 2. saw; 3. got; 4. was playing
5. was thinking 6. said; 7. took; 8. was playing; 9. wanted; 10. listened

6 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
3. For more ideas on how to do this, please see page V.

Extension activity: Checking writing

As you walk around and monitor your students' writing in activity 5, make note of some of the sentences your students are writing. Write these on the board. Choose some that are grammatically correct and choose some that aren't grammatically correct. Write down at least 5 sentences. At the end of the class, elicit which of the sentences you wrote on the board are grammatically correct. Check the inaccurate ones together as a class.

UNIT 23

WONDERS OF THE WORLD

23A

1 Work in pairs. Answer the questions.

1. Do you know of any very old buildings in your country?
2. Do you know of any very old buildings in other countries?
3. Do you think it's important to protect old buildings? Why (not)?
4. Have you ever heard of the Pyramids? The Taj Mahal? The Colosseum? What do you know about them?

2 A. Read the fact sheet.

Factsheet

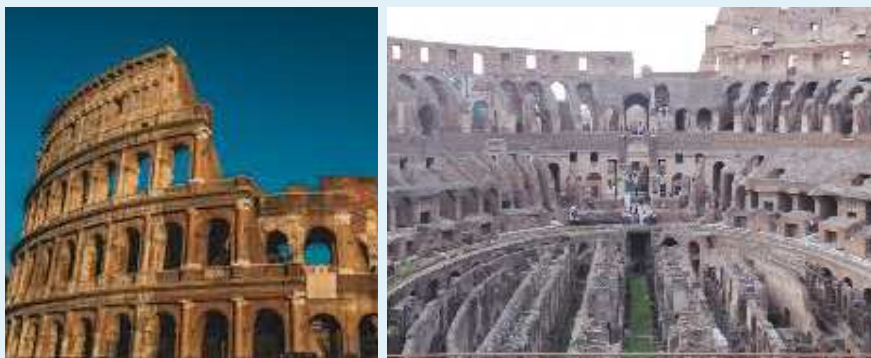

The Colosseum

The Colosseum is an **ancient amphitheatre** in Rome, the **capital** of Italy. It was built between the years 72 and 80 AD, so it's over 2000 years old.

It was **constructed** from wood, stone and other **materials**. It was used for many reasons, mostly for entertainment. Theatre plays, concerts and sporting **events** were held there.

The Colosseum is still standing, but it was damaged many times in the past by fires and **earthquakes**, and some materials from the Colosseum were stolen by thieves hundreds of years ago. It was **repaired** after the damage, but some parts of the Colosseum are still **missing**.

Today, the Colosseum is visited by over 4 million tourists every year. Events are not **held** inside the Colosseum, but concerts are performed outside it, with the beautiful, ancient building in the background.

Unit 23, Lesson A : Wonders of the World

Aims: To learn about and give information about some famous ancient buildings in the world.

By the end of 23A, students should be able to:

- Read and understand information about some famous ancient buildings in the world.
- Give key information about ancient buildings.
- Describe how they were built and how they are used.

Session 1

1 Lead in: Answering questions in pairs about ancient buildings

1. In pairs, ask students to answer questions 1 – 4.
2. Encourage them to have short conversations, and not just give very short answers.
3. Walk around the classroom, listen, help and correct if necessary.
4. Invite students to share some of their answers with the class.

Tip! Make a guessing game

If students don't know any of the buildings in question 4, help by making a guessing game. For example, write "Italy, Egypt, India" on the board and have them guess which one is in each country, and / or have them guess which is the oldest and which is the newest. Even if they don't know the answers, guessing will get them thinking and speaking about the buildings.

B. 3. Have students answer questions 1 – 7 in their notebooks.

4. Walk around the classroom, listen, help and correct if necessary.
5. Check the answers as a class.

Answers

1. The Colosseum is in Rome.
2. It was constructed between 72 and 80 CE.
3. It is an amphitheatre.
4. It is made of wood, stone (and other materials).
5. It was damaged by fires and earthquakes.
6. (Over) Four million tourists visit it each year.
7. Concerts are sometimes held outside the Colosseum.

Focus on saying ancient years with AD and BC.

When we say early years, such as 72 or 80, it's important to say if we mean 72 years before or after the year zero.

For years before, we say **BC**. So, **72 BC** is 72 years before the year zero. For years after, we say **AD**, so **72 AD** is 72 years after the year zero.

2 Reading and vocabulary: The Colosseum and the passive

1. Tell students to read the Fact Sheet about the Colosseum in Rome: one of the most famous ancient buildings in Europe.
2. Have students read the text. Tell them that there will be some words they don't know. Tell them not to use a dictionary, but to try and understand the words in bold by reading the sentences.

B. Answer the questions.

1. Where is the Colosseum?
2. When was it constructed?
3. What kind of building is it?
4. What materials is it made of?
5. How was it damaged in the past?
6. How many tourists visit the Colosseum each year?
7. What is sometimes held outside the Colosseum?

3 A. Read the Look box.

Look

S V a. People <u>built</u> the Colosseum between the years 72 and 80 AD.	1. Both are in the past. 2. Both have the same basic meaning. 3. In a, the subject (people) did the action (build). 4. In b, the action (build) happens to the subject (the Colosseum).
S V b. The Colosseum <u>was built</u> between the years 72 and 80 AD.	5. b is better because we want to say something about the Colosseum. We don't want to say something about people.
S V a. Today, <u>over 4 million tourists visit</u> the Colosseum each year.	1. Both are in the present. 2. Both have the same basic meaning. 3. In a, the subject (over 4 million tourists) did the action (visit). 4. In b, the action (visit) happens to the subject.
S V b. Today, the Colosseum <u>is visited</u> by over 4 million tourists every year.	5. b is better because we want to say something about the Colosseum. We don't want to say something about the tourists.

B. Find the sentences about the Colosseum in the text with a similar meaning. Write them in your notebook.

Example: *Thieves stole some materials from the Colosseum hundreds of years ago.*
Some materials were stolen from the Colosseum hundreds of years ago.

1. People don't hold events inside the Colosseum.
2. They repaired it after the damage.
3. People used it for many reasons.
4. People held plays, concerts and sporting events there.
5. They constructed it from wood, stone and other materials.
6. They perform concerts outside it.
7. Fires and earthquakes damaged the Colosseum.

3 Grammar: The passive – past simple and present simple

- A.**
1. Tell students to look at the *Look box*.
 2. Point out that both rows are about the passive. The first row is about the past passive and the second row is about the present passive.
 3. Use the Focus Box below to teach the students about the passive.

Focus on the passive

In both examples, sentence a is active and b is passive.

In the active sentence, the subject does the action of the verb:

People built the Colosseum.

In the passive sentence, the action of the verb happens to the subject.

The Colosseum was built.

In the passive, we use the verb *to be* + *V₃*. The tense is shown with *to be*, so our example is past simple with *was* and then we give the meaning with *V₃*. It can be used in the present simple too:

Over 4 million tourists visit the Colosseum → The Colosseum is visited by over 4 million tourists.

- B.**
4. Tell students that sentences 1 – 7 are active, but have the same meaning as the passive sentences in the text.
 5. Choose two students to read the active and passive sentences in the example.
 6. In pairs, have students find the passive sentences in the text that match the active sentences in 1 – 7.
 7. Walk around the classroom, look, help and correct if necessary.
 8. Check the answers as a class.

Answers

1. Events are not held inside the Colosseum.
2. It was repaired after the damage.
3. It was used for many reasons.
4. Plays, concerts and sporting events were held there.
5. It was constructed from wood, stone and other materials.
6. Concerts are performed outside it.
7. The Colosseum was damaged by fires and earthquakes.

Session 2

Suggestion: Starting session 2

True or false?

Read the seven sentences below about the passive to the students. Have the students stand if they think the sentence is true, and sit if they think it's false. Give each answer immediately.

This activity is designed to help students understand how to form and how to use the passive.

1. If the active sentence is in the present, then the passive sentence is also in the present. (true)
2. If the active sentence is in the past, then the passive sentence is also in the past. (T)
3. We make the passive with *to be* (*is, am, are, was, were*) + *V₃*. (T)
4. The passive sentence has a completely different meaning from the active sentence. (F)
5. In the passive sentence, we always have to say who did the action. (F)
6. We use the passive when we want to say what happened to somebody or something. (T)
7. We use the passive when we want to say what somebody or something did. (F)

4 Complete the text with the verbs in brackets. Write the answers in your notebook.

Example: 1. were built

Factsheet
The Pyramids

The Pyramids of Giza in Egypt ¹(build) around 2600 BC, so they are over 4500 years old. The biggest one, called the Pyramid of Khufu was the tallest building in the world for almost 4000 years.

Very rich and important people, like the Pharaohs: the kings and queens of Ancient Egypt, ²(place) inside pyramids when they died. Things like jewellery, food and gold ³(put) inside with the bodies of the pharaohs and the walls ⁴(paint) with beautiful pictures.

Nobody knows how the pyramids ⁵(construct) without machines. We used to think that slaves ⁶(use) to build them, but now we think that craftsmen ⁷(pay) well and ⁸(give) good food and houses, and that many normal people helped them.

Khufu ⁹(make) of 2.3 million stones and each one weighs over two thousand kilograms! The pyramids ¹⁰(visit) by almost 15 million people each year and are the most popular man-made tourist attraction in the world.

5 Use the information to write a text about the Taj Mahal. Write in your notebook.

Example: The Taj Mahal is located in Agra, India. It was built over 21 years. It was started in 1632...

The Taj Mahal

Located in Agra, India.
Built over 21 years.
Started in 1632.
Finished in 1653.

Constructed by
20,000 craftsmen.
Made of white stone.

Some parts made of
gold.

No events held inside but visitors can enter.

Ordered by a famous
king for his wife.

King and his wife
placed inside when
they died.

Damaged In a storm
in 2019...

...then repaired by a
team of craftsmen.

Visited by 7 million
tourists a year.

4 Reading and grammar: The Pyramids and the passive

1. Tell students that they are going to read a text about the Pyramids in Egypt.
2. **Vocabulary:** Teach students the following words: Pharaoh (pronounced like *fair - oh*): a king or queen of Ancient Egypt. slaves: people who are owned by other people and made to work hard for no money. craftsmen: people who are very good at making things with their hands.
3. As they read, have students put the verbs in brackets into the past passive. In the last paragraph, they should use the present passive.
4. Allow students to work in pairs or to check their answers together if they want to.
5. Check the answers together as a class. Check the answers by asking different students to read one or two sentences from the text with the verbs changed into the passive.

Answers

1. were built
2. were placed
3. were put
4. were painted
5. were constructed
6. were used
7. were paid
8. were given
9. is made
10. are visited

5 Writing: The Taj Mahal and the passive

1. Ask students to remember where the Taj Mahal is (from activity 1).
2. Tell students to look at the picture and the information about the Taj Mahal.
3. Choose a student to read the example.
4. Have students write a text in their notebooks based on the Taj Mahal. They can start with the words in the example and then continue using the information in the picture to help them.
5. Remind students to think about whether they need the past or the present passive.
6. Students can work in pairs if they wish, but everyone should write.
7. Walk around the classroom, look, help and correct if necessary.

Answers

NOTE: Your students might write slightly different texts. Accept them as long as they are grammatically correct and make sense, and are based on the information in the picture.

The Taj Mahal is located in Agra, India. It was built over 21 years. It was started in 1632 and finished in 1653. It was constructed by around 20,000 craftsmen. It is / was made of white stone and some parts of it are / were made of gold.

The Taj Mahal was ordered by a famous king for his wife. The king and his wife were placed inside there when they died.

It was damaged in a storm in 2019 and then it was repaired by a team of craftsmen.

It is visited by 7 million tourists a year. No events are held inside the Taj Mahal but tourists can go inside.

Extension activity: Guess the building.

Put students in groups of around 4. Give them three minutes to write down four facts from any of the ancient buildings in this lesson. They can be facts from different buildings. For example: *It was damaged by fires and earthquakes.*

Then, students take turns to say one of their facts. The other students should say which building the fact is about. (For example: *the Colosseum*). The student who gets the right answer first gets a point, but if they say the wrong answer they lose a point.

At the end, the student with the most points wins.

1 Work in small groups. Match the buildings with the name, the country and the description.

Name	Country	Description
a. The Eiffel Tower	1. Dubai.	i. Strange-looking building for music and concerts.
b. The Burj Khalifa	2. Australia	ii. The most famous tower in the world, in Paris.
c. The Sydney Opera House	3. France	iii. The tallest building in the world (in 2020).

2 A. Listen to the radio programme and answer the questions.

- When...
 - was a concert venue for Sydney first planned?
 - was a competition held to design the venue?
 - was construction of the building started?
 - was construction completed?
- Complete
The Sydney Opera house was expected to take ¹_____ years to build and to cost ²_____. In the end, it took ³_____ to build and cost ⁴_____.
- How many...
 - concerts are held at the Opera House annually?
 - people are the events at the Opera House attended by?
 - people is the Opera house visited by?

Unit 23, Lesson B

Aims: To learn about three famous modern buildings in the world and to practise talking, writing and asking questions about them.

By the end of 23B, students should be able to:

- Talk about the Sydney Opera House, the Eiffel Tower and the Burj Khalifa.
- Describe facts about these buildings.
- Write a short text for an encyclopaedia about a famous building.

Session 1

1 **Lead-in:** Famous modern buildings

- Have students look at the three buildings in the pictures and the information below them.
- In pairs or small groups, have students try to work out which name, country and description goes with each picture.
- Check the answers as a class.

Answers

1. c, 2 & i; 2. a, 3 & ii; 3 b, 1 & iii

*To be correct, Dubai is not a country. It is a part of a country called the *United Arab Emirates* (usually shortened to *UAE*). It is not necessary to point this out to students but could be useful if any student has heard of this before and asks the question.

2 **Listening and vocabulary:** The Sydney Opera House.

- A.** 1. Tell students that they are going to listen to part of a radio programme about the Sydney Opera House.
- Have students read through the questions.
 - Tell students to answer the questions in their notebooks as they listen to the programme.
 - Play the recording, twice if necessary.
 - Check the answers as a class.

Answers

- a. in the late 1940s; b. in 1955; c. in 1959; d. in 1973
- The Sydney Opera house was expected to take ¹four years to build and to cost ²\$7 million. In the end, it took ³fourteen years to build and cost ⁴\$102 million
- a. over 1500; b. 1.2 million people; c. over 8 million people

- B.** 6. Tell students that all the words in the box are from the recording.
- Have students match any words that they can with the meanings in the shapes.
 - Once the students have finished matching, play the recording again.
 - Have students work in pairs to finish matching and to compare their answers.
 - Check the answers as a class.

Answers

a. recognisable; b. design; c. annually; d. venue; e. completed; f. competition; g. construction; h. the late 1940s; i. architect; j. expected

[Audioscript]

Hello, and welcome to this week's "Wonders of the World": a programme in which we talk about a different famous building every week.

In today's programme, we're going to talk about a very famous building: the Sydney Opera House in Australia.

The Sydney Opera House is located in the city of Sydney, Australia. It is one of the most **recognisable** buildings in the world.

A long time ago, in the **late 1940s**, a **venue** to hold concerts and music events was planned for Sydney. Later, in 1955, a **competition** was held to **design** the venue. The competition was won by an **architect** from Denmark and he was given the job of designing the Opera House.

Construction of the building was started in 1959. The Opera House was very difficult to build and there were many problems, so it took a very long time to build. At the beginning, it was **expected** to cost \$7 million and to take four years. In the end, it took 14 years. It was **completed** in 1973 and cost \$102 million.

Today, over 1500 concerts are held at the Sydney Opera house **annually**. These events are attended by over 1.2 million people. The building itself is visited by over 8 million people annually. Several concert halls and theatres are located inside, as well as cafes, restaurants, bars and shops.

B. Work in pairs. Match the vocabulary with the meanings in the shapes.

recognisable architect	the late 1940s construction	venue expected	competition completed	design annually
---------------------------	--------------------------------	-------------------	--------------------------	--------------------

a. easy to see what it is

b. draw how a building will look

c. every year

d. a place to hold events

Example:
recognisable

e. a formal word for 'finished'

f. an event where you try to win against other people.

g. the process of building something.

h. the years from 1947 – 1949.

i. a person who designs buildings.

j. thought that something would happen.

3 Use the words in the box to complete the text.

events	recognisable	architect	construction	designed	annually
venue	located	expected	visited	completed	opened

The Burj Khalifa

The Burj Khalifa is located in Dubai, United Arab Emirates, and in the year 2019 was the tallest and one of the most ¹_____ buildings in the world.

The Burj Khalifa took five years to build. ²_____ began in 2004 and was ³_____ in 2009. The building was ⁴_____ to the public in January, 2010. It cost \$1.5 billion to build.

The building was ⁵_____ by an ⁶_____ from America called Adrian Smith.

The Burj Khalifa is ⁷_____ by almost 2 million visitors ⁸_____. Many offices, restaurants and apartments are ⁹_____ inside. The world's tallest building is also a ¹⁰_____ for concerts, and other ¹¹_____.

This year, in 2020, an even taller tower in Saudi Arabia called the "Jeddah Tower" is ¹²_____ to open, and the Burj Khalifa will become the second tallest building in the world.

3 Reading and vocabulary: The Burj Khalifa

1. Tell students that the text is an encyclopedia entry about the Burj Khalifa in Dubai.
2. Point out that the words in the box are missing from the text. Many but not all of the words are from activity 2.
3. Have students write the text in their notebooks and complete it by putting the words from the box in the spaces.
4. Allow students to work together if they want to.
5. Walk around the classroom, look, help and correct if necessary.
6. Check the answers as a class.

Answers

1. recognisable; 2. Construction;
3. completed; 4. opened; 5. designed;
6. architect; 7. visited; 8. annually;
9. located; 10. venue; 11. events;
12. expected

Session 2

Suggestion: Starting session 2

To begin Session 2, first ask students to remember what three buildings they talked about last lesson and what they can remember about them (see activity 1).

Then, give students a few minutes to talk in pairs and remember what they can about the Sydney Opera House. Invite some answers from students. You don't need to cover everything.

Answers

1. Who was the Eiffel Tower named after?
2. Who was the Eiffel Tower designed by?
3. When was the Eiffel Tower built?
4. What is the Eiffel Tower made of?
5. How tall is the Eiffel Tower?
6. When was the Eiffel Tower the tallest building in the world?
7. Is the Eiffel Tower loved?
8. Was the Eiffel Tower liked at first?
9. Are concerts held at the Eiffel Tower?
10. How many people is the Eiffel Tower visited by (annually)?
11. How many people is the Eiffel Tower climbed by a day / every day?

It was named after Gustave Eiffel.
It was designed by two architects who worked for Eiffel's company.
It was built between 1887 and 1889.
It is made of iron.
It is 324 metres tall.
It was the tallest building in the world from 1889 until 1930.
Now, the Eiffel tower is loved by many.
At first, the design was not liked by most educated people.
Sometimes, concerts and other events are held at the Eiffel Tower.
It is visited by 7 million people annually.
It is climbed by 25,000 people a day.

5 Writing: An encyclopedia text about either the Eiffel Tower or the Burj Khalifa

1. Have students read their answer for activity 3 in their notebooks again.
2. Tell students that they will write a similar text about one of the other two buildings. They can choose either the Sydney Opera House or the Burj Khalifa.
3. Tell students to choose one building, read the information about it again in the book and make some notes of important points.
4. Have students write their texts in their notebooks.
5. Walk around the classroom, look, help and correct if necessary.
6. If there is time, teach students about some common writing errors on the board.

4 Speaking and grammar: Asking and answering questions about the Eiffel Tower

1. Tell students to look at the notes of the Eiffel Tower.
2. Ask students to look at the example.
3. Choose two students to read the question and the answer from the example.
4. In pairs, ask students to look at the incomplete questions 1 – 11.
5. Choose a strong student to complete question 1 (Who was the Eiffel Tower named after?)
6. Choose another student to look at the notes and answer the questions.
7. In pairs, have students take turns to ask and answer the questions using the notes.
8. Walk around the classroom, listen, help and correct if necessary.
9. Check the answers as a class. (If there isn't much time, just check some of the answers).

4 Use the notes about the Eiffel Tower to complete the questions.

The Eiffel Tower

recognised by millions of
.....people around the world
named after Gustave Eiffel
designed by two architects
whoworked for Eiffel's
company
built between 1887 and 1889
made of iron.
324 metres tall.
tallest building in the world
from1889 until 1930

Now loved by many
At first, design not liked by
mosteducated people
Sometimes concerts and
otherevents held there
Now tower visited by 7 million
.....people annually
Climbed by 25,000 people a
day

Example: *How many ... recognised...
How many people is the Eiffel Tower recognised by?
The Eiffel Tower is recognised by millions of people around the world.*

- | | |
|--|----------------------------|
| 1. Who... named after? | 7. Is ... loved? |
| 2. Who... designed? | 8. Was ... liked... first? |
| 3. When .. built? | 9 ...concerts ... held? |
| 4. What ... made of? | 10. How many ... visited? |
| 5. How .. tall? | 11. How many... climbed? |
| 6. When ...tallest building ... world? | |

5 Read your answer to activity 3 again. Choose one of the other two buildings that you've learned about in this lesson and write a text about it in your notebook.

6 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- recognise and talk about some famous ancient and modern buildings.
- understand the difference between an active and a passive sentence.
- make sentences and questions in the present and past simple passive.
- use the passive to understand and give information about famous buildings.

Suggested answers

NOTE: Your students might come up with answers that look quite different. Accept them as long as they are grammatically correct and make sense, and are based on the information in this lesson.

The Sydney Opera House is located in Sydney, Australia. It is one of the most recognisable buildings in the world.

The Sydney Opera House took 14 years to build. Construction began in 1959 and was completed in 1973. It cost £102 million to build.

The building was designed by an architect from Denmark.

The Sydney Opera House is visited by over 8 million people annually. Each year, over 1500 concerts are held there. The concerts are attended by over 1.2 million people. There are several concert halls inside the building, and there are also cafes, restaurants, bars and shops.

The Eiffel Tower is located in Paris, France. It was the tallest building in the world from 1889 until 1930.

It took two years to build. Construction began in 1887 and was completed in 1889. It is made of iron and it is 324 metres tall.

The building was named after Gustave Eiffel and it was designed by two architects who worked for his company.

The Eiffel Tower is loved today, but it was not liked by many people at first.

The Eiffel Tower is visited by 7 million people annually and it is climbed by 25,000 people a day. Sometimes, concerts and events are held there.

Tip! Writing from an example

In this activity, students are asked to look back at activity 3 and then write a similar text about a different building.

The best way for students to approach this is to look at the example text and see what *kind* of information is in each part. For example we can see that the text about the Burj Khalifa starts with the **location** and a **general fact** about the building. Then, there is information about the **construction dates** and the **cost**. After that, there is information about the architect, followed by details of how many **visitors** go to the building now, and **events** and **venues**.

This is important because it helps students to plan their writing before they start. Before they write, students should decide what kind of information to write and in what order. Using the example text can help them to do this.

6 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Can you remember?

Choose some words about the three buildings in this lesson and write them on the board. In small groups, have students decide which building it's about and what the information is.

Examples:

iron: the Eiffel Tower; the Eiffel tower is made of iron.

January 2010: the Burj Khalifa; the Burj Khalifa opened in January 2010.

Over 8 million people: the Sydney Opera House; Over 8 million people visit it every year.

UNIT 24

ANGKOR WAT TEMPLES

24A

Unit 24, Lesson A : Angkor temples

Aims: To review and practise expressing past actions in the context of Angkor temples.

By the end of 24A, students should be able to:

- identify meanings of new words in reading context about Angkor temples.
- change past simple passive into active and vice versa.

Session 1

1 Vocabulary: Common information about Angkor Wat

- A.** 1. Tell students to look at the picture.
2. Ask students if they know what picture is and which province it is located in.

Answers

Angkor Wat – in Siem Reap

2 Reading: Answering questions

- A.** 1. Tell students to read the instruction and quickly browse through the texts.
2. Ask students what they are going to read about.
3. Allow students to read and find the words to the questions.
4. Remind students that the words they need to find are in order in the reading texts.

Answers

1. Empire; 2. ancient; 3. canals; 4. irrigation;
5. mysterious; 6. impressive; 7. unique;
8. dedicated to; 9. modified

- B.** 3. Put students in pairs.
4. Ask students to write anything they know about Angkor Wat.
5. Encourage students to think of the history lesson about Angkor Wat that they've learnt.
6. Give students some hints if they still look lost. For example, ask students what is on Cambodia flag or which King started the construction of Angkor Wat.

1 A. Do you know what the picture is? Where is it?

B. Work in pairs. Write anything about Angkor Wat that you and your partner know.

Example: Angkor Wat is in Siem Reap.

2 A. Read the short introduction about Angkor Wat and Prasat Bayon in this tourist guidebook. Find the words to match with the meaning. Write the answers in your notebook.

Do you know?

Cambodia's Jewel

If there is one place that visitors shouldn't miss, it is the amazing Angkor Wat in Siem Reap. Annually, there are millions of tourists, both foreigners and locals, visiting Angkor Wat. Living up to its name, it reflects the history and greatness of Khmer Empire and its architecture. The construction of this ancient wonder was started in the early 12th century in the era of King Suryavarman II. Historians and archeologists have found that Angkor Wat was mainly built of large sandstone bricks with other materials. Some of them were transported at that time through natural waterways and man-made canals. Man-made reservoirs, barays in Khmer, and canals were not only used for transportation, but also for irrigation to help provide water for the crops such as rice.

The Temple of Smiles

Prasat Bayon is famous for the large smiling stone faces. It is decorated with over 200 smiling faces which some believe to look equally mysterious and impressive. The temple was once in the centre of Angkor Thom city. Prasat Bayon is unique in the way that it was initially built as a Mahayana Buddhist shrine and was dedicated to Buddhism – unlike many other temples dedicated to Hinduism. However, the history shows that the original dedication was later modified by different monarchs. Even though some areas of Prasat Bayon are temporary closed for renovations and maintenance, many visitors still come and explore this incredible temple.

Which word in the two texts means ...

Example: *every year?*

1. similar to kingdom? _____
2. belonging to the past? _____
3. non-natural water way that is created by humans? _____
4. a system that supplies water to trees and crops such as rice? _____
5. hard to understand or explain? _____
6. amazing and spectacular? _____
7. one of its kind unlike anything else? _____
8. offered to? _____
9. changed? _____

B. Read the texts again. Answer the questions. Write the answers in your notebook.

Example: *What is the one place the visitor shouldn't miss? Angkor Wat*

1. What does Angkor Wat reflect?
2. When was the construction of Angkor Wat started?
3. What materials were mainly used to build Angkor Wat?
4. How were some of those materials transported?
5. Where was Prasat Bayon located?
6. Which religion was Prasat Bayon dedicated to originally?

3 Look at the reading texts in activity 2A again. How many past simple passive sentences can you see? Write the answers in your notebook.

Example: *Angkor Wat was built of large sandstone bricks.*

4 A. Complete the sentences with the correct form of the verbs in the box. Write the answers in your notebook.

start know visit transport dedicate consider decorate build

Example: *Angkor Wat construction was started in the early 12th century by King Suryavarman II.*

1. Baray Teuk Tla is an artificial water body that ____ by people in Angkor era.
2. Angkor Wat ____ with amazing stone carving on the walls.
3. Angkor ____ to be the capital city of Khmer Empire by archeologists and historians.
4. In 2013, Angkor Wat ____ by over two million foreign tourists.
5. Some heavy sandstone bricks ____ by elephants.
6. The man-made water reservoir ____ an important source of water for growing the crops.
7. This statue ____ to the soldiers battling in the war by the villagers.

- B. 5. Ask students to read the texts again.
6. Tell students to answer the questions.
7. Emphasise that students can write short answers only.

Answers

1. history and greatness of Khmer Empire and its architecture.
2. early 12th century.
3. sandstone bricks with some other materials.
4. natural waterways and man-made canals.
5. the centre of Angkor Thom city.
6. Buddhism.

3 Grammar: Identifying past simple passive

1. Tell students to quickly browse through the reading again.
2. Ask students how many sentences with past simple passive they can see in the reading.
3. Have students write only the past simple passive phrases in their notebook.

Answers

1. was started; 2. was mainly built; 3. were transported; 4. was initially built; 5. was dedicated; 6. was later modified

Session 2

Suggestion: Starting session 2

To start the class, you can do a quick question and answer session using the reading texts in activity 2A. First, you can ask your students to close their books, ask questions and see who's the fastest to answer them! These are some of the possible questions:

1. Which temple was known to be the centre of Angkor Thom city?
2. Which temple was decorated with many smiling stone faces?
3. In which century was the construction of Angkor Wat started?

4 Grammar: Filling in the gaps with past simple passive

- A. 1. Ask students to look at the verbs in the box.
2. Tell students to fill in the gaps with the verbs in the box in past simple passive.

Answers

1. was built; 2. was decorated; 3. was known; 4. was visited; 5. were transported; 6. was considered; 7. was dedicated

B. Look at the answers in activity 4A. Which sentences include the do-ers (the ones who did the actions) and which sentences do not? If they do, identify the do-ers.

Example: *Angkor Wat construction was started in the early 12th century by King Suryavarman II. The sentence includes the do-er - King Suryavarman II.*

5 Rewrite the sentences in activity 4A that include the do-ers into active sentences. Write the answers in your notebook.

Look

Passive:	The statue was built by the villagers. [do-er of the action = the villagers]
Active:	The villagers built the statue.

Example: *Angkor Wat construction was started in the early 12th century by King Suryavarman II.*

→ *Active: King Suryavarman II started Angkor Wat construction in the early 12th century.*

6 A. Work in pairs. Imagine you have to write a short text to put in a guidebook. Use the given facts about Prasat Ta Prohm.

- Started in 12th century.
- Founded by King Jayavarman VII as the Royal Monastery.
- The stone stele from Prasat Ta Prohm provides incredible knowledge of the past.
- Unofficially known as the jungle temple.
- Featured in a Hollywood movie called Tomb Raider in 2001.

B. Work with another pair. Take turns sharing what you have written. What do you think about their short text?

- B. 3.** Explain to students what do-ers refer to.
4. Ask students to read the sentences in activity 4A and identify which sentences include the do-ers.

Answers

1. people in Angkor era.
2. no do-er in this sentence.
3. archaeologists and historians.
4. over two million foreign tourists.
5. elephants.
6. no do-er in this sentence.
7. the villagers

Focus on the do-er of the actions

The do-er of the actions here refers to the person who did the action. In passive sentences, the do-ers are usually left out and are not the subject of the sentences. Sometimes students can get confused and think all the subjects are the do-ers in every sentence. Therefore, it is important to emphasise this point.

5 Grammar: Rewriting sentences

1. Ask students to quickly look at the Look box.
2. Tell students to rewrite the sentences in activity 4A that include the do-ers into active sentences.

Extension activity: Sharing the answers

You can ask students to share the short text they have written in activity 6A. Then you can ask the class to vote or select the best and most interesting text that can be put in the guidebook. If there are enough resources such as posters and colourful markers, you can also ask students to write the texts on the posters and decorate them as if they will be included in the real guidebook before presenting to the whole class.

Answers

1. People in Angkor era built Baray Teuk Tla.
2. No because there is no do-er.
3. Archaeologists and historians considered Angkor to be the capital city of the Khmer Empire.
4. Over two million foreign tourists visited Angkor Wat in 2013.
5. Elephants transported some heavy sandstone bricks.
6. No because there is no do-er.
7. The villagers dedicated this statue to the soldiers battling in the war.

6 Writing: Writing a short text for a guidebook

- A.**
1. Put students in pairs.
 2. Ask students to work together to write a short text about Prasat Ta Prohm to put in a guidebook.
 3. Tell students to use the given information about Prasat Ta Prohm to write.
 4. Encourage students to look at the readings in activity 2A as an example.
- B.**
5. Pair students with a different partner.
 6. Ask students to share what they and their former partners write in activity 6A.
 7. Tell students to give each other feedback.

Unit 24, Lesson B

- 1 Imagine you are a foreigner visiting Siem Reap for the first time. You have a Cambodian tour guide with you. Write 4 questions you want to ask your tour guide.

Famous temples?

Good restaurants?

Where to stay?

Transportation?

Example: *What is Prasat Bayon famous for?*

- 2 Write questions for the answers with the first word given. Write the questions in your notebook.

Example: *Siem Reap is in northwestern Cambodia. Where is Siem Reap?*

1. Some sandstones were transported by elephants. How _____?
2. Angkor Thom was built in the era of King Jayavarman VII. When _____?
3. Over two million of people visited Angkor Wat in 2013. How many _____?
4. Angkor was known as the capital city in Khmer Empire. What _____?
5. Local tour guides are the best people to show you around. Who _____?

- 3 A.  **Somnang is asking Kosal to accompany his American friend who's in Siem Reap for the first time. Listen to their conversation. Answer the questions.**

Aims: To practise asking polite questions.

By the end of 24B, students should be able to:

- make indirect questions to ask for information politely.
- change direct questions into indirect questions and vice versa.

Session 1

- 1 **Speaking:** Making and asking questions

1. Tell students to imagine they are foreign tourists visiting Siem Reap for the first time and they have a Cambodian tour guide with them.
2. Ask students to make 4 questions to ask their tour guide.
3. Encourage students to look at the words in the boxes as clues to help them generate the questions.

Tip! Giving prompts

When you ask your students to make questions or sentences with a given topic, they sometimes can struggle and are not sure where to start. In such situations, you can give students some prompts or clues that can help them brainstorm ideas. For example, you ask students to write questions as if they were tourists asking a local tour guide. You can give them some prompts to help them begin such as: where to eat, transportation, or what to see etc.

- 2 **Writing:** Making questions

1. Tell students to look at the answers.
2. Ask students to make questions for those answers.
3. Emphasise that all the questions must begin with the given question words.

Answers

1. How were some sandstones transported?
2. When was Angkor Thom built?
3. How many people visited Angkor Wat in 2013?
4. What was Angkor known as?
5. Who are the best people to show you around?

- 3 **Listening:** Identifying indirect questions

- A.** 1. Tell students to look at the pictures and ask whom they can see in the picture.
2. Ask students to listen to the recording and answer the questions.
3. Emphasise that only short-answers are needed.

Answers

1. Tuk-tuk
2. Hawaii
3. Angkor Wat
4. No, he doesn't.
5. one-day pass / one-day ticket

[Audioscript]

Somnang: Andy, this is my son Kosal. Kosal, this is my friend, Andy, who I told you about. Today Kosal's free and he wants to help showing you around, so he can practise his English.

Kosal: Hello Andy. Nice to meet you.

Andy: Hi Kosal, it's lovely to meet you and thank you so much for keeping me company today. I'm sure we'll have a great time.

Kosal: No problem. I'm excited as well!

Somnang: I'm really sorry that I can't drive you guys around today as I have an important work event to attend. I've already booked a tuk-tuk to take you around for the whole day. Oh the tuk-tuk is here. Have fun and call me if there is any problem!

Andy: Thank you for arranging everything Somnang. Have a good day and I'll see you at dinner!

[Pause – Kosal and Andy go in tuk-tuk]

Andy: So Kosal, I've heard from your dad that you also go to a football club. How awesome! Can you tell me how often you have your football practice?

Kosal: I only have time to go to the football club once a week on the weekend. Andy, I know you're from America, but would you mind telling me which state you're from?

Andy: Oh no, not at all. I'm from Hawaii. Do you know where it is in the States?

Example: *Who is Andy? Somnang's friend.*

1. What transportation do Andy and Kosal use today?
2. Which state in America does Andy come from?
3. Where is Kosal taking Andy this morning?
4. Does Kosal know how much the ticket is?
5. What kind of pass will Andy buy?

B. Listen again. Choose the questions you hear in the conversation.

1. How often do you have your football practice?

2. Can you tell me how often you have your football practice? ✓

3. Would you mind telling me which state you're from?

4. Which state are you from?

5. When was Angkor Wat built?

6. Can you tell me when Angkor Wat was built?

7. Do you have any idea how much it costs?

8. How much does it cost?

4 Which questions in activity 3B do you think are indirect questions?

Look

When we'd like to sound more polite, we can use indirect questions to ask for information or to request somebody to do something.

Example: *Direct question: How much does it cost?*

Indirect question: Do you have any idea how much it costs?

Indirect question phrase

no longer a question by itself
- delete does

Kosal: I do! Hawaii is a group of islands in the Pacific. Am I right? I've seen it in movies before. It's got beautiful mountains and beaches.

Andy: Yes, you're correct! By the way Kosal, where are we heading to now?

Kosal: We're going to Prasat Angkor Wat now and we'll spend some time there until lunch. You've got so much to see.

Andy: I've heard many great and amazing things about Angkor Wat. I can't believe I finally get to see it now. Can you tell me when Angkor Wat was built?

Kosal: Based on our history lesson, the construction of Angkor Wat was started in the early 12th century. It was in the era of King Suryavarman II. Angkor Wat is the pride of Cambodia.

Andy: I'm sure it is a national treasure. I know the foreign visitors have to buy a pass before going. Do you have any idea how much it costs?

Kosal: You do need to get a ticket. There are options and the prices vary. I'm sorry, but I don't know how much each option is. But don't worry. We'll stop at the ticket centre on the way. We'll see three temples today, so I think it's best if you get the one-day pass.

Andy: That sounds good and yes, I'll get the one-day pass then.

Kosal: Oh here we are. This is the ticket centre. Let's go and get your ticket.

- B.**
4. Ask students to read the 4 pairs of questions.
 5. Tell students to listen again and choose the questions they hear in the recording.
 6. Have students write only the number of the questions.

Answers

Questions in the recording: 2, 3, 6, 7

Session 2

Suggestion: Starting session 2

To start the class, you can do a quick review of indirect questions that were introduced in activity 3 listening. You can ask some questions:

1. Do you know where Hawaii is?
2. Can you tell me what foreign tourists need to buy if they want to visit the temples?
3. Do you have any ideas how many temples we have in Siem Reap? If not, can you guess?
4. Would you mind telling me what the best way to travel as tourists in Cambodia is?

4 Grammar: Spotting indirect questions

1. Tell students to quickly go through the Look box.
2. Go through the example of an indirect questions with students.
3. Ask students to look at the questions in activity 3B again.
4. Have students identify which questions are indirect questions.

Answers

Indirect questions: 2, 3, 6, 7

- 5 A. Look at activity 2. Change the direct questions to indirect questions using the phrases in the box. Write the answers in your notebook.**

Do you know ?

Do you have any idea ... ?

Can you tell me ... ?

Would you mind telling me ... ?

Example: *Where is Siem Reap?*
→ *Do you know where Siem Reap is?*

B. Find and correct the mistake in each question. Write the answers in your notebook.

Example: *Can you tell me how many smiling faces does Prasat Bayon have?*
→ *Can you tell me how many smiling faces Prasat Bayon has?*

1. Do you know which century was this temple built in?
2. Do you have any idea who can you suggest to be my tour guide?
3. Can you tell me where was the capital city of Khmer Empire located?
4. Would you mind telling me what does irrigation mean?

- 6 A. Change the questions you have written in activity 1 into indirect questions.**

Example: *What is Prasat Bayon famous for?*
→ *Can you tell me what Prasat Bayon is famous for?*

B. Work in pairs. Imagine your partner is the tour guide. Take turns asking questions and see how many questions your tour guide can answer!

- 7 How well can you do these things? Write in your notebook.**

unhappy

neutral

happy

very happy

NOW I CAN...

- identify and use past simple passive correctly.
- make common direct questions.
- change direct to indirect questions.

- 5 Grammar:** Rewriting questions

- A.**
1. Have students look at the answers they have written in activity 2.
 2. Go through the answers again quickly to make sure students have got the correct answers written in their notebooks.
 3. Ask students to rewrite the direct questions in activity 2 to indirect questions.
 4. Remind students that they have to use one of the four indirect question phrases in the box.

Suggested answers

1. Do you know how some sandstones were transported?
 2. Do you have any ideas when Angkor Thom was built?
 3. Can you tell me how many people visited Angkor Wat in 2013?
 4. Would you mind telling me what Angkor was known as?
 5. Do you know who are the best people to show you around?
- Note: Students may have different answers using different phrases (start of the questions) and it should be fine as long as they use the four phrases and the indirect questions are correctly written.*

- B.**
5. Tell students to read the questions.
 6. Ask students to find and correct a mistake in each question.

Answers

1. Do you know which century was this temple built in?
→ Do you know which century this temple was built in?
2. Do you have any idea who can you suggest to be my tour guide?
→ Do you have any idea who you can suggest to be my tour guide?
3. Can you tell me where was the capital city of Khmer Empire located?
→ Can you tell me where the capital city of Khmer Empire was located?
4. Would you mind telling me what does irrigation mean?
→ Would you mind telling me what irrigation means?

- 6 Speaking:** Asking indirect questions

- A.**
1. Have students look back at the answers they have written in activity 1.
 2. Ask students to rewrite the direct questions they have written to indirect questions using the phrases they have learnt.
- B.**
3. Put students in pairs.
 4. Ask students to take turns being a tour guide and a tourists.
 5. Have students ask each other indirect questions they have written in activity 6A and see who can answer the questions better.

- 7 Reflection:** 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive | about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Finding the best tour guide

Depending on the time you have left, ask some pairs to share one or two of the questions they have written. After that, ask students how many of the questions they can answer if they were the tour guide. Don't forget to encourage students to raise hands and answer even if they aren't sure of the answers. Then as a class, you can select who knows the most answers and considered the best tour guide.

UNIT 25

MYSTERIES

25A

Unit 25, Lesson A : Mysteries

Aims: To talk about common mysteries using modals of possibility and probability.

By the end of 25A, students should be able to:

- use the modals of probability and possibility to express how certain they are about things.
- draw conclusions and deduce information using picture prompts.

Session 1

1 Lead in: Talking about the picture

1. Focus students' attention on the picture.
2. Ask them what they can see.
3. Tell them that the picture tells a story. Encourage them to guess what the story might be about. Accept all answers at this point.

2 Vocabulary: Matching words with their definitions

1. Ask students to match the words with their definitions. Ask them to write in their notebooks.
2. If you have a weak class, ask your students to work in pairs or small groups.
3. Check answers as a class.

Answers

1. b; 2. d; 3. a; 4.c; 5. e

4. Ask students to look at the picture in activity 1 again.
5. Tell them that some of the words in activity 2A can be found in the picture. Ask them to find this words in the picture.
6. For this activity, it might be a good idea to ask your students to work in pairs or small groups.

Answers

The words that can be found in the picture are: footprint, hybrid and ape.
It might also be possible to deduce the word 'mysterious' from the picture.

3 Listening: 3 views about the Yeti

1. Tell your students that they are going to listen to Channy talk about the legend of the Yeti at her school.
2. Tell them to write the 3 views about the Yeti that will be discussed. Ask them to write in their notebooks.
3. Play the recording.
4. Check answers as a class.

Answers

3 views expressed about the Yeti:

1. It's a half man, half bear (bear man)
2. It's a half man, half ape (ape man)
3. It's nothing – it doesn't exist

[Audioscript]

Hello, my name is Channy and my report today is about the Yeti. So, is the Yeti a bear? Is it man? Is it an ape? Maybe a combination of all 3? Who knows?

The Yeti is a strange mysterious creature that some people believe lives in the Himalayas. Some people think the Yeti might be a bear. In fact, when Charles Howard Bury found some large footprints in 1921, he concluded that the footprints looked something like 'man-bear snow-man'. Some recent research, based on DNA analysis, have confirmed that the Yeti could be a hybrid of an ancient polar bear and a brown bear. However, this study was disproven by other scientists who said that the hair they took DNA samples from was damaged and there was no exact match to the polar bear that existed a long time ago.

Still others believe that the Yeti may be half human, half ape, similar to how humans looked like thousands of years ago. Some scientists think this because some other species of humans haven't been discovered easily and they might go unnoticed for a long time.

Whether the Yeti is a bear man or an ape man, one thing is certain – it can't be small. In fact, some people say its average height is about 6 feet (1.8 metres).

Others do not believe in the Yeti at all. They think the Yeti can't exist and that there isn't enough evidence to prove this. The Sherpa, the people that live high up in the mountains in Nepal, could be telling the stories so that their children stay close. It's very cold up there and there certainly are a lot of wild animals roaming around.

1 Work in pairs. What can you see in the picture? What do you think the story might be?

2 A. Match the words with their definitions.

- | | |
|---------------|--|
| 1. footprint | a. a traditional story that may be historical but not proven |
| 2. mysterious | b. the mark made by a person or animal's foot |
| 3. legend | c. anything that is a mixture of 2 or more things |
| 4. hybrid | d. difficult or impossible to understand |
| 5. evidence | e. reasons for believing that something is or isn't true |
| 6. ape | f. large primates such as gorillas, chimpanzees and orangutans |

Example: *ape – f*

B. Work in pairs. Which of the words in activity 2A can you find the picture?

3 A. Listen to Channy talking about the legend of Yeti at her school. What 3 views were expressed about the Yeti? Write your answers in your notebook.

B. Listen again. Chose the correct answer. Write the answers in your notebook.

Example: *The Yeti is a _____ mysterious creature. (c)*

a. friendly b. loving c. strange

- The Yeti lives in the _____.
a. Yeti mountain b. North mountains c. Himalayas
- Charles Howard Bury first found some footprints in _____.
a. 1921 b. 1979 c. 1861
- Based on DNA analysis, some scientists think the Yeti could be a hybrid between _____.
a. a polar bear and an ape b. an ape and a brown bear c. a polar bear and a brown bear
- Some people think there isn't enough _____ to confirm the existence of the Yeti.
a. footprints b. evidence c. photographs
- The Sherpa people like their children to stay close because _____.
a. there are many dangerous wild animals in the mountains
b. they have to take care of their parents
c. they like staying at home

4 A. Complete the sentences with words from the box.

may / might (not) could must can't

- Some people think the Yeti _____ be a bear.
- The Yeti _____ be a hybrid of a polar bear and a brown bear.
- Others think the Yeti _____ exist.
- The parents of the Sherpa children _____ be worried.

B. Arrange the words in activity 4A show different degrees of certainty.

positive forms

very sure

not sure

negative forms

very sure

not sure

Look

• We use the modals of probability and possibility to show how sure we are about what we're saying or writing.

• To use these modals, we follow this form: Subject + modals + verb (infinitive form).

Example: The Yeti *might be* a bear.

So, the parents must be really worried. They need to keep their children close all the time.
So, what do you think the Yeti is? Is it a bear man? Is it an ape man? Is it nothing? You decide!

B. 5. Play the recording again.

6. Ask students to listen and choose the correct answer – a, b or c.

7. Check answers as a class.

Answers

1. c; 2. a; 3. c; 4. b; 5. a

Session 2

Suggestion: Starting session 2

To start the class, ask some of your students what they remember about the Yeti. With a show of hands, ask how many think the Yeti is a bear man, an ape man, or doesn't exist. Encourage them to justify their answers.

4 Grammar: Completing sentences with modals of probability and possibility

- Call on some of students to read the sentences.
- Tell them that these sentences are from the recording they just listened to.
- Ask them to complete the sentences with the words in the box.
- Check answers as a class. You might want to write some of these sentences on the board.

Answers

- Some people think the Yeti *might* be a bear.
- The Yeti *could* be a hybrid of a polar bear and a brown bear.
- Others think the Yeti *can't* exist.
- The parents of the Sherpa children *must* be worried.

- Tell your students that the words in activity 4A (may / might (not), could, must, can't) are called modals of possibility and probability. We use them to show how sure we are when talking about things.
- Focus their attention on the arrows. You might want to ask your students questions to help them understand the diagram (e.g. Which arrow is for positive forms (right arrow).

- Ask your students to arrange the words to show different degrees of certainty.
- Check answers as a class. You might want to write these on the board.

Answers

positive forms

very sure must

not sure

negative forms

very sure can't

not sure might not

- Write the first sentence in activity 4A on the board (Some people think the Yeti might be a bear.)
- Underline **might be**.
- Ask students what verb form follows might (and the other modals of probability and possibility). Tell them the modals are always followed by the infinitive form of the verb.

Focus on modals of probability and possibility

1. **MUST** - as a modal verb for expressing probability and possibility, doesn't have a negative form. For example, 'You *must be worried*' means I'm sure you are worried. The negative form on the other hand 'You *mustn't be worried*' – doesn't mean I'm NOT sure you are worried.

2. **CAN** and **COULD** – In this unit, we introduced could as a modal of probability and possibility. However, **CAN** can also be used in this regard. Take note that **CAN** can be used to express general statements about what is possible. We do NOT use **CAN** for specific events. For example: It can get very cold here. ✓
Where's Panha? I'm not sure. He can be at school. x

3. Note the difference between **COULD** and **MIGHT**:

That dog could be dangerous. (Sometimes that dog is dangerous. I know.)

That dog might be dangerous. (Perhaps that dog is dangerous. I don't know.)

5 Match the pairs of sentences.

1. We have a strange new teacher!	a. He must be Chinese.
2. The children are screaming while watching TV.	b. Really? It can't be that small.
3. Soksan is smiling a lot today.	c. She could be sick today.
4. My classmates look wet.	d. They must be watching a scary movie.
5. Canada is smaller than Cambodia.	e. It could be raining.
6. Our teacher isn't here today.	f. He might be happy about the holiday.
7. There's a big shadow in the garden.	g. It could be a bear!

6 Look at the pictures below. Write sentences using the modals of probability and possibility.

Example:

She must be hungry.
She must like cakes.

must

might not

could

can't

must

5 Grammar: Matching pairs of sentences.

1. Tell your students to match the pairs of sentences.
2. Do the example as a class to help students understand their task better. If you have a weak class, you might also want to do one or two more.
3. Ask students to compare their answers before checking them as a class.

Answers

1. a; 2. d; 3. f; 4. e; 5. b; 6. c; 7. g

Suggested answers

1. They must be friends.
2. They might not be working. / They might not be talking about their problems / work.
3. He could be a hunter. / He could go camping. / He could be cold.
4. They can't be friends.
5. He must be tired. / He must be in an office.

NOTE: These are just suggested answers. Your students might write slightly different answers. Accept them as long as they are grammatically accurate and fit the pictures.

6 Writing: Using modals of probability and possibility

1. Ask students to write sentences about the picture using the modals of probability and possibility written underneath each one.
2. Ask them to write their answers in their notebooks.
3. For weaker classes, asking your students to work in pairs or small groups is a good idea.
4. Go around and help students who might find this activity difficult.
5. Check answers as a class. To do this, you might want to ask some of your stronger students to write their answers on the board.

Extension activity: What's that picture?

Bring several pictures in the class. Alternatively, you could also use pictures on your phone. Show each picture one by one to your students. First, cover the picture with a piece of paper or notebook. Then reveal the picture bit by bit to your students. Every time you reveal a part of the picture, call on some of your students to guess what the picture might be. Encourage them to use the modals of probability and possibility (e.g. I can see something green – it might be a tree.)

Unit 25, Lesson B

1 Work in pairs. Discuss the questions.

Have you ever seen anything unusual? What is it?

Have you ever experienced something strange? What was it?
When did it happen?

Do you believe in ghosts? Why or why not?

Are there any famous ghost stories in your town or country?

2 A. Read about ghosts. Match the words with their definitions.

Are ghosts real?

Many people think that ghosts are real! They are believed to be the spirits of people who have died. They like to roam around and haunt people for many reasons. Sometimes, they do this because of 'unfinished business' with friends and family. Other times, they might simply want to deliver a message.

Although ghosts are often thought of as misty white figures, they could also wear clothes that match the time period they died. Ghosts don't usually harm people, but they may scare them. They might also make strange noises, move household objects and pass through walls. Ghosts might become angry too if they are provoked, but there's no need to worry. They could also be appeased through rituals and offerings.

In Asian culture, ghosts could also be asked to help heal relatives, win the lottery or protect someone while travelling pregnant. In China, Malaysia, Singapore, Vietnam, Thailand and Cambodia, the Hungry Ghost Festival is celebrated on the 7th month of the lunar calendar – this usually falls between August and September. During this month, ghosts are likely to visit the living. Their relatives might also say a prayer and offer some presents for them at the pagoda.

For a scientist, there must be enough evidence to confirm whether ghosts exist or not, but for now, the scientific community isn't convinced this is the case. Despite what they say, a lot of people continue to believe in ghosts, even in these very modern times. Why do you think this is?

Aims: To talk about other mysteries.

By the end of 25B, students should be able to:

- talk about mysterious and strange stories that are famous in their towns or country.
- use modal verbs of probability and possibility to respond to situations.

Session 1

1 Lead in: Asking and answering questions

1. Put students in pairs or small groups.
2. Ask them to discuss the questions.
3. Monitor and listen to what your students are saying / talking about.
4. For feedback, call on some students to share their answers to the class.

Tip! Monitoring

To monitor is to walk around in class while your students are doing something, carefully checking to see if they are doing what you wanted them to do. You can also use this time to point out some mistakes that individual students are making. Monitoring is an effective classroom management technique. By walking around, you can ensure that your students are on task. This will also help keep your students engaged throughout the lesson.

2 Reading: Matching words with definitions

1. With a show of hands, ask students if they believe in ghosts or not. Encourage them to justify their answers.
2. Ask students to read the text about ghosts.
3. Ask them to match the words with their definitions.
4. Check answers as a class.

Answers

1. c; 2. a; 3. d; 4. b; 5. f; 6. e; 7. g

3 Reading: Completing sentences

5. Ask students to read the text again.
6. Tell them to complete the sentences using words from the text.
7. Ask students to compare their answers with their pairs before checking them.

Answers

1. unfinished business
2. scare
3. rituals and offerings
4. Hungry Ghost Festival
5. evidence

Session 2

Suggestion: Starting session 2

To start the class, put students in pairs. Ask them to invent a friendly ghost and give it a name. If you are familiar with the story of Casper, the friendly ghost, use this to help your students generate ideas. Casper is a fictional ghost cartoon character. He is a child ghost who doesn't like scaring people. He likes to be friends with them.

Ask students to imagine they are going to spend a day with their ghost friend. Tell them to think about what they might do on this day. Encourage them to use modals of probability and possibility (e.g. We might see a movie).

Example: *unfinished business* - c

- | | |
|------------------------|--|
| 1. unfinished business | a. blurry or fuzzy |
| 2. misty | b. to make somebody less angry by giving or doing what they want |
| 3. provoke | c. something that hasn't been done yet |
| 4. appease | d. to try to make a person or animal angry |
| 5. rituals | e. all the people who are still alive |
| 6. the living | f. actions or words performed regularly, often as part of a ceremony |
| 7. haunt | g. to appear to someone in the form of a ghost |

3 Read again. Complete the sentences.

Example: *Ghosts are the spirits of people who have died.*

1. They haunt people sometimes because of _____.
2. Ghosts don't usually harm people but they might _____ them.
3. People can make ghosts less angry through _____.
4. Some countries in Asia celebrate the _____ on the 7th month of the lunar calendar.
5. Scientists think there isn't enough _____ to confirm if ghosts are real or not.

4 Find 5 examples of sentences with modals of probability / possibility in the text in activity 2A. Write in your notebook.

5 Read about vampires. Use modals of probability / possibility based on how sure you are about each sentence. Write in your notebook.

Vampires are like monsters in stories, the most famous one is Dracula. Some people think they must be really nasty creatures as they sometimes kill people and animals. Here are some fun facts about vampires.

4 Writing: Finding sentences in the text.

1. Ask students to read the text again and find sentences with modals of probability and possibility.
2. Tell them to write 5 sentences in their notebooks.
3. Monitor and check that students are on task.
4. For feedback, call on some students to read their sentences. You might also want to ask some of them to write their sentences on the board.

Answers

1. Other times, they might simply want to deliver a message.
2. They could also wear clothes that match the time period they died.
3. They may scare them.
4. They might also make strange noises, move household objects and pass through walls.
5. Ghosts might become angry too if they are provoked, but there's no need to worry.
6. They could also be appeased through rituals and offerings.
7. In Asian culture, ghosts could also be asked to help heal relatives, win the lottery or protect someone while travelling pregnant.
8. Their relatives might also say a prayer and offer some presents for them at the pagoda.
9. There must be enough evidence to confirm whether ghosts exist or not.

5. Put students in pairs.
6. Tell them to complete the sentences about vampires using the modals of probability and possibility, based on how sure they are about each sentence.
7. Ask pairs to compare their answers with other pairs or groups.
8. Check answers as a class.

Answers

1. The person they kill **may / might** become a vampire too.
2. They **can't be** out in sunlight.
3. They **can't see** themselves in glass or mirrors.
4. They **may/might** change to other animals such as bats, wolves, cats or rats.
5. They **could live** for thousands of years.
6. You **can't be** harmed if you wear a cross around your neck.
7. To protect you from vampires, you **may/ might** put bunches of garlic in your room or hang them from your doors.

NOTE: Be flexible when checking answers for this activity. Vampire stories have evolved over time. For instance, in the past, wearing a cross around your neck is enough to protect someone from being attacked by vampires. More recent films and stories about vampires do not seem to emphasise this anymore. In this case, the modals used here might have to be changed.

5 Grammar: What do you know about vampires?

1. Focus students' attention on the picture of a vampire. Ask if students know what this is called in English.
2. Read the introductory paragraph together as a class. To do this, you might want to ask one of your stronger students to read the paragraph out loud.
3. Ask students if they believe in vampires or not. Encourage them to justify their answers.
4. You might also want to ask them if they have read books or watched films about vampires recently.

Example: They must drink blood to survive.

1. The person they kill ____ become a vampire too.
2. They ____ be out in sunlight.
3. They ____ see themselves in glass or mirrors.
4. They ____ change to other animals such as bats, wolves, cats or rats.
5. They ____ live for thousands of years.
6. You ____ be harmed if you wear a cross around your neck.
7. To protect you from vampires, you ____ put bunches of garlic in your room or hang them from your doors.

6 Respond to the following situations using modals of probability and possibility. Write in your notebook.

Example: Our dog has been barking for 3 hours now! [It must be scared.]

1. A lot of people in this town think that house over there is haunted. [can't]
2. Sheila doesn't like walking by herself at night. [might not]
3. The air in this room is cold, even though it's hot outside – it's 40° ! [could]
4. My pillow is floating! [must]
5. My uncle David is making coffee in the kitchen.
Wait – he's been dead for 10 years! [must]

7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- talk about some mysteries in my town and around the world.
- use modals of probability and possibility to talk about things I'm sure and not sure about.

6 Writing: Responding to given prompts

1. Ask students to respond to the given situations using modals of probability and possibility.
2. Ask them to write their answers in their notebooks.
3. If you have a weak class, do this activity in pairs or small groups.
4. Monitor and check that students are using the correct verb forms after the modals.
5. Ask students to compare their answers.
6. Check answers as a class.

Suggested answers

1. It can't be a nice house. / It can't be a new house.
2. She might not find her way back home. / She might not be brave.
3. The air conditioning could be on. / There could be a ghost.
4. There must be a ghost.
5. It must be his ghost. / He must miss coffee so much.

NOTE: These are just suggested answers. Your students might write slightly different answers. Accept them as long as they are grammatically accurate and make sense.

7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
3. For more ideas on how to do this, please see page V.

Extension activity: Nouns, verbs or adjectives.

Ask students to look at the words in activity 2. Ask them to draw 3 circles in their notebooks. Then, they label each circle (nouns, verbs, adjectives). Tell them to write the words in the circles.

nouns – unfinished business, rituals, the living

verbs – provoke, appease, haunt

adjectives – misty

UNIT 26

REVIEW

1 Use the words in the box to complete the summary of the Funan time in Cambodia.

trade significant accounts civilisation era impact military chief

Funan is the name of an early ¹_____ in Cambodia that existed between the 1st and 6th centuries AD. Funan is the Chinese name for it, but it is often used because most of our knowledge comes from Chinese ²_____ of those times. During the Funan ³_____, Cambodia was a useful port, and it did a lot of ⁴_____ with both China and India, which was good for the economy. During this time, India had a big ⁵_____ on the culture in Cambodia and changed it a lot. Later, Asian countries started meeting in Indonesia and Funan lost its money and power.

One of the most ⁶_____ people that we know about from Funan times is Queen Soma. She is important because she was the first female leader of Cambodia. She had a lot of power because she was also the ⁷_____, which means that she had control of the army.

2 Look at the notes about Queen Elizabeth of the United Kingdom. Work in pairs. Take turns to make questions and answer them.

Example: *When was Queen Elizabeth born?*
She was born on 21 April 1926.

QUEEN ELIZABETH II OF THE UNITED KINGDOM

born: 21/04/1926

became queen: 6/02/1952

crowned: 02/06/1953

married: 20/11/1947

husband's name: Prince Philip

children: 4

Children's names: Charles, Anne, Andrew, Edward

most famous home: Buckingham Palace, London

heir to the throne: Prince Charles – eldest son.

doesn't usually carry money

doesn't have a passport, can travel without one

doesn't have a driving licence, can drive without one.

35 countries have her face on their money

talks to the people of the UK every Christmas day on TV

sends a card to British people on their 100th birthday

Unit 26 : Review

Aims: To review vocabulary and grammatical structures introduced in Units 21-25

By the end of 26, students should be able to:

- Talk about events in history.
- Talk about two things happening at the same time
- Make indirect questions to ask for, and give information about famous buildings.
- Ask and give information about the Angkor temples
- Talk about probability.
- Talk about mystery stories.

1 Vocabulary: Events in history

1. Ask students what they can remember about the Funan era from unit 21. Try to get them to say three things that they can remember. If they don't remember anything, prepare three questions to ask them.
2. Have students complete the summary of the Funan era using the words in the box.
3. Walk around the classroom, look and help.
4. Check the answers as a class.

Answers

1. civilisation ; 2. accounts ; 3. era ; 4. trade ; 5. impact ; 6. significant ; 7. military chief

Tip! Reviewing information before class.

When review activities require students to remember information from a unit that they studied some time ago, it's a good idea to have them review the original unit for homework before the lesson.

In this case, tell them that they will need to remember information about the Funan era for next class, and that they should review unit 21 at home.

2 Speaking: Questions and answers in the past simple.

1. Have students look at the picture and the notes about Queen Elizabeth.
2. Choose three students. Have the first read the first note (born 21/04/1926). Have the second read the question from the example, and the third read the answer from the example.
3. Repeat with the second note (became queen 06/02/1952). Ask a student to make the question and another student to give the answer, like in the example.

4. Put student in pairs and have them take turns to ask and answer questions based on the notes.
5. Walk around the classroom, listen, help and correct if necessary.
6. Check the answers as a class.

NOTE: You may like to remind students that we say the words **the** and **of** for dates, even when they are not written: "**the** 21st **of** April 1926".

Answers

NOTE: Your students might come up with slightly different answers. Accept them as long as they are grammatically correct and make sense.

When did Queen Elizabeth become queen? She became queen on 6th February 1952.
When was Queen Elizabeth crowned? She was crowned on 2nd June 1953.
When did Queen Elizabeth get married? She got married on 20th November 1947.
What is Queen Elizabeth's husband's name? Her husband's name's Prince Philip.
How many children does Queen Elizabeth have? She has four children.
What are Queen Elizabeth's children's names? Their names are Charles, Anne, Andrew and Edward.
What is Queen Elizabeth's most famous home? Her most famous home is Buckingham Palace in London.
Who is Queen Elizabeth's heir to the throne? Her heir to the throne is Prince Charles, her eldest son.
Does Queen Elizabeth usually carry money? No, she doesn't (usually carry money).
Does Queen Elizabeth have a passport? No, she doesn't. (She can travel without one).
Does Queen Elizabeth have a driving

3 Look at the information and make sentences like the example.

Example: *study in Vietnam*
King Sihanouk
learn to play the
Saxophone

*While King Sihanouk was studying in Vietnam,
he learned to play the saxophone.*

stay in Funan
The Chinese hear
about the Queen Soma

study in English class
we read about
the Funan era

help Lynn with her
homework Kosal tell her
about Cambodian history

fight each other
the two Chenla Kingdoms
the kingdoms fall apart

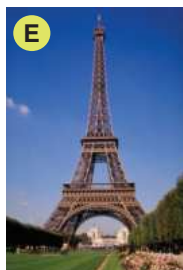

rule the country
King Sihanouk
make several films

travel in Kenya
Queen Elizabeth
her father die

4 A. Match the names of the famous buildings with the countries and the pictures.

the Colosseum
the Burj Khalifa
the Sydney Opera House
the Pyramids
the Eiffel Tower
the Taj Mahal

Dubai
India
Australia
Italy
Egypt
France

licence? No, she doesn't. (She can drive without one).
How many countries have Queen Elizabeth's face on their money? 35 countries have her face on their money.
When does Queen Elizabeth talk to the people of the UK on the TV? She talks to the people of the UK on the TV on Christmas Day.
When does Queen Elizabeth send a card to British people? She sends a card to British people on their 100th birthday.

3 Grammar: Present simple and present continuous

1. Tell students to look at the example.
2. Ask them: *Who / what is the subject? (King Sihanouk). What did he do? (He learned to play the saxophone. When did he do it? (While he was studying in Vietnam). Get them to use the word while and the correct past simple and past continuous tense.*
3. Have a student read the example sentence.
4. In pairs, have students make similar sentences from 1 – 6.
5. Walk around the classroom, listen, help and correct if necessary.
6. Check the answers as a class.

Answers

1. While the Chinese were staying in Funan, they heard about the Queen.
2. While we were studying in English class, we read about the Funan era.
3. While Kosal was helping Lynn with her homework, he told her about Cambodian history.
4. While the two Chenla kingdoms were fighting each other, the kingdoms fell apart.
5. While King Sihanouk was ruling the country, he made several films.
6. While Queen Elizabeth was travelling in Kenya, her father died.

NOTE: the two parts of all of these sentences can be said in reverse order. For example, for number 1, we can also say:

The Chinese heard about the queen while they were staying in Funan.

4 Grammar and speaking: Indirect questions and famous buildings

- A.** 1. Have students match the names of the buildings, the countries and the pictures.
2. Check the answers as a class.

Answers

- a. The Pyramids, Egypt; b. the Burj Khalifa, United Arab Emirates;
c. the Colosseum, Italy; d. the Eiffel Tower, France; e. the Taj Mahal, India;
f. the Sydney Opera House, Australia

- B.** 3. Have students look at the example.
Choose two students. Have one read the indirect question (*Would you mind telling me...*) and the other read the answer from the example.
4. In pairs, have students take turns to make indirect questions form 1 – 8 using the phrases in the box. The partner answers by choosing an answer from a – h.
5. Walk around the classroom, listen, help and correct if necessary.
6. Check the answers as a class.

Answers

NOTE: These answers are examples. Students can use different phrases for making indirect questions. Just make sure that the word order is right!

1. Do you know where the Colosseum is? It's in Rome, Italy (b).
2. Can you tell me when the Sydney Opera House was built? It was built between 1959 and 1973 (h).
3. Would you mind telling me how old the Pyramids are? They are over 4500 years old (g).
4. Do you have any idea how many craftsmen worked on the Taj Mahal? 20,000 craftsmen worked on it (e).
5. Do you know how tall the Burj Khalifa is? It's 830m (tall) (d).
6. Can you tell me what the Eiffel Tower is made of? It's made of iron (c).
7. Would you mind telling me what kind of people were placed inside the pyramids? Pharaohs were placed inside them (f).
8. Do you have any idea how many people the Colosseum is visited by each year? It's visited by over 4 million people each year (a).

B. Work in pairs. Take turns to ask indirect questions using the phrases in the box and questions 1 – 8. Answer the questions using the information in a – h.

do you know...? can you tell me...?
would you mind telling me...? do you have any idea...?

Example: *How much did it cost to build the Burj Khalifa?* \$1.5 million
Would you mind telling me how much it cost to build the Burj Khalifa?
It cost \$1.5 million dollars to build it.

- | | |
|---|--------------------------|
| 1. Where is the Colosseum? | a. over 4 million |
| 2. When was the Sydney Opera house built? | b. in Rome, Italy |
| 3. How old are the Pyramids? | c. iron |
| 4. How many craftsmen worked on the Taj Mahal? | d. 830m |
| 5. How tall is the Burj Khalifa? | e. 20,000 |
| 6. What is the Eiffel Tower made of? | f. pharaohs |
| 7. What kind of people were placed inside the Pyramids? | g. over 4500 years old |
| 8. How many people is the Colosseum visited by each year? | h. between 1959 and 1973 |

5 Take turns to make questions about Angkor Wat, Bayon Temple and Ta Prohm. Use the answers in the box.

in the 12th century its big rooted trees The Jungle Temple
Tomb Raider large sandstone bricks large
smiling stone faces Buddhism
transportation and irrigation along natural waterways and canals

Example: *When / Angkor Wat / build?*
When was Angkor Wat Built? Angkor Wat was built in the 12th century.

- What / Angkor Wat / build of?
- How / building materials / transport?
- What / canals / used for?
- What / Prasat Bayon / famous for?
- What / Prasat Bayon / dedicated to?
- What / Ta Prohm / famous for?
- What / Ta Prohm / unofficially / know as?
- What movie / Ta Prohm / feature in?

5 Grammar and speaking: The passive and the Angkor Temples

- In pairs, have students look at the phrases in the box and say whether they are about Angkor Wat, Bayon Temple or Ta Prohm.
- Tell students to look at the example and have one student read the sentence.
- Point out to students that the sentence is in the passive. If students need to be reminded of the passive and why we use it, refer them to 23A.
- In pairs, have students take turns to make similar questions and answers from 1 – 8.
- Walk around the classroom, listen, help and correct if necessary.
- Check the answers as a class.

Answers

- What was / is Angkor Wat built of? It was / is built of large sandstone bricks.
- How were the building materials transported? They were transported along natural waterways and canals.
- What were the canals used for? They were used for transportation and irrigation.
- What is Prasat Bayon famous for? It's famous for its smiling stone faces.
- What was Prasat Bayon dedicated to? It was dedicated to Buddhism.
- What is Ta Prohm famous for? It's famous for its big-rooted trees.
- What is Ta Prohm unofficially known as? It's unofficially known as *The Jungle Temple*.
- What movie is Ta Prohm featured in? Ta Prohm is featured in Tomb Raider.

6 Speaking: Using modals of probability

- Have students look at the words in the box. Remind them that we use these words when we say how sure we feel about what we are saying.
- Choose two students. Have the first read the first line of the example, and the second read the second line.
- Point out that we use *must* because this temple is very famous for being the one with a lot of trees. We feel sure that it's the right answer.
- Ask students which words we use when we are not sure, but want to make a suggestion (may / might / could), and which word we use when we are sure it isn't correct (couldn't).
- In pairs, have students make sentences using the words in the box.
- Walk around the classroom, listen, help and correct if necessary.
- Check the answers as a class.

Answers

- It must be / might be / could be the Colosseum (depending on how sure you are).
- He must be King Sihanouk.
- It might / could be the Funan era, or it might / could be the Chenla era.
- It can't be the Eiffel Tower, it must / might / could be the Burj Khalifa.
- She must / might / could be Queen Elizabeth.
- It must be Angkor Wat.
- They might / could be yetis or they might / could be ghosts.
- It can't be Thailand. It must might / could be India.

7 Reading and writing: Mystery stories

- A.**
- Have students look at the information in 1 – 12. Tell them that all of the information is about ghosts, yetis or vampires.
 - Read number 1: *Live for thousands of years*. Ask students whether ghosts, yetis or vampires live for thousands of years. (Vampires).
 - In pairs, have students decide which information is about which one: ghosts, yetis or vampires.
 - Check the answers as a class.

Answers

Yetis: 4, 6, 8, 10.
Ghosts: 3, 5, 7, 9
Vampires: 1, 2, 11, 12

6 Use the words in the box to make suggestions about what you think has happened.

may / might (not) could must can't

Example: *It's a temple that has a lot of trees growing through it. (Ta Prohm)
It must be Ta Prohm.*

1. It's a picture of a very famous, old building in Italy. (the Colosseum?)
2. He's a famous Khmer King who can play the Saxophone and make films. (King Sihanouk)
3. It's one of the earliest eras in Cambodian history. (The Funan era? The Chenla era?)
4. It's a tall building, it's modern and it's in Dubai. (Eiffel Tower ✗ Burj Khalifa ✓)
5. She's a very famous queen who appears on the money in many countries. (Queen Elizabeth)
6. It's the most famous tourist attraction in Cambodia. (Angkor Wat)
7. They are mythical creatures that some people believe in and some people don't. (yetis? ghosts?)
8. It's a country that traded with China in Cambodia during the Funan era (Thailand ✗ India ✓)

7 A. Decide if the information below describes *yetis*, *ghosts* or *vampires*.

1. live for thousands of years	7. believed to be the spirits of people who have died
2. can't be out in sunlight	8. a story that the adults in the Himalayas tell to keep the children close??
3. may scare people; don't usually harm them	9. some Asian cultures pray to them
4. strange, mysterious creature; may live in the Himalayas	10. big – at least 1,8m tall
5. may be white, misty figures; may wear clothes from their time	11. drink blood to survive
6. kind of bear? half human, half ape?	12. can't see themselves in mirrors

B. Use the information to write three short texts about yetis, vampires and ghosts in your notebook.

Example: *Yetis are strange, mysterious creatures that may live in the Himalayas. They may be a kind of bear, or they may...*

8 Race against time.

1. What were queen Soma's two other names? (Unit 21)
2. In which year did the Cambodian government build a statue of King Sihanouk? (Unit 22)
3. What is the name of the architect who designed the Burj Khalifa? (Unit 23)
4. Which Temple at Angkor was originally dedicated to Buddhism? (Unit 24)
5. When is the Hungry Ghost Festival celebrated in many Asian countries? (Unit 25)

- B. 5.** Tell students that they are going to write a short text, just a few sentences about each of the creatures using the information from activity 7A.
6. Have a student read the example, which is the start of a text about yetis.
 7. If necessary, ask students to give ideas to continue the text about yetis and write it together, as a class, on the board and have students write it down. If the students are strong, you may not need to do this.
 8. Tell students to start writing their texts.
 9. Walk around the classroom, look, help and correct if necessary.

Answers

NOTE: *Your students might come up with different answers. Accept them as long as they are grammatically correct and make sense. Here are examples.*

Yetis are strange, mysterious creatures that may live in the Himalayas. They may be a kind of bear, or they may be half human and half ape. Yetis are big. They are at least 1.8m tall. Some people believe that they could be just a story that the adults in the Himalayas tell to keep their children close to them.

Ghosts are believed to be the spirits of people who have died. They may be white, misty figures, or they may wear clothes from their time. Ghosts may scare people, but they don't usually harm them. Some Asian cultures pray to ghosts.

Vampires can live for thousands of years. They have to drink blood to survive. They can't go out in sunlight and they can't see themselves in mirrors.

Tip! Making a small writing activity from an activity

To practice writing with correct grammar, vocabulary and sentence structure, this kind of activity can be good. The students already have all of the information that they need. They don't have to think too much about what they are going to write, so they can focus on getting the English right.

Using small texts like this gives you the opportunity to go around the class and help students to correct their mistakes and to improve their writing.

8 Race against time: Looking back at Units 21-25

1. Tell students to look for the answers to the questions.
2. Encourage them to go back and refer to the previous units.
3. You can make this more fun by asking your students to work in pairs or groups. You can also set a time limit. The first pair / group to find all the answers wins!

Answers

1. Neang Keak and Liv Yi.
2. 2013.
3. Adrian Smith.
4. Prasat Bayon.
5. on the 7th month of the lunar calendar – in August or September.

Extension activity: One-minute presentations in small groups

Put students in small groups of around four. Tell each student to choose a famous person, building or mythical creature (yetis, ghosts and vampires) that they have learned about in units 21 – 25. They should agree together first on their topics so that two students don't choose the same one.

Give students a few minutes to review the unit with the information that they need and to make some notes in their notebooks. They should write only keywords, not write down whole sentences and then read them. They should prepare enough information to speak for around One minute.

Then, the students take turns to tell the others about their topic using their notes. Walk around the classroom, listen and help them as necessary.

UNIT 27

HOUSEHOLD CHORES

27A

- 1 Work in pairs. Do you help around the house? Tell your partner about what you usually do.

I always make my bed after I wake up.

- 2 A. Look at the pictures. Can you guess what they're doing?

- B. Match the pictures to the words in the box.

do homework	make a cup of tea	make a sandwich	do the cleaning
make a plan	make a fire	do the laundry	make a cake

Unit 27, Lesson A : Household chores

Aims: To talk about household chores.

By the end of 27A, students should be able to:

- use *do* and *make* with the right activities around the house.
- ask, answer and report about household activities using *do* and *make*.

Session 1

- 1 **Vocabulary:** Helping around the house

1. Put students in pairs.
2. Tell students to discuss what they usually do to help at home.
3. Monitor and help if necessary.

- 2 **Vocabulary:** Guess the activities

1. Tell students to look at the pictures and guess what they're doing.
2. Select a few students to share their answers.
3. Get students to match the phrases in the box to the pictures.
4. Check the answers as a class.

Answers

1. make a cup of tea; 2. do the laundry;
3. make a sandwich; 4. make a plan; 5. make a fire; 6. make a cake; 7. do the cleaning; 8. do homework

- 3 **Listening:** Channy's list of chores

1. Get students to look at the list and ask students to describe what they can see.
2. Ask students how many people talk to Channy about the tasks? (Leakhana, Somnang, and Kosal)
3. Tell students to listen to the recording and write down the missing tasks in their notebook.
4. Select a few students to share the answers and write on the board.

Answers

Morning: do the cleaning, do the laundry
 Afternoon: make a small cake, make a cup of tea
 Evening: make a fire, make a plan

[Audioscript]

Leakhana: Good morning, Channy.

Channy: [yawn] Good morning, mum.

Leakhana: Listen. I'm leaving in five minutes, and I won't be home until this evening. I need you to do something for me.

Channy: Sure.

Leakhana: First, I need you to make two sandwiches for your dad and Kosal.

Channy: Okay, mum.

Leakhana: Next, I want you to do the cleaning around the house.

Channy: I can do that.

Leakhana: Thank you. Lastly, we have so many dirty clothes.

Channy: Okay, I'll do the laundry as well.

Leakhana: Great! See you later.

Somnang: Channy! Can you make a small cake for me?

Channy: Yes, I can, but why do you need one?

Somnang: I'd just like some.

Channy: Okay, I'll make it now, and you can have it tomorrow. Do you want me to make some coffee as well?

Somnang: Oh, yes, please! Also, make a cup of tea too. I want to give it to Richard.

Channy: No problem.

Channy: Kosal? What's wrong?

Kosal: Mum told me to make a fire for her to grill some meat, but the football match is starting on TV!

Channy: Oh, you. Go ahead. I'll do it.

Kosal: Really? Thank you, dear sister! By the way, Pisey called an hour ago, she said you need to make a plan for your trip to Kampot.

Channy: Okay, anything else?

Kosal: I need some help with my homework, so...

Channy: All right. I'll help you when you do your homework.

Kosal: Thanks!

3 A. **Listen and complete Channy's lists of what she has to do this Sunday. How many people talk to her?**

Morning	Afternoon	Evening
- make two sandwiches	- _____	- _____
- _____	- make some coffee for dad	- _____
- _____	- _____	- help when Kosal does his homework

B. Copy the table into your notebook. Who asks Channy to do the tasks?

Leakhana	Kosal	Somnang	Pisey
- make two sandwiches			

Look

- We use **make** to create or produce something. The meaning focuses on the result not the action. Example: *make a salad*.
- We use **do** to refer to the action. Example: *do the cooking*.

4 Cover the activities above. Choose the correct options.

- | | | |
|--|-------|---------|
| 1. Can you _____ the cleaning for me? | A. do | B. make |
| 2. Do you _____ lunch every day? | A. do | B. make |
| 3. I'll _____ a plan for our holiday. | A. do | B. make |
| 4. Let's _____ the laundry together. | A. do | B. make |
| 5. I will _____ a glass of juice for you! | A. do | B. make |
| 6. He told me to _____ a fire. | A. do | B. make |
| 7. This is very delicious! Did you _____ this cake? | A. do | B. make |
| 8. Sorry. I can't go. I have to _____ my maths homework. | A. do | B. make |

- B.**
- Have students copy the table into their notebook.
 - Tell students to write the tasks under the person who asks Channy to do them.
 - Get students to look at the example if necessary.
 - Draw the table on the board and ask some students to write the answers.
 - Tell students to read the LOOK box and discuss when to use *do* and *make* with their partner.
 - Ask students some questions to check their comprehension.

Answers

Leakhana: make two sandwiches, do the cleaning, do the laundry

Kosal: make a fire, help when Kosal does his homework

Somnang: make a small cake, make some coffee for dad, make a cup of tea

Pisey: make a plan

Session 2

Suggestion: Starting session 2

To start the class, tell your students to close their notebook and textbook. You may randomly select some students and ask them to say *do* or *make* to your words / phrases.

Example: *[Bleep] the laundry*.

4 Grammar: *Make or do*

- Ask students when we use *do* and *make*.
- Get students to cover the three activities in session 1.
- Tell students to read the sentences and choose the correct options.
- Check the answers as a class.

Answers

1. A; 2. B; 3. B; 4. A; 5. B; 6. B; 7. B; 8. A

5 A. Copy the table into your notebook. Choose at least five words from the box and make questions with *do* and *make*.

cookies	the washing	a cupcake	the cleaning	the cooking
pineapple juice	the shopping	a pizza	a cup of coffee	housework

Nº	Task	Answer	Name
1	Can you make cookies?		
2			
3			
4			
5			

B. Walk around the class. Ask and note down answers and names.

Can you make cookies?

Yes, I can. Did you do...

C. Work in groups. Take turns reporting your note.

I asked Nary "Can you make cookies?" and she said yes. Then I asked Naro

5 Speaking: Ask and answer with *make* or *do*

- A. 1. Tell students to draw the table in their notebook.
2. Get students to choose the new phrases in the box or the ones they know from this unit with *make* or *do*.
3. Have students make at least five questions to put in the table.
4. Remind students that they can use any tense as long as it's correct.
5. Walk around the classroom, read, help and correct if necessary.
- B. 6. Tell students to carry their notebook and walk around the class.
7. Have students take turns asking one question to one student and note down their answer and name before moving on.
8. Tell students to read the example or select two students to act out to the class before starting the activity.
9. Monitor and ensure that students write the answers and names.

Tip! Demonstrating instructions

Sometimes it's difficult for some students to understand instructions clearly. It is a good idea to show the class how an activity works by choosing two students to give an example. If they do it incorrectly, you can show them how to do it correctly!

- C. 10. Put students in groups.
11. Tell students to take turns telling the group about the answers and names from their table.
12. Get students to read the example if necessary.
13. Walk around the classroom, listen, help and correct if necessary.
14. Select a few students to share their report with the class.

Extension activity: Slap and say

You need to write these words randomly on the board (a holiday plan, the shopping, bread, exercise, housework, dinner, the washing, a wish, a hotdog, a mistake, some tea, a good job, etc.) and select two students to stand in front of the board. Say one of the words and have the pair slap it. The student that slaps it first needs to say *make* or *do*. If they get it right, they win. If not, the other student wins. After this, select another pair.

- 1 Work in pairs. Take turns miming the phrases from 27A and saying them aloud.

- 2 A. Sokha is talking to Kosal about their chores. Listen and put their tasks in order.

- | | |
|-----------------------|-------------------------|
| 1. do the housework | _____ do the gardening |
| _____ make a cake | _____ do the ironing |
| _____ do the dishes | _____ make the bed |
| _____ do the cooking | _____ do the shopping |
| _____ make a decision | _____ make a phone call |
| _____ do the washing | |

- B. Listen again and choose the correct options.

- _____ always do / does the housework on Sundays.
A. Kosal B. Sokha C. Both
- _____ do / does the cooking for the family.
A. Kosal B. Sokha C. Both
- _____ do / does the gardening and enjoys it.
A. Kosal B. Sokha C. Both
- _____ make / made a cake for a birthday.
A. Kosal B. Sokha C. Both
- _____ makes / made a phone call at the end.
A. Kosal B. Sokha C. Both

- 3 Write *do* or *make*. Write the answers in your notebook.

- | | |
|-------------------------|----------------------------|
| 1. _____ some bread | 6. _____ a change |
| 2. _____ a good job | 7. _____ some orange juice |
| 3. _____ a new dress | 8. _____ a task |
| 4. _____ a note | 9. _____ a promise |
| 5. _____ the washing-up | 10. _____ something fun |

Unit 27, Lesson B

Aims: To talk about common daily chores.

By the end of 27B, students should be able to:

- differentiate between *make* and *do* and match to some common household tasks.
- write a paragraph describing chores using *do* and *make*.
- make a poster and present their tasks at home.

Session 1

- 1 **Vocabulary:** Mime and say

- Put students in pairs.
- Tell students to mime one of the phrases with *do* or *make* from 27A and have their partner say the phrase aloud. Then swap roles.
- Stop the activity after 5 minutes.

- 2 **Listening:** Talking about chores

- A. 1. Ask students to name the people in the conversation.
- Get students to read the phrases and copy them into their notebook.
 - Tell students to listen to the recording and write 1-11 in front of the phrases.
 - Remind students that number 1 is done for them.
 - Check the answers as a class.

Answers

- do the housework
- make a cake
- do the dishes
- do the cooking
- make a decision
- do the washing
- do the gardening
- do the ironing
- make the bed
- do the shopping
- make a phone call

[Audioscript]

Kosal: Sokha, you look tired. What's wrong?

Sokha: Hey, Kosal. I'm just so sick of my chores on Sunday! I don't want to do the housework!

Kosal: Tell me about it. In the morning, I have to do the washing and ironing for everyone!

Sokha: Same here! After making the bed, I also need to do the laundry, but guess what? I have to also do the cooking in the afternoon too!

Kosal: I'm luckier. I only need to do the shopping, and my mom does the cooking for us. Oh, I always do the gardening, but I'm not complaining because it's fun.

Sokha: You like doing that? I don't at all, so my brother does it, but apart from that he does nothing! He's very lazy. Last week, he said he would make a cake for my birthday, but in the end, I was the one that made it!

Kosal: Well, did he do the dishes at least?

Sokha: Of course not! He's terrible!

Kosal: You should sit down with him and make a clear decision and plan of what he needs to do. Maybe he just forgot.

Sokha: Yeah. He's very forgetful. I'll do that next time.

Kosal: Well, good luck. I need to make a phone call. Talk to you later.

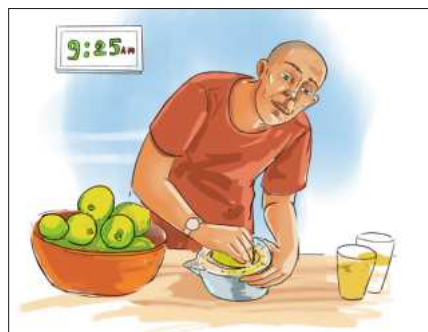

Sokha: Okay!

- B. 6. Get students to read the five sentences and the options.
- Have students listen again and write the correct options in their notebook.
 - Select a few students to share their answers.

Answers

- C Kosal and Sokha always do the housework on Sundays.
- B Sokha does the cooking for the family.
- A Kosal does the gardening and enjoys it.
- B Sokha made a cake for a birthday.
- A Kosal makes a phone call at the end.

4 Work in pairs. Look at the pictures, and write a paragraph about it.

At 8 in the morning, Tim...

3 Grammar: Do or make

1. Ask students when to use *do* or *make*. If students forget, tell them to read the LOOK box in 27A again.
2. Get students to read the phrases and match them with *do* or *make*.
3. Tell students to compare answers with their partner.
4. Check the answers as a class.

Answers

1. make; 2. do; 3. make; 4. make; 5. do;
6. make; 7. make; 8. do; 9. make; 10. do

Session 2

Suggestion: Starting session 2

To start the class, you can divide students into four rows and give each row a sheet of paper. Tell the students at the front to write one sentence with *do* or *make* before passing the paper to the next person to do the same. When everyone finishes, you can gather the papers and check their sentences. The winner is the row that makes the fewest mistakes.

4 Writing: Housework schedule

1. Put students in pairs.
2. Tell students to look at the pictures and select a few students to describe what they can see.
3. Get students to write a paragraph describing what Tim's family does at different times.
4. Tell students there is more than one correct answer.
5. Walk around the classroom, read, help and correct if necessary.
6. Select a few pairs to present their paragraph to the class.

Suggested answers

At 8 in the morning, Tim does the dishes alone. Next, Richard makes some orange juice at 9:25am. Then, Vicki does the shopping at 10:10am. After lunch, the two siblings, Tim and Lynn, make a cake at 1pm. Lynn does the ironing at 2:30pm. Finally, the whole family does the cooking / makes dinner together at 5pm.

Tip! Checking different answers

With an activity which has many possible answers, it's a good idea to allow a little more time than usual to check the answers in class. Students will have different answers and will often want to check that they are all ok.

5 A. Make a poster about your tasks at home using *make* or *do*.

B. Walk around the class and present your poster.

6 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- talk about the activities around the house.
- use *do* and *make* with the correct household activities.
- ask and answer using *do* and *make*.
- make a poster to describe my chores.

5 Speaking: Make a poster and present

- A. 1. Tell students to take out a sheet of paper.
2. Get students to design a poster about their chores using *make* or *do*.
3. Have students look at the example poster if necessary.
4. Tell students that they can add some pictures as long as they can draw quickly.
5. Monitor and help if necessary.
- B. 6. Get students to carry their poster and walk around the class.
7. Tell students to present their poster to a few students.
8. Walk around the classroom, listen, help and correct if necessary.
9. Select a few students with good poster to present to the class.

Extension activity: Race and write

Tell your students to take out their notebook. You can use a timer on your phone or count to 60 or 120. Get students to write as many sentences with *make* or *do* as they can within the time limit. To make it easier, you can ask your students to write the phrases with *make* or *do* instead.

6 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learnt, they will become better learners.
4. For more ideas on how to do this, please see page V.

UNIT 28

HEALTHY LIVING

28A

1 Work in pairs. Answer the questions.

1. Do you try to eat healthy food?
2. What foods do you think are healthy?
3. What foods do you think are unhealthy?
4. Do you think it's important to eat a healthy diet? Why (not)?

2 Listen to a class about food at Channy's university and answer the questions.

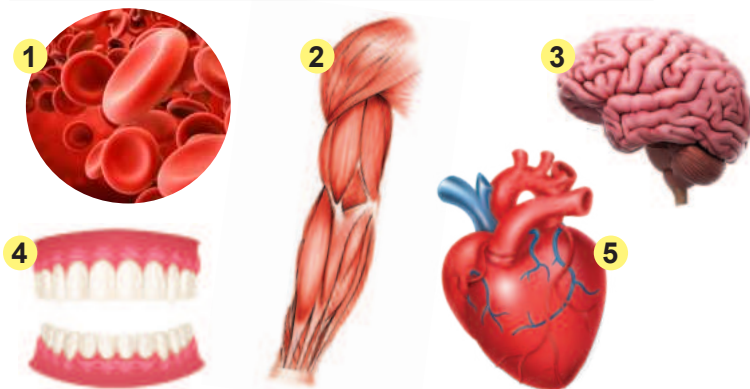

A. Divide the words in the box into two lists: *healthy and unhealthy things in food*. Write them in your notebook.

MSG	carbohydrates	sugar	vitamins	bad fats
salt	trace elements	good fats	proteins	

Healthy things in food	Unhealthy things in food

B. Match the parts of the body with the pictures.

heart	brain	muscles	teeth	blood
-------	-------	---------	-------	-------

Unit 28, Lesson A : Healthy Living

Aims: To talk about different foods and what is healthy or unhealthy about them, and to check information. To learn about and practice the reading skills of *skimming* and *scanning*.

By the end of 28A, students should be able to:

- Talk about nutrition: the things that are good for our bodies in our food.
- Say what different foods are good for and bad for.
- Ask questions to check information or understanding.
- Give short replies.
- Learn about and practise *skimming* and *scanning* as a reading skills.

Session 1

1 Lead in: Talking about healthy food.

1. Tell students to read questions 1 – 4.
2. Have students ask and answer the questions in pairs. Encourage them to have short conversations, and not just give very short answers.
3. Walk around the classroom, listen, help and correct if necessary.
4. Invite students to share some of their answers with the class.

2 Listening and vocabulary: Good and bad things in food

- A. 1. Tell students that they will hear a part of a university class about the good and bad things in food.
2. Have students make two columns in their notebooks, with the headings "Healthy things in food" and "Unhealthy things in food".
 3. Tell students to look at the words in the box and write the ones that they know into the correct column.
 4. Tell students to check and complete their answers as they listen.
 5. Play the recording.
 6. Check the answers as a class.

Answers

Unhealthy things in food	Unhealthy things in food
vitamins	MSG
carbohydrates	salt
good fats	sugar
proteins	bad fats
trace elements	

- B. 7. Have students match the body parts in the box with the pictures.
8. Check the answers as a class.

Answers

1. blood; 2. teeth; 3. heart;
4. muscles; 5. brain

- C. 9. Have students look at the words and the meanings and to match any that they know.
10. Play the recording again and tell the students to listen for the words and complete the activity.
 11. Check the answers as a class.

Answers

1. c; 2. f; 3. b; 4. a; 5. g; 6. i; 7. d;
8. h; 9. e

[Audioscript]

Teacher: Good morning everyone. In today's class, we are going to learn about *nutrition*. Does anyone know what 'nutrition' means?

Channy: I do. It means the things in food that are good for our bodies, doesn't it?

Teacher: That's right, Channy. Nutrition is the study of what is in the food that we eat and why it is good for us. The good things in food, which are bodies need, are called *nutrients*. Does anyone know any examples of nutrients?

Male student: I think so. *Proteins* and *vitamins* are nutrients, aren't they?

Teacher: That's right, well done! Your body needs proteins to repair damage and to build muscles. Vitamins are necessary to keep your healthy and to stop you from getting sick.

Female student: What about *fat*? You need to eat fat, don't you? But it's also bad for you, how does that work?

C. Match the words on the left with the information on the right.

- | | |
|-------------------|--|
| 1. proteins | a. give you energy and are good for your brain |
| 2. vitamins | b. are good for your heart, blood and brain |
| 3. good fats | c. help body to repair damage and build muscles |
| 4. carbohydrates | d. is very fattening, and is bad for your teeth and your blood |
| 5. trace elements | e. may give some people headaches, may be safe, we are not sure |
| 6. salt | f. keep your body healthy and stop you from getting sick |
| 7. sugar | g. help your body to work properly. We need only small amounts |
| 8. bad fats | h. are fattening in large amounts, bad for your blood and your heart |
| 9. MSG | i. is bad for your blood and your heart, in large amounts |

3 A. Look at these lines from the recording of the class and read the Look box.

It means the things in food that are good for our bodies, **doesn't it?**

Proteins and vitamins are nutrients, **aren't they?**

We've talked about this before in class, **haven't we?**

Look

- These lines from the conversation end with questions: *doesn't it?*, *aren't they?*, *haven't we?*
- These questions are a little like the short answers that you learned in Unit 8. They use only pronouns like *I*, *you*, *he*, *it*, *they* and auxiliary verbs like *be*, *do*, *have*. We don't use normal verbs. In the present simple we use *do* / *does*, like in the first line above.
- These questions are called **tag questions**. They go at the end of a sentence and we use them when we think that we know something and we just want to check.
- If the sentence is positive, then the tag question is negative. If the sentence is positive, then the tag question is negative. When we just want to check, our voice goes down, not up at the end.

B. Write the tag questions for these lines from the conversation in your notebook. Then, say them to your partner.

You need to eat fat, ____ ____?

There are other nutrients, ____ ____?

But food contains some bad things too, ____ ____?

You've mentioned something called MSG, ____ ____?

Teacher: Excellent question! Yes, there are good and bad fats. Good fats contain a lot of nutrients for your body and can also help to keep your brain healthy, but bad fats are bad for your blood and your heart. All fats are fattening if you eat a lot of them.

Male student: There are other nutrients, aren't there? I read about it, but I don't remember what they are.

Teacher: Well, there are *carbohydrates*. These are in things like rice, bread and potatoes. They are important because they give you energy and are good for your brain, but if you eat too many they are very fattening! Finally, there are *trace elements*. These are things like metals that you need in very small amounts and they help your body to work properly.

Channy: But food contains some bad things too, doesn't it?

Teacher: Yes, that's right Channy. Food also contains things like bad fats and oils, sugar, salt and MSG. You need to eat most of these things in small amounts, but eating a lot of them is bad for you.

Male student: We've talked about this before in class, haven't we? ...when we talked about junk food.

Teacher: Yes, we have. Your body needs some salt, but too much of it is bad for your blood and your heart, so you should be careful with it. And sugar is very fattening in large amounts. It's also bad for your teeth and for your blood, so not too much!!

Channy: You've mentioned something called MSG, haven't you? What is that?

Teacher: It's a white powder that people put in food to change the taste. Actually, we don't know if it's bad for you or not, but some people say that it gives them headaches and makes them feel unwell...

3 Grammar: Tag questions

1. Have students read the three examples in the speech bubbles.
2. Have students read the *Look box*.
3. Tell students that the questions at the end are called **Tag questions**. We use them when we think we are correct but we want to check.
4. Show students that tag questions are similar to short answers (unit 8). We only use auxiliary verbs and pronouns in these questions.
5. Tell students that for these questions, the voice goes down at the end.
6. Choose three students to read an example each from the speech bubbles. Make sure the voice goes down at the end.

Focus on tag questions

Tag questions can be said in two different ways, and this changes the meaning. In this lesson, we use tag questions with the voice going down at the end. Listen to the way that the voice goes down in the tag questions in the recording.

Voice-down tag questions are used when we think we are correct but we just want to check. The other type of tag question will be studied in lesson 28B.

7. Tell students that sentences 1 – 4 are also from the recording but the tag questions are missing.
8. In pairs, have students work out the correct tag questions and say them.
9. Walk around the classroom, listen, help and correct if necessary. Make sure that they don't make their voice go up at the end.
10. Have students write the sentences with the tag questions in their notebooks.
11. Check the answers as a class.

Answers

1. don't you?
2. aren't there?
3. doesn't it?
4. haven't you?

Session 2

Suggestion: Starting session 2

Write the tag questions in bold at the end of these sentences on the board, NOT in the correct order. Read the sentences to the students without tag questions, and have the students shout out the correct tag questions. Then, check the answers.

Richard eats healthy food, **doesn't he?**

Leakhana doesn't like red meat, **does she?**

Kosal ate English food at Tim's house, **didn't he?**

Tim has never eaten durian, **has he?**

Lynn and Channy have always eaten

vegetables, **haven't they?**

Fruit and vegetables are healthy, **aren't they?**

You like to eat fish, **don't you?**

4 Work in pairs. Student A: Look at the five foods on the left of the factsheet. Student B: Look at the five foods on the right. Prepare some questions to check the facts with your partner.

Examples: A: *Fruits contain a lot of sugar, don't they?*
B: *Nuts aren't high in trace elements, are they?*

B: **Yes, they do.**
A: **Yes, they are.**

Food Factsheet

Vegetables are low in fat, sugar and calories. They are mostly very healthy because they have lots of vitamins and trace elements. However, some have a lot of carbohydrates, which give you energy but are fattening if you are not working hard.

Fruits are very high in vitamins and can help you to stay healthy and not get sick. They give you energy. However, they contain a lot of sugar, so they are fattening and bad for your teeth.

Dairy foods are foods made from milk like butter and cheese. They contain protein and vitamins. They are good for your bones and teeth. However, they also contain bad fats and you shouldn't eat them too much.

White meat is not fattening and it's high in protein so it's good for building muscles. However, it can make you sick if it isn't cooked properly, and it may be bad for your heart, but we are not sure about that yet.

Red meat contains lots of nutrition, especially protein, vitamins and trace elements. However, it is fattening in large amounts and may be bad for your heart and blood, but no-one is sure about that.

Fish is generally a very healthy thing to eat. It's high in protein and good fats. It is good for your heart and your blood. However, some fish may contain small amounts of chemicals from the sea that are dangerous for people and you shouldn't eat it every day.

Snacks can sometimes be healthy, for example dried fruit and nuts. However, most snacks contain a lot of sugar, salt and bad fats. They are often fattening and unhealthy and sugary snacks are bad for your teeth.

Nuts are high in protein, vitamins, good fats and trace elements. However, they are fattening if you eat too many of them. Some people can't eat nuts at all, and will get very sick if they eat them.

Chocolate comes in two kinds: dark and milk. Dark chocolate is quite healthy and is good for your heart, blood and teeth. Milk chocolate is full of sugar and bad fats and it isn't good to eat a lot of it.

Fizzy drinks are soft drinks with gas. They have no nutrition at all and are really just water and sugar with flavours. They are fattening, unhealthy and bad for your teeth and it's better not to drink them.

Focus on answering negative sentences and questions

For positive questions, and for positive sentences with a (negative) tag question, it's very easy. Just say yes to agree with it, and *no* to disagree with it: just the same as in Khmer.

For negative questions, and for negative sentences with a (positive) tag question, it's a little different. To *agree* with a negative, we say *no* and to *disagree* with a negative, we say *yes*. This is because *yes* always goes with a grammatically positive sentence and *no* always goes with a grammatically negative sentence.

Examples:

"Don't you eat red meat?" "No." / "No, I don't." / "No, I don't eat red meat."
All three 'no' answers mean that it's correct.

"Dark chocolate isn't healthy, is it?" "Yes." / "Yes, it is." / "Yes, dark chocolate is healthy".
All three 'yes' answers mean that it's incorrect.

4 **Reading and speaking:** Skimming and scanning; talking about food with tag questions.

1. Tell students to *skim* the factsheet about foods. i.e. read it quickly (around 3 minutes) to get a general idea of the information.
2. Write prompts 1 – 8 on the board. In pairs, have students make the tag questions.

1. Fish can help you not to get sick...
2. White meat is bad for building muscles...
3. People shouldn't drink fizzy drinks...
4. Red meat could be bad for your heart...
5. You should only eat dark chocolate...
6. All snacks are bad for you...
7. Fruit is good for your teeth...
8. Some people can't eat nuts...

Extension activity: A balanced diet

Put students in pairs. Tell them that a *balanced diet* means a diet that is healthy because we eat a lot of different things, and not too much of any one thing. It also means that we eat more of the things that are good for us, and less of the things that are bad for us.

Have students prepare a balanced diet by looking at the foods in the list and dividing them into:

- a. foods that you should eat a lot of
- b. foods that it's ok to eat sometimes
- c. foods that you shouldn't eat too much

Once finished, put two or three pairs together and have them compare their answers. If they have any different ideas, they can discuss them.

3. Check the answers as a class.

Answers

1. can it? 2. isn't it? 3. should they?
4. couldn't it? 5. shouldn't you? 6. aren't they?
7. aren't they? 8. can they?

4. Tell students to work in pairs. Student A looks at the first five foods on the left of the text, and student B looks at the second five foods on the right of the text.
5. Have students look at the two examples. They are similar to the questions and answers in activity 5, except that this time, the students find the information in the text for themselves.
6. Tell students to find five pieces of information and to write questions like in the example, to ask their partner.
7. Walk around the classroom, look and help students with their questions if necessary.
8. When the students have prepared their questions, they take turns to ask their partner.
9. The partner listens to the question, then *scans* the text and finds the information to reply with a short answer.

1 Match the words with the pictures.

power walking
weight trainingswimming
press-upsrowing
squatsrunning
cycling

2 A. Listen to an exercise trainer at Tim and Kosal's football club. Then, match the words and phrases with the definitions.

- | | |
|------------------------|--|
| 1. exercise | a. having a healthy and strong body |
| 2. in good shape | b. become thinner, lose kilos from your body |
| 3. fitness | c. make your muscles bigger and stronger |
| 4. strength | d. exercise like weight training that makes us stronger |
| 5. improve fitness | e. noun of strong |
| 6. gain strength | f. noun of fit |
| 7. cardio | g. to get fitter |
| 8. resistance training | h. to get stronger |
| 9. lose weight | i. things that we do to make our bodies healthy and strong |
| 10. build muscles | j. exercise like running that makes us fitter |

B. Listen again and complete the notes.

cardio	resistance training
Good for: _____	Good for: _____
Examples include: _____,	Examples include: _____,
_____ and _____	_____ and _____
Helps you to _____ and _____	Helps you to _____ and _____

Unit 28, Lesson B

Aims: To talk about different kinds of exercise: strength and fitness. To check information when you are not sure, and to practise looking for specific information in reading.

By the end of 28B, students should be able to:

- Identify and name some different common exercises
- Know the difference between *cardio* exercise to get fit, and *resistance training* to get strong.
- Ask questions to check when they are not sure.
- Understand how to skim and scan a text without headings by looking for keywords.
- Write a message to a friend about healthy living: diet and exercise.

Session 1

1 Vocabulary: Kinds of exercise.

1. In pairs or small groups, have students match the words in the box with the pictures.
2. Check the answers as a class.

Answers

1. running; 2. power walking; 3. cycling;
4. rowing; 5. swimming; 6. weight training;
7. press-ups; 8. squats

2 Listening and vocabulary: Exercise, strength and fitness

- A.** 1. Tell students that they will hear a trainer who is visiting Tim and Kosal's football club giving them advice about exercise.
2. Have students match any words that they already know with the meanings.
3. Tell students to listen to the recording and continue matching the words with the meanings.
4. Check the answers as a class.

Answers

1. i; 2. a; 3. f; 4. e; 5. g; 6. h; 7. j;
8. d; 9. b; 10. c

Note: *Fit* means that you can do things like run and play sports for a long time without getting tired. *Strong* means that you can lift and push heavy things.

- B.** 5. Have students copy the notes, with the blank spaces into their notebooks.
6. Tell students that they will hear the recording a second time. This time, they should listen to the conversation and complete the notes with words that they hear.
7. After listening, have students compare their answers in pairs.
8. Check the answers as a class.

cardio	resistance training
Good for: fitness .	Good for strength
Examples include: running, power walking, cycling, rowing and swimming	Examples include: weight training, press-ups and squats
Helps you to lose weight and improve fitness .	Helps you to build muscle and gain strength .

[Audioscript]

Trainer: Hello team. I'm here today to talk to you about exercise. I'm going to tell you about different kinds of exercise and how they can help you stay healthy and in good shape.

Tim: You mean that we should try to stay fit and strong, don't you?

Trainer: Yes, exactly. So, first of all, what's the difference between fitness and strength?

Kosal: They are the same, aren't they?

Trainer: Well, no, not exactly. Anyone else?

Boy: I know! If you are fit, you can do things like running and jumping for a long time, and if you are strong, you can lift and push heavy things. That's right, isn't it?

3 A. Look at these lines from the recording of the class and read the Look box.

You mean that we should try to stay fit and strong, **don't you?**

They are the same, **aren't they?**

Look

- These lines from the conversation end with questions: *don't you?*, *aren't they?*
- These tag questions look the same as the ones that you learned in lesson 28A, but this time, when Tim and Kosal asked the questions, they made their voice go **up** at the end, instead of down.
- When we make our voice go **down**, we think we are correct and just want to check, but when the voice goes **up**, we are not sure and we want to ask if we are correct or not.

B. Write the tag questions for these lines from the conversation in your notebook. Then, say them to your partner.

I know! If you are fit, you can do active things like running and jumping for a long time, and if you are strong, you can lift and push heavy things. That's right, _____?

They must be different, _____?

Yes, how about power walking? ...when people walk very fast. That could be cardio, _____?

I want to get stronger and have big muscles! Cardio isn't good for that, _____?

That means using weights, _____?

So we have to choose which type of exercise to do, _____?

Trainer: Yes, that's it. Fitness is about being healthy and active. Strength is about having power in your body. So, do you think that the exercises that we do to improve fitness and to gain strength are the same or different?

Kosal: They must be different, mustn't they?

Trainer: Yes, they are. Exercise that we do to keep fit is called 'cardio'. It's short for a long and difficult word, but it doesn't matter. We usually just say *cardio*. Running is an example of cardio. Can you think of any more?

Tim: Yes, how about power walking... when people walk very fast? That could be cardio, couldn't it?

Trainer: Yes, that is also cardio. It is good for fitness and for health. Other common cardio exercises that people do include cycling, rowing and swimming. All of them are good for fitness.

Kosal: I want to get stronger and have big muscles! Cardio isn't good for that, is it?

Trainer: No, not really. To build muscles and get strong, you need to do resistance training.

Kosal: That means using weights, doesn't it?

Trainer: Yes, it does. Good examples of resistance training include weight training, press-ups and squats. They will all build muscle and make you stronger.

Tim: So, we have to choose which type of exercise to do, don't we?

Trainer: Yes but, you should do a mix of both. Cardio is good for losing weight and improving fitness, and resistance training is good for building muscle and gaining strength, so each week, try to do some of each kind of exercise...

Focus on intonation in tag questions

In this lesson we are using tag questions with the voice going up at the end. Listen to the way that the voice goes up in the tag questions in the recording.

Voice-up tag questions are more like real questions. We think that we may know something but we are not sure and we want to ask if we are correct. It is not surprising if we get the answer *no*. We often use these questions with people who know more about something than we know, like a doctor or teacher. We can ask the doctor: *I need more exercise, don't I?* This is like saying *I think I need more exercise; am I correct.*

It might be useful to listen to the recordings from 28A and 28B and comparing the voice-up and voice-down endings to the questions.

3 Grammar: Tag questions with voice going up at the end

1. Have students read the three examples in the speech bubbles.
2. Have students read the *Look box*.
3. Show students that there are tag questions at the end.
4. Tell students that these tag questions look the same as the ones in 28A, but they sound different because the voice goes up at the end.
5. Tell students that voice-up tag questions are real questions. We think we may know something but are not sure and we want to ask if we are correct.
6. Choose two students to read an example each from the speech bubbles. Make sure the voice goes up at the end.
7. Tell students that the speech bubbles are also from the recording but the tag questions are missing.
8. In pairs, have students work out the correct tag questions and say them.
9. Walk around the classroom, listen, help and correct if necessary. Make sure that they make their voice go up at the end.
10. Check the answers as a class.

Answers

1. That's right, isn't it?
2. They must be different, mustn't they?
3. That could be cardio, couldn't it?
4. Cardio isn't good for that, is it?
5. That means using weights, doesn't it?
6. We have to choose which type of exercise to do, don't we?

Session 2

Suggestion: Starting session 2

In pairs, give students 3 minutes to write down as many types of exercise as they can from last session. Check the answers as a class. They get one point for each one that they can remember.

You can also have them write two columns called *get fit* and *get strong*. They get one point for the name of the exercise and another point if they have it in the right column.

- 4 **Work in pairs. Student A: read the first text about *Improving Fitness*. Student B: read the second text about *Gaining Strength*. Write four questions to ask your partner.**

Improving Fitness

It's a good idea for everyone to try to keep fit. If you keep fit, you will feel healthier and you will have more energy. It isn't only people who play sports who should try to keep fit. It really is for everyone, of any age. If you are fit, you will feel better, your body will be healthier and you won't get sick as often.

To keep fit, you should think about the kinds of exercise that you do, and also the food that you eat. Cardio exercise like running, cycling and swimming are good for keeping fit. If you want to do these activities well, you should eat food that gives you energy, but not unhealthy things that are full of sugar. Foods rich in carbohydrates, such as fruits and vegetables, rice and potatoes will give you the energy you need – but don't eat too much of these foods because they are fattening and if you don't use all the energy when you exercise, you'll gain weight!

Gaining Strength

It's a good idea to keep your body strong. If you are strong, it's harder to damage your body and it's easier to do physical activities. It's easier to exercise and keep fit if you are strong, but it isn't the same thing. Some people are strong but not fit. Being strong also helps you to stay in good shape when you are older.

To be strong, you should think about the kinds of exercise that you do, and also the food that you eat. Resistance training, like weightlifting, press-ups and squats are good for strength. If you want to do these activities well, you should eat food that builds your muscles. Foods rich in protein will help you, such as meat, fish and dairy products – but don't eat only these because you also need some carbohydrates to give you the energy you need to exercise, and live your daily life. You'll also need fruits and vegetables for vitamins and trace elements.

- 5 **Read the message. Write a reply to your friend in your notebook.**

Hey! You've been learning about healthy living at school, haven't you? I'm a bit worried that I'm eating the wrong things, and I'm not really doing any exercise. I want to be healthier, fitter and stronger. Can you tell me about some of the things that you've learned?

Example: *Sure, I can tell you a few things that I've learned. First, it's important to eat the right things and do different kinds of exercise...*

- 6 **How well can you do these things? Write in your notebook.**

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- understand conversations and texts about healthy eating and exercise.
- understand and ask two different types of tag question: voice down to check when you think you know, and voice up to ask when you're not sure.
- skim texts to get a general idea, and scan texts to find a piece of information.
- write a message to a friend about healthy eating and exercise.

- 4 **Reading and speaking:** Exercise and diet and tag questions

1. Put students in pairs. Have student A read the text on improving fitness, and student B read the text on gaining strength.
2. Have students prepare four statements with tag questions for their partner. The questions may be right or wrong.
3. Have students swap their questions.
4. Tell students to scan the other text to try to find the answers to their partner's questions and write down the answers.
5. In pairs, have students check the answers to the questions with each other.
6. Walk around the class, help and correct if necessary.

Tip! Scanning for keywords

Scanning is an important skill not only for students but also for teachers. There are times when you need to find an answer or a piece of information in a text quickly – even when you're not doing a scanning exercise with the students.

Whenever possible, it's good to skim the text first to get a general sense of the text. Then, when you need to scan, you have an idea of where the information you want is in the text.

The key to scanning is to look for things that are easy to find in a text such as headings, numbers, dates, words in **bold** or *italics*, and words that begin with capital letters like names and countries. If there aren't any things like that, look for long or unusual words and words with rare letters like *q*, *x* and *z*.

Once you find the keyword, just read one or two sentences around it and you should find the answer you are looking for. Scanning is a little difficult at first, but with a bit of practice, you will learn to recognise words more quickly and you'll get better and faster at it.

- 5 **Writing:** A message about diet and exercise

1. Tell students to read the Facebook message.
2. Ask students to make some suggestions about things that they could say in their replies about healthy food, getting fitter and getting stronger.
3. Write some keywords from the suggestions on the board.
4. Tell students that they don't have to write everything; just make some suggestions.
5. Allow students to prepare their answers in pairs, but they must write their own texts.
6. Walk around the room, help and correct if necessary.
7. If there is time in class, take some examples of common writing errors and teach them on the board.

- 6 **Reflection:** 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learned, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity:

Role play – at the doctor's

Tell students to work in pairs. In turns, one student is the doctor, and one is the patient.

The patient tells the doctor a problem, and the doctor gives advice. The patient can then check that they understand. Remind students that the voice in tag questions is different depending on how sure you feel: are you just checking, or are you asking?

Possible problems include:

I am gaining weight / getting fatter.
I am losing weight / getting thinner.
I am not very strong.
I want to be fitter.
I can't run for very long.
I can't lift heavy things.

Walk around the room, listen, help and correct if necessary.

UNIT 29

INVENTIONS

29A

- 1 A. Look at the six inventions. Which is the most useful invention and which is the least useful?

- B. Work in pairs. Tell your partner the reasons for your choices.

- 2 A. Three people are describing the inventions they find amazing. Read and guess what inventions they are talking about.

1

It was first developed by a German inventor called Karl Benz in 1885. Personally, I think it is one of the most amazing inventions because people can travel faster and further than bicycles and horses. And it can also carry more people than horses and bicycles. Most of the time, it uses gasoline. This invention has come a long way and these days there are so many types and models of this invention. Some can cost a fortune because they are made out of luxurious materials and latest modern technology. One of my all-time favourite models is Mercedes Benz and I hope I can own one in the future.

2

I think a lot of people can't live without this invention these days! At first, it was created so that people could carry it around and talk without using the traditional telephones connected to wires. The first ever call using one was made in 1973 by a man named Martin Cooper in New York. Now more options are added and not only can people use it to call, but to email, to listen to music, to take pictures, and to search for information on the internet, etc. Honestly, sometimes I feel like we are too crazy about it and spend way too much time on it!

Unit 29, Lesson A : Inventions

Aims: To practise describing how and when different inventions were made.

By the end of 29A, students should be able to:

- describe different inventions using present and past simple passive.
- build new words using suffixes.

Session 1

- 1 **Speaking:** Sharing opinions

- A. 1. Tell students to look at the pictures of 6 inventions.
2. Ask students to pick two inventions – one for the most useful and one for the least useful.
3. Emphasise that there are no right or wrong answers and these are their opinions.
B. 4. Put students in pairs.
5. Tell students to share their answers.

- 2 **Reading:** Identifying inventions and passives

- A. 1. Ask students how many reading texts there are.
2. Tell students they are going to read about three people describing three different inventions.
3. Have students read and guess what invention each person is talking about.

Answers

1. a car; 2. a mobile phone; 3. glasses

3

While many people are amazed by modern technological gadgets, I find this simple invention the most useful. Without it, a big percentage of the world population would have difficulties doing common activities such as driving, writing, reading, watching T.V, etc. simply because they would have difficulties seeing things clearly. Traditionally, they are made of glass and can be heavy. However, with technology developing every day, they can be produced from plastic and lightweight metals and come with different colours and designs.

1. This person is talking about _____.
2. This person is talking about _____.
3. This person is talking about _____.

B. Read the texts again. Find the sentences that use passive. Identify if it is in present or past passive. Write the answers in your notebook.

Example: *It was first developed by a man named Karl Benz in 1885.*
Past simple passive.

C. Work in pairs. Imagine you can only keep ONE of the three inventions which one would you choose? Why?

3

Match the pictures in activity 1A with the correct sentences below. Write the answers in your notebook.

Example: *The first call was first made in New York in America.* *Picture 1*

1. A first known photographer in history is Joseph Nicéphore Niépce.
2. English is used in all international flights.
3. It was first invented by a German-American game developer in 1960s.
4. It saves millions of lives from illness.
5. It was developed by Thomas Edison.

4

A. Look at the words in the cloud. Put them in the correct category. Write the answers in your notebook.

invent inventor invention direct
photograph act
photographer action develop
developer direction

Verbs	Nouns
invent	

Look

To build new words:

- we can add suffixes **-er** or **-or** to some verbs to make them into nouns (people who do the action).
- we can add suffix **-ion** to some verbs to make them into nouns (ideas)

Invent
Develop

or
er

Invent
Direct

ion
ion

- B. 4.** Ask students to quickly go through the reading texts again.
5. Tell students to find sentences that use passive and write them down.
 6. Emphasise that students need to only write the passive phrase and not the whole sentence if there is not enough time.
 7. Have students identify if the passive is present simple passive or past simple passive.

Answers

Reading 1: Some can cost a fortune because they are made out of luxurious materials and latest modern technology. Present simple passive
Reading 2: At first, it was created so that people could carry it around and talk without using the traditional telephones connected to wires. Past simple passive
The first ever call using one was made in 1973 by a man named Martin Cooper in New York. Past simple passive
Now more options are added and not only can people use it to call, but to email, to listen to music, to take pictures, and to search for information on the internet, etc. Present simple passive
Reading 3: While many people are amazed by modern technological gadgets, I find this simple invention the most useful. Present simple passive
Traditionally, they are made of glass and can be heavy. Present simple passive
However, with technology developing every day, they can be produced from plastic and lightweight metals and come with different colours and designs. Present simple passive

- C. 8.** Put students in pairs
9. Ask students to share what invention in activity 2A they would keep if they can only keep one.
 10. Encourage students to add the reasons why they choose to keep that one invention.

3 Grammar: Matching inventions

1. Ask students to look at the pictures in activity 1A again.
2. Tell students to match the sentences with the correct pictures in activity 1A.

Answers

1. Picture 4 (Camera)
2. Picture 3 (Plane)
3. Picture 6 (Computer)
4. Picture 5 (Vaccine)
5. Picture 2 (Light bulb)

Session 2

Suggestion: Starting session 2

To start the class, you can have a quick speaking session by putting students in a group of 3 or 4 depending on the class size. Then give students a few minutes to quickly think of one invention that they think is the best. After that, ask students to talk within their group of their favourite invention. You can encourage them to talk about why they pick that invention, what it does, or if they have used it before. However, you must let the students know that each person talks for 30 seconds only. Therefore, you have to time them and say STOP when 30 seconds is over.

4

Grammar: Word building

- A. 1.** Ask students to look at the words in the word cloud.
2. Tell students to identify each word if it is a noun or a verb.
 3. Have students put the words in correct category.

Answers

Verbs: photograph, develop, act, direct
Nouns: photographer, inventor, invention, developer, action, direction

- B. 4.** Have students go through the Look box.
5. Ask students if they can think of any other words that are built by adding suffixes **-er**, **-or**, and **-ion**.

B. Can you think of any other words that are built by adding suffixes -er and -or and -ion?

5 Fill in the gaps with the correct suffix -er, -or, or -ion? Write the answers in your notebook.

Example: *The inventor of the first ever known car was a German man.*

1. The new Canon camera is loved by many photograph_____.
2. The act_____ of every person in this movie is amazing.
3. Most smart phones have the option to give you direct_____ of where you want to go.
4. The creat_____ of this famous cartoon was a woman.
5. Our team is the winner of our school invent_____ contest.
6. The select_____ of the winners was difficult because all the students were great in this contest.
7. The big companies usually hire famous act_____ to advertise their products.

6 A. Choose one invention you like or are interested in. Write five sentences about that invention without saying what it is!

You can use the questions below to help you:

1. What is it made of?
2. What is it used for?
3. How is it used?
4. Do you own it?
5. Do you know the inventor or developer?

Example: *They're made of metal and plastic. They're used for cutting things...*

B. Work in pairs. Take turns reading your sentences and let your partner guess what invention you've written about.

They're used for cutting things.

Scissors?

Focus on introducing the three suffixes -er, -or, and -ion only

You should inform your students that there are many other suffixes and not just the three you introduce but they only need to focus on those three for now. This is to avoid confusing students when they come across other words that have different suffixes. For instead, they can see word such as development and they might wonder why it isn't written as develop+ion.

5 Grammar: Filling in the gaps with correct suffix

1. Ask students to read the sentences.
2. Tell students to fill in the gaps with correct missing suffixes -er, -or, or -ion.

Answers

1. photographers; 2. action; 3. direction;
4. creator; 5. invention; 6. selection;
7. actor

Extension activity: Whole-class guessing game

You can ask few students or volunteers to read what they have written in activity 6A to the class. After that, let the class guess what invention it is. You have to make sure that their partners who already know the answers don't answer! Do this as much as the time allows.

6 Speaking: Guessing what invention it is

- A.**
1. Ask students to think of one invention they like or are interested in.
 2. Tell students to not tell anyone about the invention they choose.
 3. Ask students to write five sentences about the invention they choose but they must include the name of that invention.
 4. Direct students to use the 5 questions to help them write their sentences.
 5. Encourage students to use present and past simple passive in their sentences.
- B.**
6. Put students in pairs.
 7. Ask students to take turns reading what they have written in activity 6A and have their partners guess what it is.

- 1 A. Match the words on the left to the correct words on right. Write the answers in your notebook.

Example: Who →

1. Where
2. Which
3. That
4. When

- a. time
- b. people
- c. places
- d. people + things
- e. things

- B. Find two words each for all the categories in activity 1A. Write the answers in your notebook.

Example: Who – people: teachers, girls

- 2 A.  Listen to Tim reading his writing homework to his classmates. What is Tim talking about?

- B.  Listen again and fill in the gaps with the words you hear. Write the answers in your notebook.

Good morning everyone. I have enjoyed listening to all the 1. _____ that we heard about in class today. For me, I'm going to talk about the invention that I think is the most amazing and useful. It has helped billions of people around the world to connect to each other. Can you guess what it is? It is the 2. _____! Do you know that the Internet was invented by not just one single person, but by a group of 3. _____ who were scientists, engineers, and programmers in 1960s? The Internet allows us to communicate easily no matter how far we are from each other. For example, I can chat or do video calls with my grandparents and 4. _____ who live in England. They can also send us photos of beautiful 5. _____ where they go on their holidays. With Internet, we can search for 6. _____ which we might not be able to easily find in books. For example, I used the Internet to search about the Internet when I did this homework.

- C. Read these two sentences. Answer the question.

- I'm going to talk about the invention that I think is the most amazing and useful.
 - They can also send us photos of beautiful places where they go on their holidays.
1. Which word in the sentences do you think the underlined words describe?

Unit 29, Lesson B

Aims: To practise talking about important inventions and giving reasons why they are important.

By the end of 29B, students should be able to:

- identify relative clause in sentences.
- make sentences that include relative clause.

Session 1

- 1 **Vocabulary:** Matching words

- A. 1. Tell students to match the words on left with the correct word on the right.
2. Remind students that they have used the words on the left to make questions in previous units if they look like they have forgotten those words.

Answers

1. – c; 2. – e; 3. – d; 4. – a

- B. 3. Have students find two words for each number in activity 1A.
4. Encourage students to find more than two words if they can.
5. Ask students to share the answers as a whole class.

- 2 **Listening:** Filling in the gaps

- A. 1. Tell students to look at the picture.
2. Ask students what they think the picture means.
3. Have students listen to the recording about Tim reading his homework to his classmates.
4. Ask students what Tim is talking about.

Answers

Tim is talking about the Internet.

[Audioscript]

Good morning everyone. I have enjoyed listening to all the inventions that we heard about in class today. For me, I'm going to talk about the invention that I think is the most amazing and useful. It has helped billions of people around the world to connect to each other. Can you guess what it is? It is the Internet! Do you know that Internet was invented by not just one single person, but by a group of people who were scientists, engineers, and programmers in 1960s? The Internet allows us to communicate easily no matter how far we are from each other. For example,

I can chat or do video calls with my grandparents and uncle who live in England. They can also send us photos of beautiful places where they go on their holidays. With Internet, we can search for information which we might not be able to easily find in books. For example, I used the Internet to search about the Internet when I did this homework.

Tip! Listening for general understanding

It's important for learners to understand what they are listening to. In other words, it is helpful for your students to get the general idea of the listening context. This will prepare them better for the more difficult and specific listening tasks that follow. Therefore, you should play the recording once at the beginning with one or two general (gist) questions and without asking them to answer any questions that focus on detailed information. This helps your students grasp the context of the listening.

- B. 5. Ask students to listen again.
6. Tell students to fill in the gaps with the words they hear in the recording.
7. Emphasise that students should also pay attention to the -s sound of the words.

Answers

1. inventions; 2. Internet; 3. people; 4. uncle; 5. places; 6. information

- C. 8. Ask students to read the two sentences.
9. Tell students to answer the questions related to the two sentences.

Answers

1. The underlined words/phrase describe "invention".
2. The underlined words/phrase describe "beautiful places"

3 Read the sentences. Answers the questions. Write the answers in your notebook.

Look

Relative Clause: a clause that describes a noun or phrase in the sentence. It often starts with words like who, which, that, where, when and other relative pronouns and adverbs.

Example: *I'm going to talk about the invention that I think is the most amazing and useful.*

a relative clause describing "invention"

The shop where I bought my bike is called Modern Bikes.

a relative clause describing "The shop"

- I can chat or make video calls with my grandparents who live in England.
- The homework which Tim's teacher gave was about inventions.
- The city where the first phone call was made was New York in America.

- Underline the relative clause in each sentence.

Example: a. *who live in England.*

- Which word(s) does each relative clause describe?

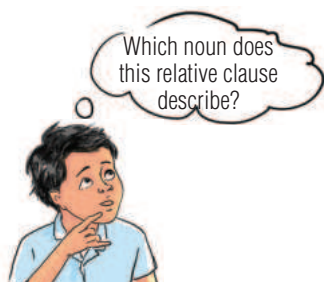

Example: a. *who live in England* – describes "my grandparents".

4 A. Choose the sentences or questions that have relative clause. Write the answers in your notebook.

- Who invented the first plane?
- This radio programme is about inventions that people think are strange.
- When we competed in our school science contest, we did a project about robots!
- Do you remember the time when we won gold medal at our science contest?
- Do you know anything about the pilot who flew the first airplane?
- She doesn't know which country developed the first computer.

Example: 2, ...

B. Look at the answers for activity 4A. Identify the relative clauses and the word/words they describe. Draw the table in your notebook.

word / words described	Relative Clauses
2. ... inventions	that people think are strange.

3 Grammar: Identifying relative clause

- Ask students to look at the grammar Look box.
- Put emphasis on identifying relative clause and the word/words it describes.
- Tell students to look at sentence a – c.
- Have students answer question 1 and 2 for sentence b – c.

Answers

- underlining relative clause:
 - which Tim's teacher gave.; c. where the first phone call was made.
- defining the words it describes:
 - it describes "homework".; c. it describes "city"

Session 2

Suggestion: Starting session 2

To start the class, you can do a quick review of the listening to link to relative clause. You can ask questions:

- Do you remember the invention which Tim talks about in his homework?
- Do you know the person or people who invented the Internet in the 1960s? Was it one person or a group of people?
- Can you list down some of things which people can do using the Internet?

4 Grammar: Identifying sentences/questions with relative clause

- Tell students to look at 1 – 6.
- Ask students how many are questions and how many are sentences.
- Have students write the number of the sentence or question that has relative clause in it and not the whole sentence.
- Remind students that not all the sentences or questions have relative clause.

Answers

Sentences/questions that have relative clause: 2, 4, 5

- Ask students to read the answers in activity 4A again.
- Tell students to complete the table by identifying the relative clause in each number and the word/words it describes.

Answers

word / words described	Relative Clauses
2. inventions	that people think are strange.
4. the time	when we won gold medal at our science contest?
5. the pilot	who flew the first plane?

- 5 A. Match the words in A to the correct information in B. Write the answers in your notebook.

A	B
• Invention • Inventor • Plane • Mobile phone • School • Winter	1. the weather is really cold. 2. students go and learn different subjects. 3. a person or a group of people create. 4. allows you to call one another. 5. invents an object. 6. flies high in the sky.

Example: *Invention* → 3.

- B. Write answers in activity 5A in complete sentences using the words in the box to make relative clauses. Write the answers in your notebook.

something that	a person who	a place where
something which	a transportation which	a season when

Example: *Invention is something that a person or a group of people create.*

- 6 A. Think of five simple words (place, person, or things) that you can describe or explain. Write the words in your notebook.

Example: *Marker ...*

- B. Work in pairs. Describe the words you write in activity 6A using a relative clause. Make sure you don't say what the words are. Let your partner guess.

Example: *Student A: [Bleep] is something that you use to write on the whiteboard.*
Student B: Is it a marker?

- 7 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- describe and identify an invention using passive.
- identify words that are built from other words using suffixes *-er*, *-or*, *-ion*.
- identify and make sentences using relative clause.

- 5 Grammar: Matching and making sentences

- A. 1. Ask students to match the words in the box A with the information in box B.
 2. Tell students to look for information that is related to the words in A.

Answers

Inventor – 5; Plane – 6; Mobile phone – 4;
 School – 2; Winter – 1

- B. 3. Have students look at the example and ask if they can see a relative clause added to "Invention – 3".
 4. Ask students to make complete sentences using the words and sentences in activity 5A with the new words in the box.

Answers

Inventor is a person who invents an object.
 Plane is a form of transportation which flies high in the sky.
 Mobile phone is something which allows you to call other people.
 School is a place where students go and learn different subjects.
 Winter is a season when the weather is really cold.

- 6 Speaking: Describing words using relative clause

- A. 1. Ask students to think of five simple words.
 2. Emphasise that those words should be words that they can describe without saying what the words are.
 3. Tell students to write those five words down.
 B. 4. Put students in pairs.
 5. Ask students to take turns describing the five words they have written in activity 6A.
 6. Tell students that they must describe the words using relative clause without saying what the words are and instead should say bleep to replace the words.

- 7 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Lucky draw

If there is enough time, you can do a lucky draw game. Ask students to write one word on a small piece of paper and fold it. They can write any word they like, but they must make sure they can describe that. Then you go around the tell students to drop their piece of paper into a small box or bag. After you collect all the papers, you ask for some volunteers to come to the front and pick any paper from the box and describe the word for the class to guess. Do this as much as the time allows.

UNIT 30

DISCOVERIES

30A

- 1 A. Work in pairs. These things were all invented by chance. Do you know what they are?

- B. Match the words with the pictures in activity 1A.

1.	corn flakes
2.	potato chips
3.	play-doh

- 2 A. Listen and order the inventions.

1 st
2 nd
3 rd

- B. Listen again. Write PC for *potato chips*, CF for *cornflakes* and PD for *play-doh*.

Example: A teacher gave it the name we all recognise today. PD

1. They first made this snack with wheat.
2. This product was supposed to be a wallpaper cleaner.
3. The inventors of this product worked at a hospital.
4. This product was first made in New York.
5. This product was made because of complaints from a customer.

Unit 30, Lesson A : Discoveries

Aims: To talk about two simultaneous actions in the past

By the end of 30A, students should be able to:

- talk about some things that were invented by chance.
- use the past continuous to talk about two simultaneous actions in the past.
- identify and differentiate between the two uses of past continuous – one for interrupted actions in the past and the other for two actions happening at the same time in the past.

Session 1

- 1 **Lead in:** Things that were discovered by chance

- A. 1. Focus students' attention on the three pictures.
2. Ask students some questions about them (e.g. Do you have this at home? What do we use this for?).
3. You can do this activity as a whole class or in pairs or small groups.
- B. 4. Ask students to match the words with the pictures.
5. Tell students to compare their answers before checking them together as a class.

Answers

1. corn flakes – b; 2. potato chips – c;
3. play-doh – a

- 2 **Listening:** Ordering the inventions

- A. 1. Tell students that they are going to listen to a recording about how the three products (play-doh, corn flakes and potato chips) were invented.
2. Tell them to listen and order the inventions. If you have a weak group, you can help them by telling them that they need to listen for the dates.
3. Ask students to compare their answers before checking them as a class.

Answers

- 1st – potato chips (1853)
2nd – corn flakes (1894)
3rd – play-doh (1955)

[Audioscript]

This salty snack was created in 1853 in New York. Chef George Crum was working at Moon Lake lodge and resort. One customer was always complaining and sending his fried potatoes back. He kept saying the potatoes were not crunchy. Tired of his complaints, Crum sliced the potatoes as thin as possible. Then he fried them in hot oil and added lots of salt. The customer loved them and so did lots of people in New York and across the world.

John Kellogg and his brother were working for a hospital when they discovered what is now a common breakfast food and snack by accident. The year was 1894. They had to prepare and select the kind of food the patients could eat. One day, while his assistants were boiling wheat, he was chatting to his brother. They accidentally left the wheat cooking too long. When they took it off, the wheat separated into flakes, and the brothers quickly realised that they could bake these into a crispy snack. After more experiments, they found out that they could use corn instead of wheat. This children's toy wasn't supposed to be a toy! It was invented as a wallpaper cleaner in 1955. Noah McVicker designed it while working with his brother at a soap factory. Unfortunately, a new kind of wallpaper was invented soon after, which could be cleaned with water. McVicker's product was no longer needed. While McVicker was worrying about his business, Kay Zufall, a nursery school teacher, was making decorations with her students using the wallpaper cleaner. She later told the McVicker's about it. They decided to remove the detergent and add colouring, turning it into a children's toy. It was Kay who suggested the name 'play-doh'.

3 Listen and complete the sentences.

1. While his assistants _____ wheat, he _____ to his brother.
2. While McVicker _____ about his business, Kay Zufall _____ decorations with her students using the wallpaper cleaner.

Look

We also use the past continuous to talk about two actions happening at the same time. We usually use 'while' at the beginning of the sentence.

While I was studying, my friend was making notes for our chemistry exam.

4 Read the sentences below. Decide if the past continuous is used for 'interrupted actions' or to describe 'two actions happening at the same time'. Write the sentences in the correct column. Write in your notebook.

past continuous for interrupted actions

past continuous to describe two actions happening at the same time.

Example: While Dara was doing his homework, his friend Pich was designing an important science experiment.

Example: *While Dara was doing his homework, his friend Pich was designing an important science experiment.*

1. We were having our science lesson when my mum called.
2. While they were discussing about Rosalind Franklin, the woman who helped discover DNA, Moly and Bopha were taking photos.
3. We were sleeping when they announced the winner of the Nobel Prize for Physics.
4. While Nary was looking at the displays at the science museum, some of her classmates were watching a short film about Albert Einstein.
5. I accidentally deleted all my computer files while I was studying for my chemistry exam.

- B.** 4. Tell students to listen again and write *PC* (potato chips), *CF* (corn flakes), or *PD* (play-doh).
5. Go through the example as a class.
 6. You might also want to give your students time to read the sentences. Encourage them to make guesses based on what they can remember from the first listening.
 7. Play the recording.
 8. Check answers as a class. To do this, you might want to ask some of your students to write their answers on the board.

Answers

1. CF; 2. PD; 3. CF; 4. PC; 5. PC

3 Listening: Completing sentences with past continuous

- A.** 1. Write the two sentences on the board.
2. Ask your students if they remember what the missing words are. Tell them the sentences are taken from the listening exercise they have just done.
3. Play the recording and ask students to complete the sentences or check their guesses.
- B.** 4. Ask students to underline the past continuous forms they can see from the two sentences.
5. Ask students if they think the actions were happening at the same time in the past.
6. Tell them that we can use the past continuous to talk about two actions happening simultaneously in the past. Tell them we usually use 'while' at the beginning of the sentence for this.
7. Go through the example sentence in the look box. Ask concept checking questions (e.g. Which are the two actions? Were they happening at the same time?)

Focus on past continuous for two simultaneous actions in the past

When you describe two simultaneous actions using *while*, you can order the sentence in two ways.

'While the chemistry teacher was doing some research, her students were revising for the exam.'

OR

'Her students were revising for the exam while the chemistry teacher was doing some research.'

Note that when you use *while* in the middle of the sentence, the comma is no longer needed.

Session 2

Suggestion: Starting session 2

To start the class, ask some of your students if they want to become scientists in the future. You can do this with a show of hands. Ask them why and what they want to work on. Is there anything they might want to invent?

4 Grammar: Past continuous for two simultaneous actions and interrupted actions in the past

1. To start this activity, you might want to quickly review using past continuous for interrupted actions in the past. You can do this by going back to Unit 22.
2. Ask students to read the sentences and put them in the write column. Ask them to write in their notebooks.
3. Monitor. As you go around, help students who might find this activity difficult.
4. Check answers as a class.

Past continuous for interrupted actions

1. We were having our science lesson when my mum called.
3. We were sleeping when they announced the winner of the Nobel Prize for Physics.
5. I accidentally deleted all my computer files while I was studying for my chemistry exam.

Past continuous to describe two actions happening at the same time

Example: While Dara was doing his homework, his friend Pich was designing an important science experiment.

2. While they were discussing about Rosalind Franklin, the woman who helped discover DNA, Moly and Bopha were taking photos.
4. While Nary was looking at the displays at the science museum, some of her classmates were watching a short film about Albert Einstein.

5 Look at the pictures. Write sentences about Lynn and her science teacher.

Example: While her science teacher was teaching, Lynn was sleeping.

6 Complete the sentences with your own ideas. Write in your notebook.

1. While my mum was working on the computer,
2. While our teacher was talking about planets,
3. I was cooking kiw-tiw when
4. My friend was doing his science homework when
5. While they were swimming in the lake,

5 Writing: Lynn and her science teacher

1. Focus students' attention on the pictures. Ask them what they can see. Ask them which subject the teacher teaches.
2. Tell them to write sentences about Lynn and her science teacher. Go through the example as a class.
3. If you have a weak class, it is a good idea to do this activity in pairs or small groups of three.
4. Monitor and check some of the mistakes that your students are making as you are walking around.
5. Check answers as a class.

6 Writing: Completing sentences with their own ideas.

1. Put students in pairs or small groups.
2. Ask them to complete the sentences with their own ideas. Ask them to write in their notebooks.
3. You might want to set a time limit for this activity.
4. For feedback, ask some of your students to read their sentences out loud. You can also ask them to write some of their sentences on the board. To make this more engaging, encourage them to decide which sentence is the most interesting or funny.

Suggested answers

1. While her science teacher was teaching, Lynn was sleeping.
2. While her teacher was marking exam papers, Lynn was watching TV and eating popcorn.
3. While her science teacher was doing experiments, she was reading a science book.
4. While her science teacher was mixing chemicals, Lynn was doing an experiment.

NOTE: These are just suggested answers. Your students might write sentences that are slightly different. Accept them as long as they are grammatically correct and fit the pictures.

Extension activity: Sentence auction game

While your students are doing activity 6, go around and write some of their sentences from their notebooks. Choose some good, grammatically accurate sentences, and some that are not.

At the end of the class, write these sentences on the board. Tell students you are 'selling' these sentences and that you want them to buy the good ones. Read the first sentence (without telling your students if it's a good one or not) and encourage them to 'buy' it. Ask some of your students how much they want to buy this sentence for (e.g. I think this sentence is good. I'd buy it for 1,000 riels). Then ask some students if they want to buy the same sentence at a higher price. Do this repeatedly and 'sell' your sentence to the highest bidder.

Then reveal which are good and bad sentences. Did your students make the right decisions?

1 Work in pairs. Discuss the questions.

Which of these famous scientists do you know?

What did they invent or discover?

Which scientist do you most admire?

2 A. Which famous people did Ada meet or work with?

THE FIRST COMPUTER PROGRAMMER

Ada Lovelace was born in 1815 in London, England. She has been called the first computer programmer. She was born into a rich family. Her father, Lord Byron, was a really well known poet at the time. Her mother was also very intelligent and loved science and maths.

Unfortunately, her father left when she was only 1 month old. Because of this, her mother insisted she study hard, especially her own two favourite subjects – science and maths. She also studied French and music. She studied at home with private tutors, as girls didn't normally go to school or university at the time.

When she was 17, she met Charles Babbage, the person who first thought of the modern digital computer. Later, she was asked to translate a paper about Charles Babbage's work that was written in French. While translating she added her own notes, which were three times more detailed than the original work. She also added her equations, performed calculations and added the world's first published computer programme, or algorithm. This is why she is often cited as the world's first computer programmer. She also became friends with a famous writer, Charles Dickens.

She predicted that modern computers could go beyond numbers. She understood that anything could be converted to numbers, such as images, music or alphabet. Hundreds of years later and we now can see modern computers functioning as Ada had imagined them to be.

The US military has named their own computing language, ADA, in honour of her. To this day, Ada Lovelace Day is celebrated every second Tuesday of October, to remember the important work great women have contributed to science, technology, engineering and maths.

Unit 30, Lesson B

Aims: To talk about things that happened at specific times in the past

By the end of 30B, students should be able to:

- talk about some scientists and the work they have done.
- use the past continuous to talk or write about things that happened at specific times in the past.

Session 1

1 Lead in: Asking and answering questions

1. Focus students' attention on the pictures. Ask them if they recognise any of them.
2. Put students in pairs or small groups.
3. Ask them to discuss the questions.
4. Monitor and listen to what your students are saying / talking about.
5. For feedback, call on some students to share their answers to the class.

1 Lead in: Which famous people did Ada meet or work with?

1. Focus students' attention on the picture and title of the text.
2. Ask students what this woman is known for.
3. Ask them to read the text quickly and write down the names of the famous people Ada met or work with.
4. Ask students to compare their answers before checking them as a class. You might also want to ask what they know.

Answers

Ada worked with Charles Babbage, the father of the computer. She was also friends with Charles Dickens, a famous English writer at the time.

5. Ask students to read the text again and answer the questions.
6. Monitor and help students with some difficult vocabulary.
7. Ask students to compare their answers before checking them as a class.

Answers

1. Her father was a poet.
2. at home
3. science and maths
4. her equations / calculations / her own algorithm
5. second Tuesday of October

Tip! Teaching mixed-ability classes

In most ESL classrooms, students do not normally have the same level of abilities, even though they are in the same class. Some are good at reading, while others are not. Some are shy and tend not to speak much, others are the opposite. One way to help you deal with classes with students of varying levels of English proficiency is by incorporating a variety of tasks in your lessons. You might also want to think about giving extra tasks or homework for your slow learners.

B. Read again. Answer the questions. Write the answers in your notebook.

Example: *When was Ada Lovelace born?* In 1815

1. What did her father do?
2. Where did she study?
3. What subjects did her mother want her to focus on?
4. What did she add to the document she was asked to translate?
5. When is Ada Lovelace Day?

3 A. What did Ada's day look like? Read the sentences and complete her diary.

1. On Wednesday at noon, she was thinking about a flying machine.
2. On Monday and Tuesday morning, she was studying maths.
3. On Thursday and Friday noon, she was reading her favourite book.
4. On Monday and Tuesday afternoon, she was studying French.
5. On Friday morning, she was doing a science experiment.

February 1827 – Week 1

	morning	noon	afternoon
Monday	maths	walk in the park	4. _____
Tuesday	2. _____	think about a flying machine	French
Wednesday	science	1. _____	read favourite book
Thursday	science	3. _____	music
Friday	5. _____	read favourite book	music

Look

- We also use the past continuous to talk about events that were happening at a particular time in the past.
- We form 'wh-questions' by putting where, what, why, before *was/were* + verb-*ing*
What were you doing at two o'clock yesterday?

B. Rewrite the sentences in activity 3A as questions.

1. What was Ada doing on Wednesday at noon?

3 Reading: Ada's diary

- A.**
1. Ask students to read Ada's diary. Ask students if they have a similar or a very different routine.
 2. Tell them that when Ada was only 12 years old, she started thinking about a flying machine.
 3. Ask students to read the sentences and complete her diary.
 4. If you have a weak class, do this activity in pairs or small groups.
 5. Check answers as a class.

Answers

	morning	noon	afternoon
Monday	maths	walk in the park	4. French
Tuesday	2. maths	think about a flying machine	French
Wednesday	science	1. think about a flying machine	read favourite book
Thursday	science	3. read favourite book	music
Friday	5. do a science experiment	read favourite book	music

6. Focus students' attention on the look box. Ask some of your students to read it out loud.
 7. Tell them that we also use the past continuous to talk about events that happened at specific times in the past.
 8. At this stage, you might want to quickly elicit the three uses of past continuous discussed in this book (i.e. interrupted actions, two simultaneous actions and actions that happened at specific times in the past).
- B.**
9. Ask students to rewrite the sentences in activity 3A as questions.
 10. Do the example together as a class. If your students need additional support, do another one as an example.
 11. Check answers as a class.

Answers

1. What was she doing on Wednesday noon?
2. What was she studying on Monday and Tuesday morning?
3. What was she reading on Thursday and Friday noon?
4. What was she studying on Monday and Tuesday afternoon?
5. What was she doing on Friday morning?

Session 2

Suggestion: Starting session 2

To start the class, put students in pairs or small groups. Ask them to think about Cambodian scientists and the work they have done. Ask each group to talk about them as a class.

Alternatively, you can also ask them to think about women scientists. Ask them to write down as many women scientists they can think of. Set a time limit. The group that has written the most number of women scientists wins. For feedback, quickly ask what these women have done.

4 Correct the mistakes in the sentences.

Example: *We was / were doing some research about how electricity was discovered when we heard a very loud scream!*

1. When the storm came, Jona is reading about Charles Babbage.
2. What was our chemistry teacher do last night at 7 o'clock?
3. My friends and I was watching a film about Stephen Hawking when the lights went out.
4. We was having dinner when my friend won a science award.
5. We were singings songs at the party when the guests arrive – they were all our favourite scientists!

5 A. Reorder the words to make questions.

Example: *9 o'clock / morning / you / were / doing / what / this / at / ?*
What were you doing at 9 o'clock this morning?

1. doing / when / you / the / were / storm / what / came / ?
2. two / 6 PM / what / days / at / were / ago / you / doing / ?
3. a / doing / week / you / were / what / ago / school / at / ?
4. time / lunch / ago / days / at / four / what / you / doing / were / ?

B. Work in pairs. Take turns to ask and answer questions. Do NOT write anything down.

What were you doing at 9 o'clock this morning?

I was helping my mum do the dishes.

C. Write about your classmates. Use the information you got from activity 5B.

Chenda was helping her mum do the dishes at 9 o'clock this morning.

6 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- talk about two different actions happening at the same time in the past.
- write about things that happened in the past at specific times.
- talk about some scientists and the work they have done.

4 Grammar: Correcting mistakes

1. Ask students to correct the mistakes in the sentences.
2. Monitor and help students who might find this activity difficult.
3. Check answers as a class.

Answers

1. When the storm came, Jona **was** reading about Charles Babbage.
2. What was our chemistry teacher **doing** last night at 7 o'clock?
3. My friends and I **were** watching a film about Stephen Hawking when the lights went out.
4. We **were** having dinner when my friend won a science award.
5. We were singings songs at the party when the guests **arrived** – they were all our favourite scientists!

5 Grammar: Reordering words to make questions

1. Ask students to reorder the words to make questions.
2. Do the example together as a class.
3. For feedback, you might ask some of your students to write the questions on the board.

Answers

1. What were you doing when the storm came?
2. What were you doing two days ago at 6 PM?
3. What were you doing a week ago at school?
4. What were you doing four days ago at lunch time?

Extension activity: My life as a scientist

Ask students to imagine they are scientists. Tell them to write a diary entry about what they did the day before. Use Ada's diary entry in activity 3B as an example.

4. Put students in pairs or small groups.
5. Ask them to ask and answer the questions in activity 5A.
6. Tell them NOT to write anything down. They have to remember what their classmates say.
7. Monitor to listen to what your students are saying.
8. Now as your students to remember the pieces of information about their classmates from activity 5B.
9. Ask them to write about their classmates using the past continuous tense.
10. Monitor and check that your students are using the correct tense for this activity.

6 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes. Tell students that by finding out what they have and haven't learnt, they will become better learners.
3. For more ideas on how to do this, please see page V.

UNIT 31

GENERAL KNOWLEDGE

31A

- 1 A. How much do you know? Work in pairs, try guessing if the sentence is true or false.

1. An octopus has eight arms.

2. A camel can live without water for 30 days in very hot summer days.

3. Hawaii is located in the Indian Ocean.

4. The longest river in the world is Mekong River.

5. The Sahara Desert is in Africa.

6. A baby bear is called a cub.

- B. Listen to your teacher. How many correct answers do you have?
Can you change the false sentences and make them true?

- 2 A. Look at Lynn's poster and answer the questions.

Penicillin

Penicillin is a type of anti-biotic medicine that destroys bacteria in our bodies. Did you know Alexander Fleming first discovered penicillin by accident in 1928? In other words, he did not really plan to create this life-changing medicine. In 1928, Dr. Fleming left his laboratory in a big mess filled with old food, dirty tubes and dishes and then went away for holiday to the seaside with his family.

When he returned to his laboratory, he noticed one of his dirty dishes had disgusting green mould on it. But what surprised him was, through his investigation, the bacteria all around the green mould in the dish were dead. Dr. Fleming discovered that the mould killed the bacteria and he called it penicillin. He was excited and ran off to share the news with other scientists but nobody was interested.

Unit 31, Lesson A : General knowledge

Aims: To practise talking about general knowledge, facts, and famous inventions.

By the end of 31A, students should be able to:

- identify objects in sentences.
- make object questions.

Session 1

- 1 **Speaking:** Guessing activity

- A. 1. Tell students to read the sentences.
2. Ask students to guess if each sentence is true or false.
3. Emphasise that students are not allowed to ask each other.
B. 4. Have students compare their answers.
5. Tell students to compare their answers with the correct answers.
6. Ask students how many correct answers they got.

Answers

1. T; 2. F; 3. F; 4. F; 5. T; 6. T

Correct answer for false sentences:

2. A camel can live without water less than 2 or 3 weeks in very hot summer days.
3. Hawaii is located in the Pacific Ocean.
4. The longest river in the world is the Nile River.

- 2 **Reading:** Answering questions

- A. 1. Tell students to read the instruction and quickly read through the text.
2. Ask students what they are going to read about.
3. Allow students to read and find the words to the questions.
4. Remind students that the words they need to find are in order in the reading text.

Answers

1. laboratory; 2. mould; 3. investigation
4. impressed; 5. infection; 6. accidental

Dr. Fleming's discovery remained unnoticed until ten years later. In 1938, a German scientist named Dr. Chain read Dr. Fleming's paper about his discovery of penicillin and became impressed. Dr. Chain, who was working at Oxford University, thought the idea was brilliant. He shared the news with his Australian friend named Dr. Florey. Together, they tested if penicillin could truly kill infection. The result of the test proved that it could! These incredible scientists continued to work on testing and producing penicillin. To make it available for as many people as possible, later on penicillin was produced in factories and tested for safety before putting it into public use. Since 1945, penicillin has been one of the most useful anti-biotics and has saved millions of lives. And for all that, thanks to that Dr. Fleming's accidental discovery as well as the work of Dr. Chain and Dr. Florey!

Which word on the poster means .. ?

Example: *kills? Destroys*

1. a room or a place that is used for research or scientific experiments? _____
2. a type of fungi which is neither a plant nor an animal? _____
3. a study to examine something? _____
4. amazed by something? _____
5. when someone is affected by dangerous bacteria? _____
6. happening by chance without planning in advance? _____

B. Read the poster again. Answer the questions. Write the answers in your notebook.

Example: *What does penicillin do to bacteria?*

The penicillin destroys the bacteria.

1. In what year did Dr. Fleming discover penicillin by accident?
2. What was Dr. Fleming's laboratory like when he left it and went away for holiday?
3. What did Dr. Fleming discover after he investigated what was going in the area around the green mould?
4. Where was Dr. Chain working when he read Dr. Fleming's paper about the discovery of penicillin?
5. Who did Dr. Chain share the exciting news with?
6. What did they do in order to make sure penicillin could be available to as many people as possible?
7. What has penicillin done since 1945?

3 Where is the object in each answer in activity 2B? You can look at the questions to help you identify the objects in answers! Write the answers in your notebook.

Example: *The penicillin destroys the bacteria.* → *object: the bacteria*

Look

Object Questions: are common questions that we ask for the object of the answer
Example: What does penicillin do to bacteria?

The penicillin destroys the bacteria. → *The bacteria* is the object of the answer.

How many legs does a spider have? A spider has eight legs. → *eight legs* is the object of the answer.

- B.**
5. Ask students to read the text again.
 6. Tell students to answer the questions.
 7. Emphasise that students need to write answers in complete sentences.
 8. Have some students come and write answers on the board.

Answers

1. Dr. Fleming discovered penicillin by accident in 1928.
2. His laboratory was in a big mess filled with old food, dirty tubes, and dishes.
3. He discovered the mould killed the bacteria.
4. Dr. Chain was working at Oxford University.
5. Dr. Chain shared the exciting news with Dr. Florey.
6. Penicillin was produced in factories and tested for safety.
7. Since 1945 penicillin has saved millions of lives.

Tip! Writing answers on the board

By writing answers on the board, students can easily avoid writing the wrong answers and can refer back to the answers when the next activity requires them to. It can also help visual learners to remember and understand better.

3 Grammar: Identifying objects

1. Have students spend some time looking at the Look box.
2. Go through with students what object means in a sentence.
3. Tell students to identify the objects in answers in activity 2B.

Answers

1. Dr. Fleming discovered penicillin by accident in 1928.
2. His laboratory was in a big mess filled with old food, dirty tubes, and dishes.
3. He discovered the mould killed the bacteria.
4. Dr. Chain was working at Oxford University.
5. Dr. Chain shared the exciting news with Dr. Florey.
6. Penicillin was produced in factories and tested for safety.
7. Since 1945 penicillin has saved millions of lives.

Session 2

Suggestion: Starting session 2

To start the class, prepare a list of true and false sentences from the previous lesson. Ask students to close their books and stand up. You can read the sentences and tell students to move to the right side if they think the sentence is true and to the left if the sentence is false. You can use the sentences below:

1. A cub is a baby cow. F → Correct answer: A cub is a baby bear.
2. Penicillin was discovered by Dr. Fleming. T
3. Dr. Fleming had a plan to discover penicillin. F → Correct answer: Dr. Fleming discovered penicillin by accident.
4. The Sahara Desert is in Africa. T
5. Dr. Florey was a British scientist. F → Correct answer: Dr. Florey was an Australian scientist.
6. Penicillin is used worldwide since 1945. T
7. A mould is a plant. F → Correct answer: A mould is neither a plant nor an animal.

4 A. Look at the answers that are true in activity 1A. Write object questions for those answers.

Example: *An octopus has eight arms.* → *How many arms does an octopus have?*

B. Work in pairs. Compare your answers.

5 Look at the questions and answers. Which questions are object questions? Write the answers in your notebook.

1. Who discovered penicillin? Dr. Fleming discovered penicillin.
2. Where did Dr. Fleming go for holiday with his family in 1928? He went to the seaside.
3. What does penicillin do? Penicillin kills bacteria.
4. Which animal runs the fastest? The cheetah runs the fastest.
5. What is a baby cow called? A baby cow is called a calf.
6. Who invented Microsoft? Bill Gates invented Microsoft.
7. Which mountain is the tallest mountain on earth? Mount Everest is the tallest mountain on earth.

Example: *Object questions: Question 2, ...*

6 A. Write one sentence for each prompt. Then underline the object in each sentence. Write the answers in your notebook.

Prompts:

1. Any interesting thing you know about any animal.
2. Your favourite discovery/invention – it can be something you've learnt in this book.
3. Any facts you know about Cambodia.

Example: 1. *Any interesting thing you know about any animal.*
→ *Trained dogs can smell bombs.*

B. Work in pairs. Show your partner your sentences. Ask your partner to make object questions based on the underlined objects.

4 Grammar: Making questions

- A.**
1. Ask students to go back to activity 1.
 2. Tell students to look at the sentences that are true only.
 3. Have students write object questions for those true answers in activity 1.

Answers

- True answers: sentence 5 and 6.
5. The Sahara Desert is in Africa. → Which continent is the Sahara Desert in? or Where is the Sahara Desert?
6. The baby bear is called a cub. → What is a baby bear called?

5 Grammar: Identifying object questions

1. Have students read the 7 questions and their answers.
2. Tell students to look at the underlined words in the answers and ask what they are.
3. Ask students to identify which questions are object questions based on their answers.

Answers

Object questions: question 2, 3, and 5.

Extension activity: Whole-class checking

You can ask few students or volunteers to come to the board and write their sentences from activity 6A. Then you can have different students come to the board and write the object questions for those answers. By doing this, you can go through the answers as a whole class and see if students are still struggling with forming object questions. You can take this opportunity to provide further explanation if needed.

6 Writing: Responding to prompts

- A.**
1. Ask students to look at the three prompts.
 2. Tell students to write one sentence for each prompt.
 3. Ask students to underline the object in all the three sentences they have written.
- B.**
4. Put students in pairs.
 5. Tell students to show their sentences to their partner.
 6. Have students taking turn making object questions based on their partners' answers.
 7. Remind students to pay attention on the underlined objects when making questions.

- 1 Look at the picture. Work in pairs. Can you guess what they are doing?

- 2 A. Lynn and two of her classmates are competing in a school competition. What are the topics or subjects of the three rounds?

- B. Try answering the questions from the recording. Can you remember the answers? Write the answers in your notebook.

Example: Which planet is the closest to the sun? Mercury

- Who developed the theory of relativity?
- What can travel faster than sound waves?
- Which country has the biggest land area?
- What's the smallest continent?
- How many countries in Asia does the Mekong river flow through?
- Who discovered penicillin?
- When did he or she discover it?
- Since when has penicillin become widely available?

- C. Listen again and check your answers.

Unit 31, Lesson B

Aims: To practise asking questions with the given information about invention and discoveries.

By the end of 31B, students should be able to:

- identify subjects in sentences.
- make subject questions.
- differentiate between object and subject questions.

Session 1

- 1 **Vocabulary:** Guessing from picture

- Tell students to look at the picture.
- Put students in pairs.
- Have students discuss and guess what people are doing in the picture.

Answers

People in the picture are in a competition. It could be a show on television.

- 2 **Listening:** Identifying subjects in competition

- A. 1. Tell students they are going to listen about Lynn's school competition.
2. Ask students to listen and tell the subjects of the three rounds in the competition.
3. Have students compare their answers first before checking them.

Answers

Round 1: Science
Round 2: Geography
Round 3: Important discovery

[Audioscript]

Host: Welcome to our annual school competition! Each year we have a friendly competition between classes of different grades about general knowledge from various subjects. Today our two amazing grade 8 classes will join us. Give it up for team A from class 8A – Lynn, Jenny, and John. [round of applause sound]

Host: And now give it up for team B. from class 8B – Diana, Rose, and Sammy. [round of applause sound]

Host: Thank you. Both teams look lovely and ready. First, I'd like to introduce the rules. We will have three rounds. The screen will show three questions about one subject at each

round. Each team is given a board to write answers on. Once you hear the bell [insert a sound of a bell #1], you can start writing the answers down. When you finish, you must hit the bell in front of you. The team that hits the bells first [a different sound bell #2] and with more correct answers gets a point. The team that wins today will move forward to another stage of the competition. Are we clear?

Both teams: Yes! [loud voice]

Host: Right, here we go. Remember you can only start writing when you hear the bell. The subject of round 1 is science. Show the questions please!

[sound of the bell #1]

[5 seconds pause]

[sound of bell #2]

Host: Team A has pressed their bell! Let's take a look at your answers. Can you read them please?

Lynn: Question 1: Which planet is the closest to the sun? Mercury. 2. Who developed the theory of relativity? Albert Einstein. And 3. What can travel faster than sound waves? We say light waves!

Host: So let's see if team A got everything correct. Show the correct answers please. [Ting sound]. Yes, congratulations team A, you've scored a point. Okay, now are we ready for the round 2? The subject is geography. Show the questions! [bell sound #1]

[5 seconds pause]

[bell sound #2]

Host: Team B already pressed the bell! Team B, tell us your answers please.

John: Question 1: Which country has the biggest land area? Russia. And 2. What's the smallest continent? Oceania. And last question: How many countries in Asia does the Mekong river flow through? The answer is 6 countries!

Host: And the answers are correct! Congratulations team B. [sound of applause]

3 A. Look at the answers in activity 2C. Write the answers to the questions in sentences and underline the subjects.

Example: *Which planet is the closest to the sun.* Mercury
→ *Mercury is the closest to the sun.*

B. Look at the questions in activity 2B and their complete answers. Which questions are subject questions?

Example: *Subject questions: Question 1, ...*

Look

- Subject Questions: are common questions that we ask for the subject of the answer.

Example: *Which planet is the closest to the sun?*

Mercury is the closest to the sun.

Mercury is the subject of the answer.

4 Write subject and object questions for each answer in the table. Draw the table in your notebook.

Subject questions	Object questions
ask for the subject of the answer	ask for the object of the answer
Example: <i>Dr. Fleming discovered penicillin.</i> ↓ subject ↓ object	
Who discovered penicillin? <i>Dr. Fleming</i>	What did Dr. Fleming discover? <i>Penicillin</i>
1. Chef George Crum invented potato chips. 2. Prasat Bayon has over 200 smiling stone faces. 3. The Mekong River flows across six countries in Asia.	
1. _____ 2. _____ 3. _____	1. _____ 2. _____ 3. _____

Host: and now on to our last round. It's going to be about one important discovery in history! Here we go. [bell sound #1] [5 seconds pause] [bell sound #2]

Host: Oh we've heard the bell! And it's from team A. Let's here from them.

Lynn: 1. Who discovered penicillin? Dr. Fleming.
2. When did he or she discover it? Our answer is 1928. And for the last question, since when has penicillin become widely available? Since 1945.

Host: Thank you team A. Let's see if team A can score the point and win. So here we go. Show the correct answers please. [3 second pause] Yes, congratulations team A from class 8A. You've scored another point and wins today's competition. [round of applause] Great job to both teams and congratulations again team A for moving forward to another stage of the competition.

Tip! Listening for specific information

Some listening tasks require students to listen for specific answers and not for a general understanding. For such activities, you can tell students to listen for specific key words that come with the instruction. In other words, they need to pay attention to words that are related to what they have to find the answers for. For example, the instruction asks them to listen for names of school subjects in the recording. You should direct students to pay attention to listen for key words related to school subjects such as subject, topic, math, geography, English, science, .etc.

- B.** 4. Ask students to look at the questions.
5. Have students answer the questions without listening to the recording again.
6. Encourage students to try and answer as many questions as possible.
- C.** 7. Have students listen to the recording again.
8. Ask students to check their answers in activity 2B while listening.

Answers

1. Albert Einstein; 2. Light waves; 3. Russia; 4. Oceania; 5. Six countries; 6. Dr. Fleming; 7. 1928; 8. 1945

3 Grammar: Writing complete sentences

- A.** 1. Ask students to look at the answers in activity 2C.
2. Have students rewrite the answers in complete sentences and not just words.
3. Tell students to underline the subjects in those complete sentences.

Answers

1. Albert Einstein developed the theory of relativity.
2. Light waves can travel faster than sound waves.
3. Russia has the biggest land area.
4. Oceania is the smallest continent.
5. Mekong river flows through six countries.
6. Dr. Fleming discovered penicillin.
7. He discovered it in 1928.
8. Penicillin has become widely available since 1945.

- B.** 4. Have students look at the Look box.
5. Go through what subject question is with students.
6. Tell students to look at questions in activity 2B and their complete answers in activity 3A.
7. Ask students to identify which questions in activity 2B are subject questions.

Answers

1. Subject questions: Question 1, 2, 3, 4, and 6.

Session 2

Suggestion: Starting session 2

To start the class, you can give students a few minutes to write one subject question. The questions can be about anything. Then you can do the hot potato activity with your students. Make a hot potato out of papers and ask students to throw the ball around. Whoever has it when you say stop has to share the question.

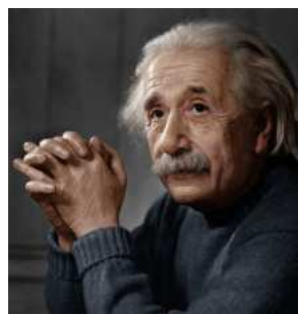

4 Writing: Making subject and object questions

1. Tell students to look at the example and questions.
2. Ask students to do the same to sentence 1 – 3.
3. Tell students to underline the subjects and objects in the three sentences.
4. Have students write both subject and object questions for all the three sentences based on the subjects and objects they have underlined.

5 A. Make subject and object questions to ask your partner for the missing information.

Student A

1. _____ is a well-known name in physics. He is one of the greatest scientists of all time. His most famous discovery is the Theory of Relativity. Einstein's discovery has changed the world of science ever since. Einstein was born in 2. _____ in Germany. Young Einstein had some speech problems. He did not talk until he was around four years old. That was why his parents and some other people thought he was not very intelligent. He didn't like school, but he loved 3. _____. Later on, he was known for his extraordinary intelligence and understanding in science. He published over 4. _____ scientific papers within his lifetime. In 1921, he received 5. _____ for his contributions and discoveries in physics.

Student B: Go to page 196.

B. Take turns asking the questions you have written in activity 5A. Write the answers in your notebook.

6 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- identify and make object questions and subject questions.
- differentiate between object and subject questions.

Answers

Subject Questions	Object Questions
1. <u>Chef George Crum</u> invented <u>potato chips</u> .	
2. <u>Prasat Bayon</u> has over <u>200 smiling stone faces</u> .	
3. <u>The Mekong River</u> flows across <u>six countries in Asia</u> .	
1. Who invented potato chips?	1. What did Chef George Crum invent?
2. Which temple has over 200 smiling stone faces?	2. How many smiling stone faces does Prasat Bayon have?
3. Which river flows across six countries in Asia?	3. How many countries in Asia does the Mekong River flow across?

5 Speaking: Exchanging information

- A.**
1. Divide students in A and B.
 2. Tell students to go their page.
 3. Ask students to make subject or object questions to ask their partner for the missing information on their page.
 4. Emphasise that they must not show each other their page.

Answers

Student A:

1. Who is a well-known name in physics?
2. When was Einstein born?
3. What did Einstein love doing?
4. How many scientific papers did he publish within his lifetime?
5. What did he receive for his contributions and discoveries in physics?

Student B:

1. What is his most famous discovery?
2. Where was Einstein born?
3. When did he start talking?
4. What didn't he like?
5. When did he receive Nobel Prize?

- B.**
5. Put students A and students B in pairs.
 6. Tell students to take turns asking their partners their questions from activity 5A.

6 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Clapping hands

You can read out 4 or 5 questions depending on the time you have left. Ask students to listen carefully. You can tell your students to clap once if they think the question is an object question and clap twice if the question is a subject question. You can have your own list of questions or use the questions below:

1. What's the smallest country on earth? – subject question
2. Who invented playdough? – subject question
3. Where was Dr. Fleming born? – object question
4. When did Karl Benz develop the first car? – object question
5. Which mammals live in water? – subject question
6. Which ocean is Hawaii in? – object question

UNIT 32

REVIEW

1 A. Listen and write the words in your notebook.

Example: *inventor*

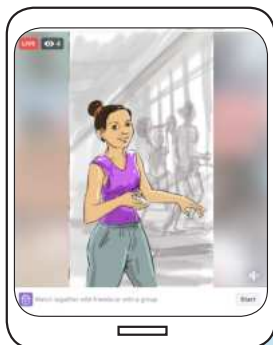

B. Match the words to the meanings.

1. _____ it's an action to find the truth about something or someone.
2. _____ it's used to repair damage and build muscles.
3. _____ it happens to the body when a person eats or drinks bad things a lot.
4. _____ it's an exercise to build muscles.
5. _____ it's used to get energy and improve the brain.
6. _____ it's a person who writes programs for computers.
7. _____ it's a place where scientists work.
8. _____ it's a person who creates something new and original.
9. _____ it's when something new enters the body and damages it.
10. _____ it's an exercise like running that helps a person become fitter.

2 Work in pairs. Make sentences using the vocabulary in activity 1 and add tag questions.

Example: *Carbohydrates are good for our body, aren't they?*

3 A. Find and correct the six mistakes.

Hi, I'm Liya, and I'm a trainer at ABC gym! I received some questions about how to know if you should go to the gym. Instead of asking me, I need you to answer my questions. You get tired easily, doesn't you? You also can't sleep very well at night, can't you? You like eating sweets and fast food, do you? You like to take a nap in the afternoon, doesn't you? You don't have any muscles, does you? Your stomach is too big, aren't it? If most of your answers are yes, you really need to go to the gym!

Unit 32 : Review

Aims: To review vocabulary and grammatical structures introduced in Units 27-31.

By the end of 32, students should be able to:

- write and match some difficult words to the definitions.
- identify and make tag questions for confirmation or certainty.
- create sentences with *do* or *make*.
- make present simple passive and past simple passive.
- add suffixes *-or*, *-er*, or *-ion* and write new words.
- use relative pronouns with appropriate tenses.
- distinguish and combine past continuous and past simple to describe past actions.

1 Vocabulary: Write and match

- A. 1. Tell students to listen and write down ten words from the recording.
2. Play the recording once or twice.
3. Check the answers as a class.

Answers

1. inventor; 2. carbohydrates; 3. proteins;
4. weight training; 5. laboratory;
6. unhealthy; 7. programmer; 8. infection;
9. cardio; 10. investigation

[Audioscript]

inventor, carbohydrates, proteins, weight training, laboratory, unhealthy, programmer, infection, cardio, investigation

- B. 4. Tell students to match the words to the definitions.
5. Get students to compare answers with their partner.
6. Select a few students to share the answers in class.

Answers

1. investigation; 2. proteins; 3. unhealthy;
4. weight training; 5. carbohydrates;
6. programmer; 7. laboratory; 8. inventor;
9. infection; 10. cardio

2 Grammar: Making tag questions

1. Have students read the words from activity 1 again and the example in this activity.
2. Ask students what they need to do. (make a sentence for each word and add a tag question)
3. Tell students there is more than one correct answer.
4. Select a few students to read their answers in class.

Suggested answers

1. The investigation takes a long time, doesn't it?
2. Milk contains some proteins, doesn't it?
3. An unhealthy life style can lead to many diseases, can't it?
4. I should do weight training, shouldn't I?
5. There are many fruits that have carbohydrates, aren't there?
6. She is a programmer, isn't she?
7. You must be careful in a laboratory, mustn't you?
8. Tim Berners-Lee isn't the inventor of the World Wide Web, is he?
9. Most infections can't kill us, can they?
10. He doesn't like cardio, does he?

3 Grammar: Correcting tag questions

- A. 1. Tell students to find six mistakes in the text and correct them.
2. Check the answers as a class.

Answers

Hi, I'm Liya, and I'm a trainer at ABC gym! I received some questions about how to know if you should go to the gym. Instead of asking me, I need you to answer my questions. You get tired easily, **don't** you? You also can't sleep very well at night, **can** you? You like eating sweets and fast food, **don't** you? You like to take a nap in the afternoon, **don't** you? You don't have any muscles, **do** you? Your stomach is too big, **isn't** it? If most of your answers are yes, you really need to go to the gym!

B. Work in pairs. Ask and answer the questions. Don't forget to raise your voice up or down.

You get tired easily, don't you?

No, I don't!

4 A. Write the words in the correct column. Write the answers in your notebook.

Do	Make
	- the bed

some juice a plan an ice cream the dishes a gardening a call the bed a promise the ironing

B. Work in pairs. Choose five phrases and tell your partner the full sentences.

I always make my bed. I didn't do...

5 A. Complete the sentences with the correct form of the words in the box.

explore create paint direct produce invent

Example: Orville and Wilbur Wright invented the first airplane.

- America _____ the moon before other countries.
- Emperor Penguins _____ one egg per year.
- Louis Le Prince _____ the first film.
- Leonardo da Vinci _____ the Mona Lisa in 1503.
- In 1999, Shigetaka Kurita _____ the first emoji.

B. 3. Put students in pairs.

- Get students to look at the six questions in the text again.
- Tell students to take turns asking and answering.
- Remind students to raise or drop their voice on the tag questions to show that they want to confirm or ask because they aren't sure. Refer to unit 28B for more information.
- Have students read the speech bubbles if they still don't understand.

4 Grammar: do or make

- A. 1.** Ask one student at a time to name any *do* or *make* phrases that they know.
- 2.** Tell students to copy the table into their notebook and place the words under the right verb.
- 3.** Draw the table on the board and select some students to complete it with their answers.
- 4.** Check the answers as a class.

Answers

Do:	Make:
- the shopping	- some juice
- the ironing	- a call
- the gardening	- the bed
- the dishes	- a plan
	- an ice cream
	- a promise

B. 5. Put students in pairs.

- Get students to individually choose five phrases from above. It should be a combination between *do* and *make*.
- Have students say the five sentences containing those phrases to their partner.
- You can set a time limit to make it more challenging.
- Walk around the class, listen, help and correct if necessary.
- You can select some students randomly to share in class if there's enough time.

5 Grammar: Passive

- A. 1.** Ask students to read the verbs in the box and discuss the meanings.
- 2.** Get students to read the example and the five sentences.
- 3.** Tell students to match the verbs to the gaps and change to present simple or past simple.
- 4.** Check the answers as a class.

Answers

- explored;
- produce;
- directed;
- painted;
- created

- B. 5.** Tell students to discuss with their partner about the forms of present and past passive.
- 6.** Have students read the example and similarly, transform the five sentences above.
- 7.** Select a few students to write the answers on the board and check as a class.

Answers

- The moon was explored by America before other countries.
- One egg is produced by Emperor penguins per year.
- The first film was directed by Louis le Prince.
- The *Mona Lisa* was painted in 1503 by Leonardo da Vinci.
- In 1999, the first emoji was created by Shigetaka Kurita.

- C. 8.** Get students to look at the verbs in the box from part A again.
- 9.** Ask students what happens when we add suffixes like -or, -er, or -ion to the verbs? (It turns into new words)
- 10.** Use the Focus box below to remind students about removing some rules in using suffixes.
- 11.** Walk around the class, read, help and correct if necessary.
- 12.** Ask a few students to write their answers on the board and check as a class.

Answers

- explore: explorer.
- produce: producer, production.
- direct: director, direction.
- paint: painter.
- create: creator, creation.

B. Turn the sentences into present or past passive.

Example: *Orville and Wilbur Wright invented the first airplane.*
The first airplane was invented by Orville and Wilbur Wright.

C. Add suffixes –or, –er, or –ion to the verbs and turn them into nouns. Write the new words in your notebook.

Example: *invent: inventor, invention.*

6 A. Go to your page. Fill in the gaps with relative pronouns and verbs.

Example: *who was a German engineer*

Student A:

They flew it at Kitty Hawk, North Carolina ____ there ____ (be) always high winds from the ocean. This helped them learn how to control the flight. After the experiment, the brothers noticed that the data didn't meet the targets, ____ they ____ (want) to see, so they started to doubt the information in the books. Then, they tried out over two hundred different wings and models to gather new data, and finally built a successful aircraft in 1902.

Student B: Go to page 196.

B. Read your paragraph to your partner. Combine the two paragraphs and put them in order. Give a title for this text.

7 A. Read the paragraph again and make two object questions and two subject questions.

Example: *Who invented the first airplane?*

Focus on the suffixes –or, –er, or –ion

Tell your students that when they want to change verbs to nouns, they need these rules:

1. If there's an –e at the end of the word, delete it before adding any suffix that starts with a vowel (–or, –er, or –ion).
Examples: communicate → communication.
write → writer.
2. If there's a –c after deleting –e like the first rule, we have to add –t before –ion.
Examples: reduce → reduction.
deduce → deduction.
3. Sometimes, if the word has –ate at the end, delete –e and add –or.
Examples: generate → generator.
illustrate → illustrator.

6 Grammar: Relative clauses

1. Put students in pairs and tell them to choose one of the two pages.
 2. Have them find and read the paragraph on their page.
 3. Ask students to name some relative pronouns (who, which, that, where, etc.) and say when to use them.
 4. Get students to fill in the gaps with the correct relative pronouns and tenses of the verbs in brackets.
 5. Tell students to read the example if they still don't understand.
- B. 6.** Have students read their paragraph to their partner.
7. Tell students to discuss the answers and decide which paragraph comes first.
 8. Ask students to give a good title to the whole paragraph. It can be a short or a long title as long as it covers the topic, which is the first airplane.
 9. Select some pairs to read their paragraphs in order and check the answers as a class.

Answers

After learning of the glider flight by Otto Lilienthal, **who was** a German engineer, the Wright brothers were inspired to design and fly the first aircraft. To start with, the brothers researched the science of building aircrafts in 1899. After reading many books, they

noted down the problems and discussed some solutions, **which/that** they **thought** would work. During this time, they built an aircraft **which/that looked** like a kite.

They flew it at Kitty Hawk, North Carolina **where** there **were** always high winds from the ocean. This helped them learn how to control the flight. After the experiment, the brothers noticed that the data didn't meet the targets, **which/that** they **wanted** to see, so they started to doubt the information in the books. Then, they tried out over two hundred different wings and models to gather new data, and finally built a successful aircraft in 1902.

Focus on explaining the use of comma in relative clauses

You can start by writing two sentences from above. Choose one with comma and another one without. Tell your students to read both sentences and ask whether they understand. After that, erase the relative clauses and ask them if they still understand and don't have any questions like *Why? How?* You can then say that we don't add a comma before relative pronoun when the relative clause is important and carries a large meaning. We need a comma when the clause only gives extra information that doesn't affect the whole sentence.

7 Grammar: Subject and object questions

1. Ask some students to explain subject and object questions in their own words.
2. Tell students to read the paragraphs again and make two subject and two object questions.
3. Get students to read the example if they still don't understand.

Suggested questions

1. Who invented the first airplane?
2. When did they research the science of aircrafts?
3. Where did they fly the aircraft?
4. What were used to gather new data?

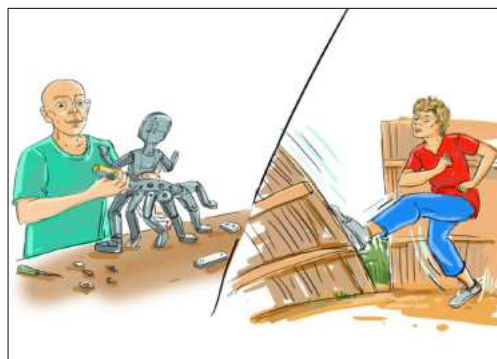

- B. 4.** Have students walk around the class and ask as many students as possible.
5. You can give them 5 to 7 minutes.
 6. Walk around the class, listen, help and correct if necessary.

B. Walk around the class and ask your questions.

- 8 A. Work in pairs. Describe the actions in the pictures using past simple and/or past continuous.**

Example: *I was feeding the chickens when the phone rang.*

B. Work in pairs. Draw two to three similar past actions about you and your friends. Show them to your partner and have them describe your drawings.

- 9 Race against time!**

1. Who has a list of chores to do on Sunday? (Unit 27)
2. Who wants to have big muscles and get stronger? (Unit 28)
3. What were John Kellogg and his brother doing when they discovered corn flakes? (Unit 30)
4. Who was Charles Babbage? (Unit 30)
5. What did Dr. Fleming discover? (Unit 31)

Suggested answers

1. The Wright brothers were the inventors.
2. They researched the science of building aircrafts in 1899.
3. They flew it at Kitty Hawk, North Carolina.
4. Over two hundred different wings and models were used to gather new data.

- 8 Grammar:** Past simple and past continuous

- A.**
1. Tell students to look at the first picture and the example and discuss what they need to do.
 2. Ask some students to describe the actions in the pictures.
 3. Ask students what tense to use when describing two actions that happened at the same time (past continuous) and one action interrupted another action (past simple and past continuous).
 4. Using the two tenses, get students to write about the actions in each picture.
 5. Select a few students to write the answers on the board and check as a class.

Answers

1. Kosal was playing football when he fell over.
2. Vicki was cooking while she was listening to the radio
3. Richard was making a new toy when Tim kicked and broke a fence.

- B. 6.** Put students in pairs.

7. Tell students to take out their notebook and draw two past actions that involved them and their friends. Remind students that in each drawing it has to have two actions.
8. Have students take turns showing their drawings and making sentences using past simple and past continuous.
9. Choose some good drawings to show the class and select some students to describe them.

- 9 Fun Activity:** Looking back at Units 27-31

1. Tell students to look for the answers to the questions.
2. Encourage them to go back and refer to the previous units.
3. You can make this more fun by asking your students to work in pairs or groups. You can also set a time limit. The first pair / group to find all the answers wins!

Answers

1. Channy.
2. Kosal.
3. They were working for a hospital.
4. He was the person who first thought of the modern digital computer.
5. He discovered penicillin.

Extension activity: Make a story

Put students in groups and tell them to bring out a piece of paper. You can tell your students to write a story about anything. It can be a horror, comedy, love or sad story as long as they use past simple, past continuous and relative clauses.

Remind students that they can also write about a movie or story they know.

You can help by writing the prompt on the board and get students to continue the story from there or make something similar.

Prompt: There **was** once a beautiful woman **who was** called Neang Neath. She **lived** together with her beloved husband named Doan. They **were living** happily when Doan **left** to trade goods in another village, **which was** quite far...

UNIT 33

CONSOLIDATION

1 A. Choose any eight prompts and write questions in your notebook.

Example: *what / sports / good at?* → *What sports are you good at?*

1. what / favourite / food?	8. what / eat / lunch / yesterday?
2. when / last time / meet friends?	9. what / subject / not good at?
3. what / do / last Saturday?	10. what / like / do / free time?
4. how / travel / school?	11. when / last time / go / market?
5. what / favourite colour?	12. what / your mum / do / every day?
6. who / speak to / last week?	13. what time / go / bed / last night?
7. when / start / learn / English?	14. what / favourite subject?

B. Work in pairs. Use your questions to interview your partner. Make a note of their answers.

C. Use your answers from the interview to write a short text about your partner in your notebook.

Example: *Panha's favourite food is fried chicken. He ate noodle soup for lunch yesterday...*

2 Work in pairs. Use the pictures to make some school rules.

Example:

You mustn't fight with the other students.

Unit 33 : Consolidation

Aims: To review vocabulary and grammatical structures introduced in Units 1-11

By the end of 33, students should be able to:

- Ask and answer general questions to get to know people.
- Talk about school rules.
- Give advice.
- Talk and ask about ability, permission and requests.
- Name different animals and make yes / no questions and short answers about them.
- Describe life cycles.
- Respond to headlines.
- Report what people say.

1 Grammar, speaking and writing: Asking and answering questions

- A.**
1. Tell students to read the example words and question.
 2. In pairs, have students rearrange the words to make questions for 1 - 14.
 3. Check the answers as a class.

Answers

1. What is your favourite food?
2. When was the last time you met (your) friends?
3. What did you do last Sunday?
4. How do you travel to school / How did you travel to school (today)?
5. What is your favourite colour?
6. Who did you speak to last week?
7. When did you start to learn English?
8. What did you eat for lunch yesterday?
9. What subject are you not good at?
10. What do you like to do in your free time?
11. When was the last time you went to the market?
12. What does your mum do every day?
13. What time did you go to bed last night?
14. What is your favourite subject?

- B.**
4. Have students find a partner. They can move and speak to someone they don't sit next to.
 5. Tell students to interview their partner by asking them some of the questions from activity 1A. They don't have to ask all the questions.
 6. After 5 minutes, tell students to swap so that everyone can ask and answer questions.

7. Tell students to make a note of the answers that they hear in their notebooks.
8. They don't have to write full sentences, just some important words to remember the answers.
9. Ask students to return to their seats.
10. Have students tell each other what their partner said. For example, *Panha's favourite food is noodle soup.*
11. Walk around the classroom, listen, help and correct if necessary. Check for tenses and third person -s on the verbs.
- C.** 12. Have students write a short text about the person that they interviewed in their notebooks. They only need to write a few sentences.
13. Walk around the room, look, help and correct if necessary. Remember to check the verbs.

Answers will vary. Accept them as long as they are grammatically correct and make sense.

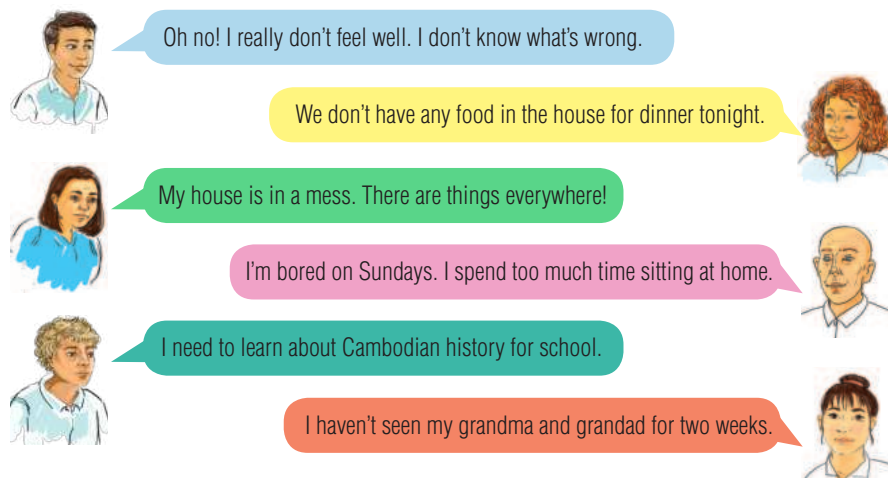

2 Speaking: School rules

1. In small groups, ask students to remember some school rules from unit 4.
2. Tell students to look at the example and ask what they can see. (Two students fighting).
3. Choose a student to read the rule from the example.
4. In pairs, have students say what rules they can see in the pictures.
5. Tell students that they can look back at unit 4 if necessary.
6. Walk around the room, listen, help and correct.
7. Check the answers as a class.

3 Work in pairs. What should they do? Give some advice.

Example: Lynn: *It's taking me too long to walk to school! You should ride a bicycle!*

Suggested answers

NOTE: Answers will vary. Accept them as long as they are grammatically correct and make sense.

1. You mustn't talk on your mobile phone in class.
2. You must wear (your) uniform (at school).
3. You mustn't wear a cap in class.
4. You must put your hand up if you want to talk.
5. You mustn't wear jewellery in class.
6. You mustn't chew gum in class.
7. You mustn't cheat.
8. You must wear a crash helmet if you ride a scooter (to school).

3 Grammar and speaking: Giving advice

1. Ask students which verb we use to give advice: *Should*.
2. Choose two students to read the example. One reads the speech bubble and the other reads the answer.
3. If necessary, do number 1 together in class. Ask a student to read the speech bubble and then another student to give some advice.
4. In pairs, have students take turns to read the speech bubbles and to give some advice.
5. Walk around the room, listen, help and correct if necessary.
6. Check the answers as a class.

Answers

NOTE: Answers will vary. Accept them as long as they are grammatically correct, make sense and are good for the situation. The answers below are examples.

1. You should go to the doctor's / the hospital.
2. You should go shopping / go to the market.
3. You should tidy your house / tidy up.
4. You should meet your friends / go swimming / do something new...
5. You should visit the museum / go to Angkor Wat / read a book...
6. You should visit them / visit your grandparents.

4 Grammar: Can for ability, permission and requests

1. Tell students that they will read eight sentences with *can* or *can't* in them. For each sentence they have to decide if it's about *ability*, *permission* or a *request*.

2. Do number 1 as an example. Have a student read the sentence and then ask the class whether it's *ability*, *permission* or a *request*. (*It's permission*)
3. Have students work in pairs and do the same for questions 2 – 8. Tell them to write *A*, *P* or *R* in their notebooks.
4. Walk around the room, listen, help and correct if necessary.
5. Check the answers as a class.

Answers

1. P; 2. A; 3. R; 4. R; 5. P; 6. A; 7. A; 8. P

5 Vocabulary and grammar: Animals, yes/ no questions and short answers

- A.**
1. Have students look at the jumbled words in the word cloud.
 2. Ask students to say the names of any animals they can see. Collect three examples and write them on the board.
 3. Put students in pairs or small groups of up to 4, and give them five minutes to write down as they can see.
 4. Check the answers as a class.

Answers

alligator, scorpion, hippopotamus, cheetah, hamster, rabbit, brown bear, panda, turtle, polar bear, cockroach, gecko, frog, mosquito, crocodile, toad, beetle, snake, butterfly

- B.**
5. In pairs or small groups, have students take turns to think of an animal.
 6. Tell the partners to ask yes / no questions to try to guess the animal.
 7. Choose two students to read the questions and the answers in the example.
 8. Remind students that they can only ask yes/no questions, and that they can only give short answers.
 9. If students are finding it difficult, tell them they can look back at unit 8 to remind them.
 10. Tell students that they can only ask a maximum of 5 questions before guessing the animal.
 11. Walk around the room, listen, help and correct if necessary.
 12. Check the answers as a class.

Answers will vary. Accept them as long as they are grammatically correct and make sense.

4 Work in pairs. Look at the sentences with *can / can't* and decide if they are ability, permission or a request.

1. You can't take photos inside the temple.
2. Tim's been practising with Kosal. He can speak Khmer quite well now.
3. Can I borrow your pencil?
4. Can you take me to the bus station on your scooter?
5. At Lynn's cousin's school, you can choose what you want to do in class!
6. Tim's Dad can cook amazing food!
7. I am not good at sports. I can't play football at all!
8. You can't enter the museum if you don't have a ticket.

5 A. Work in pairs. Rearrange the letters to make the names of animals. How many can you find in five minutes?

igaatllo roosncpi ppsiuumtaph ehachte
sraetmh abbrit ornwb ebra pndaa luertt
lorap aber ahcoocckr kgoec rgof iqtouosm
coerdiolc taod leteeb neaks btyureflt

B. Work in pairs. Take turns to think of one of the animals. Ask your partner yes / no questions to try to guess the animal. You can only answer yes / no with short answers.

- Example:**
- | | |
|-------------------------------|----------------|
| 1. Does it live in the river? | No, it doesn't |
| 2. Can it fly? | No, it can't |
| 3. Is it fluffy? | Yes, it is. |
| 4. Is it dangerous? | Yes, it is. |
| 5. Is it bigger than a cat? | Yes, it is. |
| 6. Is it a panda? | Yes, it is. |

6 A. Use the words in the cloud to draw diagrams of life cycles of the beetle, the frog and the butterfly in your notebook.

froglet eggs pupa caterpillar adult
frog adult butterfly larva frogspawn
tadpole with legs tadpole adult beetle

Tip! Twenty questions

Activity 5 is based on a game called *Twenty Questions*. This is a game where someone thinks of something, in this case an animal, but it could be something else like a job or a famous person.

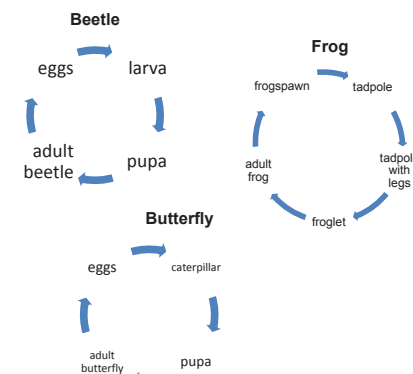

The other group members have to ask yes/ no questions to try to guess, up to a maximum of twenty questions. The questions can only be answered with yes or no. For example, if we are thinking about a job, questions can include things like: *Are you well-paid?*, *Do you wear a uniform?*, *Do you work outside...* Usually there is a maximum of twenty questions to guess the answer, but for something simple like an animal we can make it fewer, like five questions.

This is a game that can be played with many topics and can fit the topic of your lesson, or can be used as a fun game for the first or last lesson of the class.

6 Vocabulary, speaking and grammar: Life cycles and sequencers (first, then...)

- A.**
1. Tell students to look at the words in the word cloud.
 2. Have students draw three diagrams in their notebooks. One for the beetle, one for the frog and one for the butterfly. They don't have to draw pictures; just write the words.
 3. Tell students that they will need to use some of the words more than once.
 4. Walk around the room, listen, help and correct if necessary.
 5. If students can't remember, do them together on the board.
 6. Check the answers as a class.

Answers

B. 7. Put students in groups of three.

8. Choose two students to read one line each from the example. Then ask students to say the next line in the life cycle of a beetle.
9. If they are wrong, ask for different answers. Continue until the life cycle of the beetle is finished. If necessary, write the sentences on the board.
10. In pairs, tell students to choose one of the other life cycles each and to describe it to their partner.
11. Walk around the room, listen, help and correct if necessary.
12. Check the answers as a class.

Answers

Answers will vary. Accept them as long as they are grammatically correct and make sense.

Beetle	Frog	Butterfly
First, the adult beetle produces some eggs. Then, a larva is born from the eggs, but it isn't a beetle yet. After that, the larva turns into a pupa. Finally, the pupa becomes an adult beetle. The adult beetle produces eggs and the cycle starts again.	First, the adult frog produces a lot of eggs stuck together, called frogspawn. Then, tadpoles are born from the frogspawn. Next, the tadpole grows legs. After that, the tadpole with legs turns into a froglet. Finally, the froglet turns into an adult frog. The adult frog produces eggs and the cycle starts again.	First, the adult butterfly produces eggs. After that, an insect called a caterpillar is born. Next, the caterpillar turns into a pupa. Finally, the pupa becomes an adult butterfly. The adult butterfly produces eggs and the cycle starts again.

B. Work in groups of four. Take turns to speak. Use your diagrams and the words in the box to describe the life cycles.

first then next after that finally

Example: (beetle)

Student 1: *First, the adult beetle produces some eggs.*

Student 2: *Then, a larva is born from the eggs, but it isn't a beetle yet...*

7 Work in pairs. Read the newspaper headlines and tell your partner what happened. Partner: choose a verb from the box and make an -ing or -ed adjective to describe the situation, or say how you feel.

tire worry interest depress frustrate frighten embarrass
exhaust encourage please inspire fascinate

Example: *Brown bear saves man from forest fire.*

*Oh, look at this!. A brown bear has saved a man from a forest fire!
I'm amazed! That's fascinating.*

1. Tornado in Phnom Penh! Houses destroyed.
2. New kind of turtle discovered in Mekong river.
3. Earth day celebrations in Cambodia.
4. Tsunami hits Sihanoukville.
5. Air pollution gets worse in Siem Reap.
6. New TV show on CTN about how to look after the environment.
7. First ever earthquake in Kampung Cham.
8. Only 5% of rubbish gets recycled in Cambodia.

8 Work in pairs. Tell your partner what the person said.

Example: Fisherman: *"People are overfishing the rivers in my area.
The fisherman said that people were overfishing the rivers in his area.*

Polar bears live in very cold places.

The floods always come to our village in September.

the droughts always kill the food in our fields.

We don't wash the towels every day because we want to save water.

Frogs have a very interesting life cycle.

People are scared of insects but most of them don't hurt us.

We worry a lot about forest fires near our village.

I recycle all of my paper, metal and glass.

7 Speaking and grammar: Newspaper headlines, and -ing and -ed adjectives

1. Choose three students. Have them read one line each from the example.
2. Show students that the first line is a headline, the second is a full sentence and the third is a response.
3. Tell students to look at the verbs in the box and headlines 1 – 8.
4. In pairs, have students take turns to make a full sentence about the headlines, and the other respond with an -ing or -ed adjective from the verbs in the box.
5. Do number 1 for the class with two strong students.
6. Walk around the room, listen, help and correct if necessary.
7. Check the answers as a class.

Answers

NOTE: Answers will vary. Accept them as long as they are grammatically correct, make sense and are good for the situation. The answers below are examples

1. There has been a tornado in Phnom Penh! That's worrying / I'm worried.
2. They have discovered a new kind of turtle in the Mekong River. That's interesting!
3. There have been / are going to be Earth Day celebrations in Cambodia. That's encouraging / I'm pleased.
4. A tsunami has hit Sihanoukville. That's worrying / depressing / I'm worried.
5. Air pollution has got worse in Siem Reap. That's worrying / depressing / frightening / I'm worried.
6. There is a new TV show on CTN about how to look after the environment. I'm interested / pleased / That's fascinating.
7. There has been the first ever earthquake in Kampung Cham. That's frightening / worrying / I'm frightened/ worried.
8. Only 5% of rubbish gets recycled in Cambodia! That's embarrassing / depressing / frustrating / I'm embarrassed / depressed / worried.

8 Speaking and grammar: Reported speech

1. Tell students to read the example. Ask then who is speaking. (*The fisherman*).
2. Ask them what the fisherman said. Prompt them to use reported speech (*The fisherman said that...*)
3. Keep asking for responses until you get the answer with the verbs in the correct tense.
4. If necessary, repeat with number 1 together with the whole class.
5. In pairs, have students take turns to read the speech bubbles and use reported speech to say what the people said.
6. Walk around the room, listen, help and correct if necessary.
7. Check the answers as a class.

Answers

1. The teacher said that polar bears lived in very cold places.
2. My neighbour said that the floods always came to our village in September.
3. The farmer said that the droughts always killed the food in his fields.
4. The hotel owner said that they didn't wash the towels every day because he wanted to save water.
5. The teacher said that frogs had a very interesting life cycle.
6. The radio presenter said that people were very scared of insects but most of them didn't hurt us.
7. The villagers said that they worried a lot about forest fires near their village.
8. Tim's mum said that she recycled all of her paper, metal and glass.

Extension activity: Describe the Word

Tell students to write down six words from lesson 33. They should be different kinds of words; for example, they should not write down six animals.

In small groups, each student takes a turn to describe their word without saying it. For example: *It's a big, grey animal that lives in Africa.* (Hippopotamus), or: *It's a natural disaster and the ground shakes* (earthquake).

Students can say up to three things about their word to try to help the students to guess. If they can't guess, the students should say the word and then move on to the next person. Students who guess correctly score a point.

UNIT 34

CONSOLIDATION

1 Work in pairs. How many words can you make?

2 Combine the sentences using relative pronouns *who, which, that, where, or when*. Write in your notebook.

Example: *I went to a birthday party. It was crowded.*

1. The queen will open a new hospital. It will be on Monivong Boulevard.
2. Al Gore gave a powerful speech. He won the Nobel Prize.
3. Last week, Liz interviewed Taylor Swift. She is my favourite singer.
4. I just finished reading the book about ghosts. My friend gave me the book.
5. Jana wasn't interested in the inventions. They were talking about them.
6. The Independence Monument is an important local monument. It was built in 1958.

3 Read and make sentences using modals of possibility and probability.

CONGRATULATIONS!

You won an adventure for finding this 100-year old bottle! You are going to live on an island with two friends for a week. You need to decide what to bring in order of importance. Make sure you bring everything you need or you will not be able to get out of the island!

Unit 34 : Consolidation

Aims: To review vocabulary and grammatical structures introduced in Units 13-31.

By the end of 34, students should be able to:

- practise vocabulary from units 13 – 31.
- practise using relative pronouns, passive, indirect speech, present perfect, past simple and past continuous in various contexts.
- use modals of probability and possibility to talk about their upcoming adventures.
- use question tags to check for understanding and to ask real questions.
- identify words that are pronounced differently.

1 Lead in: Words within words

1. Ask students to look at the words. You can also write these on board.
2. Put students in pairs or groups. Tell them to make words using the letters of the given word. Write down the examples on the board if necessary.
3. You might also want to do a few more words as an example (e.g. civilisation – tin, salt, civil, ants, sail).
4. For feedback, ask some of your students to write some of their words on the board. The pair or team that has written the most number of words wins.
5. When students write their answers on the board, you can take this time to check some words they spelt wrong.

2 Grammar: Relative pronouns

1. Ask students to combine the sentences using a relative pronoun. Tell them to write in their notebooks.
2. Do the example as a class. Write the example sentences on the board.
3. If you have a weak class, do numbers 1 and 2 together as a class and write the sentences on the board. Alternatively, you could also ask your students to work in pairs or small groups.
4. Check answers as a class.

Answers

1. The queen will open a new hospital **which** will be on Monivong Boulevard.
2. Al Gore gave a powerful speech **when** he won the Nobel Prize.
3. Last week, Liz interviewed Taylor Swift **who** is my favourite singer.
4. I just finished reading the book about ghosts **which / that** my friend gave me.
5. Jana wasn't interested in the inventions **which / that** we were talking about.
6. The Independence Monument is an important local monument **which / that** was built in 1958.

1. Matches

We must bring matches. They are useful for making a fire.

4 Match the questions with the question tags.

Example: Alexander Fleming discovered penicillin, h ?

- | | |
|---|----------------|
| 1. We shouldn't eat too much meat, | a. has she? |
| 2. You can't do the laundry, | b. wasn't he? |
| 3. Tanya's friends believe in the Yeti, | c. should we? |
| 4. Gina hasn't been to Angkor Wat, | d. can you? |
| 5. He isn't going to help you with your homework, | e. doesn't it? |
| 6. King Sihanouk was born in Phnom Penh, | f. is he? |
| 7. The Amazon rainforest crosses 9 countries, | g. don't they? |
| | h. didn't he? |

3 Writing: Modals of probability and possibility

1. Read the text together as a class.
2. Check students' understanding by asking concept checking questions (e.g. How old is the bottle? Where are you going to live? Are you staying on the island by yourself?)
3. Look at the different pictures and elicit what they are. Ask different students to tell you what the pictures are.
4. Put students in small groups. Ask them to decide which is the most important thing to bring to the island.
5. Ask them to make sentences using modals of probability and possibility. Focus students' attention on the example sentence for more support.
6. Monitor. While you're walking around, give students some feedback on their sentences. Correct some of the mistakes they're making.
7. You might also want to encourage your students to draw pictures of themselves on the island.

4 Grammar: Matching question tags

1. Ask students to match the questions with the question tags.
2. Do the example as a class and write it on the board.
3. Check answers as a class.

Answers

1. c; 2. d; 3. g; 4. a; 5. f; 6. b; 7. e

Tip! Stirrers and settlers

It is always a good idea to have different activities in class. Always try to have a mix of activities such that students aren't always sitting and working alone on their own for a long period of time. For example, after an individual writing activity, you might want to get them to talk about their writing, or to stand up and read their sentences to their classmates.

Try to follow this pattern whenever you can: quiet activity – activity that requires interaction / movement – quiet activity.

5 Read and complete the dialogue with the correct form of the verbs.

Lina: Did you like our history lesson today about kings and queens?
 Tony: No, it was really boring. Did you like it?
 Lina: Yes, I thought it was pretty interesting. Let me see if I can change your mind. Did you know that Prince William 1. ____ (work) as a search and rescue pilot for the military?
 Tony: Oh, I missed that. I 2. ____ (think) about my lunch when it was mentioned.
 Lina: Oh, and he and Kate – his wife, met while they 3. ____ (study) at St. Andrews University in Scotland.
 Tony: I didn't get that either. Maybe I was sleeping when the teacher 4. ____ (talk) about it. Wait a minute. Scotland? Isn't that where the Loch Ness monster lives? I wonder if they 5. ____ (see) the monster. I'd love to see it myself!
 Lina: OK. Obviously, you don't like the British monarchy. What about Cambodian monarchy?
 Tony: Surprise me.
 Lina: Well, King Sihanouk directed films, 6. ____ (write) songs and played the saxophone.
 Tony: Yeah. I know all that. If you ask me, my favourite monarch is Queen Christina of Sweden. She died a long time ago but I have just 7. ____ (read) about her. She was famous because she 8. ____ (not like) wearing the clothes that queens were supposed to wear at the time. She also didn't like 'acting' like a queen. In fact, I'm doing a presentation about her on Thursday.
 Lina: Wonderful. I'll make sure I'm not thinking about my lunch or sleeping when you do your presentation!

5 Reading: Completing sentences

1. Ask students to read the dialogue.
2. Elicit the different forms needed for this activity (e.g. present perfect, past simple, past continuous). If possible, write examples on the board. Underline the forms.
3. Tell them to complete the dialogue with the correct forms of the verbs given. Tell them to use present perfect, past simple or past continuous.
4. Monitor and help students who might find this activity difficult.
5. Check answers as a class.
6. If there's enough time left, you could also ask your students to role play the conversation.

Answers

- | | |
|-------------------|-----------------|
| 1. worked; | 2. was thinking |
| 3. were studying; | 4. was talking |
| 5. have seen; | 6. wrote |
| 7. read; | 8. didn't like |

6 Grammar: Correcting mistakes

1. Ask students to correct the mistakes in each sentence. Tell them to write their answers in their notebooks.
2. Tell them there is one correct sentence. Ask them to identify which one.
3. Monitor and help students who might find this activity difficult.
4. Check answers as a class.

Answers

1. Kanika has never failed her English exams.
2. Yes, I'll look for it right away.
3. Tom has already done his cardio exercises. (correct sentence)
4. The first car was developed by a German inventor in 1885.
5. Roy's decision to eat healthy food only was supported by his family.
6. Jin hasn't visited her grandparents in the province yet. / Jin has visited her grandparents in the province.
7. Vicki: Tim, have you emailed your friend in the UK?
 Tim: Oh, I haven't yet. I'll do that in a few minutes.

6 Correct the mistakes in the sentences below. There is one correct sentence. Which one?

Example: *I've been studying English since 6 years.*

*I've been studying English **for** 6 years.*

1. Kanika has ever failed her English exams.
2. Yes, I'll looked for it right away.
3. Tom has already done his cardio exercises.
4. The first car was developed by a German invent in 1885.
5. Roy's decide to eat healthy food only was supported by his family.
6. Jin has visited her grandparents in the province yet.
7. Vicki: Tim, have you emailed your friend in the UK?
Tim: Oh, I haven't yet. I'll doing that in a few minutes.

7 Odd one out. Which word is pronounced differently? Write in your notebook.

Example: shoes promise ocean glaciers

- | | | | |
|-------------|-----------|------------|----------|
| 1. church | choose | cheese | monarch |
| 2. empire | era | tent | legend |
| 3. headache | chocolate | chance | children |
| 4. memory | butterfly | discovery | money |
| 5. packed | searched | remembered | spent |

8 Choose one word from each set of words in activity 7. Write indirect questions using the phrases below.

- Do you know...?
Would you mind telling me....?
Can you tell me...?
Do you have any idea...?

Example: *Do you have any idea how big glaciers can be?*

7 Pronunciation: Odd one out

1. Practise saying the words with your students. Do this as a class.
2. Put students in pairs and ask them to practise saying the words with their partners.
3. Tell them that one word is pronounced differently from each set of words. Ask them to circle the words that are pronounced differently.
4. Go through the example as a class.
5. Check the answers as a class.

Answers

1. monarch
2. era
3. headache
4. butterfly
5. remembered

8 Writing: Indirect questions

1. Ask students to choose one word from each set of words in activity 7.
2. Tell them to draw pictures and write questions about them. They should write indirect questions.
3. Monitor and check that students are using basic writing conventions (e.g. starting their questions with capital letters, using a question mark at the end).
4. If time allows, have students ask and answer their questions with their partners.

Extension activity: Sentence writing

Write down all the five odd words on the board. Ask students to write sentences using these words. Monitor and keep a mental note of some of the good sentences students make – you can ask them to write these on the board. Alternatively, you can write 1 or 2 'bad' sentences. Write these on the board and correct them as a class.

UNIT 35

CONSOLIDATION

- 1 Look at the words in this word cloud. Choose as many words as you want to make at least five sentences that are true about you, your family, friends, and country. Write the answers in your notebook.

leisure activities likes dislikes holiday
hobbies Cambodian culture customs buildings
school rules places in town

Example: *I love swimming and I went to the beach with my friends last weekend.*

- 2 Write three object questions and three subject questions from your answers in activity 1.

Example: *I love swimming and I went to the beach with my friends last weekend.*

Object Questions: *What do you love?*

Subject Questions: *Who went to the beach with friends last weekend?*

- 3 A. Read the text about Paul's visit to Cambodia on Pchum Ben. Complete the gaps with the correct form of the verbs.

My name is Paul. I am (be) from England and I have some friends in Cambodia through school projects. Last September, my school 1. _____ (arrange) some exchange programs and I 2. _____ (get) the chance to visit Cambodia! I usually 3. _____ (feel) nervous and worried every time I travel without my parents, but I only 4. _____ (feel) excited for my trip to Cambodia. Before I went to Cambodia, my Cambodian friends actually 5. _____ (send) me emails about what to expect during my time there and that 6. _____ (be) helpful. For every exchange program, students 7. _____ (stay) with a host family of the country they 8. _____ (visit). Therefore, this time I 9. _____ (stay) with a Cambodian host family during my trip. Their son is one of my friends from the school project. His name is Piseth. Piseth 10. _____ (be) with me everywhere I 11. _____ (go) and he 12. _____ (give) me useful advice about Cambodian

Unit 35 : Consolidation

Aims: To review challenging vocabulary and grammatical structures introduced in units 1 - 31.

By the end of 35, students should be able to:

- talk about themselves, their friends and family.
- describe different customs and rules.
- talk about events happening in the past.
- provide immediate responses using will.
- make comparisons.
- rewrite sentences into passives.
- report information using reported speech.
- make questions about general topics.

- 1 **Writing:** Vocabulary

1. Ask students to look at the words in the box.
2. Tell students to write at least five sentences that are true for themselves, their families, friends, and country using the words in the box.
3. Encourage students to use as many words as possible.

- 2 **Writing:** Making object/subject questions

1. Ask students to look at their answers in activity 1.
2. Have students write at least three object questions and three subject questions from their answers in activity 1.
3. Emphasise that students can make object and subject questions from one same answer.
4. Tell students they do not have to write questions for all the sentences they have written in activity 1.

- 3 **Reading:** Filling in the gaps

- A.** 1. Ask students what they are going to read about.
2. Tell students to fill in the gaps with the correct form of the given verbs either in present simple or past simple.

Answers

1. arranged; 2. got; 3. feel; 4. felt; 5. sent; 6. was; 7. stay; 8. visit; 9. stayed; 10. was; 11. went; 12. gave; 13. is; 14. took; 15. showed; 16. shared; 17. had; 18. learnt

customs. I was in Cambodia during Pchum Ben. In Cambodia, Pchum Ben 13. _____ (be) a national celebration when families go to pagodas, so my host family 14. _____ (take) me to pagoda with them twice. Before we went to the pagodas, Piseth told me to wear appropriate clothes and not to wear a hat. Piseth and his parents were very kind and 15. _____ (show) me different places in town. They 16. _____ (share) with me several things about Cambodian customs and culture. I really 17. _____ (have) a great time and 18. _____ (learn) many things about Cambodia. I hope I can visit again someday.

B. Write five pieces of information to the exchange students about Cambodian customs.

Example: *You shouldn't greet elders with a handshake.
If you visit a pagoda, you should wear proper clothes.*

4 Write what you will do for each person's problem using *will*. Write the answers in your notebook.

I don't understand this lesson at all.

Example: *I'll explain it to you.*

We've run out of milk at home.

1. _____

I need to buy a book, but it's so expensive.

2. _____

Urghhhh my bike is broken again.

3. _____

Looks like I need to cook a lot of food this weekend.

4. _____

Setting up this tent is very confusing and difficult.

5. _____

- B. 3.** Tell students Paul's school will have another exchange program soon.
4. Ask students to imagine they have to write emails to students at Paul's school.
5. Have students write five pieces of information about Cambodian customs to those exchange students.
6. Tell students there are no right or wrong answers.

Suggested answers

1. You should greet people by putting your hands pressed together.
2. You should bring comfortable and light clothes because it is very hot in Cambodia.
3. If you visit our Royal Palace, you should wear appropriate clothes.

Note: These are suggested answers only and students may have different answers based on their opinions.

4 Writing: Giving responses

1. Have students look at the pictures.
2. Tell students each person in the pictures has a problem.
3. Ask students to write one response to each problem.
4. Emphasise that students must use *will* in their responses.

Suggested answers

1. I'll buy you some.
2. I'll lend you some money.
3. I'll fix it for you.
4. I'll help you.
5. I'll show you.

Note: These are suggested answers only and students may have different answers based on their opinions.

5 Read about these places. Compare them and write five comparative sentences and two superlative sentences.

Greenland: When you see the name, you might think Greenland must be all green with hot summer weather. If you think so, you aren't alone. This may be surprising, but Greenland is in fact not very green! A large area is covered in snow. Based on a 2017 report, there are less than 60,000 people living in Greenland. The area of Greenland is about 2.166 million km². Greenland is almost always cold because the temperature is about -10 C° all year round except in July and August. In these summer months the temperature goes above 0 C° but not above 10 C°.

Iceland: Iceland is a country in Europe. The area of Iceland is about 103,00 km². Based on a 2018 report, there are about 357,050 people living in Iceland. By seeing its name, you might think it is always covered in ice. But that is not entirely true. In summer months, the weather can be between 13 – 15 C° and sometimes can even go up to between 20 – 25 C°. So, Iceland isn't all ice and white!

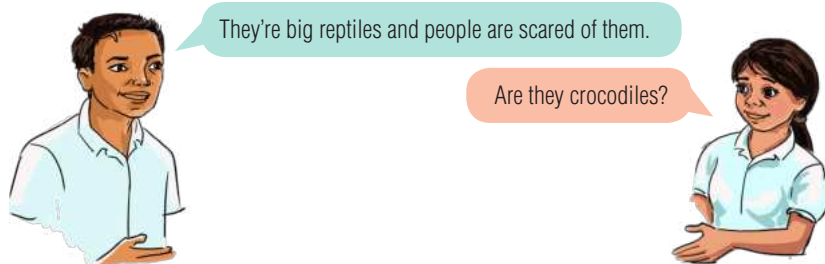

Singapore: Singapore is known to be one of the most modern countries in Asia. Singapore is modern, yet small. The area of this country is only about 719 km² which makes it smaller than some cities in Asia. Based on a 2017 report, the population of Singapore is around 5.61 million. Tourists can visit Singapore any time of the year because the weather is hot all year round. It often rains between November and February. The average temperature is about 31 to 33 C°.

Example: *Greenland is larger than Iceland. Singapore is the smallest country among the three.*

6 A. Think of two words for each category. Write the answers in your notebook.

Reptiles: *crocodiles*,
Environmental Problems:
Inventions:

B. Work in pairs. Take turns describing the words you have written in activity 6A and let your partner guess.

5 Reading: Making comparison

1. Ask students to read the short texts about three different places.
2. Tell students to write five comparative sentences and two superlative sentences by comparing those three places.

Suggested answers

1. Iceland is smaller than Greenland.
2. Iceland is colder than Singapore.
3. Singapore is hotter than Iceland and Greenland.
4. Greenland is colder than Iceland in summer.
5. Greenland is the coldest.
6. Greenland is the largest.
7. Singapore has the largest population.

Note: There are more correct answers than just the answers given above. It should be fine as long as students have correct comparative and superlative sentences.

6 Speaking: Describing and guessing words

- A.** 1. Ask students to look at the three categories.
2. Have students write two words for each category.
- B.** 3. Put students in pairs.
4. Ask students to take turns describing the words they have written in activity 6A without saying the word for their partner to guess.
5. Emphasise that the one who does the guessing can also ask questions about their partner's description.

7 Rewrite the sentences using present simple and past simple passive. Write the answers in your notebook.

Example: *King Suryavarman II started the construction of Angkor Wat in the early 12th century.*

→ *The construction of Angkor Wat was started by King Suryavarman II in the early 12th century.*

1. The people of Wales gifted a home to Queen Elizabeth II when she was only 6 years old.
2. Over 4 million tourists visit the Colosseum in Italy every year.
3. They named the Eiffel Tower in Paris after Gustave Eiffel.
4. Chef George Crum created potato chips in 1853 after his customers kept complaining his potatoes were not crunchy.
5. People celebrate Ada Lovelace Day (ADA) for her impressive contribution to science.
6. Dr. Fleming discovered penicillin by accident in 1928 after he came back from his holiday.
7. Martin Cooper made the first ever mobile phone call in 1973 in New York City to his rival.
8. A German-American game developer invented the first video game console in 1960s.

8 Imagine you are a reporter. These are the notes you made while interviewing a teacher and three students at local school. Report those notes using reported speech.

- School's name/class: Pka Chhuk High School / 11A
- Mrs. Dany: teaches English to 5 different 11 grade classes. Is struggling to find extra resources for her English classes.
- Daro: likes English classes to be fun and interactive. Is helping his friends with their English speaking practise.
- Yada: is usually shy when speaking English. Loves learning English through reading and pictures.
- Tola: enjoys working in pairs and groups in his English class. Doesn't like reading activities much.

Example: *Mrs. Dany said she taught English to 5 grade 11 classes and she was struggling to find extra resources ...*

9 How well can you do these things? Write in your notebook.

unhappy 😞 neutral 😐 happy 😊 very happy 😄

NOW I CAN...

- talk about myself, my family, friends, and common customs.
- describe different aspects of the natural world and environmental problems.
- talk about experiences and events in the past.
- describe events in the past and important pieces of history.
- talk about interesting inventions and discoveries in the world.

7 Writing: Rewriting sentences

1. Have students read the sentences.
2. Ask students if the sentences are in active or passive.
3. Tell students to rewrite the sentences into passive sentences.

Answers

1. Queen Elizabeth II was gifted a home by the people of Wales when she was only 6 years old.
2. The Colosseum in Italy is visited by over 4 million tourists every year.
3. The Eiffel Tower in Paris was named after Gustave Eiffel.
4. Potato chips were created by Chef George Crum in 1853, after his customers kept complaining his potatoes were not crunchy.
5. Ada Lovelace Day (ADA) was celebrated for her impressive contribution to science.
6. Penicillin was discovered by Dr. Fleming by accident in 1928 after he came back from his holiday.
7. The first ever mobile phone call was made by Martin Cooper in 1973 in New York City to his rival.
8. The first video game console was developed by a German-American game developer in 1960s.

8 Reading: Reporting sentences

1. Tell students to imagine they are a reporter.
2. Ask students to look at the notes.
3. Have students write reporting sentences using the information on the notes.
4. Tell students to use reported speech in their sentences.

Answers

1. Daro said (that) he liked English classes to be fun and interactive. He told me (that) he was helping his friends with their English speaking practise.
2. Yada said (that) she was shy when speaking English and she loved learning English through reading and pictures.
3. Tola told me (that) he enjoyed working in pairs and groups in his English class. He said (that) he didn't like reading activities much.

9 Reflection: 'Now I can...'

1. Ask students to look at the sentences and decide how well they can do these things.
2. Encourage honest reflection by being positive about mistakes.
3. Tell students that by finding out what they have and haven't learn, they will become better learners.
4. For more ideas on how to do this, please see page V.

Extension activity: Whole class guessing game

If there is time, continue activity 6 as a whole-class guessing game. You can ask students to volunteer and describe the words they have written for their classmates to guess. However, you need to make a rule that their partner from activity 6B cannot answer because they already know the answers.

မာမလဲဉ်

နီဉ်ပိဉ်ပိဉ်ပိဉ်
